THREE-INCH RAPID-FIRE GUN IS A SUCCESS

Board of Ordnance Says No Other Nation Has a Weapon to Excel It.

WASHINGTON, D. C., Nov. 30.—The board of ordnance and fortification in its annual report says that the results of tests made with the three-inch rapid-fire gun recommended by the board for adoption for the army "show that when equipped with these guns and carriages, the field artillery of our army will have a weapon equal if not superior to that of any nation."

Relative to the tests conducted in Pensacola harbor, the report says they have resulted in the adoption of a system of fire control and direction for coast artillery, "which when installed with such modifications as experience may suggest, as a part of the coast defense, will render it more than ever effective."

The sum of $100,000 is estimated as the amount needed to carry on the work of the board during the next fiscal year.

SENOR RICO IS EXTREMELY FRANK

He Tells Panama When It Was Recognized by United States.

BOGOTA, Nov. 30. — The following notes have been exchanged between United States Minister Beaupre and Senor Carlos Rico, the Colombian foreign minister. In a communication dated Nov. 18, Minister Beaupre says:

"I have the honor to inform you that on Nov. 13 the president of the United States formally recognized the Panama republic and received its minister."

In reply, Senor Rico, writing under date of Nov. 19, says:

"Your note received. I am acquainted with the fact that President Roosevelt has roegcnized the republic of Panama and received its minister. So far as Colombia is concerned, the recognition of the so-called republic of Panama by the United States had fully taken place at the time your government entered into relations with it. It is not according to rule to establish communications by an international treaty until the existence of a government has been recognized. For this reason the fact of the United States having done so on Nov. 13 and the receiving of an agent of the rebels are acts that would naturally follow. The facts you have communicated to me oblige me to state that the Colombian government considers them, and also the premature manner in which the recognition took place, to be a violation of the treaty of 1846 and of international law.

"As I informed your excellency Nov. 11, a Colombian army is marching on the isthmus, and consequently Colombia is primarily the sovereign state, and she will not only carry on the struggle, but is certain of being victorious if the United States does not interfere.

"Even should the United States ignore the obligations of the treaty of 1846, it is to be hoped that they will remain neutral, not impeding the efforts of Colombia to bring the Panamans into submission and abstaining from any recognition of the rebels as belligerents. If the United States assume an attitude decided hostile to Colombia, and should prevent the latter government's efforts to bring into submission the rebels who proclaimed the republic of Panama, then the independence of the isthmus is inevitable. In that case the independence of the isthmus would be the work of the United States and not of the natives."

Receiver for Shipbuilders.

NEW YORK, Nov. 30.—On petition of creditors, the Townsend-Downy Shipbuilding company, which closed its gates last week, was today placed in the hands of a receiver by Judge Holt, of the United States circuit court, Henry E. Ide being appointed receiver. The firm is capitalized at $3,500,000. The president of the firm gave as reasons for the closing of the yard, labor troubles, the difficulty of securing material and the alleged destruction of credit in the shipbuilding industry by revelations in the United States Shipbuilding receivership case.
