THE GENERAL MARKET REPORT.

New-York, October 13, 1893.

COTTON—The cotton market opened with some irregularity, showing an advance of 1 to 3 points on near deliveries, and a decline of 2 to 3 points on the later deliveries. The course of the market throughout the day was marked by frequent and violent pendulations in prices. An irritating factor was the news from Washington respecting the action of the Senate on the silver question. The talk on "Change by Republican and Democrats alike is very bitter, and the charge of trifling with the best interests of the commerce of the country was made on every hand. There was enough bull news at hand to cause almost a sensational advance. In the face of the desperate conduct of the Senate, however, the trade did not dare to act with freedom on the information at hand and the market closed, after many and wide fluctuations, at a net advance of only 1 to 3 points over yesterday's closing figures. The bull news included a lighter run of receipts than had been expected, reports of falling temperature in parts of the South, with frost threatened in some localities and predictions of destructive gales in others, while in still other sections of the South, notably in North Carolina and South Carolina, heavy rains were reported. In addition to this the news from Manchester was in the main favorable, while indications that the English spinners were showing a material against their sales of goods, with the spot sales in Liverpool showing a total of 12,000 bales at full prices. The operations during the day were based on the expectation of the following movement: Estimated receipts at the ports, 40,000 bales, against 35,700 bales last year; Friday's movement, 60,000 bales, to 92,000 bales, against 93,047 bales the corresponding week last year. Receipts at the ports, 2[illegible],000 bales, against 248,848 bales last year. The actual movement of cotton for the week proves to be as follows: Total net receipts, 201,221 bales; exports—Great Britain, 64,213 bales; France, 13,207 bales; Continent, 31,051 bales; total net exports since September 1, [illegible] bales; total net receipts since September 1, [illegible] bales; exports Great Britain, 160,301 bales; France, 51,221 bales; Continent, 136,167 bales.

The Farmers' Alliance having issued a circular counting to the wisdom on the part of planters of holding their cotton leads to some doubt as to the true meaning of the present small movement of cotton. The market for spot cotton shows considerable irregularity. Quotations were not changed to-day, but at the close of the market it was not easy to buy cotton at the appended quotations.

Manchester—The production of cloths and yarns is being curtailed slowly owing to advancing prices for fuel.

Liverpool cable—Spot cotton fair demand, prices firm. Sales, 12,000 bales; speculation and export, 1,000 bales. Futures opened firm, with demand fair at 2-64 advance to 2-64 decline; closed quiet at 1-64 to 2-64 net decline: January-February, 4.35d@4.37; February-March, 4.35d@4.36; March-April, 4.40@4.41; April-May, 4.42@4.43; May-June, 4.44@4.45; October, 4.36b; October-November, 4.36d@4.37; November-December, 4.35@4.36; December-January, 4.36@4.37.

COFFEE—The coffee market at New-York opened with prices five points higher on some positions, and five points lower on others. There were very few orders at hand, and business for a time ruled dull, with little in the session quite a spurt on small receipts at Rio, which since October 1 amount to only 50,000 bags, while receipts to-day are at Rio amounted to only 6,000 bags. At the same time reports were coming up from the street showing a firm spot market, with No 7 quoted at 18¾c. There were rumors of sales of spot coffee, but except a few scattered lots, there was no business definitely reported. Up to 2 p. m. the sales in the way of contracts reached 7,000 bags, including October at 17.30, November at 16.75, December at 16.25 and 16.35, and March at 16.25. Recent published reports of renewed trouble in Brazil failed to make any particular impression on the market, except as they served to check selling for short account. The principal element of firmness in the spot market at this point seems to be the firmness in the spot department, which is explained by the small stocks in the United States, and by disappointment regarding the shipments from Brazil. The total sales were 10,500 bags. The market closed barely steady and unchanged to five points lower.

DRUGS—There is still a very slow sales movement for opium, and holders find it difficult to place lots of any quantity. The market is at a shade easier, single cases being salable at $2 57½@$2 60. The jobbing price is $2 62½@$2 65, with powdered quoted at $3 35@$3 45, according to quantity. Quinine is having a good demand, and the market is firm at 19½@20c for regulars, with some considerable sales at those prices.

FLOUR AND MEAL—The flour market at New-York to-day was almost a blank. Buyers were scared out by the weakness in wheat and retired almost completely, so that although some of the sellers were quite inclined to make concessions varying from 5 to 10 cents there was no one to buy the stuff. At the close the market was weak, with buyers and sellers 10 cents apart. Sales were 8,400 pkgs, including 1,400 bbls winter straights at $3 15@$3 20; 300 bbls clears at $3; 2,300 bbls city mills at private terms. The market on city mills is quoted easy, both for West India grades and patents, and some change is anticipated next week; 200 sacks of extra No 2 at $2 30; 1,000 bbls spring patents, at $3 90@$4 10; 200 bbls clears at $3@$3 15; 200 bbls rye mixtures at $2 75. Sales of Southern flour were 500 bbls, at private terms.

BUCKWHEAT—The market was weaker again, with sales of 200 bbls at $2 10@$2 50. RYE FLOUR—Market quiet; sales, 200 bbls at $3@$3 15. Quotations follow:

CORNMEAL—The market is steady; sales, 350 bbls at $2 85. Quotations: Yellow Western, $2 65@$2 75; granduwine, $2 85; sales of 250 bbls, $2 85; Sarasota, $2 25; Southern white, bags, $2 15@$2 20; BRAN—Quiet. Quotations: Fine white, $1 05; fine yellow, $1 05; coarse, 95@95c. FEED—Market quiet. Quotations of Western varieties: 40-lb, 77@80c; 36-lb, 75@77½c; 32-lb, 80@85c; 100-lb, 85@90c; regrind, 95@[illegible]; rye feed, 77½@80c; hominy chop, 85@90c; cottonseed meal, $1 15@$1 20 per 100 lbs; oil meal, $1 37½@$1 40. City feed quiet at $17@[illegible].

FOREIGN DRIED FRUIT—The jobbing trade continues in quite a satisfactory manner, and it seems to be sufficiently large to give a moderately firm tone to prices. This applies more particularly to spot goods, there being little inquiry for goods ahead. Valencia raisins are in demand, but trade is fairly active in small supplies. The demand for prunes is large, however, and the total quantity sold on route is large, however, and the total quantity due within the next ten days is nearly 150,000 boxes. Old crop California raisins are in fair demand, but new crop continues quiet. Prunes are not plentiful, and are held firmly. Currants are in fair request for prompt goods, but ahead the market is quiet. The receipts on route and due shortly number thirteen in all. Quotations are: Raisins, Malaga, new, 3¾@3¾c; Valencia, new, 5@5½c; California, London layer, $1 55@$1 65; dates, 2½@3c; currants, 2@3c; prunes, 4@7c; almonds, 16@17c; filberts, seville, and nes, 12@[illegible]c.

FOREIGN GREEN FRUIT—The trade in foreign green fruits continues moderate, although at fairly steady prices. Lemons have been received recently in slightly better demand, although lots are pressed for sales, concessions being necessary. Oranges are nominal in the absence of supplies. Grapes are selling well, quotations are: Lemons, Sicily, $4@$4 50; oranges, Jamaica, $3 per packet, $2@$2 50; bananas, first class, $1@$1 25; according run, 75@80c; cocoanuts, $3@$3 50.

GRAIN—WHEAT—The action of the Senate last night at the opening had direct effect on the wheat market to-day, and prices declined readily. The opening was at 1c above yesterday's close, and with a decline to 1c below December starting off at 71½c, and with a very nervous decline to a point 2½c below the first, the market rallied to a point 1½c below the first, and close of yesterday. There was a small trade, but as a whole dealings were without special interest and the market seemed to decline of its own weight, the weakness being attributed to the belief that unconditional repeal is dead and that there will be no relief from that quarter. The enormous stocks on hand are pressing and the interior movement shows no indication of a falling off. The period of full crop scares is practically over for the season, and now until the growing scares of the spring opens the market will be largely dependent upon the supply and demand for cash wheat and the volume for speculative trade. The supply of cash wheat is enormous and the demand poor. The interior demand is small, while exports are decreasing. The foreign markets are dull, with the supplies in and on passage heavy. Shared observers of the market predict that there will be only a hand-to-mouth demand during the balance of the fall and early winter, and no demand for cash wheat is liable to spring up until after the holidays, so that the stocks, the financial situation, and the general feeling of depression which has prevailed in the market will be likely to be the real characteristics unless something unforeseen occurs. The secondary weakness in the wheat market, which developed about midday, lasted all the afternoon, prices at one time being 1½c below the closing of last night, but at the close there was a rally of ½c. At the finish the feeling was barely steady, with the trade uneasy and expecting further pressure on the market. Final figures were at 1c net decline. Cash wheat was dull, also 1c lower decline. Sales were 120,000 bush, including 10,000 bush for export as follows: No 2 corn, 1 car 47½c elevator; No 2 corn, 29,000 bush, 48c delivered; No 2 oats, 2c over December bid and 4c over December asked for new, to arrive; No 2 white, 1 car, 50c elevator; Chicago yellow, 24,000 bush, 48c delivered next week. OATS—The opening of the market for oats was quiet at a slight decline from last night, and within a short time prices sagged 2c off, with a moderately active trade at the decline. There was very little interest shown in the market, as very one seemed to be discouraged by the Washington news, and rather afraid to act. Local receipts are large and have recently had direct influence on the market. The interior receipts however, are decreasing quite rapidly. The market for oats was quiet to the afternoon, but rather heavy, and finally left off dull at the lowest prices, which showed ½@¾c net loss. Cash oats were 1c@1½c lower, with sales of 181,000 bush, including 70,000 bush for export as follows: No 2 oats, 32,000 bush, 33c elevator, and 34c and private terms delivered. No 3 oats, nominal, 32½c; No 2 white, 35,000 bush, 35c elevator, and private terms. No 3 white, 30,000 bush, 36½c track white, 36,000 bush, 35½@37½c; track mixed, 3,000 bush, 33½c. HAY—Market dull; Western, 60@75c; Canada, 85@95c; sixty-pound, 72@82½c. BARLEY—Dull; No 2 Milwaukee, 62½c; untracked Western, 60@70c. RYE—Market quiet, at 50@53c for canals and boilmaker; sales 1 car No 2 at 50c elevator. SEEDS—Cloverseed quiet, October prime, 8.10 bid; November, 8.20 bid; December, 8.30@8.35; January, 8.35@8.37½ bid for prime. No 1 October, 10.65; November, 10.70 bid; December $9.90. Timothy quiet—Market steady, at $1 95 per 100 lbs; sales, 200 bags. Flaxseed—Market steady at $1 [illegible].

METALS—IRON—The advices from Philadelphia regarding the iron market indicate that the apathy which has existed in the market for a number of months past shows but little signs of abatement. Reports show the production of pig iron to have been cut down to a very low figure, and the past six months, and this heavy reduction in the output is largely responsible for the indifference noted in the various departments. Holders ask about the same prices as have been asked for some days past, but in many cases shading of prices is said to be made, and considerable trading. The outlook of the market at present offers but little encouragement to the bulls, and producers are slowly coming to the conclusion that they will have to get along as best they can with the same sort of market for the balance of the year. The usually factory reports concerning other portions of Washington tend to aggravate the situation here. Bessemer pig, $14@$14 25.
