WHAT WAS DONE IN STOCKS.

Friday, January 12—p. m.

The stock market was dull, but strong. The transactions amounted to as much as 122,000 shares, and final changes were fractional advances. There was some talk about an issue of Government bonds, and the Secretary of the Treasury was said, at last, to have appreciated the condition of the department of which he is the nominal head. It was said even that in view of the inaction of Congress he was about to issue bonds under the existing law. The exigencies of the Treasury have become so great that any authority for a bond issue is welcomed gladly. Unfortunately the Democratic party hesitates to adopt a reasonable financial policy, and consequently the issue of silver certificates against the alleged seigniorage again was suggested. The Treasury appears to be embarrassed, and it has only one means of relief, but it is unwilling to adopt this course. It must finally issue bonds because in no other way can the obligations of the Government be satisfied. In the uncertainty about legislation the stock market has come to a complete standstill. In the movements to-day Sugar Refining, Western Union and the principal Granger stocks gained about 1 per cent and Louisville and Nashville, which was second only to St. Paul in activity, exceptionally lost a large fraction. The conservative action of the directors of this company was not a favorable influence on speculation, because it was believed to have been forced. It must be remembered that the capitalization has been greatly increased in the past ten years, while the traffic has not grown in the same proportion. It should not be overlooked, moreover, that the bulk of the stock and bonds is held in Europe. This predominance of foreign holdings is in this and some other instances something less than an advantage.

The advances in most stocks were not unreasonable. There is a slight improvement in business in many departments, and, if it was not for the uncertainty about legislative action conditions would be distinctly better. Confidence might be restored if Congress was not in session and a reform in the methods of taxation was not threatened.

THE DAY IN THE BOND MARKET

There were again no transactions in Government bonds at the Stock Exchange, but the market was strong and holders of 4s advanced the asked prices. The closing quotations were as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4's, 1891			U. S. cur. 6s, 1895	102	...

Dis-Col. 3-65, 1899	111½	112			

State issues were neglected except for a sale of $2,000 Louisiana new consolidated 4s at 95. Of city bank stocks Central sold (5) at 120, and National Exchange (10) at 120.

The general bond market was brought to a standstill. Bonds which are desirable for investment were scarce and other issues which were less desirable were offered with great freedom. The total business, however, was small and, perhaps, there may have been some washing of sales. In several directions prices were sustained by artificial means. Atchison general 4s closed ½ per cent lower at 68 and A seconds after 33½ were a trifle lower at 32⅞. Northern Pacific issues were prominent by their weakness, but the largest declines in them were in the first mortgage bonds. Texas and Pacific firsts were ¾ per cent lower at 74 and income seconds practically unchanged at 19⅝. There was an unusually large business in West Shore 4s both registered and coupon. Reference is made to our full report of bond sales.

Money on call remained in excessive supply at 1 per cent.

The Clearing House statement was as follows: Exchanges, $76,639,041; balances, $6,216,316.

The Sub-Treasury was debtor to the Clearing House $1,487,942. The business of the Sub-Treasury for the week ended to-night includes receipts of $31,710,846, and payments of $28,679,212, leaving the general balance $90,902,897, against $87,871,261 on January 5, an apparent gain of $3,031,636. Deducting from the payments $8,200,000 and from the receipts $10,910,000 for items which affect only its account with the general Treasury, its gain as affecting the banks is $422,634, and this result does not include deposits of $50,000 for payments at other points or transfers of $60,677 Pacific Railroad bonds.

To-day's operations included: Receipts, $8,651,965; payments, $10,084,776, with balances of $60,515,660 coin and $30,387,217 currency.

The United States Treasury at Washington received to-day $558,020 National bank notes for redemption.

The customs receipts were $348,822 the internal revenue receipts, $438,991, and the miscellaneous receipts, $53,442.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

Net gold on hand	$74,169,330	$74,108,149 Dec.	$61,250

Net cash bal.	$100,486,021	$191,070,193 Inc.	$583,532

The foreign exchanges were dull and heavy. After a decline in rates there was a rally which left prices a little lower but practically unchanged. Following are quotations for actual business: Bankers' bills, $4.84¼@$4.84¾ and $4.85½@$4.86¼ for both long and short sterling respectively; French francs, 5.18¾ and 5.16¾; reichsmarks, 95 and 95½.

In London British consols again were higher at 98 13-16 for money and the same price for the account. The Bank of England gained £27,000 bullion on balance. In the open market money was firm, at 1⅝ per cent for discounts, and dearer at 1⅝@1½ per cent for daily balances. Bar silver was quoted steady at 31¾ d. an ounce. American railway shares were depressed, and last prices were almost without exception the lowest for the day. At Paris French 3 per cents were strong, at 98.15 and 98.10, sight exchange on London being unchanged at 25.17 francs to the £ sterling.

The Louisville, New-Albany and Chicago Railway Company has declared a dividend of 1½ per cent on the preferred stock for the six months ending December 31.

A semi-annual dividend on the capital and safety funds equivalent to 7 70-100 per cent on the capital has been declared by the Oriental Insurance Co.
