## THE GENERAL MARKET REPORT.

New-York, January 20, 1894.

COTTON—The cotton market opened irregular and weak in tone. The first call, though opening at an advance of 2 to 3 points, finished at a decline of from 1 to 6 points. Still later there was active liquidation which carried prices down to a net decline of 7 to 8 points as compared with yesterday's closing figures, with the market finally easy in tone at the lowest prices of the day. Although the session lasted but two hours, owing to the Saturday half-holiday, the sale reached a total of 557,200 bales. The value of the weakness was primarily the large movement, receipts running much beyond estimates, and taking the most pronounced bear by surprise. An additional factor of weakness was the bearish character of the English advices; the Liverpool cotton market closing at a net decline of 1-16@2-64d for futures, and showing disappointing sales of spot cotton. The movement for next week is variously figured at 140,000 bales to 150,000 bales at the ports, against 170,674 last week, and 70,444 last year the corresponding week. Today's receipts at the ports are estimated at 28,000 to 31,000 bales, against 15,009 bales last year. Receipts at New-Orleans Monday are estimated at 10,000 to 11,000 bales, against 9,028 bales the previous week, and 4,413 bales the corresponding date last year. The movement is not made large by exceptional receipts at any particular point, but are large in an all around fashion that is once more causing a good deal of inquiry on the part of the bulls as to whether they have not, after all said and done, been deceived by the reports of depletion in stocks at remote interior points. At all events the bear showed a great deal of courage, and were to-day quite active sellers.

Opening, range, and close to-day, and closing bids the previous night and last year follow:

COFFEE—The market for coffee opened dull, with January bids 10 points lower, and others from unchanged to 5 points lower. Only 250 bags were sold on the call, and for the entire session only 2,750 bags. The general business was at a decline of 5 to 10 points, and the market finally closed barely steady in tone at the lowest prices of the session. The weakness of the market was due to local selling, brought about by the apathy of the spot coffee market and by the unsatisfactory form of European advices. The Havre market was reported dull at from unchanged prices to ¼ fr higher, with sales of 9,000 bags. London was dull at unchanged to 3d lower. Hamburg was quiet and unchanged, with sales of 7,000 bags. There were no advices from Brazil. The market contracts closed barely steady, and 5 to 10 points lower. The sales were 3,750 bags, as follows:

The market for Brazil coffee on spot is very quiet and the lack of demand has induced holders to modify their views somewhat, with the result of reducing the quoted basis to 19c for Rio No 7 on spot. No important invoice lots are traded in to-day.

Mild coffee rules quiet but about steady, with prices practically unchanged: Cordova quoted at 20@20½c.

FLOUR AND MEAL—It was a good winduo to the market for this week in flour, sales amounting to the insignificant total of about 3,500 bbls. Prices were nominally steady, not enough business passing to make a genuine tone to trade. The sales in spring patents were at $3 90, which is all the trade wants to pay now, and while Minnesota patents are held at $4 10, there seems to be enough flour for sale below $4 to supply all the demand at present seen. Sales included 750 bbls winter patents, at $3 25@$3 55, 1,500 bbls winter straights at $3@$3 15, 150 bbls extra fists at $2 50, 150 bbls extra at $2 25, and 250 sacks superfine at $1 75. In spring patents there were 500 bbls at $3 90, and in spring extra fists 250 sacks at $2 10, a little out of Southern stratights sold at $2 95. BUCKWHEAT FLOUR—The market was dull and nominal at $2 50@$2 65. RYE FLOUR—The market was dull; sales, 100 bbls at $2 85. Quotations follow:

CORNMEAL—Market steady; sales, 400 bbls. Yellow Western quoted at $2 50@$2 75; Brandywine, $2 75; Sagamore, $2 70. Southern white, bags, $1@$1 10. BAG MEAL—Very; quotations: fine white Western, $1 90; yellow, 92@95c; coarse, 83@85c. FEED—Market firmly held; quotations of Western carlots: 40-lb, 80@85c; 60-lb, 80@85c; 80-lb, 80@85c; 100-lb, 85@90c; sharps, 95c@$1; city feed is held at 85c in bags; rye feed, 80c; hominy chop, 90@95c; corn-and-cob meal, $1 (odd 40); oil meal, $1 40.

GRAIN—WHEAT—The volume of dealings in the grain market to-day was small, but with the general result favorable for the believers in improvement rather than in further decline. The opening of the wheat market was steady and stimulated by Bradstreet's statement showing larger exports from the United States during the last week than had been generally expected, advancing ⅛@⅞c, closing steady at the advance. Foreign news was of very dull markets, and there was scarcely anything in the way of foreign trade. The movement of wheat at the interior has shown a large increase this week, while on the other hand experts have shown a decrease. Based upon this there has been a tendency in the last few days to estimate an unfavorable showing in the visible on Monday, and some of the most unfavorable statements indicate an increase of considerably over 500,000 bush. The cash market here was neglected. Quotations follow: No 2 red, 84½c under May in store; May closed 69⅝c, 2⅛c under May f o b afloat; No 1 Northern Duluth, 1½c over May delivered.....CORN—There was a very quiet market in corn, but, as in wheat, a considerably better tone was exhibited, and prices improved slightly on the absence of offerings rather than on any large demand either speculative or cash. Perhaps the strongest feature in the market is the fact that interior receipts are beginning to show a tendency toward decrease, and if this proves to be the case there is a likelihood of some improvement, as the large receipts have been the greatest bear factor of any in the situation. The close on futures was on the net advance. Cash corn was firm. Sales were 68,000 bush, including 8,000 bush for export, as follows: No 2 corn, 39,000 bush, 4½c elevator; No 2 corn, 5,000 bush, 43½c delivered; yellow, 15,000 bush, 43c elevator; No 2 yellow, 10,000 bush, 43½c delivered; steamer, 5,000 bush, 42½c elevator. OATS—The dealings in oats were on a relatively small scale to-day, but with prices showing a fairly steady undertone. There was not a great deal of pressure, and on moderate buying prices improved, closing at ⅛@⅛c net advance. Cash oats were quiet but firm. Sales were 39,000 bush, as follows: No 2 oats, 8,000 bush, 33⅞c elevator and 33½c delivered; No 3 oats, nominal, 32½c; No 2 white, 5,000 bush, 34c; No 3 white nominal, 34c; track white, 22,000 bush, 35@40c; track mixed, 2,000 bush, 33½c; No 2 white clipped, 1,000 bush, 37c; No 3 white clipped, 1,000 bush, 35c.....MALT—Market dull; Western, 65@80c; Canada, 90@95c; six-rowed, 80@85c.....BARLEY—Dull; No 2 Milwaukee, 64@65c; ungraded Western, 63@64c; two-rowed State, 62@63c.....RYE—Market nominal.....BUCKWHEAT—Dull and weaker; Canadian, export, 75c asked; State, 75@80c.....SEEDS—Cloverseed quiet; No 1 January, $11 asked; sample seed, $10 50@$11 50; sales, 50 bags. Timothy—Market quiet, but steady; small sales of sample seed from store were made at $1 25@$1 35 per 100 lb.

Estimated deliveries at all points, 1,100,000 bush. RICE—There was a slow sales movement for domestic rice and only a fair demand for foreign, with prices about steady. The primary markets are quiet but about steady. SUGAR—RAW—No important sales were reported today, but the market is working into a stronger position, and it is said that 3c was bid for 96 centrifugal afloat ex-ship, but this was afterward denied. It is stated that sugar can be bought in Cuba at 2 11-16c cost and freight. Some authorities think that holders are asking too much, however this may be, the position is certainly a strong one. We quote: Centrifugal, 96 test, 3c; muscovado, 89 test, 2⅝c; molasses sugar, 89 test, 2⅜c. Today's London cable was as follows (Cane full): No clearances. Java, 15s fair refining, 15s. ## COUNTRY PRODUCE MARKETS.

New-York, January 20, 1894.

BEANS AND PEAS—There are fair calls from outtown for imported beans, and the stock of the Belgravia is passing out of first hands quite readily; general sales of prime lines of medium and pea are at $1 55, jobbing sales of very choice quality at $1 60. Buyers are current of about 18,000 bags to arrive from Mediterranean ports in about two weeks. Domestic white beans are without quotable change, and red kidney, though showing a little easier tone for a few days past, are no lower as yet. California lima moving mostly in a jobbing way at $1 55; carlots would not bring over $1 50. Green peas favor the seller. We quote: Peas, marrow, choice, per bush, $2 45; fair to good, $2 20@$2 35; medium, $1 80; pea, $1 75; white kidney, $2 20@$2 25; red kidney, choice, $2 25@$2 35; do, fair to good, $2@$2 10; black turtle soup, $2 10@$2 15; yellow eye, $2 05@$2 10; lima, California (60-lb), $1 50@$1 55; foreign, medium, $1 50@$1 60; do pea, $1 55@$1 60; do marrow, $2 20@$2 25; green peas, bbl, $1 20; do bags, $1 15@$1 17½; do Scotch, bags, $1 40.

BUTTER—The steadier feeling noted yesterday was more marked to-day, especially on high grade fresh table butter. Receipts have been so much lighter for a few days past that sellers have been able to clean the stock up more closely, which has caused a more cheerful tone and brighter outlook for next week. The course of the market will, however, depend largely on the supply. If arrivals show as much falling over next week as they have this week a slight advance on fancy creamery will be established. The great bulk of accumulations now in store will be benefited only by lighter supplies of fresh goods or further considerable buying for export. The shipments this week are 2,600 tubs. We quote: Creamery, State, full made, per lb, 18@22c; do Western, extras, 25½c; do firsts, 22½@24c; do seconds, 19@21c; do thirds, 18c; do summer make, 17@22c; State dairy, half tubs, extras, 22@24c; do firsts, 20@21c; do seconds, 18@19c; State dairies, entire extras, 22c; do firsts, 20@21c; do seconds, 18@19c; State dairy firkins, extras, 22c; do firsts, 20@21c; do seconds, 18@19c; do tubs or firkins, thirds, 16@17c; Western imitation creamery, firsts, 16@18c; do seconds, 14@15c; Western dairy, firsts, 16@17c; do seconds, 14@15c; Western factory, firsts, extras, 15@16c; do firsts, 14@14½c; do seconds, 13@c; do thirds, 12c.

CHEESE—The usual Saturday dullness prevailed today, but there was no change in the general condition of the market. Most holders would like to see a little more business than has been accomplished this week, but the moderate stocks here and at some distributing points encourage a steady holding. Jobbers are selling quite a general dissatisfaction to buy only from meal to meal, and the foreign inquiry is small for cable price cheese, say from Ile downward. Shipments for the week were 6,492 boxes. Liverpool cables, 51s. We quote: State, partly full cream, fair make, large, fancy, 11¼@11¾c; do choice, 11¼@11½c; do good to prime, 10¾@11c; do common to fair, 9@10¼c; do small size, fancy, 12¼@12½c; do choice, 11@12¼c; part skims, choice, 9@9½c; do good to prime, 7½@8½c; do common to fair, 4@7½c; full skims, 2@3½c; Pennsylvania skims, 2c.

EGGS—The slightly steadier tone noted yesterday is more pronounced to-day. Advices from the interior indicate that collectors are now getting fine stock at the low rate offered, and with a gradual increase in demand here and a general feeling that prices have reached bottom for the moment, holders are inclined to ask a little firmer rates. Under the call on Chaine 100 fcs extra sold at 14½c, and that price has been made on a fair quantity of stock sold from store, but some of the fancy buyers have refused to take hold above 14½c, and that price has been accepted for a good many, rather than hold over. A fair movement in held eggs at the extremely low rates quoted. We quote: Western fresh-gathered, per dozen, 14@14½c; Southern, fresh-gathered, 14@14½c; Tennessee, fall packed, per case, $2 25@$2; do spring packed, per case, $1 50@$2 25; fresh-laid, per dozen, nominal.

FRUITS—Apples are in moderate supply and steady. Grapes continue dull, with few sales at top quotations. Cranberries still quiet; the larger holders express some confidence, owing to a belief that remaining supplies are light for the season; but there is small and forced sales found to be made only by shading the usual asking prices. Florida oranges are still in heavy receipt and of very irregular quality, a large part of the arrivals being of ordinary grade or worse; all such are pressed for sale at former low prices, and there is positively fancy sound bright fruit the tone is steady. Fancy grades of tangerines, mandarins and grape fruit are in fair demand and steady. We quote: Apples, Baldwin, per bbl, $4@$5; do Greening, $4@$4 50; do, poor to fair, $2 50@$3 75. Grapes, Catawba, per small basket, Sailor, Cumberland, Cape Cod, per lb, 25@27; do Jersey, per crate, 12@20c. $1 50. Oranges, Florida, sound, Indian and Halifax River, per box, $1 50@$2 50; do other sections, sound, per box, $1 25@$1 75; do unsound, 50c@$1. Grape fruit, per box, $1 50@$3. Huckleberries, 11c. Blackberries, 7c. Apricots, California, 11@16c. Prunes, boxes, 5@8c; bags, 4@5c.

HOPS—Exports have the appearance of the receipts this week, the former being about 2,400 bales. Most of these hops were previous purchases, and do not represent actual business of the week. Trading today was very quiet throughout, but the situation shows no change worthy of note. We quote: New-York State, 1893, choice, 28@30c; do prime, 25@27c; do common to good, 16@18c; do 1892, 14@18c; do 1891, 14@18c; do Pacific Coast, 1893, choice, 24@27c; do common to prime, 16@21c; do 1892, 14@18c; old odds, 5@11c.

HAY AND STRAW—Supply rather liberal, trade inactive, and prices barely steady. We quote: Hay, prime, per 100 lb, $1 20@$1 25; fair to fine, 90@$1; clover, mixed, 80@90c; clover, 65@75c; rye straw, long, per 100 lb, 50@55c; do short, 40@50c; oat straw, 40@45c.

POULTRY—LIVE—Supply rather liberal, prices had to be accepted to day for all kinds of working stock, but the market has cleared fairly well, the only exception being fowls. Turkeys seem to have the best demand at present, and warm days seemed considerable late at from 5c to 6c. Ducks and geese trade with no surplus of good stock; pigeons firm. We quote: Fowls, large and Western, 9@10c; chickens, large, Western, 12@13c; small, 9@10c; old roosters, 6@7c; spring ducks, large, per pair, 50@75c; small, per pair, 25@50c; spring geese, Western, per pair, 50@75c; spring turkeys, Western, per lb, 12@14c; pigeons, per pair, 20@25c.....DRESSED—Not much doing today, but while there are still a number of lots of old and ends on hand, the stock of Western turkeys, fowls and chickens has now been cleared from the market, and a fairly steady tone on fresh grades at unchanged prices. Philadelphia chickens are firmer and extremely dull. Capons have little outlet on current trade, and speculative buyers offer very low prices. Small sales of extra large exceed quotations, but generally prime are offered at one to two cents below quotations, and rather lower. Ducks, fair to good, and heavy at any price. Squabs in demand. We quote: Turkeys, fancy, heavy, per lb, 10@11c; Western, per lb, 9@10c; chickens, Philadelphia, per lb, 16@18c; do Jersey, fowls, fancy, 16@17c; chickens and fowls, Western, average prime, 12@13c; do inferior, 6@7c; ducks, Long Island, 16@17c; do Western, per lb, 10@12c; squabs, white, per dozen, $2 25@$3 50.

GAME—Fine sound quail are still scarce and firm, but poor qualities are neglected. Fancy partridges in light supply and steady, but medium and large grouse plentiful and hard to move. Grouse are more plentiful and firm. We quote: Quail, per dozen, $1@$1 50; partridges, per pair, 50@$1; grouse, per pair, 50@75c; wild ducks, canvas, Havre de Grace, per pair, $1 50@$2; do Western, 50@$1; do red head, Havre de Grace, per pair, 50@75c; do Western, 50@$1; do mallard, Western, 75@$1; common kinds, 50@75c; teal, per pair, 25@50c; snipe, per pair, 60@75c; hares, per pair, 25@50c; rabbits, per pair, 60@75c.

POTATOES AND VEGETABLES—Receipts of potatoes are in fair supply, quiet and no more than steady. Sweet potatoes firm at the recent slight improvement, but demand inactive at the moment. Southern vegetables in moderate supply, but quiet. Onions barely steady. Note Norfolk kale in to-day, and a few lots of spinach need only a very slight call at unchanged prices. Lettuce, Southern grown vegetables continue to come, such as asparagus, beans, etc., and there is some fine quality, but in as arrive in poor condition and have to be sold for what they will bring. Cabbages are quiet and easy for all kinds to negotiate. Long receipts of winter vegetables need a fair demand at about steady prices. We quote: Potatoes, Long Island, per bbl, $2@$2 25; do Jersey, $1 50@$1 75; do other, $1@$1 50; do Scotch diggings, per bag, $1 75@$1 90; do sweet, per bbl, $1@$1 75; do Virginia, per bbl, $1@$1 75.
