WESTERN UNION ANNUAL REPORT.

Wednesday, October 11—p. m.

The report of the Western Union Telegraph Company for the fiscal year ended on June 30 shows surplus earnings of $6,562,660, against $6,468,025 in the preceding year. The gross earnings increased $1,272,038, but the operating expenses were larger by $1,174,549, and the net profits showed a gain of only $97,489. The rate of dividend was the same, but the increase in the share capital last year required larger payments, and the surplus from the year's operations was $1,930,840, against $2,158,386 in the preceding year, and against $1,364,758 in 1891, when the result was affected by the serious fire in the general offices in this city. The increase in expenses in the last year was due chiefly to the cost of handling a larger number of messages and to the extraordinary demands in consequence of the Chicago Exposition. Included in the account were the final expenses for equipping the new operating room at New-York, and for the substitution of dynamo machinery for chemical batteries at other large offices. The average revenue per message showed a decrease of 4-10 cent, while the average cost was increased by the same fraction. The outstanding stock of the company is $94,820,000, of which $28,790 is in the treasury, in addition to the $5,180,000 of new stock not yet issued.

The following table compares the principal features of the business for the last three years:

WHAT WAS DONE IN STOCKS.

The Stock market was feverishly irregular throughout the day, and at the close variations were divided. In the early dealings it was inclined to be heavy, and, with few exceptions, first prices were the best, but on the publication of the St. Paul and other railway earnings, which were much better than had been expected, there was a turn in the speculative movement. Unhappily the improvement was not sustained, and the closing was like the opening, hesitating and uncertain. The industrial stocks were the most active, and, as a rule, the strongest. Distilling and Cattle Feeding was foremost in every respect, and after an advance of about 3, retained 2½ per cent. It was stated on the part of the company that no effort in favor of a higher tax on spirits was being made, because any advance would encourage the production of "moonshine" whiskey. There was nothing said, however, about the effect of an increased tax on the supply of "moonshine" reports and rumors about the company. Of the other industrial stocks Sugar Refining was less active than it was yesterday, and its fluctuations were narrower, but it recorded a final gain of ½ per cent, and Chicago Gas, General Electric, National Lead and National Cordage gained from ¼ to 1½ per cent. The rapid recovery in two stocks which yesterday were conspicuous by their weakness was the prominent feature of the trading. On smaller transactions Louisville and Nashville rallied 1¼, and Union Pacific 1¾ per cent. In both instances last prices were nearly the best. The advances were attributed commonly to buying for the short account, but they may have been due to other causes. The Granger stocks were weak, and, in spite of the excellent showing by St. Paul, that stock finally lost a small fraction, while Rock Island, and Chicago, Burlington and Quincy closed 1 per cent lower. The coal stocks also suffered losses of ½ to 1 per cent. The trading remained local and professional.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, but the market was steady at unchanged quotations as follows:

	Bid.	Asked.		Bid.	Asked.

The business in State issues comprised small sales of Alabama, class B, at 102, and North Carolina 6s of 1919 at 117. Of city bank stocks Mechanics sold (44) at 164.

The general bond market was somewhat more active, but reported transactions at par value were only $681,000, against $618,000 yesterday. The movement of prices was irregular, but in the main downward. The principal exceptions were furnished by Missouri, Kansas and Texas seconds, which gained the fraction at 38½, and by West Shore 4s. Atchison general 4s were ¼ per cent lower at 72¼. Of Philadelphia and Reading issues first incomes declined ⅝ per cent to 30⅛, and seconds, after fluctuations of 1 per cent, closed with a loss of ¼ per cent at 19¾, while third incomes and general mortgage 4s were neglected. Wabash firsts lost ⅜ per cent at 102⅛. Reference is made to our full report of bond sales.

Money on call continued to rule at 2½ per cent, but the last loans were at the lower figure.

The Clearing House statement was as follows: Exchanges, $81,485,199; balances, $5,932,753.

The Sub-Treasury was debtor to the Clearing House $1,114,247. Its net loss on balance was $252,976, made up by a loss of $540,036 in coin, minus a gain of $287,060 in currency. The day's operations covered: Receipts, $4,068,489; payments, $4,351,465, resulting in a general balance of $54,631,075, consisting of $48,790,813 coin and $5,840,262 currency.

The United States Treasury at Washington received to-day $390,239 National bank notes for redemption.

The customs receipts were $481,711, the internal revenue receipts $399,473, and the miscellaneous receipts $33,711.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

Net cash bal	$120,066,483	$119,334,415	Dec. $732,068

The foreign exchanges had a strong upward tendency. The demand was not large, but there was an evident indisposition on the part of bankers to sell their drafts. The supply of commercial bills was smaller than had been expected, and the strength of rates was partly due to this fact. Annexed are revised quotations for actual business: Bankers' bills, $4 83⅞ $4 83½ and $4 85@$4 85¼ for long and short sterling respectively; French francs, 5.21⅞@5.21¼ and 5.19⅝; reichmarks, 94½@94⅝ and 95 5-16@95⅜.

In London British consols were a shade lower at 98 1-16 for money and 98⅛ for the account. The Bank of England gained £68,000 bullion on balance. In the open market money was dearer at 1½ per cent for discounts, and abundant at ¾@½ per cent for daily balances. Bar silver was dull and slightly lower at 33⅞d an ounce. American railway shares were dull and weak and there was no reaction of consequence, although on the first day of the fortnightly settlement carrying rates were extremely easy. At Paris French 3 per cents early were lower at 98.20, but at 98.37½ they closed 7½ centimes higher than they did yesterday. Sight exchange on London advanced to 25.19 francs to the £ sterling.

N. W. Harris & Co., of New-York, Chicago and Boston, offer to investors a new loan of the city of Dayton, Ohio, 5 per cent bonds, and other desirable municipal bonds that will net from 5 to 7 per cent interest.
