THE BANK STATEMENT.

Saturday, Sept. 2—p. m.

By the operations of the New-York Sub-Treasury in the week ended last night, which included deposits of $91,453 for payments at other points, the associated banks gained $2,467,901. The weekly bank statement published to-day showed an average increase in cash of $6,052,700. It was not clear from the statement whether the gain was due to unexpectedly large receipts from the interior or to the release of hoarded funds. In any event, the result was highly encouraging because it proved a partial recovery of confidence. The further contraction in loans by $5,438,100 was probably a reflection of the cancellation of advances made in encouragement of gold importations. The increase in bank note circulation again exceeded $1,000,000 on an average. The actual condition of the banks was better, undoubtedly, by several millions than the average showing. The details were not altogether consistent, because the increase in deposits was larger by nearly $1,000,000 than the other changes demanded. The result of all the changes was a gain in reserve of $5,170,150, and the deficit under the 25 per cent rule was reduced to $1,567,525. At the same time a year ago the banks held a surplus of $7,630,500, and in the preceding year one of $9,156,400.

The following are the comparative statements of August 26 and September 2:

	Aug. 26.	Sept. 2.	Differences.
Loans	$403,007,400	$400,169,300	Dec. $2,438,100

Circulation	8,780,200	9,911,600	Inc. 1,131,400

The following shows the relations between the total reserves and the total deposits at the respective dates:

Specie	$62,930,900	$66,860,500	Inc. $3,929,600
Legal-tenders	22,951,400	25,074,500	Inc. 2,123,100

The Clearing House statement was as follows: For to-day—Exchanges, $92,158,958; balances, $5,951,046. For last week—Exchanges, $400,957,065; balances, $22,203,315.

WHAT WAS DONE IN STOCKS.

The stock market was active and higher throughout the two hours of the half-holiday. The upward movement was continuous and at times it was so brisk as to be fairly buoyant. The buying appeared to be chiefly for the short account, but the advances were no less real for that reason, and perhaps brokers usually identified with the bear faction may have been employed to cover purchases for the opposite account. It was evident that prominent commission houses were not engaged on either side, and that the character of the trading was not materially changed, but was still strictly professional. In the active stocks the advances ranged from 1 1-2 to 2 1-2 per cent, and exceptionally Chicago Gas rose over 5 per cent. They were probably a fair measure of the extent of the short interest that existed at the opening of business. The advances in the active Granger shares were fully up to the average, but those in Lake Shore, Lackawanna and stocks of that grade were small fractions. The closing was affected favorably by the publication of the bank statement, and concessions permitted in the last few minutes were additional proofs of the general confidence.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, but the market was firm in tone at unchanged quotations as follows:

State issues continued to be neglected, and there were no sales of city bank stocks.

The general bond market was unusually active for a half-day, and the movement of prices was toward a higher level. It was so nearly universal that illustrations were made unnecessary. Final gains, as a rule, were from 1 to 2 per cent, but in exceptional instances they exceeded 3 per cent. The closing was at virtually the highest figures. Reference is made to our full report of bond sales.

Rates for money on call were nominal as usual on Saturday, but a few small loans were made at 3 per cent.

The Sub-Treasury was debtor at the Clearing House $105,256.

THE WEEKLY TREASURY STATEMENT.

The receipts from customs reported from Washington to-day were $469,505; from internal revenue $395,060, and from miscellaneous sources $49,584. The Treasury received $65,145 National bank notes for redemption, and the receipts on this account for the week ended to-day amounted to $551,444. To secure National bank note circulation it holds $204,096,200 in these bonds:

Currency 6s	$15,652,000

In London British consols fell 7-16 to 97 1-8 for money, but closed unchanged at 97 1-2 for the account. The Bank of England gained £50,000 bullion on balance. In the open market money was dearer at 3 7-8 per cent for discounts and 4 1-4 per cent for bankers' balances. Bar silver yielded further 1-8 to 33 7-8d an ounce. American railway shares opened irregular, but closed active and strong at material advances. At Paris French 3 per cents reacted to 99.22 1-2.

By an announcement in another column it will be seen that the regular quarterly dividend of 2 per cent upon the preferred stock of the Herring-Hall-Marvin Co. will be paid by checks upon the 12th inst. The books will close September 8 and reopen on the 12th.

Daniel A. Moran & Co. offer to investors a selection of 5 per cent and 6 per cent bonds.
