WHAT WAS DONE IN STOCKS.

Friday, August 11—p. m.

The stock market was excessively dull during the greater part of the day. The total business amounted to only 158,000 shares, and three stocks furnished nearly one-half of this. The leading stock—most conspicuous in every respect—was Sugar Refining, which moved in its usual erratic manner. After many fluctuations within a range of about 4 per cent, it closed with only a fractional loss. It was an exception in being active from the opening. Chicago Gas, which was second in point of activity, advanced steadily, and although its last price was 1-2 per cent below its highest point, it recorded a gain of 2 per cent. The third stock was St. Paul, which moved within narrow limits, but ended with a small advance. In all other stocks the trading was light. In the last hour there was a sudden spurt of activity, and the closing was superficially strong. Final changes were generally advances, but the exceptions were neither rare nor insignificant.

The strength of the market was due undoubtedly to the liberal offerings of time money at 6 per cent. Loans at this rate were estimated at from $2,000,000 to $4,000,000 and the money, it was admitted, came from one of the prominent trust companies. It it was money that had been locked up, the release was of the greatest importance, although it is not impossible that the movement was largely speculative, and that, if a purpose can be achieved, a similar amount may be withdrawn from the market through the calling of demand loans. The ease of money was accompanied with a smart fall in the rate of European exchange, which was caused in turn by the virtual disappearance of the premium on gold. It is a rare occurrence when sterling exchange falls 3 cents to the £ in one day. The decline, however, merely followed the return of normal conditions, and without a premium on gold, rates on London are almost as high as they were before. The inward movement of the precious metal was not checked, however, and engagements of about $1,000,000 in London and half as much in Paris were reported. With imports of about twenty-five millions gold from Europe and an increase of nearly as much in National bank note circulation in addition to the constant issue of Treasury notes under the law of 1890 there is no doubt that in a short time money will be redundant. There remains the issue of loan certificates which must be retired before money on time can fall permanently below 6 per cent. The arrivals of gold may enable a partial contraction of the issue, but at present the amount is steadily increasing.

THE DAY IN THE BOND MARKET.

Government bonds were unusually active at a further advance. The bulk of the business was in registered 4s, which early sold at 111 and 110 1-2, and were 1-2 per cent above the selling price yesterday. The market was not specially strong, however, and final quotations were not appreciably changed as follows:

Bid.	Asked.		Bid.	Asked.
U. S. 4s, 1891, continued at 2 per cent	95	U.S.cur.6s, 1895	103	....
U.S.4s, 1907	110	U.S.cur.6s, 1896	105	....
U.S.4s,1907 col	110	U.S.cur.6s, 1897	107	....
Dis.Col.3-65,1894	111½	U.S.cur.6s, 1898	109	....
	112	U.S.cur.6s, 1899	111	....

State issues were wholly neglected. Of city bank stocks Tradesmen's sold (25) at 100.

The general bond market remained exceedingly dull, reported transactions being less than $720,000 at par value. The market was featureless. On small sales, Canada Southern firsts declined 1 per cent to 99, but a peremptory order to buy no larger an amount would cause probably a prompt rally. It is understood, of course, that this is thoroughly an investment issue. Its decline is significant because it proves the necessity under which some holder was laboring. In the speculative issues the movement of prices was irregular. Atchison 4s rallied 1-2 per cent to 71, after early sales at 70, and "A" seconds, which were very dull, 3-4 per cent to 36. Chicago Gas Light firsts were 2 per cent higher at 73. Many others suffered small losses. Northern Pacific consol 5s fell further 1 per cent to 40, but Chicago and Northern Pacific firsts were dull and steady at 50. Reference is made to our full report of bond sales. Money on call remained easy at 3 per cent. Rates for time loans were lower, with offerings of round amounts at 6 per cent.

The Clearing House statement was as follows: Exchanges, $77,865,656; balances, $3,597,609.

The Sub-Treasury was debtor to the Clearing House $142,921. The business of the Sub-Treasury for the week ended to-night includes receipts of $26,687,218, and payments of $30,921,318, leaving the general balance $67,043,569, against $71,277,669 on August 4, an apparent loss of $4,234,100. But deducting from the payments $4,171,000 and from the receipts $3,506,000 for items which affect only its accounts with the general Treasury, its loss as affecting the banks is $5,569,100, and this result includes payment of $264,368 for purchases of bonds, and receipts of $205,000 for payment at other points.

To-day's operations included: Receipts, $1,917,179; payments, $3,001,708; with balances of $58,507,479 coin and $8,536,090 currency.

The Treasury declined offers of 632,000 ounces of silver bullion, fixing 75.15 cents as the price of the metal.

The United States Treasury at Washington received to-day $80,541 National bank notes for redemption.

The customs receipts were $456,974, the internal revenue receipts, $337,545, and the miscellaneous receipts, $28,921.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	Aug. 10.	Aug. 11.	Differences.
Net gold on hand	$103,066,030	$102,340,647	Dec. $725,383
Net legal tenders on hand	16,002,192	15,599,890	Dec. 402,302
Net silver on hand	2,044,639	2,072,779	Inc. 28,140
Actual cash in the Treasury vaults over outstanding certificates	$121,112,891	$119,922,716	Dec.$1,190,175
Deposits in bank	11,341,529	11,632,201	Inc. 290,672
Net cash bal.	$132,454,220	$131,554,917	Dec. $899,503

Rates for European exchange fell abruptly on the practical disappearance of the premium on currency of all kinds. For immediate delivery gold was offered at about 1 1-4 per cent, but there was little business at this or any other premium. Following are revised quotations for actual business: Bankers' bills, $4 79@$4 80 and $4 84 1-2@$4 85 for long and short sterling respectively; French francs, 5.24 3-8 and 5.21 1-4; reichmarks, 93 3-4 and 94 5-8.

In London British consols declined further 1-8 per cent to 97 15-16 for money and 98 1-16 for the account. The Bank of England gained £10,000 bullion on balance in spite of withdrawals of £265,000 gold for shipment to America. In the open market money was higher at 4 1-4@4 1-2 per cent for discounts, and 3 per cent for daily balances. Bar silver was a trifle lower at 34 5-8d an ounce. American railway shares advanced sluggishly and at the close no important concessions were permitted. At Paris French 3 per cents declined 10 centimes to 98.92 1-2, but recovered one half of the loss. Sight exchange on London rose to 25.34 francs to the £ sterling, but no shipments of gold to London were reported.
