WHAT WAS DONE IN STOCKS.

Tuesday, August 1—p. m.

In the early dealings at the Stock Exchange to-day there was apparently a decided improvement. To be sure, the buying, especially of the Granger stocks, was admitted to be principally for the short account, but the reported engagements in London for shipments of gold to this country were so numerous that imports of from thirty to fifty millions were predicted with the greatest confidence. It was calculated arithmetically that, if the engagements in two days amounted to $5,000,000, the imports in ten days would reach $25,000,000, and that within three weeks they must come close to $50,000,000. The argument was indisputable, and it was supported early by the weakness of foreign exchange, in spite of lower rates for money, and still later by the collapse of the Chicago speculation in pork and lard. A fall of $8 or more in mess pork suggested an increased demand for export, and, of course, every barrel sent abroad made necessary the return of its value in gold. The business failures at Chicago are not, however, a National blessing, and it is impossible to forecast the extent of their influence. If they should result in larger exports of hog products they ought to be welcomed, although it is possible that this advantage might be counteracted by the complications which the failures possibly involve.

The early advances in stocks were not maintained to the end, although final changes were almost universally advances. The course of Western Union, which remained prominent, is a sufficient illustration of the general movement. This stock advanced further 3 per cent, but at the close retained only 1 per cent. Similar advances were made in the other active stocks with relatively the same result. With the elimination of the short interest the market lacked support, and it became at once dull and drooping. The closing was practically at the lowest points for the day. After the close of business it was commonly reported that the associated banks had agreed to take out $10,000,000 new circulation. The savings banks were to furnish the Government bonds necessary to complete the operation. No concerted action, it may be said, has been taken, but with the decline in Government bonds bank note circulation has naturally increased. Within the past two weeks several city banks have raised their circulation to the legal limit. The savings banks apparently want a market for the most available securities which they hold.

THE DAY IN THE BOND MARKET.

The Government bond market continued to be comparatively active. The sales included $20,000 registered 4s at 108, $500 at 108 1-2 and $10,000 coupon 4s at 108. The sales were at the bid prices, and the market was weak at these quotations:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891, continued at 2			U.S.cur.6s, 1895	102	....
reg. quar. 4s	95	....	U.S.cur.6s, 1896	104	....
U.S.4s,1907 reg	108	109	U.S.cur.6s, 1897	106	....
U.S.4s,1907 cou	108	109	U.S.cur.6s, 1898	108	....
Dis.Col.3-65,1894	111½	112	U.S.cur.6s, 1899	110	....

State issues were utterly neglected, and there were no sales of city bank stocks.

The general bond market was quiet but strong, and substantial advances were recorded. On purchases of $14,000 par value Erie second consols rose 2 per cent to 61 1-2. Atchison 4s gained 1-2 per cent at 68 1-4, after early sales at 68 3-4, and "A" seconds, after touching 32, closed with the same gain at 31 1-2. Chicago and Northern Pacific firsts opened at 50 1-2, and at 50 were still 1-2 per cent higher than they were yesterday, while Northern Pacific consol 5s gold at 42, but closed unchanged at 41. On extremely small transactions General Electric debenture 5s rose 3 per cent to 64. On the other hand, Chicago, Burlington and Quincy convertible 5s were 1 per cent lower at 92 1-2, and New-Jersey Central general 5s were 5 per cent lower at 102. Reference is made to our full report of bond sales.

Money on call was again easier. Renewals were made reluctantly at from 12 to 15, and some early loans at 10 per cent, but the bulk of the new business was below 6 per cent. At one time in the afternoon money was offered at 3, but 6 per cent was the closing rate.

The Clearing House statement was as follows: Exchanges, $111,962,636; balances, $4,166,725.

The Sub Treasury was creditor to the Clearing House $103,062. Its net gain on balance was $126,362, made up by gains of $11,613 in coin and $134,749 in currency. The day's operations covered: Receipts, $2,868,788; payments, $2,662,426; resulting in a general balance of $75,269,215, consisting of $63,589,690 coin and $11,679,525 currency.

The United States Treasury at Washington received to-day $170,223 National bank notes for redemption.

The customs receipts were $170,021, the internal revenue receipts $286,407, and the miscellaneous receipts $139,681.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	July 31.	Aug. 1.	Differences.
Net gold on hand	$98,744,189	$99,462,757	Inc. $718,568
Net legal tenders on hand	18,914,931	18,269,864	Dec. 645,067
Net silver on hand	4,980,828	4,430,911	Dec. 555,917
Actual cash in the Treasury vaults over outstanding certificates	$122,635,948	$122,163,532	Dec. $482,416
Deposits in bank	11,638,989	11,868,133	Inc. 229,144
Net cash bal.	$134,284,937	$134,031,665	Dec. $253,272

The foreign exchanges were weak and irregular. Rates for long sterling drafts were lower and higher for demand bills. The supply of commercial bills was good, but it was quickly absorbed. The buying, of course, was by the importers of gold. Following are revised quotations for actual business: Bankers' bills, $4.79 3-4 a$4.80 1-4 and $4.82 1-4a$4.82 3-4 for long and short sterling respectively; French francs, 5.25 and 5.22 1-2; reichmarks, 93 7-8 and 94 1-2.

In London British consols declined 1-16 per cent to 98 1-2 for money, but were unchanged at 98 9-16 for the account. The Bank of England gained £11,000 bullion on balance, although withdrawals for export to the United States amounted to £930,000. In the open market money was dearer at 2 1-4a2 1-2 per cent for discounts, but daily balances continued to be loaned at 1-2 per cent. Bar silver advanced 3-16 to 32 11-16d an ounce. American railway shares were in improved demand and they closed strong at the highest points with material advances. At Paris French 3 per cents were slightly lower at 98.15, sight exchange on London rising to 25.25 francs to the £ sterling.
