ROAD FROM CLOVIS TO PORTALES

Committees From Both Cities Are Working to Have 18 Miles of Road Placed in Good Condition.

There is no longer any question about the proposed [illegible] highway to connect the two cities, Clovis and Portales, says the Clovis Journal. The proposition which was suggested by members [illegible] and readily taken up by the [illegible] has at this time [illegible] on an extremely [illegible] shape when on last Saturday afternoon and Sunday eight Portales boosters came to Clovis to put the proposition on wheels and start the ball to rolling.

The plan is to have a road, some 18 miles in length, connect the two points. There is a section some six miles in width through which a range of sand hills run, and which represents a considerable engineering obstacle. The remainder of the distance will be easily put into good shape with very little expense. It is proposed by the committee composed of Hollis Nixon, Brownlee, Harris and Maxey, which is to make the investigation of kind and quality of material to be used, to dump clay and gravel and also scarifyers as materials. The territorial engineer will be consulted and he will be here to make the trip with the Clovis committee who will go to Portales on Saturday, the 18th. It is proposed to put the road building proposition under his control. Clovis or Curry county will bear half of the expense of the road and Portales or Roosevelt county will bear an equal share. Most of the said road lies on the Roosevelt county side, but Clovis will bear an equal part of the financial burden of building the line through the sandhills.

It is estimated that to build a clay bed, gravel topped, high level road through this section of six miles will cost in the neighborhood of $3,000. This will be a road that will accommodate automobiles, wagons, and in fact, any kind of vehicle, and will be a great convenience for the farmers on either side of the county line and to the people of the respective cities.

The following Portales men were here last Saturday, returning Sunday noon: Hon. W. E. Lindsey, A. T. Monroe, J. B. Fiddy, R. L. Bryant, Monroe Honer, T. J. Mullinaire, Sam J. Nixon, G. W. Williamson and Editor Johnson of the Times, all prominent business or professional men of the irrigated city.

The Portales committee was met at the train by a committee Saturday at noon, and they were taken out for some distance over the proposed road survey.

W. D. McBee, E. R. Hart and Charles A. Schaurich composed the "head" committee, who will look to getting funds for this half of the road.

WILL SELL NATIVE TEA

Company Formed to Market Native Herb Grown in Otero County.

Otero county has an industry which is as yet little known, unexplored as to possibilities, and altogether unexploited, says the Alamogordo News. It is the harvesting and marketing of the plant which is generally called "native tea" by those few who know anything of the plant.

The men who are organizing this new business are J. E. Akers and James Brownfield, Jr., both of Orange. They are making plans to put the product on the market to be used both as a beverage and a tonic. Aside from its fine flavor as a beverage, the tea has excellent medicinal properties. The plant at Orange has been equipped with the necessary machinery and is ready to begin operations. The plant as it is now equipped has a capacity of six tons an hour. The machine used for the cutting of the tea will use steam for power and has adjustable knives which turn out the tea in lengths varying from one quarter of an inch to one and one quarter inches in length. The work is being held up now, pending the receipt of the letters of patent from the United States patent office, covering the trade marked label which will be used on the packages. Lithographed labels will be used, which will show a full-fledged antelope and will bear the trade name, "The Famous Antelope Green Tea."

Mr. Akers said that arrangements have been made to put the tea on the market without delay, as soon as the letters of patent are received. Mr. Brownfield is now getting ready to go to Kansas City where the general sales office will be maintained. He will remain in Kansas City in charge of that office.

There is practically an inexhaustible supply of this tea growing in the southern end of Otero county and the upper end of El Paso county. It is an evergreen and grows to a height varying from twelve to forty-eight inches. It is said that this plant grows nowhere else in the United States, which of course makes its value all the greater. The harvest sometimes averages as high as one hundred tons to one hundred and sixty acres.

It is with special pleasure that the church announces the wide attention and interest in the series of sermons just beginning at the church.

"Saul, the Garment Holder" is the theme for the morning hour and the sermon will reveal some of the points of interest in the first recorded appearance of a "World Citizen" called Saul. The sermons to follow will trace the remarkable steps in the rise of a soul that finally learned to recognize the voice of God. Hear the series. The evening hour will give opportunity for the second sermon on "Old Prodigals and Some New Ones." Those who heard the sermon last Sunday evening on "The Prodigal's Home" will note that the theme for the second sermon will be: "The Preparation for Departure and the Good-byes of the Prodigal." The sermon will be treated under three heads:

1. The Lure of the World. 2. The Assertion of Self. 3. Good Byes. This is an old theme but ever new because it is a picture of life that is ever reproducing its strange problems and tragic failures.

The life of today is the point to be reached in these discussions. Hear all the sermons and tell your friend to hear them also.
