WHAT WAS DONE IN STOCKS.

Friday, June 1—p. m.

Speculation in stocks is wholly stagnant, and there are many reasons why it should be. The extraordinary accumulation of money in London and New-York naturally excites the inquiry, What shall be done with it? There is, in fact, no present relief. Money is piling up in financial centres simply because there is no profitable use for it elsewhere. The passage of a Tariff bill by Congress—a remote contingency—is hardly likely to stimulate business in Europe, and it may not have much influence on business in this country. At the same time, the present Congress has been in session too long, and it could perform no more grateful duty than to adjourn without date. Its character has been impugned and its action on any question will be open to doubt. There is a chance, of course, that there is not a single member of Congress who ever heard of Wall Street. The inquiry which has been begun ought to be prosecuted with great vigor. The action of some Federal officers might be explained if the investigation was a thorough and honest one.

The stock market was depressed in the morning hours, but after a brisk rally final changes were unimportant. American Sugar Refining dropped below par, but it rallied quickly, and just below its highest price closed at an advance of 1 per cent. Chicago Gas was strong throughout the day, although its final advance was only a large fraction. These were the only active stocks and, indeed, they were the principal exceptions to the general movement. St. Paul and Louisville and Nashville, Lake Shore and New-York Central and, in fact, all stocks which have an international market suffered fractional losses. Sales for European account presumably were continued, and shipments of gold to Europe were $2,250,000. The exports were in spite of low rates for money in London and on the Continent, and they clearly represented a doubt in regard to the stability of the National currency. The gold was furnished by the Treasury, which is bound to maintain parity between metal and paper money, but is obliged to pay out gold, although it is also forced to accept silver.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, but the market was steady at closing quotations as follows:

	Bid.	Asked.		Bid.	Asked.

The business in State issues was comparatively large, including Louisiana consol 4s at 97½, South Carolina 4½s at 102, Virginia funded debt 2-3 per cents at 59¾, and Virginia deferred 6s, stamped receipts, at 7⅜ and 7¾. City bank stocks were neglected.

The general bond market was slightly more active, but reported transactions were less than $875,000 at face value, and variations were small and insignificant. Atchison issues were firm, closing ⅛ per cent higher at 75¼ for 4s, and 31½@31⅝ for 2s seconds. Chicago and Northern Pacific firsts, trust receipts, were the fraction higher at 45¼, and Northern Pacific issues, when they were at all active, displayed an advancing tendency. Philadelphia and Reading incomes were again almost neglected, but thirds rallied ½ per cent to 15¾. Richmond Terminal 5s and 6s, receipts, closed ½ per cent higher at 23½ and 5¼, respectively. United States Cordage firsts rose 3 per cent to 84. Reference is made to our full report of bond sales.

Money remained easy at previous rates for both call and time loans.

The Clearing-House statement was as follows: Exchanges, $80,992,810; balances, $7,098,362.

The Sub-Treasury was debtor to the Clearing House $544,885. The business of the Sub-Treasury for the week ending to-night includes receipts of $15,324,360, and payments of $14,673,277, leaving the general balance $146,578,092, against $145,927,069 on May 25, an apparent gain of $651,083. Deducting from the payments $3,813,000 and from the receipts $4,850,000, for items which affect only its account with the general Treasury, the loss as affecting the banks is $585,917.

To-day's operations included: Receipts, $2,621,077; payments, $3,467,217; with balances of $88,830,244 coin and $57,747,848 currency.

The United States Treasury at Washington received to-day $562,645 National bank notes for redemption.

The customs receipts were $240,000, the internal revenue receipts $156,219, and the miscellaneous receipts $95,108.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:
