Wednesday, November 29—p. m.

In view of the occurence of a National holiday a further shrinkage in the volume of business to-day was not perhaps wholly unnatural. It brought, however, an irregularity in prices which was unexpected and in a sense inexplicable. There were no new developments of an unfavorable character; the money market was not disturbed by even a suspicion of a flurry; the foreign exchanges were not higher, while there was evidently considerable buying for European account; reports of railway net earnings in October continued to show great economy in working expenses, and above all the short interest in the market had not been eliminated, and perhaps not materially reduced. The movement of prices, in spite of these conditions, was distinctly irregular throughout the day. The industrial shares remained the chief centres of interest, and excepting Chicago Gas, which was subjected to unusually powerful manipulation, they slowly tended toward a lower level. Even that stock fell over 1 per cent from its highest point, but after a final rally scored an advance of 1⅞ per cent. Sugar Refining held the first place in point of activity, but the transactions were only half as large as they were yesterday. Its first price was the highest and, although it closed a fraction above its worst figure, it suffered a loss of 2⅞ per cent. Distilling and Cattle Feeding followed the same general course, and while its fluctuations were less wide, it closed at virtually its lowest point with a loss of 1⅞ per cent. The dealings in General Electric, National Lead, Cordage and still less prominent members of the group were on a small scale, but the tendency was in the same direction, although final losses were somewhat less than 1 per cent, and National lead exceptionally ended without change. These stocks were controlled largely by the current discussion about the proposed changes in the tariff and by the uncertainty about the action of Congress on them. A protracted struggle, even in the lower house, is by no means improbable, and before the new tariff bill is ready for the Executive approval it may be modified in many important particulars. Friends of the industrial stocks freely admit their intention to oppose the passage of the present measure, and the influence in behalf of the Sugar Refining Company may not be despised.

With one exception railway stocks were strong and in the main higher. Chicago, Burlington and Quincy scarcely bettered its first price, and closing at its lowest point it lost 1 per cent. St. Paul wavered within narrow limits, but it closed slightly higher, and other Granger shares made fractional advances. Louisville and Nashville rose further about 1, and New-York and New-England 1¼ per cent. In fact, the railroad list showed a plain inclination to separate from the industrial group. The closing was irregular, and while final changes were divided the advances were more numerous than the declines.

THE DAY IN THE BOND MARKET.

A sale of $10,000 registered 4s at 112⅛, ex-interest, was made at the Stock Exchange. The advance in bids recorded yesterday was fully maintained, and the market was strong at relatively unchanged quotations as follows:

	Bid.	Asked.		Bid.	Asked.

*Ex interest.

Among State issues Virginia funded 2-3 per cents were moderately active at 54¼. Of city bank stocks Western National sold (5) at 109. Unusually large sales at auction are reported in another place.

The general bond market was distinguished by a further advance in the prices of the leading issues. Atchison general 4s advanced ½ per cent to 73⅞ and A seconds remained firm, but not substantially higher, at 40⅝@40½. St. Louis and San Francisco seconds, class B, gained ¾, and class C 1 per cent, but Colorado Midland 4s reacted ½ per cent to 43½. Erie second consols rose to 76, and at 75½ closed at an advance of ⅝ per cent. East Tennessee, Virginia and Georgia gold 5s rose 1 per cent to 90½. Philadelphia and Reading incomes continued to be neglected, although general 4s were unusually active, and a small fraction better at 72½@72¾. Texas and Pacific firsts advanced ¾ per cent to 80¼, and income seconds further gained the same fraction at 22⅝. The trading in the seconds was fully one-sixth of the total business. The most prominent exception to the general movement was furnished by Northern Pacific consol 5s, which fell 1¾ per cent to 31⅝. Chicago and Northern Pacific firsts were quiet, but they closed ¼ per cent lower at 48¼. Reference is made to our full report of bond sales.

Rates for call money were entirely featureless, the supply of funds being ample at 1@1½ per cent.

The Clearing House statement was as follows: Exchanges, $98,667,605; balances, $4,863,450.

The Sub-Treasury was debtor to the Clearing House $614,988. Its net gain on balance was $43,659, made up by a gain of $136,504 in currency, minus a loss of $92,845 in coin. The day's operations covered: Receipts, $3,778,022; payments, $3,734,362, resulting in a general balance of $86,780,738, consisting of $61,958,985 coin and $24,821,780 currency.

The United States Treasury at Washington received to-day $446,668 National bank notes for redemption.

The customs receipts were $420,464, the internal revenue receipts $510,871, and the miscellaneous receipts $55,090.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Nov. 28.	Nov. 29.	Differences.
Net gold on hand	$85,509,536	$83,320,198	Dec. $189,338
Net legal-tenders on hand	4,922,410	4,627,186	Dec. 295,254
Net silver on hand	5,820,020	5,874,020	Inc. 44,369
Actual cash in the Treasury vaults over outstanding certificates	$94,261,666	$93,821,443	Dec. $440,223
Deposits in bank	12,081,512	12,240,703	Inc. 159,241
Net cash bal.	$106,343,178	$106,062,196	Dec. $280,982

The foreign exchanges were strong, without change in rates. Commercial acceptances were scarcer, but the demand for remittance was not large. The principal business was in cable transfers, for which full rates were obtained. On London the rate for cables was $4.86½. Following are quotations for actual business: Bankers' bills, $4.83@$4.83½ and $4.85¾@$4.86 for long and short sterling respectively; French francs, 5.20@5.19¾ and 5.18⅛@5.17½; reichmarks, 94⅞@95 and 95 9-16@95⅝.

In London British consols rallied 1-16 to 98 7-16 for both money and the account. No change in the bullion balance of the Bank of England was reported. In the open market money was firm at 2⅝ per cent for discounts and 2⅝@2½ per cent for bankers' balances. Bar silver was weak at 32d. an ounce, and rates of Indian exchange were easier. The demand for bar gold was less active, and the price yielded slightly to 77s. 11¾d. an ounce. American railway shares were active and generally higher, advancing until near the close, when small concessions were permitted. At Paris French 3 per cents advanced 5 centimes to 99.12½, sight exchange on London being lower at 25.16½ francs to the £ sterling.

The following securities were sold at auction at the New-York Real Estate Salesroom by Adrian H. Muller & Co.:

$3,000 Citizens' Gas Light Co. of Brooklyn, first mortgage 5 per cent bonds, due April, 1905, 98⅞.

$4,000 Nassau Gas Light Co. of Brooklyn, 5 per cent certificates, 100.

$5,000 Prospect Park and Coney Island Railroad Co. first mortgage 7 per cent bonds, due January, 1895, 100.

$15,000 Knickerbocker Ice
