S.S.S.

PURELY VEGETABLE
THE ONE SAFE BLOOD REMEDY

It is a generally recognized fact that medicines taken from the botanical kingdom are better adapted to the delicate human system, and safer in every way than those composed of strong mineral mixtures. Among the very best and safest of vegetable preparations is S.S.S., a blood medicine made entirely of roots, herbs and barks, in such combination as to make it the greatest of all blood purifiers and the finest of all tonics. S.S.S. does not contain the least particle of mineral in any form, and is an absolutely safe medicine for any one to use. While purifying the blood, this great vegetable remedy builds up every portion of the system. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Constitutional Blood Diseases, and all impurities and morbid conditions of the circulation. It is perfectly reliable and safe for children, and little ones, who have been weakened with scrofulous affections or other inherited blood troubles, can take this mild vegetable remedy with good results and without the slightest danger. S.S.S. is unequalled as a tonic; it invigorates every portion of the system, and the healthy blood it creates largely assists in overcoming any derangement of the stomach and digestive system. If you need a blood medicine you could do no better than to take S.S.S. It has been in use for more than forty years and is still **recognized as the best**. Book on the blood free to all who write.

INDUSTRIES

(Continued from Page One.)

England with the beginning of the nineteenth century, and in New England nearly a half century later.

"In 1847 an act was passed in Massachusetts, making 5 ten-hour day for children under twelve, but only those employers were convicted who knowingly violated it, a subterfuge which was repeated in the Alabama law of 1907, the repeal of which provoked Governor O'Neal urging in his message to the Alabama legislature in 1911.

"The census of 1870 was the first to take notice of the extent of child labor in the United States. Unless the census of 1910 can show a change for the better, the evil has been increasing for the last forty years. The census of 1900 shows that to a greater extent than any other manufacturing mechanical industry the cotton mill furnishes employment to children and that in the north about one cotton mill operative out of every ten was ten to fifteen years of age while in the south the corresponding figure was "almost one of every ten."

Mr. McKelway called attention to the recent report of the bureau of labor on the cotton industry, showing 29 per cent of the employes in southern cotton mills are still under the age of sixteen, and since "only age data supported by positive evidence have been used," this estimate "comes far short of the truth."

The facts furnished by this report, Mr. McKelway declared, were found in spite of the difficulty in ascertaining the ages of the children and the fact that in several instances "deliberate and determined efforts were made by mill officials to cover up the actual conditions in regard to child labor."

NEW VAUDEVILLE MAKES GREAT HIT

Lowe and Lowe Take Crystal Crowd by Storm in One of the Best Acts Ever Seen in Albuquerque.

To say that Lowe and Lowe made a hit with the first nighters at the Crystal is not giving them near enough credit for the way they kept the house in a continual uproar last night. They more than lived up to the standard set for them by their predecessors, Bracam and Taylor, and everyone in town knows that they had to go some to do that.

The Eccentric Dancer and The Girl more than pleased the crowd at the Gold Avenue playhouse last night and everything points to a record breaking attendance for the coming week. The comedy is clean, live and put up to the audience in a way that shows talent of the highest kind. The singing is fine and Lowe and Lowe were called back for encores time after time. You want to be sure to see this act during the week it is here if you enjoy clean, wholesome comedy.
