WHAT WAS DONE IN STOCKS.

The course of prices at the Stock Exchange to-day again showed that there is no outside interest in the market. There was a superabundance of rumors, but none of them was confirmed, and possibly the circulation of them was started in behalf of the bear faction. At any rate this element displayed a good deal of uneasiness, and once or twice it was an eager buyer. At the same time the trend of the market seemed to be downward, although the transactions were so light and the fluctuations so narrow that the final variations possessed little meaning. The trading was strictly professional and chiefly local, and in general the market was what is commonly called a waiting one. The bears were expecting a dislodgement of long stock in response to the many unfavorable rumors; the bulls remained constant in the belief that the short interest was sufficiently large to produce a sharp rally, if nothing more. It was admitted on all sides that the supply of stocks was limited, and in the same breath that on every advance the demand was immediately satisfied from some source. The manipulation of the industrial stocks was, of course, something wholly outside this calculation, because there can be no limit to it. The "pools" or "cliques" in these stocks have absolute power over their prices, and what they may do from day to day depends merely on speculative whims. For instance, Sugar Refining further declined a small fraction to-day, and General Electric was, at least, weak, while Chicago Gas and Distilling and Cattle Feeding were materially higher. A change in the tariff and revenue laws might account for the movement in Sugar Refining and in Distilling, but not for those in Chicago Gas or General Electric, unless these companies are liable to be seriously affected by the contemplated imposition of an income tax. The stocks that have an international market were generally dull and lower, but Louisville and Nashville rallied as much as ½ per cent, and a few others closed with slight gains.

Final variations in both directions were not large, and while the closing was rather heavy, the declines were not much more numerous than the advances.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, but the market was comparatively firm at closing quotations as follows:

The only business in State issues was a small sale of Virginia funded debt 2—3 per cents at 52⅝, on seller's option for fifteen days. Of city bank stocks, Fourth National sold (20) at 200.

The general bond market was without new feature. The reported transactions barely exceeded $1,000,000 at par value. Variations were divided, but small and probably insignificant. Erie second consols advanced the fraction to 68½, and Louisville, New-Albany and Chicago general mortgages to 67⅝. Philadelphia and Reading first incomes closed ½ per cent better at 35¾@35½, and second incomes ⅝ higher at 25⅝, but the thirds were slightly lower at 19½@19⅞, and the general 4s were relatively active, although they finally lost only ¼ per cent. Union Pacific, Denver and Gulf firsts closed 1¼ per cent lower at 40¾, and Fort Worth and Denver City firsts fell 4 per cent to 63. Rererence is made to our full report of bond sales.

Money on call was still in excessive supply at from 1 to 1½ per cent.

The Clearing House statement was as follows: Exchanges, $89,876,864; balances, $4,459,738.

The Sub-Treasury was debtor to Clearing House $723,400. Its net gain on balance was $1,872,891, made up by gains of $510,304 in currency and $1,362,587 in coin. The day's operations covered: Receipts, $4,677,575; payments, $2,804,684, resulting in a general balance of $83,780,764, consisting of $60,085,515 coin and $23,695,249 currency.

The United States Treasury at Washington received to-day $614,573 National Bank notes for redemption.

The customs receipts were $543,666, the internal revenue receipts $452,174, and the miscellaneous receipts $318,648.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

The foreign exchanges were dull and strong. At the opening rates were firm, but the absence of demand caused some concessions, and afterward the scant supply of commercial bills stiffened the market. On London last rates were the highest. Annexed are revised quotations for actual business: Bankers' bills, $4 82¼ and $4 84½ for long and short sterling, respectively; French francs, 5.21¼ and 5.18¾; reichmarks, 94⅝ and 95 5-16@95⅜.

In London British consols advanced further ⅛ per cent to 98 7-16 for money and 1-16 to the same price for the account. The Bank of England lost £130,000 bullion on balance. In the open market money was steady at about 2⅛ per cent for discounts, and higher, at 1½ per cent, for bankers' balances. Bar silver was a trifle lower at 32 1-16d. an ounce. American railway shares were dull and lower, but the final declines were not important. At Paris French 3 per cents were a few centimes lower, although sight exchange on London again was easier, at 25.16 francs to the £ sterling.
