RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK HOLT, Eureka, Nevada.

"Paine's Celery Compound has been a God-send to me. For the past two years I have suffered with neuralgia of the heart, doctor after doctor failing to cure me. I have now taken nearly four bottles of the Compound, and am free from the complaint. I feel very grateful to you." CHAS. H. LEWIS, Central Village, Ct.

Paine's Celery Compound

Effects Lasting Cures.

Paine's Celery Compound has performed many other cures as marvelous as these—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

Washington Letter.

[illegible]

Secretary Rusk has removed W. W. Bowie, State Agent of the Agricultural department for Maryland, and abolished the office, for the reason that the information desired can be obtained by regular employees of the department here for less money.

The Persian Minister of Finance, who is officially (by numerous paragraphs in American newspapers) notified, by the Shah, that he is to be dismissed, has left without taking official leave of either the President or Secretary of State. With, we shall try to worry along somehow without him.

Statistician J. R. Dodge of the department of agriculture has gone to the Long Island region to investigate the results of the use of the extension of agricultural statistics.

Commissioner Sibley has just returned from Philadelphia, where he went to compare the new steel cruiser "Chicago" on her trial ocean voyage. He endorses to the public of Congress the most favorable words for the vessel, when armed and equipped. The speed will be commended by Congress, the Secretary is not so sure of the question.

It is stated at the Interior department that no more penal land entries will be allowed. For some time to come, quite a number of claims will be filed, but no patents will issue for the present.

Secretary Proctor has returned to city, he says the effect of his trip in reputation for health.

The treasury department has decided that in the redemption of mutilated legal tender notes, the holder shall receive the greater value and lose the difference, or, in an affidavit is filed that the missing portion of the note has been destroyed. Here does the practice for loss of fractional parts of a note, which is the old, wooden rule, that the holder shall receive the value of the parts and account for the parts presented and proved by the parts presented and proved.

Postmaster Gen. Wanamaker has created a furore in telegraph circles by taking advantage of the law authorizing the postmaster general to set the price of the telegraph company shall receive for the transmission of government messages. The price now paid is one cent a word and the telegraph companies claim that the business is done at a loss at that figure, but Mr. Wanamaker says the price shall be reduced 1 cent a word.

The report that Senator Washburn, of Maine, is financially embarrassed is not believed here. The report was not started until the Senator was on his way to Europe. He told a friend just before leaving Washington last week that for once his business interests had been put into such shape that he could leave them and be certain they were being properly administered. He has gone to Carlsbad Springs under orders from his physician.

Dame rumor is again busy with Mr. Blaine's health and says that it is so bad that it is not probable that he will ever resume the active duties of Secretary of State. This is simply rot. I saw Mr. Blaine a day or two before he went to Bar Harbor and he was looking remarkably well, from his conversation and general bearing it was easy to see that he was feeling as well as he was looking.

The President is at Deer Park. He is expected here in time to attend a cabinet meeting Wednesday but it is possible that he may not return until next week.

PATENTS GRANTED

To citizens of Missouri during the past week and reported for this paper by C. A. Snow & Co. Patent Lawyers, Opp. U. S. Patent Office, Washington, D.C.

M. J. Barron, New Bloomfield, Pettis; G. W. Fell, Bethany, Texas; A. Frank Creighton, Sec Intener; F. E. Gifford, Kansas City, Governor; R. E. Hearne, Kansas City, paper file; J. C. W. Whitelaw, Houstonia, Wood bench; R. F. Wilson, Kansas City, Picket attacher; M. A. Williams, Kansas City, Corset Ac; A. J. Wood, Kansas City, Merchandise tongs; Henry Saunders, Perry, Gage for saws.

A Woman's Discovery.

"Another wonderful discovery has been made and that to by a lady in this county. Disease fastened its clutches upon her and seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at King & Pomil's Drug Store.

Little Minded Fellows.

[illegible]

Mrs. Garfield's Fortune.

The subscription raised for Mrs. Garfield through the instrumentality of Cyrus W. Field aggregated, when invested in government bonds, about $362,000. General Garfield's life was insured for $65000, the payment of which the companies, for the sake of the extended advertisement it would give them, if for no other purpose, promptly made. Congress also voted for the remainder of the salary which would have been due General Garfield for the first year of service as president which amounted to $46000. The little estate which Garfield left aggregated some $80,000. This was all he had been able to accumulate after a life of unusual activity. This makes his total estate, in round numbers, about $500,000 in money well invested. From this an income of probably $20000 is derived. In addition to that she has from Congress an annual pension of $5000 which is voted to the widows of all ex-presidents. This fortune hasn't decreased since James A. Garfield's death. Cleveland Plaindealer.

Frank Leslie's Popular Monthly For August, 1889.

The completion and dedication of the National Monument to the Forefathers, at Plymouth, Mass., the corner stone of which we laid thirty years ago, gives timeliness to the well written and beautifully illustrated article on "The Pilgrim Fathers," which leads off this number of Frank Leslie's Popular Monthly. Arthur V. Abbot interestingly describes the new cantilever bridge over the Hudson River at Poughkeepsie, N. Y. "The Military Road of the Caucasus," by P. d. Popoff, gives a picturesque account of this marvelous highway of Russia's Asian conquests. Ensign Wilkinson, of the Navy, gives a valuable and authoritative account of "The United States Hydrographic Office; its Evolution, its Aims and its Achievements." Other illustrated articles are: "An Old French City" (Bourges); "In the Acadian Land" "Turenne," Louis XIV.'s great general; etc. The short stories, illustrated poems, miscellaneous essays, etc., are up to the first-class standard, and the new literary department begun in this number promises to be a valuable feature.

A Newport Story, a "Co-Ed." Story an Army Story, a Paris Exposition, Story a Story of "Tao Jack," a Story of Two Pilgrims, are some of the attractions of Demorest Monthly Magazine for August, which makes it just such a number as everybody wants in the hot summer months. The articles also are of timely interest, including an account of the Paris Exposition, giving a view of the whole grounds; "In Central Park," beautifully illustrated in water colors and in black and white; "The Pleasures and Pains of Amateur Photography," by Alexander Black, illustrated with numerous pictures taken by amateurs; "How to Prevent and Remove Wrinkles," the second in the series entitled "Aids to Beauty" besides numerous other articles on subjects interesting in the family circle, including the health, happiness amusement, and decoration of the household and there are over one hundred illustrations. In fact, the August number, which is just out, is a wonderful production, and worth many times its cost.

Published by W. Jennings Demorest 15 East 16th Street, New York.

FOR CHICKEN CHOLERA.

69 Huron St., Sheboygan, Wis., Nov. 12, 1888.
I have used St. Jacobs Oil for chicken cholera with great success. Every fowl affected with the disease was cured by it and I recommend it as a sure cure. It has saved me many dollars. H. A. KUENNE, Breeder of Fine Fowls.

Baker Field, Cal., Oct. 12, 1888.
I have used St. Jacobs Oil for cholera of chickens with prompt permanent cure. One bottle will cure 50 to 75 chickens. 2 to 3 drops cure Whooping Cough. JAS. BETHAL.

GENERAL DIRECTIONS.—Mix a pill of bread or dough saturated with St. Jacobs Oil. The fowl swallows the dose, force it down the throat. Mix some corn meal dough with the Oil. Give nothing else. The sick fowls will eat and be cured.
