WHAT WAS DONE IN STOCKS.

Friday, November 10—p. m.

The trading in stocks to-day was strictly professional. The opening was irregular, and the closing was without other feature. Chicago Gas rose something over 2 per cent, because the buying was better than the selling. Since the close of the Chicago Fair it has been admitted that Chicago stocks might be depressed. It has been urged that as the Illinois Central derived the greatest benefit from the Fair traffic it would show consequently the largest reaction, and that the business of the Chicago Gas Company must be reduced when consumption was reduced to its natural volume. The argument has been so strong that prices of all stocks that have a Chicago connection have been depressed by sales for the short account. To recover the stocks which were not owned has been a difficult task, and all sorts of subterfuges have been attempted. The short interest in the Granger shares, and in all other stocks which centre at Chicago, has not been greatly reduced by recent operations.

The speculation in stocks and bonds was sluggish, however, and with few exceptions final changes were small and insignificant. They were divided, but generally they were advances. New-England, which was second in point of activity, suffered the heaviest loss, and although it rallied nearly 1 per cent from the lowest point, it ended at a decline of 3 per cent. The mystery connected with the plans for the extension of the road is maintained, but a fall in the price of the stock may be in a sense a suspicious circumstance. The New-England road may yet be brought to the fulfilment of its original design. The general market was not affected by operations for European account, but rates for exchange were active and higher.

THE DAY IN THE BOND MARKET.

Government bonds at the Stock Exchange were dull and ¼ per cent lower. This was merely a loss of the advance recorded yesterday. The market has been for some time devoid of interesting feature. The closing quotations were as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891, continued at 2 per cent reg	95	....	U.S.cur.6s, 1895.103	....	....

			U.S.cur.6s, 1899.113	....	....

The business in State issues was limited to $1,000 Virginia deferred 6s, stamped receipts at 6½. There were no sales of city bank stocks.

The general bond market was dull and featureless. Reported transactions, at par value, were less than $1,000,000. Erie second consols gained the fraction at 69½; Atchison 4s were steady at about 70½, with a comparative decline of ½ per cent, but "A" seconds, after selling at 36, closed ½ per cent higher, at 37. There were small variations in many other issues. Bonds of a high grade were in demand, but the offerings were small. Reference is made to our full report of bond sales.

Money on call ruled at 1½ per cent.

The Clearing House statement was as follows: Exchanges, $91,800,354; balances, $5,045,997.

The Sub-Treasury was debtor to the Clearing House $1,513,287. The business of the Sub-Treasury for the week ended to-night includes receipts of $24,220,454, and payments of $29,724,372, leaving the general balance $80,057,809, against $75,561,727 on November 3, an apparent gain of $4,496,082. But deducting from the payments $2,229,000, and from the receipts $7,915,000 for items which affect only its accounts with the general treasury, its loss as affecting the banks is $1,189,918, and this result does not include payments of deposits of $905,000 for payments at other points.

To-day's operations included: Receipts, $12,665,000; payments, $13,818,856, with balances of $58,668,462 coin and $21,389,247 currency.

The United States Treasury at Washington received to-day $571,967 National bank notes for redemption.

The customs receipts were $435,294, the internal revenue receipts $514,337, and the miscellaneous receipts $142,443.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Nov. 9.	Nov. 10.	Differences.
Net gold on hand	$81,675,412	$85,182,325 Inc.	$3,525,913

Net cash bal.	$108,927,808	$108,924,167 Dec.	$3,641

The foreign exchanges were active and firm. There was a good demand for remittance, but no free offerings of commercial bills. Following are revised quotations for actual business: Bankers' bills, $4 81½@$4 82 and $4 82⅝@$4 84 for long and short sterling, respectively; French francs, 5.22½@5.21⅞ and 5.20@5.19⅞; reichsmarks, 94½ and 95¼.

In London British consols were firm and a trifle higher at 98¼ for money, and at the same price for the account. The Bank of England lost further £21,000 bullion on balance. In the open market money was steady at 2@2½ per cent for discounts, and about ¾ per cent for bankers' balances. Bar silver was weak at 32 7-16d. an ounce. American railway shares declined steadily, and last prices were the lowest. At Paris French 3 per cents sold at 99.10, sight exchange on London falling to 25.16½ francs to the £ sterling. The weekly statement of the Imperial Bank of Germany showed a gain in specie of 4,900,000 marks.
