WHAT WAS DONE IN STOCKS.

Monday, September 18—p. m.

The dulness of the speculation may prove the tenacity of holders of stocks, and because there is no selling pressure the professional element is able to support the fabric of values. Owners will not part with their securities, for they cling to the faith that the United States Senate must eventually listen to the demands of the business community for the repeal of the Silver Purchase law. But the long delay in the Senate and the increasing dread of a new compromise interfere with manipulation for an advance. In the interval of waiting the cliques are forced to consider the adverse returns of the railroads. In the list of returns published in to-day's Tribune, out of ten roads reporting for the fourth week of August, eight roads show a decrease in earnings not only in comparison with 1892, but with 1891. Out of twelve roads reporting for the first week in September, eight show earnings below the figures of 1891, as well as of 1892. This may also be said of four out of five roads reporting to-day for the second week of September, among them the Chicago, Milwaukee and St. Paul being conspicuous. "The Chronicle's" compilation of earnings of 134 lines in August not only shows an absolute decline in earnings, but a decrease from $515 per mile in 1892 to $436 per mile in 1893. The percentages of declines in earnings each week have been progressive for several weeks. When the delay over the Silver Repeal bill and the growing uncertainties of tariff changes are considered in their influence on retarding business recovery, he is a sanguine man who may argue that future exhibits of the roads will be less unfavorable. Meanwhile the easier condition of financial affairs has enabled merchants to begin to remit for imported goods, and the belated demand promptly advanced sterling exchange 1-2 cent to the £. London is already reselling American securities purchased a few weeks ago, and should these sales assume any magnitude the effect, coupled with the mercantile demand, might readily be ominous in the foreign exchanges. To delay sound financial legislation not only wearies the patience of domestic investors, but tends to increase European distrust.

To-day's market was oblivious to the splendid bank statement of Saturday and the preparations of the city banks to retire loan certificates heavily in view of their gain in cash resources. American Sugar Refining still led the list in activity, and, after sales at 85 3-8, closed 1 per cent lower, at 85 7-8. The other industrial shares followed the decline at a distance. Among railway shares, Chicago, Milwaukee and St. Paul was almost the only one deserving to be called active. Its extreme recovery from lowest points was 1 1-4 per cent, but its net gain from Saturday was a trifling fraction. An argument for the rally was the fact that the decrease in earnings for the second week of September was only a little more than 10 per cent, against a decrease of nearly 15 per cent for the first week. Louisville and Nashville furnished a warning to "short" sellers by advancing 1 per cent on the yellow fever news. But these were exceptions to nearly uniform declines of small fractions in the more prominent securities on the list. The net loss in Atchison was small, but the stock was moderatively active under a steady selling pressure. The market closed at a slight recovery from lowest quotations, but without stamina.

THE DAY IN THE BOND MARKET.

Government bonds were entirely neglected at the Stock Exchange. The market was steady, closing quotations being unchanged as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891, continued at 2 per cent reg	98	.....	U.S.cur.6s, 1895	109	....

U.S.4s, 1907 coup	111	112	U.S.cur.6s, 1899	111	....
Dis.Col.3-65.1894	111½	112			

There were no transactions in State bonds or in city bank stocks.

The general bond market was dull, with a declining tendency. Atchison 4s lost 1-2 per cent to 73 1-2, and the 2ds, class A, fell 1 1-2 per cent to 41. On small sales Erie seconds declined 3 per cent to 72. Chicago and Northern Pacific firsts were 1-2 per cent lower at 42, and Northern Pacific firsts dropped 1 1-2 per cent to 106. Rock Island debenture 5s sold at 99 1-2, but one bond fetched 88 3-4. Oregon Improvement 5s are 1 1-4 per cent lower at 46 3-4. Reference is made to our full report of bond sales.

Money on call continued in free supply at 3a4 per cent.

The Clearing House statement was as follows: Exchanges, $60,831,097; balances, $4,559,572.

The Sub-Treasury was debtor to the Clearing House $1,085,871. Its net gain on balances since Friday was $369,036, made up by gains of $195,302 in coin and $173,734 in currency. The two days' operations covered: Receipts, $5,845,867; payments, $5,476,831; resulting in a general balance of $368,424,502, consisting of $50,480,495 coin and $7,944,007 currency.

The Mercantile Safe Deposit Company of this city reports silver bullion on hand, to secure outstanding certificates, amounting to 161,053 ounces.

To-day being a holiday at Washington the usual Treasury statement was not furnished.

The foreign exchanges were fairly active, with a considerable demand for mercantile remittances. There is a scarcity of commercial bills, and the market quickly responded to the increased inquiry. Rates for sterling drafts advanced fully 1-2 cent to the £. Following are revised quotations for actual business: Bankers' bills, $4 82 1-2a$4 83 and $4 85a$4 85 1-2 for long and short sterling respectively; French francs, 5.23 3-4 a5.23 1-8 and 5.20 5-8; reichmarks, 94 1-2 and 95 3-8.

In London British consols were 1-16 better for money at 97 3-4, and unchanged at 97 13-16 for the account. The Bank of England gained £104,000 bullion on balance. In the open market money was a shade firmer at 2 3-8a2 1-2 per cent for discounts and 1 3-4 per cent for daily balances. Bar silver rose 1-8d to 34 3-8d an ounce. Bar gold was in demand for German account at 77s 9 1-2d an ounce. American railway shares were tame, and declined steadily after the opening, closing at lowest points. At Paris French 3s, closing at lowest points, at 98.05, sight exchange per cents fell 25 centimes to 98.05, sight exchange on London being easier at 25.27 1-2 francs to the £ sterling. The statement of the Imperial Bank of Germany shows a decrease in specie of 2,080,000 marks.
