WHAT WAS DONE IN STOCKS.

Monday, January 29—p. m.

Except for the trading in about a half-dozen issues, the stock market to-day would have been an insignificant affair. Two stocks—American Sugar Refining and Chicago Gas—were the real leaders in point of business, and both closed at practically the lowest points, showing declines of 2½ and 3¾ per cent respectively. For the fall in American Sugar there was the excuse of a reduction in the price of the commodity the company deals in, as well as the threatened success of the sugar schedule in the Wilson tariff bill. No explanation was offered for the weakness in Chicago Gas. The usual rumors of injunctions and hostile legislation were missing, and, perhaps, advantage was taken of the coming departure for Europe of one of the most prominent directors of the company. General Electric lost nearly 2 per cent on distinct assertions that a new opposition was being organized, but the price rallied all but 1 per cent when authoritative denial of the reports was made. Western Union Telegraph was strong, because of a vigorous demonstration against a new short interest, but after rising from 84½ to 85¼, it receded to 84¾. New-York and New-England was purely speculative in its movements, but the rally from early sales at 9½ to 11¼@11¾ was sharp. The international shares were disposed to be strong at the outset under an appearance of foreign buying, but Chicago, Milwaukee and St. Paul later receded from 59¾ to 58¾@58⅞, and Louisville and Nashville from 47¼ to 46¾@46½. The fall of over 2 per cent in Delaware, Lackawanna and Western was a not unnatural reaction from recent extreme strength.

The market seemed to show indifference to the significance of the visit of the Secretary of the Treasury in connection with the proposed issue of new 5 per cent bonds. It is difficult to discover the utility of the Secretary's conference at the Sub-Treasury with a considerable number of invited bank presidents. Mr. Carlisle's personal assurances of his confidence in the legality of the issue were not needed here, for New-York bankers do not take a Populistic view of the situation or of the Secretary's authority. No propositions of support resulted from the conference, for no appeal was made, and Mr. Carlisle indicated on desire to receive the subscriptions lacking from this monetary centre. Should a revision of programme become necessary to the Treasury Department, there is no doubt that the New-York bankers will cordially respond to any offer made upon a reasonable basis, while if the confidence of the Administration in its bond policy is well founded, it would be superfluous to seek any change in the present terms of the 5 per cent loan. The certainty that the Government can command unlimited credit robs of its possible adverse effect the existing indisposition of New-York capital to accept one particular loan offered on terms that are not considered satisfactory or attractive.

The market closed irregular, but with prices nearer the lowest than the highest points of the day.

THE DAY IN THE BOND MARKET.

Government bonds were neglected at the Stock Exchange, and bids for the 4 per cents were reduced ¼ per cent. Following are the final quotations:

Among State bonds Tennessee settlement 3s were active at 75, while small sales of Alabama Midland firsts were made at 85. The only sale of city bank stocks was Mechanics' (54) at 172.

The transactions in the general bond market fell a little below the recent daily average, amounting to $1,086,000 face value. Prices were irregular and final changes were important in only exceptional instances. Northern Pacific issues were strong on reports that money had been raised to help the present management in its conflict with the receivers. Firsts coupon rose 1 to 110 and registered 2¼ per cent to 107¾; thirds coupon gained the fraction at 58½ and consol 5s are up 1¼ per cent, to 28¾. Atchison issues were a shade better, but Colorado Midland 4s declined 1¾ per cent to 30. On small sales East Tennessee, Virginia and Georgia consol 5s were 4¾ per cent lower at 88¾. Philadelphia and Reading issues, after early strength, closed heavy at net losses of ¼@½ per cent. Texas and Pacific income was active, but after sales at 21¾ ended unchanged at 21½, the firsts losing ¼ per cent, at 76¼. Reference is made to our full report of bond sales.

Money on call remains exceedingly easy at 1 per cent.

The Clearing House statement was as follows: Exchanges, $56,700,057, balances, $3,602,248.

The Sub-Treasury was debtor to the Clearing House $480,976. Its net gain on balance since Friday was $1,375,920, made up by a gain of $1,829,782 in coin, minus a loss of $453,862 in currency. The two days' operations included: Receipts, $5,842,907; payments, $4,466,987, resulting in a general balance of $95,463,005, consisting of $62,681,706 coin and $32,721,299 currency.

The United States Treasury at Washington received to-day $326,406 National bank notes for redemption.

The customs receipts were $412,899; the internal revenue receipts $754,013, and the miscellaneous receipts $231,569.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

	Jan. 27.	Jan. 26.	Differences.
Net gold on hand	$67,131,564	$66,336,674 Dec.	$1,40,800
Net legal tenders on hand	5,090,239	5,186,043 Inc.	395,804

Net cash balance	$92,399,484	$92,250,115 Dec.	$149,369

In the foreign exchanges the only feature was dullness. There was no appreciable increase in the supply of bills, but owing to the light demand sterling rates were a shade lower. Continental exchange holding firm. Following are quotations for actual business: Banker's bills $4 84½@4 84¾ and $4 86½@4 86¾ for long and short sterling respectively; French francs, 5 20@5 19¾ and 5 17½; reichsmarks, 94½@94¾ and 95 3-16@95¼.

In London British consols were unchanged at 98 13-16 for both money and the account. The Bank of England gained £81,000 bullion on balance. In the open market money was easier at ¾ per cent for daily balances, but dearer at 2@2½ per cent for discounts. Bar silver was weak and 1-16d lower at 30 11-16d an ounce. American railway shares were neglected, but slightly higher. At Paris French 3 per cents were a little higher at 97 02½ after a reaction form 97 25, sight exchange on London falling to 25 18 francs to the £ sterling.
