WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending October 3, 1893.

BEANS AND PEAS.

Receipts for week—Beans, 952 bbls; peas, 12,650 bush. Exports—Beans, 488 pkgs; peas, 877 bbls. New State marrow beans have been selling at $2 85 until within a day or two, when some increase in receipts caused a shading to $2 80. There is strong probability that values will continue to decline, as both buyers and sellers regard the price as too high for safety. Old marrow are not much wanted, but are in light stock. A few choice new medium sell at $2; a car of old Canadian stock in to-day is offered at $1 85, and may go for less. New pea are slightly weaker, some fine stock selling at $1 95. Old pea are slow, but there are not many of them. Best new red kidney have settled to $2 70, and move slowly at that. Lima quiet, but steady. A moderate quantity of foreign beans is going to jobbing trade at unchanged prices. Green peas lower under increasing receipts, but Scotch are scarce and firm; a car sold to arrive at $1 45.

BUTTER.

Receipts for week, 25,846 pkgs; exports, 100 tubs. Lighter receipts, coupled with strong advices from the producing sections and advancing prices at all other distributing points, have given our market a decidedly firmer tone, with most grades selling 1@2c higher than the figures quoted a week ago. Demand has not been at all brisk, but between the consumptive requirements of the trade and quite a good deal of speculative buying stock has cleaned up fairly well, and sellers still have control of the position. State creamery tubs, fresh and fancy, are selling at the close at 29½@30c, and pails at 29½c when taken by jobbers. Considerable early packed stock and fresh goods that are not suitable for the highest class trade go at lower figures. Extra Western has advanced steadily to 30c and firsts to 26@28c, though the latter class of goods are plenty enough and slow. Buyers are still looking for cheaper grades and seconds are firm. Further considerable sales of June creamery are reported at 23@23c for fair to fancy. Some of the stock that has been held in a low temperature is coming out in splendid shape, the high flavor permitting retailers to use it in place of second grade fresh butter. State dairy fresh tubs of fancy quality are in demand and firm at 26@27c, and a dozen or more fine firkin dairies have sold at 24c; this class of butter is having good sale at present. Imitation creamery still shows irregular quality; choice lots wanted and firm. All grades of factory have moved out promptly and the market closes strong.

CHEESE.

Receipts for week, 34,029 boxes. Exports, 9,670 boxes. The dullness noted a week ago continued throughout the week, and the market became so heavy that receivers shaded prices ½@¾c in order to move more of the stock. Exporters got very few orders, most of the trade of Great Britain going to Canada, where prices were lower than here, and home jobbers, having secured a moderate quantity of stock, took hold more cautiously. Quite a good many lots accumulated on the platforms, and on Friday, Saturday and Monday local dealers secured the bulk of these at from 10@10½c for good to fancy. There was nothing in the demand to-day to afford any encouragement, but prospective light receipts and higher country markets caused a stronger holding of best fresh stock. One of the favorite combinations, guaranteed September make, sold at 11¼c, two or three small lots of colored went at 11c, but for general wholesale trading 10¾c was all that colored could be depended on, with some choice parcels selling at 10½c. Lower grades ranged from 10¼c downward. Small size full cream have advanced to 11¼@11½c under steady buying by home trade. Part skims are ½c higher; choice small size are firm at 8½@9c, and best large size bring 7@7½c, few special factories, 8c. Liverpool cable, 49s 6d.

At Canton, 1,200 boxes sold at 10⅝@10⅝c; at Watertown, 1,600 boxes at 10¼c; at Utica, 4,585 boxes at 10⅜@11c, ruling 10⅝c; at Little Falls, 7,237 boxes at 10⅜@10¾c, ruling 10½c. Half of the Sandusky combination sold at 10½c; balance on commission.

EGGS.

Receipts for the week, 864 bbls and 31,364 cases. The market has continued on the upward turn during the past week, and prices have shown further advance of about 1½c per dozen on best grades. Receipts here are not much less, but contain a decreasing proportion of fresh-gathered, as a considerable part of the current collections are being drawn upon by the distributing markets. At the close the finest grades are selling up to 23@23½c, but the outside figure is extreme, and obtained only for speculative quality. Some of the late collections grade no higher than held firsts, and are offered freely at about 22@22½c. Icehouse eggs have made some advance also, but rather less than fresh-gathered; fancy grades are firm, but there is an ample offering of medium qualities.

FRUITS AND BERRIES—FRESH.

Receipts of apples continue moderate, and the market holds firm for desirable qualities of all kinds, choice lots of soft fall table varieties showing the most strength. Bartlett and Seckel pears are scarce, and firmer, and other good table varieties are selling well at hardening prices. Quinces are in moderate supply, and desirable lots, well graded, meet a good demand. Peaches are still arriving in considerable quantity, and move very slowly at easy prices; stock largely defective, and most sales in range of 25@50c per basket. Up-river Concord grapes steady; Western New-York receipts large, and chiefly of concord and white kinds; these are dull and weak, but Delawares rule firm under moderate supplies. Cranberries in fair demand, and stock gradually reducing, but prices are no more than steady.

DRIED FRUITS.

Receipts for week, 12,760 pkgs; exports, 1,456 pkgs. The market is still lightly supplied with desirable lots of new evaporated apples, and prices for such hold steady, say at 9c for prime, and 9¼@9½c for choice. A few fancy are reported sold, to arrive, at 10c. Fair to good stock is offering at 8@8¾c. Old fruit held steady but quiet. Sun-dried apples have a moderate jobbing demand at unchanged prices; most of the stock offering is worth about 4@4½c. Further lots of Delaware evaporated peeled peaches have arrived; best lots selling at 16½@17c. North Carolina sun-dried slow; about 20 bbls choice sold at 8c. Raspberries closing weaker, but the supply is still quite moderate. Huckleberries advancing under a scarcity of stock. Cherries dull. Blackberries in fair jobbing demand. Apricots higher.

HOPS.

Receipts for week, 3,399 bales; export, 7,401 bales. There is little change to note in the general position of the market. All classes of buyers are pursuing a waiting policy and the small volume of business naturally leads to rather an unsettled tone to values. English hop factors seem in no hurry to stock up, and buyers and dealers here are inclined to buy only as the goods are wanted for use. The country markets are also slow, growers feeling some uncertainty about the future, but unwilling to modify their views materially in regard to prices.

Rye straw, long, per 100 lb	50c	60
Rye straw, short, per 100 lb	40c	
Oat straw, per 100 lb	40c	

POULTRY.

Lighter receipts of live poultry have been offset by a much lighter demand, and the market has dragged at times. Yesterday and to-day chickens sold mainly at 10c and fowls at 11c, but it looks as if retailers were getting out of stock and we may have a better trade for the balance of the week. Ducks and geese are mostly of poor quality, and such are dull; prime fat stock would sell fairly. Western dressed poultry made some advance following our last report, fowls going up to 13@13½c and chickens to 12½@13c. Receipts were lighter than anticipated, and the week closed with a close clearance. This week arrivals have shown some increase, and under dull trade prices have been shaded ½c on fowls and ½@1c on chickens, but the feeling at the close is steady. Philadelphia chickens very dull, unless extra choice. Young turkeys in good demand and firmer. Choice Long Island and Eastern spring ducks firmer. Squabs a shade higher.

SUNDRIES.

NUTS—Peanuts dull; quoted at 4½@4¾c for fancy hand-picked, and 2¾@3¼c for farmers'; Spanish shelled steady at 5@5½c for No 1; No 2 quoted at 2½@2¾c; Virginia No 1 shelled at 3c, and No 2 at 1½c.

CHESTNUTS—Beginning to arrive, and, as usual with first receipts, prices are high, say $9@$10 per bush; a sharp decline should be anticipated in a few days.

BEESWAX—Quiet but steady; quoted at 24@24½c, with some choice lots held at 25c.

GINSENG—Market firm; Northern quoted at $2 80@$3 20; Western at $2 30@$2 80, and Southern at $2 10@$2 60 per lb.

HONEY—New white clover in single comb boxes quoted at 13@14c; buckwheat, 11@13c. California extracted jobbing from store at 5¾@6½c; carlots quoted at 5¼@5½c, with tone a shade firmer.

MILK AND CREAM.

The daily average receipts of milk and cream at the different railway distributing points in and near the city for the week have been as follows: Erie, 3,842 cans of milk, 26 cans of condensed milk and 104 cans of cream; Susquehanna, 1,759 cans of milk and 18 cans of cream; Lackawanna, 4,760 cans of milk and 35 cans of cream; New-York Central and Harlem, 1,885 cans of milk, 75 cans of condensed milk and 11 cans of cream; New-York and Northern, 910 cans of milk; New-Haven and Hartford, 785 cans of milk; Ontario and Western, 2,820 cans of milk and 135 cans of cream; West Shore, 1,065 cans of milk, 46 cans of condensed milk and 33 cans of cream; New-Jersey Central, 195 cans of milk and 19 cans of cream; and by miscellaneous short routes, 1,500 cans of milk and 45 cans of cream. The average price paid for the surplus on the platform has been $1 57 a can of forty quarts.

THE GENERAL MARKET REPORT.

New-York, October 3, 1893.

COTTON—The market for cotton opened very active and higher by 11 to 16 points. There was a further advance of 5 to 6 points, then the market reacted quite sharply but again rallied strong and closed within a point or two of the highest prices of the day, firm, at a net advance of 16 to 18 points. The rise in prices was due to the strong cables which indicated an advance of 3-64 to 1-64 in futures at Liverpool and good trade conditions at Manchester. Private cables said that the small business in spot cotton at Liverpool was due to the extreme firmness of futures and the limited market was quoted. Reports of damage to the crop by the recent storm; on these reports the bears took alarm and became very active buyers. A bad Bureau report seems to be expected to make its appearance on the 10th. Receipts continue large but the bulls argue that large receipts are needed in view of the active English demand for cotton. Receipts for the week at the ports now point to 2,000,000 bales against 191,677 bales the corresponding week last year. It is noted that the receipts at Memphis to-day amount to 1,700 bales, against 660 bales last year, and at Houston, 16,000 bales, against 13,700 bales last year, and to-morrow's estimate of receipts at New-Orleans is for 11,000 bales to perhaps 12,000 bales, against 4,009 bales last year. Reports from the cotton States indicate an uneasy feeling in the absence of business and quite a gloomy outlook, with some of the spinners reported to be half inclined to again close their mills. Hubbard, Price & Co. call attention to the fact that it is not to be overlooked that while the receipts are comparatively large as compared with last season, they are not heavy when records of previous years are examined and the steady improvement in Eastern trade with Manchester at all times gives strength to the market, which it has not been able to rely upon since 1889. The advance in Liverpool is ascribed by some commission houses to the prospect of an early settlement of the coal strike, and others say that it was started by fears of a bad crop report by the Bureau. The market for spot cotton ruled dull and easy at unchanged prices. Middling 8 1-16. New cotton offered ⅛ under quotations. Sales, 1,901 bales spot cotton and 201,600 bales futures.

The opening, range, and close to-day, and closing bids the previous night and last year contrast as follows:

	Open-ing.	High-est.	Low-est.	Closing to-day.	Last year.	Last bids.

Manchester, 4 p m—Cloths and yarns quiet but steady.

COFFEE—The market for futures closed at the lowest prices of the day after an uneventful day. The market at one time was 10@15 points above the closing prices of yesterday, but the break that came late in the afternoon was on account of the report that a prominent coffee house had received a cablegram stating that the civil war in Brazil was at an end. Santos cable of October 2 reports two days' receipts at 10,000 bags; stock, 172,000 bags; market quiet; good average Santos 14@800; shipments to Europe during September, 200,000 bags, and shipments to United States, 119,000 bags. The Liverpool stock of Brazil coffee on October 1 was 3,927 bags, against 3,281 bags on September 1. The arrivals for yesterday were 3,504 bags, and deliveries, 4,862 bags. Sales were 11,500 bags. The market closed steady and unchanged, to 5@10 points lower on later months.

	Sales, bags.	High-est.	Low-est.	Closed to-day.	Last year bids.
October	3,000	16.80	16.80	16.75@16.80	14.45

Rio on spot was rather quiet to-day, as buyers were not disposed to purchase coffee in view of the rumors current that the civil war in Brazil had come to an end. This news was unconfirmed, but a majority of the coffee men believe it is true for reports have been current for some days that hostilities would soon cease. We note sale of 3,000 bags Santos, No 7, afloat, per Galileo, at 17½c. Nominal prices were 18½c for spot No 7, 17½c afloat, and 18c to be shipped. Mild coffee was quiet but steady. The stock and visible supply of Brazil coffee on spot and afloat today, as compared with yesterday and corresponding day last year, is as follows:

	To-day.	Yester-day.	Last year.
Stock, New-York	78,174	82,820	143,744
Stock, Baltimore	15,131	16,321	10,000

DRUGS—The market for opium is holding fair on the basis of $2 60@$2 65 for single case lots, and jobbing lots are salable at $2 70@$2 75. Powdered is selling in a jobbing way at $3 25@$3 45. Quinine is in good demand, and sales of about 15,000 ounces foreign were reported at the basis of 18@19c. The market closed at 18½c for bulk lots. Stock in second hands is held at 19@19½c, regular terms. Latest advices from London reported the market firm on the basis of 9½@9¾c. Essential oils are selling slowly at former prices.

FISH—The recent heavy catch of mackerel had a weakening effect on the market, and although prices have not been materially lower, buyers find it easier to pick up desirable lots this heretofore. The primary markets are relatively weaker than our market. Box herring are firmly held, and there is a fair demand for them. Codfish is in fair export demand and firm.

FLOUR—A very light business was done in the flour market today, buyers and sellers being generally 10 to 15 cents apart on all grades. Heretofore spring patents and other spring flours have been more above the market than winter brands, but to-day buyers refused to pay asking prices on all sorts and business was therefore only of very small proportions. The weakness in wheat was the main reason for indifference on the part of buyers, although the general advance in prices from encouraging and a continually decreasing foreign demand, are signs of lowering their limits and the outlook for increased business is not promising. The transactions to-day amounted to only 10,750 packages, as follows: 150 bbls winter patents $3 80, 1,200 bbls winter straights, $3 15 to $3 25; 2,000 bbls city mill clears, private terms, 500 bbls No 1 extra $2 60 to $2 80, 250 bbls extra No 2, $2 40@$2 60; 600 bbls Minnesota patent, $4 20@$4 25; 600 bbls spring straights, $3 40 to $3 60; 300 bbls clears, $2 90@$3 10; 1,050 bbls rye mixed, $2 75 to $3 00. BUCKWHEAT FLOUR—Sales, 250 bags, $1 to $1 15 for new choice. RYE FLOUR—Market quiet; sales, 200 bbls, at $3 10@$3 20. Quotations follow:

Spring.	Sacks.	Barrels.	Sacks.	Barrels.

CORNMEAL—The market steady. Quotations: Yellow Western, $2 60@$2 75. Brandywine, $2 85; sales of 850 bbls, $2 85; 2,000 sacks private terms; Sagamore, $2 85; Southern, white bags, $1 15@$1 25. RAYMEAL—Quiet. Quotations: Fine white, $1 05@$1 10; fine yellow, $1 05@$1 10; coarse, 95c. FEED—Market quiet; quotations of Western carlots, 40@5, 80@85c; 60@5, 90@95c; 70@5, 80@85c; 100@5, 85@90c; sharps, 95@$1; rye feed, 75@80c; hominy chop, 90@95c; cottonseed meal, $1 15@$1 30 per 100 lb; oil meal, $1 40@$1 45. City feed firm.

GRAIN—WHEAT—The wheat market at New-York opened in a dull, listless fashion, with the local operators nerveless, and the best commission houses reporting them as destitute of orders. The consequence was a small business, confining the forenoon, with prices gradually working off lower, which about represented the scope of the changes up to 2 p m. The principal reason for the marked apathy now prevailing on 'Change was the failure of Congress to come to a vote on the silver bill. Commission houses however said that it was impossible to interest capitalists to buy wheat, even at present low prices, as those held surplus has been so materially curtailed by the recent financial troubles that they are not ready to encroach upon their capital, it being the practice of a large number of the most active speculative operators to use only their surplus in making investments. It is not expected that there will be any material development of business until these large operators shall have had time to accumulate something like a surplus from their more permanent investments, and certainly not until the Senate acts on the silver purchase law. There is really no feature to the New-York grain market and nothing to be said of it. Business is dull, supplies are accumulating, exporters are indifferent, speculation is as dead as a doornail, and a more uninteresting condition of affairs could scarcely be imagined than now exists on the floor of the Produce Exchange. In the afternoon the market was very dull, selling off 1⅛c on the weakness of late cables in absence of export inquiries. The market was weak at a little above the lowest prices for the day. After the close it was reported that 80,000 bush of choice red winter wheat had been taken for Lisbon, private terms, the other business in the cash market amounted to 102,000 bush, including 18,000 bush for export as follows: No 2 red, 3 under December in store, prompt, closed 74⅞c, 2⅛ under December in store, 2⅞ under December f o b afloat, and 2⅞@3c under December delivered; No 2 red, 1,000 bush, 71⅞c, elevator; No 1 Northern spring, 24,000 bush, 1⅜c under December delivered;
