GENERAL MARKET REPORT.

New-York, February 2, 1894.

COTTON—The market closed steady in tone and 7 points lower than it closed last night. It opened at a decline of from 3 to 6 points. The highest point on May was 7.56c and its lowest, 7.48c. Liverpool closed with a decline of from 1-16 to 3-16, which was disappointing to the local traders. Early in the afternoon the market broke several points on some heavy selling, which was said to be for account of a New-Orleans pool which had been organized for the purpose of bearing the market, but it should be said, however, that this pool report was not freely accepted as being true. There is a noticeable lack of speculative interest and very few outside orders are placed in the hands of brokers. The short crop movement will not be accepted as an actuality until the movement showed a steady falling off for the past months of so. The trade has been deceived so many times on an expected light movement that their faith is shaken hence they are slow to believe that the movement from today, which is light, really means that the receipts will be light from now on. It is generally supposed that the Senate will take two or three months in discussing the Tariff bill as passed by the House, and this fact is a pressing influence on the market. It is feared that this feeling will extend to the mills and that they will refrain from taking cotton freely. It is said that the stock of cotton in the United States should be readily carried by British and Continental capital if the crop should prove to be 7,500,000 bales or less, which many believe will be the outcome of the crop. Private cables say that heavy imports depress the Liverpool market. The sales of spot cotton there are less than anticipated. Receipts at Memphis to-day were 1,156 bales against 1,534 bales this day last year; at St. Louis 363 bales, against 515 bales; at Houston 2,800 bales, against 3,436 bales. The New-Orleans market was steady at a net decline lower than it closed yesterday. Other Southern markets about unchanged. The net port receipts today are 18,340 bales. Exports today: Great Britain, 6,541 bales; France, 108 bales; Continent, 3,391 bales. Consolidated net port receipts so far this week, 112,124 bales. Exports so far: Great Britain, 70,102 bales; France, 11,237 bales; Continent, 40,555 bales; total, 121,894 bales; stock, 1,075,220 bales.

Market closed steady. Transferable notices, 7,75. Total sales, 165,300 bales.

New-York spot sales today and last night: For consumption, 139 bales; spot market quiet and steady; middling uplands, 7 15-16c; middling Gulf, 8 3-16c, which is 1-16c lower compared with yesterday. Futures opened steady, with moderate business, but prices, 1@3 points lower, but recovered, closing steady, with 4,600 bales being in the hands of New-York importers and speculators.

HIDES—The demand for hides is very slow and sales are therefore limited owing to indifference shown by buyers of leather. Prices are not quotably lower, but they should be considered entirely nominal.

LEATHER—The market is quite spiritless owing to the indifference of buyers who are keeping their purchases down to the lowest possible point. Prices, while unchanged, are more or less nominal.

METALS—IRON—There was practically no feature to the iron market today, and the close was dull. The disposition on the part of the trade is to wait for some further indications of reviving business before trading freely, and, as repeatedly stated, the tone is fairly steady, but prices are very low. Abroad the markets were a fraction lower, but dull. LEAD—The situation is unchanged. The tone of the market continues firm at 3.20 for domestic. In London the price was 1s 3d lower to-day, but St. Louis was quoted 5c up at 3.15. COPPER—There is a continuation of the dull, featureless situation of trade, with casting copper unchanged and with spot copper 9.90 asked. London futures were 2s 6d better, but dull. The European stocks of copper are reported to-day to have been reduced 1,500 tons during the past month. Total afloat and in sight stands at 47,100 tons against 17,500 tons January 15. TIN—Steady but dull; spot is 19.70@19.80, and it is believed that purchases could be made at possibly 19.85. London was easier again to-day, prices being 2s 6d lower. The shipments of tin from the Straits for January were 3,850 tons, against 4,100 tons in December. The stocks of tin are reported as 10,237 tons, against 8,745 tons in December, and about 7,121 tons, against 7,615 tons.

SPELTER—The market continues firm. With 3,75 still bid for spot and with St. Louis firm at 3.30; London was 1s 3d lower.

NAVAL STORES—Spirits turpentine quite firm at 31@32c, which are the prices bid and asked yesterday. Rosin is firm at unchanged prices of $1 12½@$1 15 for common to good strained. Stock Rosin, 33,362 bbls; turpentine, 1,700 bbls; tar, 2,323 bbls.

OILS—There is a very moderate demand for cottonseed oil both here and at the West. Although the market is nominally steady, the export demand is very moderate. We quote: Prime crude bbls 30@31c; prime crude loose 27@28c; on crude in bbls 29@29½c; strictly summer yellow, 34½@35c; off grade summer yellow, 33@34c; butter oil, 37@38c; prime white, 38@39c; soap stock, 14@15c; lard oil, 69c; Herbert oil, American, raw, 50c; Calcutta raw, 62c.

OCEAN FREIGHTS—The tone of the ocean freight market varies but little from day to day, and classed as a whole today it was dull and barely steady, with the demand for berth room insignificant. For markets, however, there was a little better inquiry and a fair business was put through. Engagements were: Antwerp, 8 loads at 3½d from store, and that rate is being asked afloat. To Rotterdam, 2 loads grain were taken at 7½c. We quote: Liverpool, 7¾d; London, 3d; Antwerp, 3½d; Newcastle, 4d; Bristol, 3½d; Leith, 4d; Hull, 4½d; Reval, 4½d. Corn for orders, 3d asked; cotton to Liverpool, 5-32d; petroleum, 5 7-8d. CHARTERS were: A steamer, with general cargo, Philadelphia to London, 15s 3d; a steamer, general cargo, New-York to Hamburg, about 16c; 3 steamers, sugar, north side of Cuba to New-York, Philadelphia or Boston 17c, 12c and 13c; a steamer, 1,881 tons, coal, Baltimore to Boston, 90c; a steamer, 55,000 cases petroleum, to Shanghai, 27c; a ship to arrive, 90,000 cases petroleum, New-York to Calcutta, 15c; a bark, 531 tons cotton, Savannah to Japan, 15-16c; a bark, 662 tons general cargo, New-York to Martinique, Barbados and Trinidad, 40s, lump sum, private terms; a schooner, 1,630 tons coal, Baltimore to Sagua, $1 70; a bark, 1,000 tons coal, Philadelphia to north side of Cuba, $1 75; a schooner, coal, for port charges, Philadelphia to Trinidad, Cuba, and sugar back north of Hatteras, 19c, 20c and 21c; a schooner, coal out for port charges, Philadelphia to Cienfuegos, and sugar back north of Hatteras, 17, 18c and 19c; a schooner, sugar, Sagua to north of Hatteras, 9c, 10c and 11c; a schooner, Macoris to New-York, $2 50 and port charges; a schooner, lumber, Satilla to Boston, $5 87½; a schooner, lumber, Charleston to Boston, $5; a schooner, lumber, Norfolk to New-York, $2 50; a schooner, lumber, Georgetown to New-York, $2 50; a schooner, lumber, Newport News to New-York, $4 50; a schooner, lumber, Washington to New-York, $4 75; a schooner, lumber, Newport News to New-York, $4 75; a schooner, oak ties, James River to New-York, 17c; a schooner, ties, Rappahannock River to New-York, 16c; a schooner, ties, Rappahannock River to New-York, 16c; a schooner, ties, Boston Bay to New-York, 16c; a schooner, staves, Pensacola to Bay Harbor, a steamer, from north side of Cuba to New-York, Philadelphia or Boston, with sugar, at 16c, 12c or 13c, as the case may be.

PROVISIONS—The trade in provisions was in decided active at the West, with the tone of the market easier after the opening. The decline seemed to be on a little realizing, the trade apparently finding more steel for sale than had been expected, in view of small estimated receipts of live hogs for Saturday, and the statement of stocks at Chicago showing a little smaller supply of pork and ribs than anticipated, but slightly larger of lard. The stock of contract pork at Chicago is 69,800 bbls, against 27,600 bbls last month and 77,900 bbls last year. Contract lard, 5,472 tcs, against 2,100 tcs last month and 7,100 tcs last year. Short ribs, 11,065,000 lb, against 5,705,000 lb last month and 15,134,000 lb last year. The stock of prime lard at New-York is 11,541 tcs, against 9,003 tcs last month; receipts for the month, 67,220 tcs; exports, 48,110 tcs; stock of new pork, 3,989 bbls; receipts for the month, 29,955 bbls; exports, 19,513 bbls. PORK—Market quiet. Sales, 150 bbls. Mess, $14 25@$14 70; family, $15 50@$16; short clear, $15 50@$17; extra prime, $13 50@$14. BEEF—Market steady. Family, $14@$15; mess, $8 50@$9; packet, $12@$12 50; extra India mess, $19@$20. BEEF HAMS—Steady; quoted $17. Chicago hams, $16. DRESSED HOGS—Market steady; 180 lb, 7c; 160 lb, 7½@7¾c; 120 lb, 7¾c; heavy, 6¾c. LARD—Market opened steady; 12 lb, 7¾c; 14 lb, 7½c; 10 lb, 7¾c. BUTTER—Market firm and fairly active, closing 6@c; sales, 1,500 boxes; pickled hams, firm and in demand; sales, 1,000 boxes at 9½c. TALLOW—Steady; quoted at 5½c. STEARINE—Market easy. Lard scrapine quoted at 8¾@9c; sales, 150,000 lb; oleo, 7¾c. LARD—Cash markets easy; Western steam closed at 7.90c; sales, 100 tcs at 7.90c; city closed 7½c; sales, 150 tcs; refined for the Continent, 8.25c; South America, 8.60c; compound, 6¾c. In options February closed at 7.80c nominal; May, 7.80c nominal.

SUGAR—The market for raw is decidedly firmer, and a steamer cargo of the centrifugals, 96 test, sold at 3½c, and ship to Philadelphia. We quote at the close 3⅜c for 96 centrifugals, 2¾c for 89 muscovado, and 2½c for 89 molasses sugar. It is rumored that a cargo of 96 centrifugal was sold to-day at 3⅜c, cost and freight. It is said that the amount of sugar that can be bought before prices get above 3½c is a good deal larger than the amount sold at the lower advances on the way up from 2¾c. The refining market is reported as follows: Cane steady, prices fully maintained: Java, 15c 3d, fair refining, 12s; best firm; present month, 12s 9d; next month, 12s 9d; receipts from Cuba, 690 tons; deliveries, 690 tons; stock at New-York, 4,526 tons, at Boston, 267 tons; total stock, 4,793 tons, against 4,149 tons last year. There is a very good demand for refined sugar, which results in a very firm tone, and it is probable, as we hinted yesterday, that prices will be advanced in a day or two. The demand is from all parts of the country, hence the distribution is wide. The decidedly firmer feeling in raw sugar has a hardening effect on refined. We quote:

Cut loaf	4 13-16@5	Windsor A	3 13-16@4
Crushed	4 13-16@5	Midgrand A	3 13-16@4
Powdered	4 5-16@4½	Phoenix A	3 15-16
Granulated	4 1-16@4¼	Empire A	3 11-16@3⅞

Almonds are quoted at 11@20; Brazil nuts at 6@7c; filberts, 6@7c; Bay Soft-shell walnuts, 9@10c.

FOREIGN GREEN FRUIT—There has been no the prev month in the demand for lemons, and Sicily fruit is quoted at $4 50@$5 50. The demand seems to be quite over-satisfied at present, and with quite a fair quantity on route. No one seems to be in a hurry to buy freely. Oranges are still dull at $3@$4 50 for Florida, the fresh fruit not being able to compete with the American varieties are lower at $2@$3 for Jamas. Bananas are somewhat easier. Red and second rows are quoted at $1@$1 25.

GRAIN—WHEAT—It was a market devoid of feature to-day, with fluctuations narrow, volume of business small and with the final range of the day unimportant and compared with the final of last night. At first a little weak, here provoked on more regular weather advices, and dull, unsatisfactory cables. There was a little local selling on this, but it soon gave place to a little covering by traders, and in the afternoon the market rallied, closing dull. News from the West, outside of the weather reports, was features. Every one seemed to be waiting for dividends in our world, too, to materialize. Cash wheat was very dull. No 2 red was quoted at 3⅞, under May, to arrive, day closing at 66½c, the same May delivered and 2c under May f o b afloat. No 1 Northern is quoted at 2c over May delivered; sales were 8,000 bush of No 1 Northern, private terms. CORN—The market was very dull to-day and one about steady, early in the afternoon it was quite a firm undertone to the market and prices left off firm at a net advance. Early prices failed to respond to the strength in wheat, the trade being encouraged by the good export business of yesterday and the moderate interior movement. Today cash trade was less active; sales were about 100,000 bush of No 2 corn for export at 44¼@44⅝c f o b afloat. The other trade was not noticed. No 2 at the close was quoted at 42½c elevator and 43½c delivered. OATS—Future options in oats were on a very small scale, but with an undertone of steadiness prevailing in sympathy with corn. There was very little pressure early and later in the day other corn improved so much as to be a little disposition to buy, so when the market closed it stood at a net gain. Cash oats were neglected but nominally steady. Sales were 43,000 bush, as follows: No 2, 20,000 bush, 34@34½c; New-York Central track white, 20,000 bush, 36@36½c; track mixed, 3,000 bush, 34@35½c. No 2 white was quoted at 36@36½c. MALT—Market dull; unprocured Western, 55@60c; Canadian, 60@70c. RYE—Steady; State, 88@88c. BARLEY—Market dull.
