POLICE CAPTAINS LECTURED.

SUPERINTENDENT BYRNES SUMMONED THEM TO HEADQUARTERS AND TOLD THEM TO TELL ALL THEY KNEW ABOUT ELECTION FRAUDS, IT IS SAID.

All the police captains, inspectors and sergeants of court sounds were summoned to Police Headquarters at 3 p. m. yesterday. Superintendent Byrnes talked to them behind closed doors. The court sergeants came out in ten minutes and left the building. The Superintendent talked to the inspectors and captains for half an hour. When these officers marched out of the Superintendent's room their faces wore a troubled look. It was evident from the manner of the captains that something unusual had taken place. All were as dumb as oysters when spoken to. Superintendent Byrnes said he had talked to them concerning the discipline of the Department. It was learned, however, that Mr. Byrnes had given the captains important orders. From the character of the instructions it is believed that Superintendent Byrnes has in his possession evidence of crooked work at the last general election.

The captains, it is said, were told to report any violation of the election law at the November election of which they might have knowledge, together with all the facts in connection with such matters that they were able to obtain. It is understood that the Superintendent has received information since the convictions in the election cases recently that there were many unlawful proceedings around the polls on election day which need investigation. The Superintendent proposes to make the captains tell what they know, and get whatever information is to be had, with a view to hunting down the persons who were behind the fraudulent acts.

CAUSED BY A SLEEPY ENGINEER.

Winamac, Ind., March 5.—Yesterday morning, almost immediately in front of the Pan Handle depot, occurred one of the most disastrous rear-end collisions known to the company. Bruce Ide, engineer in charge of a Pan Handle freight train bound east, fell asleep unknown to the fireman, "Fred" Merrill. His train was flying along at a lightning speed when it ran into the caboose of N. 84, damaging about fifteen cars. The engine left the track immediately after striking the caboose, turning a complete somersault. Engineer Ide received injuries that will in all probability cost him his life. Fireman Merrill was thrown from the cab a distance of fifty feet from the track, escaping with a badly scalded body. The loss to the railroad company is estimated at $75,000.

It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood, and a properly nourished frame."—Civil Service Gazette.
