WHAT WAS DONE IN STOCKS.

Thursday, September 7—p. m.

The most unfavorable and surprising development to-day was the refusal of the governors of the Bank of England to lower its official rate of discount. To appreciate the importance of this action it is only necessary to remember that for several days the open market rate of discount has been weak around 3 1-4 per cent between the bank and street rate for money is virtually unprecedented. There can be only one reasonable inference—that the Bank of England recognizes what every one in this country is loath to admit that the currency question has not yet been settled. Congress has been in session a full month, and while the popular branch quickly responded to the general demand for the repeal of the purchase clause of the present Silver law the vote in the Senate is clouded with doubt. The decision will probably be in favor of repeal; but when it will be rendered and whether it may not be hampered with conditions which will compel a conference between the two houses of the National Legislature are questions not readily answered. In any event, this country must reinforce its stock of gold if it is to maintain the parity of the two metals. It might be the better course to make an immediate issue of bonds, although it undeniably is hard for a great and prosperous country to issue its interest-bearing obligations, payable in gold, merely for the sake of piling up still further its stock of a discredited metal. Additional supplies of gold must be drawn from London, and for that reason the action of the Bank of England was probably prudent and far-sighted.

The stock market was dull, and in the main weak. Once more the most active were the industrial stocks, and strangely they suffered the heaviest losses. Chicago Gas, General Electric, Sugar Refining, and, in fact, all the stocks in this group closed at their lowest figures, and the two first-named ended with losses of about 3 1-2 per cent. The reasons were not peculiar, although a fresh issue of bonds by the Chicago Gas Company was reported. Sugar Refining was supported in somewhat better fashion in consequence of the declaration of a quarterly dividend at the rate of 12 per cent a year. At the same time the support was not energetic, and it may be feared that the professional speculators who were largely responsible for the recent rise were inclined to secure a part of their paper profits. In the general market the final declines were from 1 to 2 per cent, and while a few stocks showed exceptional advances, the closing was not confident.

THE DAY IN THE BOND MARKET.

There were again no transactions in Government bonds at the Stock Exchange, but the market was steady at these final quotations:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891, continued at 2 per cent reg	98		U.S.cur.6s, 1895	102	....
U.S.4s,1907 reg	110½	111½	U.S.cur.6s, 1896	104	....
U.S.4s,1907 cou	111½	112½	U.S.cur.6s, 1897	106	....
Dis.Col.3-65,1894	111½	112	U.S.cur.6s, 1898	109	....
			U.S.cur.6s, 1899	111	....

The only business in State issues was a sale of $8,000 Arkansas 7s, issued in aid of the Little Rock, Pine Bluff and New-Orleans Railroad, at 8. There were no sales of city bank stocks.

The general bond market was dull, reported transactions barely exceeding $1,000,000, although there was a good demand for bonds of the highest class. Offerings of these were infinitesimal. Speculative issues were apparently pressed for sale. Atchison "A" seconds declined 3-4 per cent to 42 1-4. Chicago and Northern Pacific fives closed at their lowest point, with a loss of 1 1-2 per cent, and Northern Pacific consol 5s were nearly 1 per cent lower at 36 1-8, with sales at 35 3-4 on sellers' option for thirty days. General Electric debenture 5s fell 2 per cent to 75. On the other hand, West Shore 4s gained the fraction at 98 1-2, but they were the only prominent exception, and, in the main, the market was weak. Reference is made to our full report of bond sales.

Money on call ruled at 3 per cent. The great bulk of the business was done at that figure. The range was from 2 to 4 per cent, but little business was done at the extreme rates.

The Clearing House statement was as follows: Exchanges, $88,941,485; balances, $4,553,072.

The Sub-Treasury was debtor to the Clearing House $380,585. Its net loss on balance was $333,385, made up by a loss of $337,389 in coin less a gain of $4,004 in currency.

The day's operations covered: Receipts, $2,055,495; payments, $2,388,880; resulting in a general balance of $57,794,447; consisting of $50,444,050 coin and $7,350,397 currency.

The United States Treasury at Washington received to-day $84,291 National bank notes for redemption.

The customs receipts were $607,051, the internal revenue receipts $317,543, and the miscellaneous receipts $18,721.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Sept. 6.	Sept. 7.	Differences.
Net gold on hand	$97,732,672	$97,534,779	Dec. $197,893
Net legal-tenders on hand	12,826,552	12,717,441	Dec. 109,311
Net silver on hand	3,945,566	4,077,797	Inc. 132,231
Actual cash in the Treasury vaults over outstanding certificates	$114,504,990	$114,330,017	Dec. $174,973
Deposits in bank	13,141,482	12,397,951	Dec. 743,831
Net cash bal.	$127,646,472	$126,727,968	Dec. $918,804

The foreign exchanges were dull because it was an "off" day, and heavy in consequence of a lack of demand. Commercial bills were in fair supply, and perhaps the weakness of rates was designed to affect the market for them. Following are revised quotations for actual business: Bankers' bills, $4 82 1-2@$4 83 and $4 85 3-4 for long and short sterling respectively; French francs, 5.22 1-2 and 5.20; reichmarks, 94 3-8 and 95 1-4.

FOREIGN MARKETS.

The governors of the Bank of England at their weekly meeting made no change in its minimum rate of discount, which remains unchanged at 5 per cent. In the week the bank gained £272,000 bullion, and the proportion of reserve to liabilities was raised from 48.25 to 51.37 per cent, against a reduction from 50.65 to 50.33 per cent in the corresponding week last year, when the discount rate was unchanged at 2 per cent. The bank to-day gained £35,000 on balance. At the London Stock Exchange British consols advanced further 1-8 per cent to 97 5-16 for money, and closed 1-16 higher at 97 9-16 for the account. In the open market money was unchanged at 3 1-4 per cent for discounts and 3 per cent for bankers' balances. Bar silver recovered 1-8 at 34d an ounce. American railway shares were quiet and rather weak, and the closing was without important rally. At Paris French 3 per cents were strong, but only a few centimes higher, although the rate of exchange on London advanced to 25.30 francs to the £ sterling. The weekly statement of the Bank of France showed a decrease in bullion of 3,925,000 francs gold and 1,100,000 francs silver.
