WHOLESALE PRICES OF COUNTRY PRODUCE.

For week ending Tuesday, November 21, 1893.

BEANS AND PEAS.

Receipts for week: Beans, 2,216 pkgs; peas, 21,000 bush. Exports: Beans, 1,240 pkgs; peas, 3,783 bbls. Imports, 100 bags beans. Best marks of domestic marrow beans fell to $2 40 before the downward tendency could be checked, and while the demand has not improved to any appreciable extent the lighter receipts of late have given holders more confidence, resulting in a slight reaction toward the close; choice lots are now generally held at $2 45. The supply of medium and pea is not large, but trade suffers severely because of the competition with foreign beans, and values are asy. Red kidney have remained dull and the accumulation has become sufficiently burdensome to cause strong pressure to sell and lower prices; it is difficult to say how cheaply exporters could buy. Turtle soup slow. California lima steady, but quiet. Imported marrow beans have sold in lines mainly at $2 25, jobbing sales of fine goods at $2 30. Foreign medium and pea slow and easy. Green peas lower and dull.

BUTTER.

Receipts for week, 33,624 pkgs. The pressure to sell continued quite strong up to the close on Thursday, and prices had to be cut a little below the figures in our last weekly report before sufficient confidence was restored or buyers were willing to operate freely. The moment bottom was reached, however, there was active trading, which soon reduced the accumulated stock, affording prompt relief and giving the market a firmer tone, especially on high-grade table sorts. So far this week business has been rather quiet, and the increased receipts have made sellers very willing to accept current rates. We hear of an occasional mark of gilt-edge Western creamery selling to-day at 28c, but these were too exceptional to warrant the quotation; most of the really fancy goods sold at 27½c, with medium to choice qualities at 24@26c. Much of the butter is frosty and lacks flavor, and certain buyers pay a premium for perfect quick-flavored lots. Now and then a lot of State creamery is fancy enough for best trade, but the bulk of receipts show defects incident to cold weather, and there sell for 23@26c. Held creamery very slow and rarely reach outside quotations. The movement in State dairy butter is not large, but arrivals continue very moderate, and desirable quality in either firkins or tubs is held steady; lower grades in buyers' favor. Fresh Welsh dull. Imitation creamery and fresh factory are slow and weaker.

CHEESE.

Receipts for week, 25,678 boxes. Exports, 7,370 boxes. The market has got into a pretty dull rut. Home jobbers, having secured fair stock, are generally holding off, and shippers find nothing in either the cable or mail advices that seems to warrant any important movement on their part. With few exceptions the range of prices remains about as previously quoted, but in some quarters we note a little more anxiety to sell, especially the late made stock, and slight concessions are made in instances. From store the perfect September full cream large size cheese bring 11¾@11½c, but at the receiving depots 11¼c is now seldom exceeded, and some fancy October have sold recently at 11¼c. At the same very choice stock is offering, and very good lots for less. Small sizes are dragging, and 12¼c is exceeded only in exceptional cases. Part skims are dull, and while a few of the choice parcels command former rates, much of the stock could be bought at least ¼c less, were there buyers for it. Liverpool cable, 54s.

Philadelphia buyers took 4,000 boxes white cheese at Watertown on Saturday at 9c for part skims, and 10¼c for full cream, mostly at 10¼c. A local house has just bought 800 boxes of the Excelsior factory—550 colored and 250 white—September make, at 11c, in the country.

EGGS.

Receipts for the week, 765 bbls and 34,757 cases. There has been little change in the general position. At the close, receipts are running very heavy, but consist chiefly of winter stock—held fresh and limed eggs. Only a few fresh-gathered arrive, and of these a small part have been fancy. At the close bids have been raised for fresh-gathered, but only a few of the receipts show quality to reach our quotation for extras, average lots grading no better than firsts. Icehouse stock is not quotably higher and average holdings are freely offered in range quoted, but a few lots of extra fine bring a premium. Limed eggs dull and unimproved.

FRUITS AND BERRIES—FRESH.

Apples continue in moderate receipt, good demand and firm. Boston pears quiet. Table grapes in moderate supply but moving slowly, and outside quotations are extreme. Cranberries still quite active, and market firmer on top qualities. Florida oranges in heavy supply; stock largely coming out in bad order, and prices very weak and irregular; outside quotation is now reached only for selected counts; average prime straight lines freely offered at $1 50@$1 75, and defective stock is selling mainly to peddlers at 75c@$1 25.

DRIED FRUITS.

Receipts for week, 65,080 pkgs; exports, 2,857 pkgs. Fancy evaporated apples comprise so small a part of current receipts that they are held fairly steady at 11@11½c, but they can be moved only as buyers need the goods. Choice are a little more plenty than heretofore, and have fallen to 10@10½c, while prime are dull and weak at 9¼@9¾c. A car of good fruit, which some buyers might accept for prime, sold at 9c, and some inferior stock for less. Sun-dried apples without much change, but quiet and easy. Chops and cores and skins neglected and somewhat nominal. Peaches have only a small jobbing trade. Raspberries quiet and weak. Cherries steady. Blackberries firm. Huckleberries scarce. California fruits arriving freely and prices favor the buyer.

HOPS.

Receipts for the week, 8,895 bales; exports, 2,924 bales. Imports, 3 bales. Business is a little quieter than it was last week, but holders have lost none of the advantage secured recently; indeed, there is quite a firm holding of the higher grades, with apparently no hurry to sell. Exporters have sent nearly 25,000 bales to England since September 1, and there is a disposition to hold up a little, and see how the foreign markets stand these heavy shipments. Brewers are taking stock moderately as their needs require, but are not inclined to buy at all heavily. Country markets a shade firmer.

POULTRY.

About thirty-two carloads of live poultry arrived during the week, and under a very moderate demand the market has steadily declined. Most weakness is shown in chickens and fowls, and at the close prices for these are down to the lowest point of the season. Turkeys are plenty and must be choice to command 12c. Ducks and geese held up better than other kinds. Western dressed fowls and chickens made some advance following last report, but toward the end of the week prices broke heavily under excessive receipts and very dull trade, and there has since been no recovery. Fresh eggs are in larger supply and quiet, but held steady in view of the approaching Thanksgiving trade. Ducks dull. Philadelphia chickens lower, and squabs are dull and easier. Dry-packed poultry is now arriving in considerable quantity. Average grades sell about the same as quoted for ice-packed, but a few fancy express lots bring a slight premium.

POTATOES AND VEGETABLES.

Domestic potatoes are in moderate supply, and, white prices show no material change, stock is cleaning up closer, and prices rule a shade firmer at the close. Scotch Magnum have fallen to $1 75 under large offerings, but close steadier. Sweet potatoes very dull and easier. Onions in fair demand for prime red, but yellow drag. Cauliflowers quiet. Southern string beans sell well when choice, but many of the arrivals are quite poor and prices show wide range. Very few green peas now arriving; would bring high prices if fancy. Cabbages firm. MILK AND CREAM.

The daily average receipts of milk and cream at the different railroad distributing points in and near the city for the week have been as follows: Erie, 4,005 cans of milk, 21 cans of condensed milk and 125 cans of cream; Susquehanna, 1,715 cans of milk and 11 cans of cream; Lackawanna, 4,225 cans of milk and 35 cans of cream; New-York Central and Harlem, 2,295 cans of milk, 76 cans of condensed milk and 11 cans of cream; New-York and Northern, 875 cans of milk; New-Haven and Hartford, 725 cans of milk; Ontario and Western, 2,687 cans of milk and 81 cans of cream; West Shore, 1,075 cans of milk, 50 cans of condensed milk and 45 cans of cream; New-Jersey Central, 185 cans of milk and 10 cans of cream, and by miscellaneous short routes, 1,500 cans of milk and 46 cans of cream. The total daily supply has been 19,282 cans of milk, 147 cans of condensed milk and 363 cans of cream. The average price paid for the surplus on the platforms has been $1 55 a can of forty quarts. The Milk Exchange price remains unchanged at 3 cents a quart net to the producer.

GENERAL MARKET REPORT.

New-York, November 21, 1893.

COTTON—The cotton market started out with an advance of 2 to 4 points and increased the improvement to 5@10 points, with subsequently a recession of 3 to 5 points from the highest figures of the day, and the tone of the market finally quiet at a net advance of 3 to 5 points as compared with yesterday's closing figures. The sales for the day reached a total of 209,700 bales. The early improvement was due to the better class of cable intelligence, which showed an advance of 3-64d to 4-64d net at Liverpool. At the same time advices from the South were rather bullish, forecasting a let up in receipts and reporting a large demand from American spinners in the Southern markets. The private cables from Manchester reported that the small sales of spot cotton in the Liverpool market were due more to the arbitrary attitude of holders than to the lack of demand. The actual movement of cotton cannot be said to justify the idea of falling off. The present movement points to at least 285,000 bales for the ports, against 253,000 for the corresponding week last year. The interior movement on the other hand shows a falling off. Memphis receives to-day 3,300 bales, against 5,500 bales last week, and 5,000 bales last year. Houston is estimated at 13,345, against 19,900 last week and 15,700 last year. The total receipts at the ports to-day are 33,343, against 59,000 last year. The estimate this morning was for 5,000 at the port to-day. New-Orleans to-morrow is estimated at 15,000, against 12,000 last year. Speculation has been quite active to-day on the reaction theory, it being assumed that the weak long interest has been recently pretty well cleaned up.

COFFEE—The coffee market opened steady at from 5 to 10 points decline, and ruled quiet without much further change, the sales up to 2 o'clock reaching 10,000 bags, including December at 16.30@16.35c, January at 16.10c, February at 16c, March at 15.70@15.75c and May at 15.40@15.50c. There was very little of local speculative nerve. The European news was bad enough, the local traders thought, to cause more pronounced weakness. Thus Havre showed a loss of 1¼f and was barely steady with sales of 31,000 bags; London was from 3d to 1s lower, and Hamburg was from ⅜ to 1¼ pfg lower. There will be a holiday in Hamburg to-morrow. Rio advices of November 20—Market quiet; No 7 quoted 14 ⅛ 800; exchange, 10⅝; receipts, 12,000 bags; stock, 119,000 bags. Santos advices of November 20—Market quiet; good average, 15 ⅛ 400; receipts, 7,000 bags; stock, 184,000 bags. The weekly report from Rio received official correction, making the Santos shipments to United States all, instead of 14,000 bags, and the Santos shipments to Europe, 25,000 bags, instead of 1,000 bags. The market for contracts closed firm and 5 to 25 points lower. Total sales were 21,500 bags, as follows:

Brazil coffee was quiet and nominal, with the tendency toward lower prices. A sale of 500 bags Rio No 7 December shipment was made at 16½c, 1c below last week, and late yesterday 500 bags Rio No 7, spot sold at 18c.

Mild coffee was quiet, but about steady, and 400 bags Maracaibo sold on private terms.

DRUGS—It will be interesting to learn that the idea is that the Ways and Means Committee will levy an additional tax of 20 cents per gallon on whisky and spirits, making the total $1 10 per gallon. There has been a very dull market for opium, with prices continuing their downward course, and values are quite nominal. Single cases can now be obtained at $2 30 and possibly for less money. Jobbing lots are quoted at $2 35, while powdered is marked down to $3 10@$3 15. Quinine however is very firm, with an advancing tendency, and about all of the cash lots heretofore offered at 13@14c have been cleaned up, and 19½@20c is now the quotation, while the makers' price remains at 20c. Camphor and borax remain unchanged, and castor oil quiet at former prices. Essential oils are firm as a rule, peppermint being especially so, holders of H G H asking $3@$3 10 for it. Western is quoted at $2 85, and Wayne County at $2 50. Shellacs are firm locally on the basis of 32c for D C; V S O, 30c; octagon B, 29@30c, according to grades. O C Garnet, 24c; intermediate grades are in limited supply; the London sale went off at an advance of 2s all around. Turpentine is firmly held at 30c. Golden seal rules steady at 21@22c. We quote: Alcohol—Grain (less rebate) per gal, $2 21@$2 28; wood, 95 per cent, per gal, $1; alcolene, $1 50; arnica flowers, per lb, 10@11c. FISH—A lot of 200 bbls of Irish mackerel now due is unlimited as to price, and the receiver will sell at the market when the fish arrive. Most of the Irish mackerel are still held at the minimum limit of $12 50 or $14 per bbl, but the best bids are from $12 to $12 50. It is said that the holding of these Irish fish is hurting the future market, and that the market in January and February will be in bad shape for sellers unless the mackerel now held at limits so far above the present selling price are cleaned up before that time. An effort will be made to induce holders to close out their holdings
