A FIRM in New York is manufacturing self-winding clocks.

THE company that made an attempt to present "Abraham Lincoln" on the stage has been disbanded, the play proving an utter failure.

BY a recent manifesto of the pope it is announced that all followers of the Catholic faith who are guilty of dueling shall be excommunicated.

THE only negro in the next congress will be H. P. Cheatham, of North Carolina, now entering his second term. He is about 34 years old and is a college graduate.

QUEEN VICTORIA has now forty grandchildren, but she is particularly careful not to have them all visiting her at one time. She knows when she has had enough of family felicity.

IT is only when a man runs out in his shirt sleeves to split kindling wood on an early morning and sees the empty coal bin that he realizes that the backbone of summer has become unglued.

CHARLES STEWART PARNELL'S grand father committed suicide, and so did two other members of his family. There are also two persons of unsound mind among the immediate relations of the dead leader.

THE new dimes stamped at the New Orleans mint are so imperfect that many persons have been arrested on suspicion that they were trying to pass spurious coin. The rough rim on the edge causes the trouble.

E. A. WHITE, of Boston, who died recently, left about $500,000 to his widow and an umbrella to his daughter's husband. Though thus provided with something to put up for a rainy day the daughter is to contest the will.

AS ONE of the results of the immense apple crops it may be predicted with safety that it will be cheaper this year to make genuine cider than to make the bogus article. Which of the two is the more deadly, however, is still a matter of dispute.

MONTANA is shown to be an excellent stock country notwithstanding an occasional hard winter. The ordinary loss is less than 6 per cent. The state had on its ranges at the date of the census 750,000 head of cattle, 33,000 horses and 493,000 sheep.

THE war records board report that twenty-one books of war history have been printed during the past year and four more put in type. This brings the history of the military operations in putting down the rebellion to the close of the Wilderness campaign.

LOTS of money keeps going from people in the United States to the old folks and others in Great Britain. In the last annual report of the British post office it appears that of the $7,960,000 received in the money order department from foreign countries there came from the United States $5,580,000.

IN all this commotion over American pork abroad how fares the American bean, and pray what is the status of American hominy? When our French, German and Italian cousins have once tasted the composite richness of the hog and hominy of the south and sniffed the savor of the pork and beans of Yankee land statutes will be powerless to wean them. Let our commercial missionaries teach them the combinations at once.

THE wooden nutmeg of fraud fame has been eclipsed by Dutch ingenuity. According to word sent from Utracht, the Hollanders are making artificial almonds in large quantities from paste composed of glucose. They are shaped and colored to nature, and steeped in nitrobenzole to give the necessary odor. Hundreds of bushels have been sold to unscrupulous dealers, who mix them with the genuine article. The same people are at work on a varnished coffee bean.

THE average Atlantic steamer is manned by about one hundred and fifty men as follows: Thirty-two deckhands, four officers, nine petty officers, thirty-two firemen, etc., eight engineers, and sixty-five stewards. The master and chief officials—that is mates, engineers—are chosen by the owners or managers, while the remainder of the crew are chosen by the captain. First-class ships muster from twelve to fifteen men in each watch, and all of these are shipped as seamen.

TWICE within a week, and within two hundred miles of Chicago, heavily-loaded passenger trains, running at a rapid rate, have left the main track and plunged into open switches, producing dismay and death, and clearly demonstrating the fact that machinery will never be invented that will make it safe to ride fifty miles an hour in a railroad train while ignorant, drunken, unprincipled men manipulate the track and switches. If the conductor and brakemen of a single freight train on a great railway are not true men, no train that runs on it is safe an hour.

TRAVELERS returning from abroad bring with them a plentiful supply of yarns. A woman tells the New York Times that while she was in England she heard of an American who, on his first trip on an English railway, quite held his breath at the rapid running. When his nervousness rather overcame him he approached the guard. "I say, guard," he ventured, "this is pretty fast travel for safety, isn't it!" "Oh, no, sir," replied the guard, "we never run off the line here, sir." "But," said the Yankee, quickly, "it is not the line. I'm afraid of running off your blanked little island."

THE decision of a western federal judge giving an Indian parent the right to take his children out of school because there are no rules issued by the Indian bureau providing for compulsory education of young Indians has roused the Indian commissioner to provide against such contingencies in the future. A set of regulations has been issued intended to enforce the attendance of Indian children at the schools provided. They require every child over 5 and under 18 years of age to attend some school, the parents to decide whether to the government, private or public schools.

THE swindling endowment orders now have completely collapsed in Massachusetts, and the insurance agent of that state has made an estimate of the harvest reaped by their officials. They had high-sounding names, offered glittering allurements, and one after the other have gone the usual way of these swindling concerns. The average life of these institutions has been about six months, and in that time all that has been put in by the subscribers has been taken out by the officers in salaries. The insurance commissioner estimates that 50,000 persons have lost an aggregate of $8,000,000 in this short time.

A PLOT was said to have been discovered in Cork to assassinate William O'Brien, the McCarthyite candidate.

LATER.

Wreckers Arrested.

BOSTON, Nov. 2.—Three arrests were made on charges of "embezzlement and misappropriation of funds of the Maverick National bank." Although the sums mentioned in the warrants are nominal, it is understood that the amounts involved will reach $1,500,000 in the case of Potter, $600,000 in that of French, and $300,000 in that of Dana. The arrests in this city were made quite late to-night, and Mr. Dana was the only one who made an attempt to secure bail. He was brought before United States Commissioner Hallet and furnished sureties in the sum of $75,000, but the names of his bondsmen are withheld. In Mr. Potter's case bail was placed at $150,000 and that of Mr. French at $100,000. The two latter remain in their respective residences tonight in charge of deputy marshals and will come before Commissioner Hallett to-morrow.

The monthly debt statement, issued the 2d, shows that the aggregate interest bearing debt, exclusive of Pacific railroad bonds, is $585,026,720, increase, $2,000; aggregate interest and non-interest-bearing debt, $980,309,976, decrease, $4,025,527; certificates and treasury notes, offset by an equal amount of cash in the treasury, $560,379,410, increase $10,572,662. Aggregate of debt, including certificates and treasury notes $1,500,405; total cash in treasury, $740,539,258; cash balance, $139,671,920; decrease, $5,316,048.

THE news regarding Chili is more assuring and shows the excitement over the recent assault is rapidly subsiding. Secretary Blaine and Senor Montt, the Chilian minister, had a conference on the 2d. Senor Montt left Washington afterward for New Orleans, to be gone until next week. He declined to say anything respecting his visit to the state and navy departments, but expressed the belief that matters were progressing satisfactorily, and again deprecated the publication of sensational and trouble-breeding stories.

TELEGRAMS from the northern part of North Dakota state that snow fell on the 2d to the depth of several inches. Threshing has been stopped and in some cases threshers have left the state on account of the weather.

EARLY on the 2d a large number of mounted men came into Oliver Springs, Tenn., and released the 156 convicts employed in the mines. This makes more than 500 convicts turned loose since October 30th.

CHILIAN BRUTALITY.

Further Reports Showing Their Atrocious Fury Toward the Baltimore's Sailors.

WASHINGTON, Nov. 2. — The only Chilian news received Sunday was in the form of a cipher dispatch dated Valparaiso Saturday. The dispatch reads as follows:

"VALPARAISO, Oct. 31.—SECRETARY OF THE NAVY:—Petty Officer Johnson, in whose arms Riggen was killed, declares that the act was done by the police guard. Apprentice Williams reports that he was arrested by a mounted policeman, who placed cat-gut nippers around his wrists and started his horse into a gallop, throwing him down. After that the policeman walked his horse. Coalheaver McWilliams was arrested and taken to prison with a lasso around his neck. He was bitten in the arm after arrest. Coalheaver Quigley, while trying to effect his escape from the mob, was struck with a sword by a police officer. Apprentice Talbot was arrested, and on the way to prison he was struck repeatedly by the police. Petty Officer Hamilton, dangerously wounded and unconscious, was dragged to prison. One of my people, trying to make him comfortable, was threatened with the butt of a musket and made to desist. My men in prison were examined secretly, although I sent an officer to the court to request authority to allow his presence. The request was denied on account of the proceedings being secret. Before discharge my men were required to sign a paper, and before doing so Rinehart asket a court official the meaning of the paper. He was informed that it was a mere form, stating that the signer was not engaged in the trouble. Two men are dead, three are dangerously wounded and about fifteen are slightly injured. Surgeons believe the wounded out of danger. "SCHLEY."

Secretary Tracy will call the attention of naval officers to the fact that they should maintain a discreet silence as to the ability of the United States navy to wipe out Chili. Ever since the Chilian trouble began naval officers have been expressing their views freely as to our ability to bombard Valparaiso, land a marine force and take Santiago, and various other moves. But Secretary Tracy is of the opinion that such expressions are in very bad taste. They are cabled to England and to Chili and have the effect of placing this country in a bombastic attitude which the secretary does not wish us to occupy.

SANTIAGO, Nov. 2.—The political atmosphere remains about the same. There is no change in the strained diplomatic relations existing between the United States and Chili. The junta still contends that the police of Valparaiso were in no way to blame for taking the sailors of the Baltimore into custody nor for their subsequent treatment.

The members of the American colony are on the qui vive for some sort of an ultimatum from the United States to the junta. Even in official circles it is evident that some such step is expected, and there is consequently great excitement in that and other circles.

The United States legation has again been placed under police espionage. The reason for it is not known, but the police are keeping as strict a watch over it as they did when the question of the legation's right to afford asylum to political refuges was under discussion. The only reason that can be given for this action is that the Chilian officials are desirous of keeping fully posted with regard to persons leaving or visiting the legation. The members of the legation are very much annoyed by this last move.

Such members of the junta as are here continue to express the strongest feeling against the United States. A prominent member of the new government who holds a position in the cabinet, in an interview in regard to the dispute between the two countries, spoke in a most unfriendly manner concerning America and Americans. He was particularly severe on United States Minister Egan, whom he bluntly accused of trying to provoke a war between the United States and Chili in order to secure glory for himself. On the other hand, it is asserted by persons conversant with the particulars of the difficulty between the two countries, that Minister Egan has done nothing whatever in the matter on his own responsibility, all his actions being guided by orders which had been sent to him from the state department at Washington.

VALPARAISO, Nov. 2.—Senor Arlegui, the intendente of this city, has given Capt. Schley, of the Balmore, his positive assurances that the officers and sailors of that United States warship will be afforded all possible protection in case they should come ashore. At the same time, in view of the present state of affairs, he will not offer advice in regard to the advisability of permitting any of the Baltimore's crew to land. While Arlegui will not commit himself by an expression of opinion on the subject, it seems clear that he deems it best that no such attempt should be made for the present.

The intendente has asked American Consul McCreery to request Capt. Schley to furnish Judge Foster, who is conducting a secret inquiry into the outrage, with a copy of any testimony obtained by him, so that it may be used by the court. Many Americans believe that the authorities desire to proceed in good faith.

So far the United States government has been acting only on ex parte cable versions. It is only just and right to await the evidence taken by the Chilian court of inquiry before proceeding to extreme measures. There is a strong belief that the better men in the Chilian congress will vote in favor of reparation as soon as that body meets this month.

FOUR CANADIANS DROWNED.

A Party of Boys from Midland, Ont., Upset in a Squall on the Lake.

MIDLAND, Ont., Nov. 2.—A sad drowning accident occurred Saturday night whereby four boys between the ages of 12 and 15 lost their lives. They are: John Clarkson, son of A. E. Clarkson; Peter Hewis, son of Davis Hewis; Leo Johnston, son of J. P. Johnston, and William Alliston, son of William Alliston, all of Midland. The boys left home yesterday afternoon in a sail boat to cross over to Present island, and when returning about 4 p. m. were caught in a squall, which upset their boat.

Death of H. A. P. Carter.

NEW YORK, Nov. 2.—H. A. P. Carter, envoy extraordinary and minister plenipotentiary from Hawaii to the United States, who had been for two weeks seriously ill at the Everett house, died there Sunday. He was suffering from a complication of diseases affecting the vital organs, but the immediate cause of death was heart disease.

Brooklyn Dry Goods Men Fail.

NEW YORK, Nov. 2.—Charles Schneider & Co., dry goods, Brooklyn, have assigned. Liabilities, $100,000. The failure grows out of the failure of Backer, the dealer in commercial paper.

Carter is an Editor.

CHICAGO, Nov. 2.—Carter Harrison and a syndicate have bought the Chicago Times and he will become the editor in chief. The transfer will be made this morning and Martin J. Russell will become managing editor. The price paid for the paper is said to be about $250,000.

An Engine in a Nutshell.

BERLIN, Nov. 2.—An engineer at Chemnitz claims to have constructed the smallest working engine in the world. The machine fits into an ordinary nutshell, and is of sufficient power to drive a cotton reel. The inventor proposes to exhibit his work at the Chicago fair.

The Pittsburgh Lamp is one of those inventions that seems to be finished. It seems to reach the end as to goodness of light in every way, and ease of management. The only care it requires is filling and wiping.

Dirt falls out when the chimney is taken off, not into a pocket as in other central-draught lamps.

Putting in a new wick is a very easy matter indeed.

All this seems strange to one who knows how troublesome other good lamps are.

It is in all the good lamp-stores. Send for a primer.

DO YOU WANT A BICYCLE FREE

1000 BICYCLES to be GIVEN AWAY FREE TO BOYS AND GIRLS WHO WANT TO RIDE and do a little work FOR ADVERTISING PURPOSES.

If any boy or girl under 18 wants a strictly first-class safety bicycle, they can obtain it free, without one cent of money. We shall give away on easy conditions, 1,000 of same. The wheels are 28 inches, with arched rims and molded rubber tires, fully equipped with single trimmings. Each machine is supplied with tool bag, wrench and oiler, and is sent to any address on the market. Both styles, "gents" and girls' styles. If you want one write at once to Dept. 8, Chicago, Ill.

MONEY can be earned among the new lines of work, quickly and honorably by those of either sex, young or old, and in their own localities, wherever they live. Any one can do the work. Easy to learn. We furnish everything. We start you. No risk. You can devote your whole time or all your time to the work. This is an entirely new idea, and insures unusual success to every worker. Beginners earning from $5 to $10 per week and upwards, and more as they go on. We can furnish you the employment and show you how. We want to explain here. Full information FREE. Write to us. Address, STINSON & CO., AUGUSTA, MAINE.

Young men and women have been successful here who were poor. Anna Page, Austin, Texas, made $50 in one week. Ella Wilson, Bone, Toledo, Ohio, clear out. Others are doing as well. Why not you? Some earn over $100 in a month. You can do the work and live at home, whatever you may be doing. Even beginners are easily earning from $5 to $10 a day. All ages. We show you how and start you. Can work in spare time at all the time. Big money for workers. Failure unknown among them. NEW and wonderful. Particulars free. Address, H. Hallett & Co., Box 880 Portland, Maine.

KEEP THE LID ON THE POT

If you want a beautiful complexion and a perfect skin, use Dutch Jelly. No tan, freckles, moth patches, pimples, black heads or wrinkles. No coarse, rough, Dutch chafed or chapped face and hands. Dutch Jelly is absolutely pure, being a vegetable compound and void of all mineral properties; contains no grease or oil, and after its application the most delicate fabric can be handled without soiling. Gentlemen use it after shaving. For eczema Dutch Jelly is a positive cure. For ulcers pimples, boils and all eruptive skin diseases, Dutch Jelly is simply invaluable and permanently effective. For cuts, bruises, sun burn, insect bites Dutch Jelly is supreme and is absolutely odorless. Dutch Jelly is not a cosmetic, but rather a skin tonic and has the highest medical endorsement. One trial will convince the most skeptical that it will keep the roughest skin in the smoothest and whitest condition. Ask your druggist, or send 50 cents in Stamps or Postal Note for Sample Jar.
