ILLINOIS CENTRAL'S REPORT.

Friday, September 29—p. m.

The annual report of the Illinois Central Railroad Company, for the fiscal year ended on June 30, shows in comparison with the preceding year an increase in gross earnings of $803,430 and an increase in working expenses of $213,014. The gross earnings were the largest in the history of the company. The net earnings, after the payment of expenses and taxes, were $5,811,256, against $5,221,740, an increase of 11.29 per cent. The gain in revenue was derived almost entirely from passenger traffic, receipts from freight traffic falling off slightly in spite of a considerable increase in tonnage. There was a further reduction in the receipts per ton a mile, but this was due to the smaller volume of cotton and other high-priced freight carried in the year. The proportion of expenses to gross receipts was 65.98, against 68.12 in the preceding year.

The following table compares the general results of the business in the last year with those of the preceding two years:

BUSINESS OF THREE YEARS.

EARNINGS.

Years ended June 30—	1893.	1892.	1891.
Average mileage	2,875	2,884	2,884

WHAT WAS DONE IN STOCKS.

There was a brief hesitation in the early dealings, but the upward movement was soon resumed and the closing was strong, although the last prices were not always the highest. The market was not only higher, but considerably more active. While it was influenced largely by the operations of professional speculators, the business was fairly well distributed and there was an evident demand for investment from buyers here and abroad. It was the popular belief that the Repeal bill would soon be brought to a vote in the Senate and consequently passed. The industrial shares were the most buoyant, and after the early weakness Sugar Refining and Distilling and Cattle Feeding closed 2 per cent higher, and General Electric, National Lead and Chicago Gas, from 5-8 to 1 1-8 higher. Railway stocks, as a rule, were less prominent, and gained finally not more than a large fraction, on an average, while Louisville and Nashville was inclined to be weak, and after a rally of 2 1-2 per cent from its lowest point, closed with a loss of 1 per cent. Other exceptions were furnished by Erie and Union Pacific, but the declines simply brought out more clearly the strength of the general market. The ease of money, the continued cancellation of Clearing House certificates, and the decline in rates of foreign exchange, were adequate reasons for the movement, even if assurances of the early repeal of the present Silver law had been lacking.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, and quotations were unchanged as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4s 1891 continued at 2 per cent reg	98	98	U.S.cur.6s 1895	102	....

U.S.cur.6s 1894	111½	112	U.S.cur.6s 1899	111	....

The business in State issues comprised Virginia funded debt 2-3s of 1991 at 52 1-2, and Tennessee settlement 6s at 100. There were no sales of city bank stocks.

The general bond market was more active, and speculative issues were in sharp demand. The reported transactions amounted to $1,190,000 at par value, against $785,000 yesterday. The upward movement was so universal that specific mention of prices is unnecessary. Final advances ranged from small fractions to over 2 per cent, and the exceptions were usually of no consequence. Wisconsin Central incomes were 6 per cent lower at 9. The closing was firm, at about the highest figures. The buying evidently was for investment, and in some cases for European account. Reference is made to our full report of bond sales.

Money on call was in abundant supply at 2 to 2 1-2 per cent. The offerings were in excess of the demand.

The Clearing House statement was as follows: Exchanges, $84,518,888; balances, $4,134,201.

The Sub-Treasury was debtor to the Clearing House $508,365. The business of the Sub-Treasury for the week ended to-night includes receipts of $18,959,681, and payments of $17,065,076, leaving the general balance $57,179,902, against $55,283,296 on September 22, an apparent gain of $1,896,606. But deducting from the payments $3,532,000 and from the receipts $6,619,000 for items which affect only its accounts with the general Treasury, its loss as affecting the banks is $1,190,395, and this result includes receipts of $150,000 for payment at other points, and payments of $16,000 for purchased bonds.

To-day's operations included: Receipts, $3,263,644; payments, $2,212,581, with balances of $53,429,075 coin and $3,750,827 currency.

The United States Treasury at Washington received to-day $451,952 National bank notes for redemption.

The customs receipts were $572,515, the internal revenue receipts $495,454, and the miscellaneous receipts $23,806.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Sept. 28.	Sept. 29.	Differences.
Net gold on hand	$95,012,903	$94,462,399	Dec. $551,504
Net legal tenders on hand	9,931,513	10,045,926	Inc. 114,413
Net silver on h'd	7,802,414	7,601,111	Dec. 121,303
Actual cash in the Treasury vaults over outstanding certificates	$112,747,830	$112,189,436	Dec. 558,394
Deposits in bank	12,504,962	12,559,696	Dec. 35,267
Net cash bal	$125,252,793	$124,749,132	Dec. $593,661

The foreign exchanges were active and weak. There was a little better supply of merchandise bills, but this did not account for the weakness in rates. Bankers were more willing to sell their drafts in the expectation that the present Silver law was about to be repealed. Following are revised quotations for actual business: Bankers' bills, $4 84 1-4 and $4 86 1-4 for long and short sterling respectively; French francs, 5.21 1-4 and 5.18 3-4; reichmarks, 94 5-8 and 95 1-2.

In London British consols declined 1-8 per cent to 98 for money and 98 1-16 for the account. The Bank of England gained £166,000 bullion on balance. In the open market money was easy at about 1 3-4 per cent for discounts, but distinctly higher at 3a3 1-2 per cent for bankers' balances. Bar silver was unchanged at 34 1-8d an ounce. American railway shares were firm, opening weak and lower, but advancing until near the close. At Paris French 3 per cents reacted a few centimes to 98.30, slight exchange on London being easier at 25.22 1-2 francs to the £ sterling. The weekly statement of the Bank of France showed a loss in specie of 40,000 francs in gold, instead of the large decrease reported in the press dispatches.
