Colds Make Backs Ache

MORE aching backs, more kidney troubles come in March, than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds. And chills or colds tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold and at any time when suffering from a lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state.

Don't delay and take a chance of getting dropsy, gravel, Bright's disease or some other serious kidney disease. Use Doan's Kidney Pills, the best-recommended, special kidney remedy. All over the world grateful people frankly praise Doan's.

Here's What Illinois People Say:

Benjamin F. Bellamey, Vienna, Ill., says: "My back was sore and lame and I could hardly work. I am exposed a great deal and subject to jarring and jolting and I believe that caused the backache. Every time I took cold, the trouble came on. Two or three boxes of Doan's Kidney Pills relieved me and I haven't been troubled since."

Mrs. H. M. Jensen, 130 Nebraska St., Woodstock, Ill., says: "I suffered almost constantly for two years from pain in my back and soreness across my kidneys. When I caught cold, it made the trouble worse, and I was hardly able to do my housework. I had dizzy and weak spells. I improved steadily on using Doan's Kidney Pills and the pains soon disappeared. I have had no need of a kidney medicine since."

If Your Baby Has Croupy Cold Joplin Mothers Can Advise You

They Recommend the "Outside" Application of Vap-O-Rub Instead of Harmful Internal Dosing.

Intelligent mothers everywhere realize that little children should be dosed sparingly, and yet some treatment for cold troubles is necessary. Joplin, Mo., mothers have solved this problem by the use of Vap-O-Rub. This is the "external" Southern treatment introduced here last winter. Applied at night over the throat and chest, the heat of the body releases the ingredients in the form of vapors, and thus the medication is inhaled with each breath through the air passages to the lungs. Vap-O-Rub gives quicker relief than internal medicines, and can be used freely with perfect safety on the smallest child.

Mrs. Mabel Hawkins, 1407 Pearl St., Joplin, writes:—"My druggist sent me a trial jar of Vick's Vap-O-Rub, and my baby girl, eleven months old, had a severe cold and was threatened with pneumonia. I applied Vap-O-Rub on her throat and chest well, and covered with a warm flannel cloth, and it worked like magic. I have four small children and now if they get croupy in the evening I rub them with Vick's Vap-O-Rub Salve—and that is all that is necessary."

Mrs. J. W. Drew, 822 Ohio Ave., Joplin, says:—"I have used Vap-O-Rub frequently on the whole family with splendid results. I think it much better than internal medicines."

Mrs. S. M. Black, 206 Moffett Ave., Joplin, writes:—"Last spring I had a very deep cold with a bad cough and sore throat. The first night I used Vap-O-Rub the soreness left my throat, and the third day after I had begun its use my cough, cold and sore throat all were gone. I think it better than anything I have ever used for colds." Three sizes—25c, 50c and $1.00.

Famous Factory to Reopen.

The famous King Teh Cheong porcelain factory, which from the year 1336 furnished all the fine porcelain for the royal palaces of China, is to be reopened. This factory was partly destroyed during the revolution in which the republic was established and the various samples and patterns kept there were divided among the leading revolutionists. However, many patterns have been recovered, together with samples, and the next step is awaited with interest.

LABOR AND PROHIBITION.

"The trend of sentiment of organized labor is towards prohibition," said Richard Jones of Duluth, a member of the Minnesota state senate, speaking before the Scandinavian Socialist organization.

"Some trade union leaders claim that prohibition would make for non-employment. If this is so why have locomotive engineers to the number of 70,000 indorsed it? If prohibition is inimical to the interests of labor, why did the southern labor congress, composed of men from some southern states, refuse to ask for a repeal of the prohibition laws of the South when requested to do so by the United Brewery Workmen of America? Local labor leaders may insist that the saloon is a poor man's club, but the American Federation of Labor at its convention at Toronto condemned the use of that term.

"Workers urged not to vote men out of employment in a business which is destructive to society. I would vote those men out of that employment and into something valuable to themselves and their fellow men. I would like to have a chance to vote about 5,000,000 men in Europe out of their present jobs. If this principle applies in one case why not in another? To advocate peace in Europe would throw thousands of workmen in America who are engaged in the manufacture of munitions of war out of their present employment, but thousands of trade unionists and Socialists are today doing all in their power to spread anti-militarist propaganda among their fellow workers."

SHORT SIGHTED POLICY.

In the judgment of many it is difficult to understand why preparations to meet a remotely possible attack by a foreign foe should take precedence over preparedness to conquer and overwhelm a known foe in our midst, who is every day defying us, and whose toll of death and disease rivals that of the battlefields of Europe, says the Union Signal, official organ of the National W. C. T. U. There is possibly one chance in a thousand that our fathers, brothers, husbands and sons may be called upon at some future time to defend the safety of this country from an alien enemy, but there is a positive certainty that every day and night of every week until the liquor traffic is put out of existence it will injure thousands of our young men, physically, mentally and spiritually; and that this injury will not end with this generation, but will affect disastrously the next generation.

A policy so short sighted that it neglects to guard against a recognized, immediate, continuous peril of a certain proportions in order to prepare for one which may never have to be faced is unworthy of enlightened America.

6 DAY REST FOR POLICE.

The blotters at police headquarters in Duluth, Minn., are gone, says Chief McLaucher, Illinois Temperance Journal.

On Saturday forty arrests were made, most of them on charges of drunkenness. That included Sunday morning until seven o'clock. A clean sheet was put on the blotter Sunday morning at that hour. At eight p. m. there was not a name on it. At 8:30 there was one arrest—a man who was wanted in another town on a charge of passing worthless checks.

Saturday, a big day in the saloon business—result, forty arrests. Sunday dry—result, no arrests for drunkenness. "If that isn't an argument for temperance," says the chief, "I don't know what is."

AS ONE NEWSPAPER SEES IT.

To present on the first page the particulars of a grueesome tragedy resulting from a drink maddened brain; on another page the portraits of a girl at the Kooley institute, on the editorial page a proclamation against the sin and shame of prostitution; and in the advertising section a full page invitation for everybody to have a drink—adding, in the case of a certain Detroit beer advertisement, the tempting offer of "three bottles free"—is as grotesque a situation as the man marrying the undertaker so as to catch them coming and going.

PROHIBITION RESULTS.

The following figures from the police records of Moorhead, Minn., indicate conditions in that city before and after the abolishment of saloons:

July, 1914, arrests, 419; 1915, only [illegible]. August, 1914, arrests, 270; August, 1915, only 3. September, 1914, arrests, 1,126; September, 1915, only [illegible]. A total of 2,035 fewer arrests during three months under prohibition than during the corresponding period under saloon regime.

GLOATS OVER SLAVES.

A man stood in his doorway one morning watching a multitude of men hurrying to their day's labor. Turning to a friend he said: "Those are my slaves; they are working for me; tonight they will come and bring me their wages." The man was a saloon keeper!

USE RIGHT TO VOTE.

"Brave men left their homes to fight for the right to vote, which you today enjoy. Will you not use it for the homes that need protection now?"

Three Hundred Million Bushel Crop in 1915

Farmers pay for their land with one year's crop and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

Wheat averaged in 1915 over 25 bushels per acre
Oats averaged in 1915 over 45 bushels per acre
Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from $12 to $30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive, illustrated pamphlet, address Superintendent Immigration, Ottawa, or

Clean the Blood

Spring is the time of the year when we should put our house in order. We're run down after a hard winter—after grip, colds, catarrh. It's time to take Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics. It will search out impure and poisonous matter and drive it from the system. Buy "Discovery" now in tablets or liquid.

It will dissolve the poisonous accumulations and replace the bad blood it drives out, with rich, pure blood full of vital force.

It will clear the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away, never to appear again.

A NEW DISCOVERY

"Anuric" is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel, Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is a wonderful eliminator of uric acid. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts; and in gravel and gout, invariably the pains and stiffness rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," or send Dr. Pierce 10c for trial pkg.
