THE GENERAL MARKET REPORT.

New-York, September 30, 1893.

COTTON—The cotton market at New-York opened with prices 2 to 7 points higher on local covering, supplemented by some buying for European account. There was a reaction of a few points under realizing, then the market became very firm and quite active again on renewed efforts to cover short contracts, with a considerable demand in the way of new business on the long side of the market, including, it is said, some buying for Wall Street account. The market advanced about 16 points from the bottom prices and closed at practically the top figures of the session, with the tone firm. The sales reached 118,100 bales. The advance in prices was in the face of unsatisfactory accounts from Liverpool, which showed sales of spot cotton reduced to 7,000 bales, and the future market easy in tone at the close with prices unchanged to about 1-64d lower. At the same time advices from the South were to the effect that cotton was being freely offered, and in fact that the staple was begging for bids. The movement was also a bearish influence, with estimates for next week's total receipts at the ports running toward 240,000 bales, against last year, the corresponding week, 191,120 bales. The trading this morning was on the expectation of receipts for the day at the ports amounting to 35,000 bales, against last year, 18,983 bales. Estimates for New-Orleans receipts for next week, 55,000 bales. The talk on 'Change is a good deal mixed. To-day's upward movement, in the face of so many bearish conditions, rather took the local traders by surprise in view of the large movement and the decrease in the business in actual cotton at Liverpool.

COFFEE—There was an easy opening at the New-York coffee market, the chief cause being selling by longs. Then came a reaction and prices advanced about ten points by 11:30 on buying by longs and large warehouse deliveries. Santos cable received to-day reported the market quiet with prices unchanged. Santos receipts, 8,000 bags; Santos stock, 1,196,000 bags. No cables received from Rio. A cable from Amsterdam to-day says that Rio and Santos coffee from Java and the East for Europe 37,000 bags; shipments from Java and East for United States bags; shipments from Java and East for United States during September, 15,000 bags. Good ordinary Java's quoted at 52c. The market was called steady and steady, quoted at 52c. The market was called steady, 10 points higher. The spot prices finally unchanged to 15 points higher. The spot transactions were reported to November at 16.25@16.35 and December at 15.75@15.90; the market closed at 16.15 and December at 15.75@15.80. As the total sales were about the best prices of the day. As the total sales were only 3,550 bags, it will be seen that the New-York coffee market is almost in a comatose condition. The underlying conditions are easily traced chiefly to Brazil. A feature of the New-York coffee market is the strong relation held by actual coffee; very few sellers are to be found, with stocks so small and threatening to decrease still more. At the same time the present level of prices is regarded as too high for speculative ventures in view of the possibility, if not the probability, of an early termination of the Brazilian embargo. Another bar to bears is the inaction of Congress touching the Sherman law repealer. It would help matters very much to get that question settled and out of the way. While the New-York coffee market is very firm, it is also very dull. The total sales were 5,500 bags. The market closed steady and unchanged to 5 to 10 points higher.

FLOUR—Naturally business in flour to-day was on a rather light scale, with buyers more or less indifferent. There was a little business in winter patents and extra No 1 winters, part of the latter being for export. This grade of flour and Extra No 2 are scarce at present and running in better demand than for some time past. In spring wheat brands, business was unusually light with prices about the same as yesterday. Values throughout the whole list, in fact, remained generally unchanged, as buyers were content, as a rule, to pay asking prices for what little flour they wanted. The transactions amounted to 8,850 barrels and packages as follows: 3,000 bbls city mills patents, $4 40@$4 60; 900 bbls winter straights, $3 25@$3 45; 3,300 bbls extra No 1 winter, $2 50@$2 75, including 1,500 sacks for export at $2 50; 1,050 bbls spring patents, $4 10@$4 25; 200 bbls winter clears, $3@$3 10; 300 bbls rye mixed, $2 90; buckwheat flour quoted at $2 50 for fresh ground and $3 15 for new do choice. Small sales were made at $3 15.

RYE FLOUR—Market quiet; sales, 200 bbls, at $2 95@$3 20. Quotations follow:

City feed continues firm and fairly active at 85@90c in bags, with sales of 49,000 sacks.

GRAIN—WHEAT—The wheat market to-day has been a parody on what might be classed as ordinarily an active market. The transactions were less than half a million bushels, and the movement of prices within the range of about ¼c. The opening of the market was quiet at ⅛c above last night, and during the morning trade was very slow with prices steady. At the final close at midway the market was ¼c below last night and dull. Later on the curb there developed a little lower tone again, prices dropping on the absence of spot business and a flat tone to the closing cables. "Bradstreet's" visible showed a falling off in the exports for the week of about 1,250,000 bush, which was a little disappointing in view of the large clearances of flour and the reports of heavy clearances from the Pacific Coast. The total exports for the three months ended to-day are in the neighborhood of about 60,000,000 bush, which is the heaviest rate ever seen, as it indicates a total of over 250,000,000 bush for the year. Fluctuations were the smallest on record, the entire range of prices being but ⅛c. Liverpool was quiet and easy, with the tone of the interior markets generally weak. Cash wheat was dull but steady, with sales of 40,000 bush, including 16,000 bush for export as follows: No 2 red, 3⅛c und r December in store; December closed 75¼c, 2¼c under December 1 o b at store, 3¼c under December delivered, and 3⅛c under December delivered. No 1 Northern spring quoted 2⅛c under December delivered; ungraded, 40,000 bush, 71¼@72½c and 1 c delivered.

CORN—The opening of the corn market was about steady with a very light trade, but later in the morning speculative interest increased until the total transactions showed a heavier business than in wheat. A strong tone was developed during the forenoon on covering of short sales, due to rains in the West, which started a fear that the maturing of some of the late corn might be interfered with. The close was firm at a little under the best prices for the day. Cash corn closed dull and easy, with sales of 16,000 bush, half of which was for export. No 2 corn, 8,000 bush, 5c over October, to arrive; October closed 48⅝c. 8,000 bush, ⅝c over November, delivered first half November, November closed 48⅝c.

OATS—Were quiet during the session, but showed considerable firmness in sympathy with the strength in corn. The trading was nearly all for local account, and there was some stuff put out for delivery on September contracts. Cash oats were lower for mixed and very dull, sales being 30,000 bush, as follows: No 2 oats, 5,000 bush, 25c elevator, and 35c delivered; No 3 oats, nominal, 31c; No 2 white, 6,000 bush, 37c; No 3 white, nominal, 36c; track, white, 22,000 bush, 37@40c; track, mixed, 3,000 bush, 35½@37c. English farmers' deliveries last week, 53,478 qrs, at an average price of 27s 6d, against 26s 9d last week. Estimated deliveries at all points, 962,584 bush. Receipts at New-York this week were: Wheat, 1,177,875 bush; corn, 441,500 bush; oats, 1,009,150 bush; barley, 1,550 bush; rye, 1,276 bush; flour, 80,811 bbls and 133,519 sacks. MALT—Market quiet and unchanged: Western, 60@75c; Canada, 85@95c; six-rowed, 75@82½c. RYE—Market firm at 50@55c for car lots and boat loads. SEEDS—Cloverseed, dull; October, prime, quoted at $9 60 asked per 100 lb; small lots sample cloverseed from store sold at $9 50@$9 50 per 100 lb. Timothy—Market steady, with sales of 200 bags, at $4@$5 per 100 lb. Flaxseed—Market steady at $1 16½.

SUGAR—RAW—The market was quiet, but steady, with no change in prices. We quote: Centrifugal, 96 test, 3⅝c; muscovado, 89 test, 3⅜c; molasses sugar, 89 test, 3⅛c. London market was quiet and unchanged for cane. Beet was quoted at 17s 1½d, and fair refining at 15s 3d. Beet, dull and lower. Present month, 14s 7½d, next month, 14s 3d. REFINED—Was quiet, but steady, with prices as last quoted and no orders being taken for fine granulated. Quotations are for wholesale lots. The wholesale figures are the quotations posted by the refining companies, and the inside rates show actual cost after deducting rebates at present allowed. New-York and Philadelphia refiners also allow 1 per cent trade discount on lots of 100 bbls or more, and on less quantity ⅛ per cent. They will not sell less than 25 bbls. For sugar packed in bags there is no additional charge on granulated, but ⅛c per lb on all other grades.

STEARINE—The market is steady. Lard quoted at 11c; oleo quiet at 11½@12c.

TALLOW—Market was firm, at 5¼c.

COUNTRY PRODUCE MARKETS.

New-York, September 30, 1893.

BEANS AND PEAS—The few new domestic marrow received thus far have sold at $2 85, and choice hand-picked new medium and pea bring $2. The Southern orders for red kidney have taken most of the stock that exporters could not use and prices close fairly steady. Very little doing in old beans; supply and demand both light. Green peas are lower, but Scotch are steady under light offerings. Beans, marrow, 1894, choice, $2 80@$2 85; do 1892, $2 70@$2 75; medium, 1893, $2; do, 1892, $1 85; pea, 1893, choice, $2; do 1892, $1 80@$1 85; white kidney, 1892, $1 80@$1 95; red kidney, 1893, choice, $2 75; California lima, 1892, 69@70c, $1 55@$1 65; foreign medium, 1892, $1 45@$1 60; foreign pea, 1892, $1 60@$1 72½. Green peas, bbls, $1 35; bags, $1 35; do Scotch bags, $1 40.

BUTTER—Jobbers who use fresh table grades of butter seemed to be fairly supplied, and there was not much call to-day; arrivals were light, however, previous receipts pretty well sold up and a strong feeling pervaded the market. Gilt-edge lots of creamery from any section could not be bought under 29c, and some receivers were inclined to hold for more under the belief that an advance would be established on Monday. A car of useful June creamery sold at 25c, and some very fancy at 27½c, which fully established this price for fancy quality. There was sharp speculative trading in factory butter on 'Change this morning, but the rules under which the inspector is working do not appear to meet the needs of the trade, and very little of the stock sold under the call passed. There is a stronger feeling, however, on the Street, and we advance quotations ½c. Creamery, State, tubs, 28½@29c; do State, pails, 28½c; do Western, extra, 29c; do firsts, 27@27½c; do seconds, 22@24c; thirds, 20@21c; do June make, extras, 25@25½c; do seconds to firsts, 21@24c; State dairy, half-firkins, tubs and pails, extras, 26c; do firsts, 23@25c; do seconds, 20@22c; State dairy, Welsh tubs, extras, 25@25½c; do firsts, 23@24c; do seconds, 20@22c; dairy, tubs, tubs, 20c; State dairy, firkins, extras, 22½@24c; do firsts, 22@23c; Western imitation creamery, firsts, 22@23c; do seconds, 19@20c; do thirds, 18c; Western dairy, firsts, 21c; do seconds, 18½@19½c; do fourths to thirds, 16½@17½c; Western factory, firkins, June extras, 20c; do seconds to firsts, 18½@19½c; do tubs, June, extras, 19½c; do seconds to firsts, 18@19c; do current make, firkins, 18@19½c; do tubs, firsts, 19c; do seconds, 18@18½c; do fourths to thirds, 16½@17½c.

CHEESE—There was a little jobbing trade from store and a few lots of held over cheese sold on the platforms, but the volume of business was too small to warrant any change in the general range of values. Some receivers felt that the country would not give way enough to permit values to go much lower here; others were inclined to think that with an indifferent export demand and less buying on home account prices would sag off a little more next week. Liverpool cable, 49s 6d. State factory, full cream, large size, colored, fancy, 10½@10⅝c; do white fancy, 10½@10⅝c; do choice, 10¼@10⅜c; do good to prime, 9¾@10⅛c; do common to fair, 8¾@9½c; do small size, fancy, 11¼c; do fair to choice, 10@11c; part skims, Chenango and neighboring counties, small, 7@8c; do large, choice, 7@7½c; good to prime, 5½@6½c; do common to fair, 3½@5c; full skims, 2@3c.

EGGS—Receipts to-day are light and the market shows a further gain in strength. The finest marks of fresh gathered, such as would pass the Exchange inspection, are now salable up to 22½c, but this quality is rarely received except from nearby sections; most sales of fine Western are still at 22c. Ice-house stock is in fair demand and firm for the better grades. State and Pennsylvania, new-laid, per dozen, 22@23c; Western, fresh-gathered, prime, per dozen, 22@22½c; Western, fresh collections, fair to good, 21@21½c; ice-house stock, prime to choice quality, 19@20c; do poor to fair, 17@18½c; seconds, per case, $3 50@$4 50.

FRUITS—FRESH—Receipts of apples are moderate and the market holds firm for fancy qualities. Some lots of Nova Scotia Gravenstein have arrived and held at $3@$3 50, but not good enough to sell readily above the inside figure. Pears firm for all desirable stock. Plums steady. Peaches moving very slowly, especially the medium and ordinary qualities. Grapes steady, but supply increasing from Western New-York. Wine grapes in good demand. Quinces quiet to-day, but choice stock held steady. Cranberries moving more freely and tone firm. Apples, Gravenstein, per bbl, $3@$3 50; do other fall fruit, red varieties, per bbl, $2 50@$3; do fall fruit, blush varieties, per bbl, $2@$2 50; do King, per bbl, $2 50@$3 25; do hard late sorts, $2 50; do Baldwin, per bbl, $1 50@$2 50; do inferior, per bbl, $1@$1 50. Pears, per bbl, $1 50@$2 50; do inferior, per bbl, $1@$1 50. Peaches, per Bartlett, fair to choice, per bbl, $3@$5; do Seckel, per bbl, $2@$5; do Beurre Bosc, per bbl, $3@$4; do Sheldon, per bbl, $3@$3 50; do other kinds, per bbl, $2@$3 50. Plums, 10@12-lb baskets, 40@50c; do Kingsbury, per bbl, $2@$2 50. Prunes, Western, $2 50; do per crate, $1@$2. Prunes, Western, New-York, per basket, 75@90c. Grapes, up-river, Delaware, per lb, 2@5c; do Niagara, per lb, 2@3c; do Concord, per lb, 1½@2½c; do Western New-York, per basket, 10@15c; do Niagara, per small basket, 10@15c; do Concord, per small basket, 10c; wine grapes, in bulk, as to kind, per lb, 1½@3c. Cranberries, Cape Cod, per bbl, $4@$5.

POTATOES AND VEGETABLES—Irish potatoes held steady, but
