WHOLESALE PRICES OF COUNTRY PRODUCE.

For week ending Tuesday, November 28, 1893.

BEANS AND PEAS.

Receipts for week: Beans, 4,460 pkgs; peas, 9,900 bush. Exports: Beans, 391 pkgs; peas, 5,768 bbls. Imports, 600 bags beans. Choice domestic marrow have held quite steady all the week, but the movement has been very moderate; probably light receipts have been the chief source of strength. Medium rather slow, and $1 90 is reached only for a few of the fanciest marks of Canadian. Pea not over plenty at the moment, and if choice bring $1 75@$1 80. A few nice white kidney would sell to jobbing trade at a fair price. Red kidney have fallen 10c under rather light export orders, considerable accumulations in store and strong pressure to sell; feeling weak at the close. Turtle soup moving only in a small way. California Lima quite plenty, dull and weaker. Foreign marrow are having fair sale at $2 20@$2 25. Imported medium and pea in light stock at the moment, but a steamer with 9,000 bags is close by, and the feeling is no more than steady. Green peas coming forward slowly, and the light shipments in transit cause a firmer holding.

BUTTER.

Receipts for week, 24,333 pkgs. Trade dragged along slowly up to the close on Saturday, and slight weakness was developed on nearly all sorts of fresh butter. Buyers had evidently secured some stock ahead during the previous week, and were inclined to work this off before making further important purchases. So far this week trade has not improved much, but lighter receipts and firmer Western advices have given the market a little steadier tone on the highest table grades. Extra Western creamery is selling at 27@27½c, but the outside figure is the more general rate for perfect quality. Many of the receipts show wintry defects, and there is a liberal supply of firsts and seconds; for these the demand is slack and values rather uncertain. State creamery is very irregular in quality and price; scarcely anything good enough for best trade. Receipts of State dairy continue light, and prices are pretty well sustained. Firkins have sold remarkably well, and fancy lots are not obtainable below 24c. The Western packings are increasing, and under a slow trade are weakening; outside quotations reached only for very choice lots.

CHEESE.

Receipts for week, 30,237 boxes. Exports, 3,293 boxes. We have had a very slow movement again this week, and while the range of values remains about as for some time past the general tone of the market has been a little easier. Receivers have felt inclined to sell the late ends of full cheese, part skims, etc., as promptly as custom could be found, and some of the sales have been at slight concessions. Fancy full cream stock, especially September make, both large and small sizes, held fairly firm, and while not salable to any extent at present, there seems to be considerable confidence in the future of the market. EGGS.

Receipts for the week, 838 bbls and 31,427 cases. There has been little change in the range of prices during the past week, but trade has been very dull and unsatisfactory, and the feeling on most grades is in buyers' favor. Positively fancy fresh-gathered are not over plenty, and are held about steady, but the proportion of stock fine enough to reach top quotation is very small and on average qualities prices are weaker in competition with the better grades of held eggs. Icehouse and limed very dull and outside figures extreme.

FRUITS AND BERRIES—FRESH.

Apples ruled dull and barely steady following our last report, but have moved a little better toward the close. Cranberries firm for fancy grades, plenty and dull. Cranberries firm for fancy grades, but considerable defective stock arriving, which is very slow sale at easy prices. Florida oranges in excessive supply and of very irregular quality and condition; trade dull and prices showing wide range and a low average. Tangerines quiet and easier. Mandarins offered lower and greatly neglected. Grape fruit lower.

DRIED FRUITS.

Receipts for week, 25,527 pkgs; exports, 2,501 pkgs. Evaporated apples are still having quiet sale, and on most grades the market has rather an easy tone. In a small jobbing way 11½c is reached for very fancy quality, but no considerable lots could be moved at the moment above 11c no matter how fine they are. Choice fruit is selling at 10@10½c, and prime at about 9@9½c, with some poorer stock for less. Not much call for sun-dried apples, but the offerings are not large nor urgent, and prices remain about as of late. Chops very dull and cores and skins are weaker. Peaches move only in a jobbing way. Raspberries neglected and weaker; difficult to get over 17½c. Cherries firmer under very light offerings. Huckleberries scarce. Blackberries firm. California apricots hold steady. Prunes very plenty and weaker, but moving into consumptive channels quite freely.

HOPS.

Receipts for the week, 5,068 bales; exports, 5,349 bales; imports, 89 bales. The shipments of hops show up very heavy, but a large part was Pacific Coast stock going forward on earlier orders. New business has been lighter, and it seems to be a sort of waiting market. If English markets absorb recent exports from here and still want hops it is quite certain that values will not go much if any lower on this crop. At present growers feel inclined to hold desirable lots a little firmer, and it is not as easy to buy in any part of the State as it was two weeks ago.

POULTRY.

Fifteen carloads of live poultry arrived yesterday and to-day. The demand was fair for prime stock of all kinds, and prices improved a little. Choice heavy fowls brought 9c to-day, and best lots of Western chickens sold at 7@8c. Four cars of turkeys changed hands at 10@10½c. Ducks and geese moved out freely. Pigeons dull.

Following last report there was a gradual gain in firmness on the better grades of turkeys under a belief that the arrivals for Thanksgiving holiday would be moderate. By the end of the week lines of Western-iced turkeys reached 11@12c, and of dry-packed 11@12½c, with a few gilt-edge lots reaching 13c. Arrivals on Monday were larger than lately anticipated, but it was believed that most of the holiday goods had arrived and that trade would be active. Prices were started at about 14c for fancy near-by goods and 12@13c for good to fancy Western, and considerable business was done on that basis. But late in the day the feeling became easier under heavy offerings, and today (Tuesday), with excessive offerings and a disappointing trade, the market has broken badly. Very fancy goods are not overplenty, but the abundance and cheapness of good, useful qualities make a slow outlet for the higher-priced goods, and the few buyers who insist upon superlative quality find enough for all wants. At the close 12c is about top for any turkeys, except a few extra fancy, up-rivers and exceptionally fancy Jersey lots, and while a few of the best State and Western are still reaching 11½@12c, there is now very little business above 11c, while common to fair grades are going down to 10@10½c. In fact, at the close, the market is somewhat demoralized, and any reasonable offers are accepted. Chickens and fowls have shown little change, and best grades close steady. Ducks and geese have been of very irregular quality, and value with tendency in buyers' favor at the close.

POTATOES AND VEGETABLES.

Domestic potatoes are in moderate supply, but largely below choice and moving slowly. Foreign stock well cleaned up and tending slightly in sellers' favor. Sweet potatoes of fancy quality close a shade firmer under lighter offerings. Onions dull. Cauliflowers in lighter supply and higher. Southern string beans scarce and higher, but arrivals show wide range in quality and value. Florida cucumbers and egg plants in fair demand when choice.

SUNDRIES.

NUTS—Peanuts dull and only jobbing sales at outside figures; quoted at 4@4½c for fancy hand-picked, and 2⅝@3½c for farmers'; Spanish shelled quiet at 2⅝@3c for No. 1; No. 2 quoted at 1⅞@2c; Virginia No. 1 shelled at 2⅞@3c, and No. 2 at 1½c. Chestnuts in liberal supply and quiet; Southern quoted at $1@$1 per bush of 60 ℔; fancy Northern scarce, and a few such reach $2 50@$4 00. Hickory nuts very plenty and dull at 75c@$1 per bush.

BEESWAX—Quiet but firm; quoted at 24½@25c, with some choice lots held at a slight premium.

GINSENG—Market firm; Northern quoted at $3@$3 50; Western at $2 85@$3 20, and Southern at $2 25@$2 70 per ℔.

HONEY—New white clover in single comb boxes quoted at 13@15c; but latter price extreme for any important sales; buckwheat, 10@11c; California extracted jobbing from store at 6¼@6½c; car lots quoted at 5¾@6c per ℔; Southern extracted very dull at 55@70c per gallon.

MILK AND CREAM.

The daily average receipts of milk and cream at the different railroad distributing points in and near the city for the week have been as follows: Erie, 4,078 cans of milk, 21 cans of condensed milk and 124 cans of cream; Susquehanna, 1,743 cans of milk and 12 cans of cream, Lackawanna, 4,170 cans of milk and 25 cans of cream; New-York Central and Harlem, 2,321 cans of milk, 92 cans of condensed milk and 13 cans of cream; New-York and Northern, 885 cans of milk; New-Haven and Hartford, 745 cans of milk; Ontario and Western, 2,677 cans of milk and 84 cans of cream; West Shore, 1,030 cans of milk, 47 cans of condensed milk and 45 cans of cream; New-Jersey Central, 275 cans of milk and 5 cans of cream, and by miscellaneous short routes, 1,400 cans of milk and 35 cans of cream. The total daily supply has been 19,324 cans of milk, 160 cans of condensed milk and 346 cans of cream. The demand has been better this week, the surplus selling at an average of $1 60 a can of 40 quarts. The Milk Exchange price remains unchanged at $1 57 a can.

GENERAL MARKET REPORT.

New-York, November 28, 1893.

COTTON—At an advance of 2 to 4 points, the cotton market opened steady in tone and further advanced 2 to 3 points with improvement due to a better class of cable news, which showed increased sales of spot cotton at Liverpool and a net advance of 1-64 on some positions for future delivery. Later the market sold off 6 to 8 points on predicted full movement at the ports for the week and the unsettled condition of Wall street, the decline in industrials being regarded as particularly significant in connection with the possible changes in the tariff and the fear that the news from Washington for several months to come is likely to continue to upset business relations. Still later the market reacted quite sharply on covering by local shorts in anticipation of the Thanksgiving holiday. This upward movement was assisted by reports from the South, indicating the probability of a smaller movement at interior points. The transactions for the day reached 118,300 bales, and the market closed quiet but steady at from unchanged prices to a net decline of 1 point as compared with yesterday's closing figures. The movement for the week is estimated at 200,000 bales, against 249,000 bales corresponding week last year. We have been unable to get anything like an approximate estimate as to the probable movement at interior points, but in a general way it is believed that it will fall below expectations previously entertained. Hubbard Price & Co. refer to the relation of the tariff subject to the cotton market as follows: "There has been some discussion to-day as to the possible effect of the tariff revision upon cotton manufacturing, but those who have carefully studied the subject do not express themselves as believing that such revision is likely to have any special influence upon the business of cotton manufacturing in America, except, perhaps, so far as the finer grades of goods are concerned. In this department, perhaps, the profits of manufacturers may be reduced by the competition of foreign goods, but the consumption of the raw material thereby effected will be very small. So far as the local aspect of the market to-day is concerned, opinions agree that the short interest yesterday covered at the decline, has been again created to-day, and the effect of this is naturally to strengthen the situation temporarily. It is, however, becoming evident that the persistent snatch of speculation is commencing to weary many of the less determined holders of cotton, and the daily deferred hope of light receipts has the effect of somewhat discouraging them."

COFFEE—The coffee market at New-York opened at from unchanged prices to a decline of 10 points, with orders scarce and the trade traders destitute of speculative energy. The sales on the first call amounting to only 1,750 bags, and by 3 o'clock reaching but 13,500 bags, in lots of December at 16.20@16.25; January at 15.95@15.65; March at 15.60@15.65; May at 15.60@15.65; September at 14.55@14.60. The lower ruling of prices was due to a lack of buying support with the Street showing apathy as to spot coffee, and No 7 quoted 17½c without buyers. At the same time the European advices were anything but encouraging, Havre showing a barely steady market at a decline of 1-64 franc; London a loss of 6d@9d, and Hamburg a loss of 1-64@¼ pfg. The advices from Brazil cut no particular figure, showing a weak market at Rio with No 7 quoted 15 4-00 milreis, and Santos, 10½; receipts, two days, 5,000 bags; stock, 127,000 bags. The Santos market was quiet at 15 8-200 for good average, with receipts of 10,000 bags for two days, and stock 234,000 bags. Cleared from Rio, 10,000 bags. The market closed steady at from unchanged prices to 15 points decline. The market for contracts closed steady and 5 to 15 points lower. Total sales were 13,500 bags, as follows:
