WHAT WAS DONE IN STOCKS.

Tuesday, October 10—p. m.

A small increase in business at the Stock Exchange to-day produced a more interesting movement of prices. The first place in point of activity, as usual lately, was held by industrial stocks, and the transactions in American Sugar Refining and Distilling and Cattle Feeding were more than one-third of the total business. Both advanced in the early dealings about 2 per cent, but their final gains, although last prices were not the lowest, were only fractional. Other industrial shares were barely sympathetic, and on the culmination of the advance yielded with great readiness. In the midst of this by-play in stocks easily susceptible to professional manipulation, railway stocks steadily declined. Their first prices, as a rule, were the highest for the day, and the declines were not confined to stocks which have an international market. The fall in Louisville and Nashville, which exceeded 3 per cent, was chiefly on selling apparently for the European account, and Union Pacific, which was under a similar influence, finally lost 2⅝ per cent, but the declines in Rock Island and Burlington and Quincy were 1 and 1¼ per cent, and Missouri Pacific, in spite of a rally of nearly 1 per cent, displayed exceptional weakness, and suffered a final loss of 1¾ per cent. The selling of the last-named stocks could not have been by European investors. In the general list, the declines were not often more than fractional, although General Electric lost 1¼ and Philadelphia and Reading 1½ per cent. The closing was heavy, and with a few exceptions at the lowest figures.

There was little news of sufficient importance to affect the market. Rumors that the Union Pacific Company was about to seek the protection of the courts were not confirmed, while it was admitted to be probable that a receivership might not hurt the settlement with the Government which the company must make in a few years. A receivership, in other words, might compel an equitable adjustment of the subsidy debt, which has not yet been obtainable. The passage by the lower house of Congress of the repeal of the Federal Elections law was without immediate and distinct influence on prices, although it was acknowledged that this action might be a fresh obstacle in the way of the unconditional repeal in the Senate of the present silver law and make more probable a compromise on that question. Confidence in a decision in favor of a sound currency was not lost, however, and speculation awaited patiently the result of the Senate vote, which is supposed to be near at hand. On the decision two continents will hang their speculative ventures.

THE DAY IN THE BOND MARKET.

A sale of $10,000 coupon 4s, at 111½, was the only business in Government bonds. In consequence of this transaction, bids were lowered ⅛@½, and asked prices raised ½ per cent. The closing quotations were as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891, continued at 2 per cent, reg.	98	....	U S cur 6s, 1895	102	....
U S 4s, 1907 reg	112	....	U S cur 6s, 1896	104	....
U S 4s, 1907 coup	112	....	U S cur 6s, 1897	106	....
Di-Cod 3-5 1891	111½	112	U S cur 6s, 1898	109	....
			U S cur 6s, 1899	111	....

State issues continued to be neglected, and there were no sales of city bank stocks.

The general bond market relapsed into a state of almost complete coma. Reported transactions amounted only to $618,000 par value, and the bulk of the business was in bonds selling below one-half their face. The general movement of prices was downward, but concessions were not infrequent. Edison Electric Illuminating (New-York) firsts gained the fraction at 104½ and General Electric debenture 5s were dull, but higher at 75. Wabash firsts further advanced ¾ per cent to 102½, while seconds were entirely neglected. The feature of the market was the weakness of Philadelphia and Reading issues. First incomes were ½ per cent lower at 39½, and seconds 1 per cent lower at 20, while thirds fell 1⅝ per cent to 15⅝. The general mortgage 4s were firm, but not materially changed at 67⅝@67½. Richmond Terminal 5s declined 1 per cent to 22¼. Reference is made to our full report of bond sales.

Money on call ruled at 2@2½ per cent. An attempt near the close to force the rate to 3 per cent was not successful, and the last loans were at the lowest figures.

The Clearing House statement was as follows: Exchanges, $90,220,534; balances, $6,216,518. The Sub-Treasury was debtor to the Clearing House $1,076,922. Its net loss on balance was $355,576, made up by a loss of $645,587 in coin less a gain of $310,011 in currency. The day's operations covered: Receipts, $2,185,754; payments, $2,521,330; resulting in a general balance of $54,884,051, consisting of $49,339,849 coin and $5,553,202 currency.

The Treasury on its counter offers yesterday bought 115,000 ounces of silver bullion at 73.60 cents an ounce. The Mercantile Safe Deposit Company of this city reported silver bullion on hand to secure outstanding certificates at 175,232 ounces.

The United States Treasury at Washington received to-day $486,635 National bank notes for redemption.

The customs receipts were $249,520, the internal revenue receipts $339,467, and the miscellaneous receipts $28,107.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Oct. 9.	Oct. 10.	Differences.
Net gold on hand.	$89,152,250	$88,338,585 Dec.	$813,671
Net gold leaders on hand	9,425,040	9,128,273 Dec.	296,737
Net silver on h'd.	8,469,244	9,711,021 Inc.	1,271,777
Actual cash in the Treasury vaults over outstanding certificates	$107,046,540	$107,207,879 Inc.	$161,339
Deposits in bank.	12,721,468	12,858,604 Inc.	137,136
Net cash bal.	$119,768,008	$120,066,483 Inc.	$298,475

In the early dealings rates for foreign exchange were higher, but afterward they sagged off. Demand sterling sold at $4 85, an advance of 1 cent from the lowest point yesterday. The Continental exchanges sympathized with the rise in sterling, and the whole market closed materially higher. There will be, however, no further mail until Saturday, and the advance may not be maintained. Annexed are revised quotations for actual business: Bankers' bills, $4 82¾@$4 83¼ and $4 84¾ for long and short sterling respectively; French francs, 5.22½@5.21⅞ and 5.20@5.19⅝; reichmarks, 94½@94⅝ and 95⅝@95 5-16.

In London British consols remained unchanged at 98⅜ for money and 98 3-16 for the account. The Bank of England lost £57,000 bullion on balance. In the open market money had a hardening tendency at 1⅝@1¾ per cent for discounts, but was in abundant supply at ¾@1 per cent for daily balances. Bar silver was a shade higher at 33 15-16d an ounce. American railway shares were dull and weak, and the closing was without recovery. At Paris French 3 per cents reacted a few centimes to 98.30, although sight exchange on London was again easier at 25.18½ francs to the £ sterling. The weekly statement of the Imperial Bank of Germany showed an increase in specie of 1,140,000 marks.

The coupons due November 1 on the bonds of the National Starch Manufacturing Company will be paid on and after that date at the Chase National Bank of New-York.

The holders of American Water Works Company (Omaha) 5 per cent and 6 per cent bonds are informed by the committee, Ernst Thalmann, chairman, that foreclosure proceedings have now been begun. The committee advise all bondholders that have not already deposited their bonds with the Farmers' Loan & Trust Company to do so at once. They also notify holders that the time for the deposit of bonds expires on November 1, after which date bonds will only be received by the committee on terms to be announced hereafter.

The Atchison, Topeka and Santa Fe Railroad Company informs holders of the guarantee mortgage 6 per cent notes, falling due on November 1 next, that the directors believe it will be advantageous to the company to defer the retirement of these securities five years, or until November 1, 1898; the general mortgage 4 per cent gold bonds retained to provide for the ultimate retirement of the guarantee fund notes to remain with the trustee until required for the purpose of such retirement. The company, therefore, offers to the holders of the guarantee fund mortgage 6 per cent notes the right of such extension at par, principal and interest of the extended guarantee fund notes to be payable in gold, with a cash commission of 5 per cent, to be paid by the company on November 1 next to such holders as will signify their assent on or before the 25th inst. Arrangements have been made by which the notes of holders who have not assented to extension by October 25 will be acquired and paid for in full on November 1 by a syndicate, who will extend the notes for the period above stated.
