HOLIDAY WEEK'S BUSINESS QUIET

Severe Storms Interrupt Communication and Transportation, but Break Drought

NEW YORK, Dec. 30.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

Holiday week brought customary quiet conditions in the business world, inventories and preparations for annual settlements monopolizing attention, except in some branches of manufacture, where immediate deliveries were required. Severe storms also interrupted communication and transportation, particularly at the west, but on the whole the elements were helpful, for drought was broken in the Pittsburg region. By this resumption of a boating stage on the rivers shipments of coal were made possible and the coke output restored to the normal volume. Annual reviews indicate that the year has made a much better showing than seemed possible at the outset, the second half comparing very favorably with the first six months, and the amount of business on the books in the leading industries promises still further improvement in 1905. Traffic returns of December indicate that gross earnings of the railways were 7.2 per cent larger than in the previous year, and foreign commerce for the last week at this port shows an increase of $1,543,163 in exports and a very large gain of $3,819,245 in imports as compared with 1903.

Buoyant sentiments prevail in the iron and steel industry. Quotations are not only fully maintained, but in many instances further advances marked the last days of the old year. The industry on the whole is in a remarkably strong position as compared with the close of last year.

Supplies of native hides are accumulating, owing to the liberal movement of cattle, and the tone is easy, but small stocks of branded hides maintain that department. The leather market is strong in tone, because it is believed that footwear manufacturers have small stocks on hand and will purchase freely in the near future. Although salesmen for New England shoe factories have secured few spring orders in the western territory, owing to the high prices demanded, the limited supplies in the hands of jobbers and dealers will necessitate replacing of broken assortments in the near future. Textile manufacturing is progressing satisfactorily, despite the peculiar conditions of the raw material markets. Buyers of cotton goods are reluctant to place orders on account of the sharp decline in cotton, but the limited stocks and difficulty of securing prompt delivery hold prices steady. There is a good inquiry for export. Woolen goods are advancing because of the upward tendency of raw wool, and purchasers are more willing to place contracts at prevailing rates. Failures this week number 252 in the United States, against 232 last year, and 11 in Canada, compared with 17 a year ago.

STILLWATER

In the municipal court yesterday Herman Schmidt, who was arrested in St. Paul Thursday, upon the expiration of a term at the workhouse, and brought to Stillwater, was arraigned on a charge of having stolen a gold watch and $10 from John Schrade, living in the town of Lakeland. Schmidt denies the charge and demanded an examination, which will be given him next Wednesday.

The convicts at the prison will have an enjoyable time on New Year's day. In addition to chapel exercises, they will be given an extra dinner and will be permitted to enjoy themselves in the corridors of the cell room during a part of the forenoon.

Reports received from the pineries by Stillwater loggers are of an encouraging nature. Conditions for work have been splendid thus far. Many have a large quantity of logs skidded and hauling is in progress everywhere. Ice roads have been constructed.

Senator E. W. Durant, of Washington county, who, with his wife, has been visiting with Mr. and Mrs. E. W. Durant Jr., at Charleston, S. C., has returned to St. Paul, where he will remain at the Merchants hotel during the legislative session.

Rev. A. W. Edwins, of the Swedish Lutheran church, conducted the funeral of P. H. Nelson yesterday afternoon and the interment took place in Fairview cemetery. The carpenters' and joiners' union attended in a body.

Orders for a million pounds of twine have already been booked at the prison and every mail brings in a large number of carload orders and many small cash orders.
