THE GENERAL MARKET REPORT.

New-York, July 25, 1894.

COTTON—The first sales of to-day were at a decline of about 2 points. This was followed by a decline of another point or so on unfavorable Liverpool advices. As the morning session advanced, Liverpool firmed up and closed steady, with the loss entirely recovered on reports of cables from this side of damage to the cotton crop by boll worms. This led to a sharp advance here, and during the forenoon August sold up from 6.65c to 6.75c, against 6.68c at the close yesterday. After this the market was firm but less active. Trading was fairly active for the day footing up 104,500 bales. Extremes on August were 6.75@6.67c; this month, closing at 6.75@6.76c. The net advance for the day was 7 to 8 points. Liverpool is evidently putting a bullish interpretation on the reports of damage to cotton. This set local shorts to covering and induced some local trading for long account. Some profess to believe that the market has been low enough, and that a steady advance is in order. Many traders are still transferring August to later positions. Notices for August cotton will be issued next Friday. The weekly Government crop report says that some injury is being done by the boll worm in Louisiana and Mississippi, and there has been rather too much rain for the crop in parts in Mississippi and Louisiana, and portions of South Carolina and Florida, while Alabama has suffered somewhat from drought in Southwest Texas, in which State picking had begun. In Arkansas cotton is forming and fruiting well, and prospects are most excellent. In Oklahoma cotton is in excellent condition. Spinners are reported to be looking around for cotton more earnestly, especially in the interior markets, they evidently desiring to buy up what remains of the old crop. This demand is probably due to the increasing movement of cotton goods. It is reported that some foreign buyers are negotiating for the purchase of cotton in this market for export. The stock at New-York is now practically even with that at Memphis. "St. Louis dispatch says: 'Spinners are buying everything offered in this market.' New-York spot sales to-day and last night as officially reported: For export, 500 bales; consumption, 1,758 bales; total, 2,258 bales. Spot market steady. Middling uplands, 7c; middling gulf, 7¼c, which is unchanged compared with yesterday's closing.

The market for Brazil coffee is in little better shape and the close was quite steady on a basis of 16c for Rio No 7 the close was quite steady on a basis of 16c for Rio No 7, the bar beam on the spot. A sale of 6,000 or 7,000 bags Rio, for beam on the spot, was made in Baltimore, at 16½c for the coffee, a desirable invoice. Mild coffee was steady with a fairly good demand.

FLOUR AND MEAL—It was a dull, uninteresting market in flour to-day. In Western the demand seemed to have been satisfied by the recent purchases and dealers were inclined to hold off for some further indications of the next movement in the wheat market. Total sales, 18,800 pkgs, including about 6,000 pkgs of city mills. Details follow: 300 bbls winter patents, $3.25, and 1,950 bbls city mills, $4.25@$4.45, bulk and private terms; 3,000 bbls straights, $2.70@$2.75, part to arrive, 1,350 bbls clears, city mills, $3.55@$3.60; 300 bbls extra firsts, $2.55; 200 bbls extra seconds, $2.25@$2.30 and 650 bbls city mills, $2.45 @$2.50; 300 bbls superfine, choice, $2.15, 950 bbls fine, city mills, $2@$2.10; 7,300 bbls spring patents, $3.60 @$3.75; 450 bbls straights, $3.50, and 250 bbls clears, $2.35 @$2.40. Southern flour quiet and unchanged. RYE FLOUR—Market quiet; sales, 350 bbls at $2.85@$3. CORNMEAL—Market quiet; sales, 600 bbls. Quoted: Brandywine, $2.80; Sagamore, $2.80. BAG MEAL—Market quiet; fine white, $1.05@$1.10; fine yellow, $1@$1.05; coarse, 93@95c. FEED—Market steady; bolted, 72½@75c; 60 lb, 72½@75c; Sifted, 75@85c; 100 lb, 72½@82½c; sharps, 90@97½c; city mill feed, 80c in bulk, 85c in bags; sales, 6,000 bags; rye feed, 75@80c; hominy chop, 75@85c; cottonseed meal, $1 10@$1 12½c; oil meal, $1 20@$1 25.

GRAIN—WHEAT—The market to-day was firm during the early part, but later developed weakness. First sales were at an advance of ⅜c on a little covering by shorts and some buying by traders for a reaction. The reports of rainy weather in parts of the United Kingdom and in France had a little to do with the improvement, but there was no general disposition to buy, and in a short time prices flattened out. The situation abroad is still a very unsatisfactory one from the bull standpoint. The tone of all the reports is that the outturn of the foreign crop will be bigger than expected, and that the rains which have occurred in parts of Western Europe are by no means serious enough to have much influence on the final result. European markets are indifferent and dull, and the demand for foreign account is very small indeed. The movement at the interior continues very liberal, and in three days this week has increased 1,779,000 bush over the corresponding time last year. Already the talk is beginning to point to a very heavy increase in the visible supply, and unless the arrivals fall off the latter part of the week or there is a large increase in exports, these expectations are likely to be verified. The reports regarding the outturn of the wheat crop are very unsatisfactory from the bull standpoint, showing disappointingly large results, these results being so favorable that there is every likelihood that the crop of winter wheat will be much heavier than generally expected. In regard to the results of spring wheat there is nothing new excepting that the reports continue of very hot weather and of retrogression, rather than improvement. Interior receipts of spring wheat to-day were 509,146 bush (Chicago, 324,800 bush, nearly all winter), against 351,871 bush last year; winter, 485,562 bush, against 343,130 bush. Seaboard receipts, 411,168 bush; against 418,196 bush; total, 1,405,876 bush, against 1,063,197 bush; exports, 291,314 bush, against 292,362 bush. During the latter part of the day trade was small, with the tone of the market heavy, although the final figures were at unchanged prices compared with last night. Cash dealings were reported small, although millers bought 8 loads and exporters 18 loads, up to the close of Change. Sales were 60,000 bush No 2 red Toledo, 1½c under September delivery, September closed at 56⅝c; 16,000 bush No 2 red at ⅛c under September, f o b afloat; 1 car, 58½c elevator; 120,000 bush No 1 Northern and Duluth, private terms; 8,000 bush No 2 Chicago, private terms, and 4,000 bush ungraded red, and 40,000 bush No 2 red Toledo, ⅛c under September c i f. ..... CORN—The market was irregular and higher early on adverse reports regarding the prospective yield of the growing crop, but later fell off when it was found there was considerable realizing and that the bad crop reports did not bring in large buying orders from the country. The advices regarding the condition of the corn crop in the principal corn States are rather sensational in their character, but prices are so high compared with wheat that a good many bulls are inclined to hesitate. The crop has undoubtedly deteriorated, but the acreage is so large this year that even if the average condition fell as low as 80 the result would still be very favorable, as the condition of 80 would mean a yield of nearly 23 bush per acre, or a total outturn of about 1,750,000,000 bush, while if the acreage is really as large as Mr. Thomas reports, namely 84,000,000 acres, the outturn would still be in the neighborhood of 2,000,000,000 bush. There was considerable stuff pressing for sale in the afternoon, and, notwithstanding the unfavorable reports, prices were weak for September and deliveries beyond, selling down quite easily and closing at the lowest figures at a from ⅛c decline on July to ¼@¼c decline on later deliveries. Cash corn was dull but comparatively steady; 16,000 bush No 2 sold at 49⅝@49¾c in store; 3,000 bush at 49⅝c elevator; 1 load at 50c delivered, and 4,000 bush ungraded yellow at 52½c delivered. ..... OATS—Dealings in oats were on a small scale, with prices moving within very narrow limits, not seeming to be influenced by the fluctuations in corn. Traders are rather waiting for further developments of the movement of new oats, and the demand for cash oats is limited to rather small operations, jobbers taking as sparingly as possible. The close to-day was dull at unchanged to ⅛c net decline. Cash oats were again dull and irregular. A little lot of No 2 sold at 40c in the elevator, while boatloads were quoted at 42c in store, 42½c afloat; 7,000 bush No 2 white sold at 41½c store, 42½c afloat; 7,000 bush No 2 white sold at 41½c, 42c, 3,000 bush No 3 white at 39c, 18,000 bush track white at 38½@55c.

METALS—IRON—The market shows but unimportant changes, although perhaps there is some improvement in the amount of business going compared with a short time ago. Prices, however, are unchanged and have been for weeks past. No. 1 Pennsylvania is quoted at $12 50@ $13. No 2 X, $11 25@$12. No 1 Southern, $11 50@$12 25. No 2 soft, $10 25@$10 75. Scotch, $19 50@$22 50; steel billets, foreign, ex ship, $27@$27 50; do rods, $30@$39 50. domestic billets, $19@$19 50; steel rails, $24 ..... PER—The position shows practically no change; local dealings were small, with lake copper quoted at 9c. London is a trifle better. ..... TIN—There was a little easier feeling again to-day, and some little pressure to sell, but the close was steady. Sales on Change were 20 tons July, $18 75. Arrivals to-day, 125 tons. LEAD—Better advices from the interior are inducing improvement in demand, and, although bullion is quoted at $3 10 yet on Change, $3 40 is bid for spot, and of St Louis it is quoted up to $3 37½. Lead ores are reported higher in the lead district, with better demand. ..... SPELTER—The market was quiet, with the tone a shade easier, although prices were nominally unchanged. ..... QUICKSILVER—The market was quiet at $36 for 76½ lb flasks. London quoted Rothschild's price, £6.

MOLASSES AND SYRUPS—There is a very active sales movement in grocery grades, but otherwise the market is very dull and without interest. We quote: New-Orleans, centrifugal, ordinary to common, 10@15c; fair to prime, 16@18c; choice, 20@23c; Barbadoes, 25@27c; Porto Rico, 25@26c; open kettle, fair to good, 25@28c; prime, 29@ 32c. Syrups: Sugar—Ordinary to common, 9@15c; fair to good, 16@18c; prime or choice, 19@22c.

NAVAL STORES—Spirits Rosin, 21,145 bbls; turpentine, 1,077 bbls; tar, 372 bbls. For spirits turpentine the market ruled dull at 29@29½c, while rosin was also dull and quoted at $1 30@$1 32½ for common to good strained.

OILS—A very slow sales movement was reported in cottonseed oil, and the market is without interest. With business as slow as it has been for some time past, it is quite impossible to give accurate prices, hence quotations simply looked upon as more or less nominal. Lard and linseed oils are quiet but about steady. We quote: Cottonseed oil, prime crude, bbls, 26c; prime crude, tcs, 25½@26c; off crude, bbls, 25@28c; prime summer yellow, 32@33c; off summer yellow, 32@33c; prime winter yellow, 36@37c; butter oil, 33@35c; lard oil, 50@55c; linseed oil, American, raw, 54c; American, boiled, 57c; Calcutta oil, 45c.

OCEAN FREIGHTS—The market for both freights was less active and barely steady. No engagements of grain were reported, but prospective rates are generally demanded. Engagements follow to London: Grain, per steamer, 2½d; 40 bags malt, 1½c; 40 boxes bacon, 12c 6d; Liverpool, 500 boxes bacon, 15c; 5,000 boxes cheese, 25c; to Genoa, 500 bales cotton, 3 64d; Antwerp, 500 bales, 3 16d; Naples, 600 bales cotton, 5 64d; Havre, 50 tcs lard, 20c; Hull, 2,000 boxes cheese, 22c 6d. We quote: Liverpool, 3¼d; London, 2½d; Glasgow, 2½; Bristol, 2½d; Hull, 2½d; Leith, 2½d; Copenhagen, 2½d; Rotterdam, 2½d; Antwerp, 2½d; Hamburg, 35 pfgs; cotton to Liverpool, 3-64d; York for orders, 3-64d; Manchester, 3-64d; to ports of United Kingdom, 2@2½ 64d; Havre, 3-64d; Bremen, 3-64d; Hamburg, 3-64d.

CHARTERS—The general market is about steady, but not much doing either for steam or sail tonnage. Charters follow: British steamer, 1,035 quarters grain, New-York to a direct Irish port, 2s 4½d; bark, 52,000 cases petroleum, New-York to Hong Kong, 14; Italian bark, 2,000 tons coal, Newport News to Leghorn, 6s 6d; Spanish bark, 1,500 tons coal, Newport News to Barcelona, at rates equivalent to $2 250; bark, 257 tons, coal, Philadelphia to Marblehead, $1 50; bark, 249 tons, general cargo, New-York to St. Kitts, $500 and 5 per cent; British bark, 243 tons, general cargo, New-York to San Domingo, and coastwise bark, $1,000 free stevedoring and port charges; British schooner, 162 tons, general cargo, New-York to Rio Grande do Sul, 90c per bbl; schooner, coal, Hoboken to Boston, 40c; schooner, dry express, Potatka to Philadelphia, $4 50 and river wharfage; schooner, coal, Port Johnston to Providence, $1 50; schooner, coal, Newport News to Bangor, 90c; British schooner, coal, Port Johnston to St. Pierre, Miquelon, $1; schooner, coal, Philadelphia to Bangor, 60c; British schooner, coal, Hoboken to Lunenburg, N. S., $1; schooner, coal, Weehawken to Searsport, 45c; British steamer, 1,133 tons, coal, Philadelphia to Havana, $2. Details of United States gold.

PROVISIONS—Markets generally dull but steady. ..... PORK—Market steady; sales, 300 bbls. Mess quoted at $14@$14 25; family, $14 50@$15; short clear, $14@$16 50; extra prime, $12 50@$13. ..... BEEF—Market steady; family, $9@$10; mess, $8@$8 50; packet, $8@$9; extra India mess, $15@$17. ..... BEEF HAMS—Market steady at $20@$20 50 for Western on the spot and at Chicago $19 50@$20. ..... DRESSED HOGS—Market firmer; 60 lb, quoted at 7½c, and the whole range at 7@7½c. ..... CUT MEATS—Pickled bellies—Market quiet at 7½@8c for 10 to 14 lb. Pickled shoulders—Market easy at 6@6½c; sales, 500 boxes. Pickled hams—Market firm; trading dull at 11½@11¾c. ..... TALLOW—Market steady with a good trade; sales, 300 bbls at 4 11-32c; closing at 4 5-16@4⅜c. ..... STEARINE—Market easy; closing at 7½c for oleo and lard at 6½c. ..... LARD—Market quiet; closing at 7.27½c city, 6⅞c; refined, 7.50c for Continent, and 7.75c for South America; compound, 6@6½c; options closed at 7.27c nominal for July, and at 7.27 @7.28c for August.

RICE—There is a fair demand for domestic rice, and stocks are light, which makes a firm market. Rather discouraging reports have come to hand concerning the new crop, lack of moisture causing a good deal of anxiety, and it is thought that this will delay the crop, and that the possibility of diminishing the yield is great. Foreign rice is in sufficient demand to practically absorb arrivals. We quote: Carolina and Louisiana, common to ordinary, 3¾@4¾c; low fair to fair, 4@4¼c; good to prime, 4⅛@5c; choice to fancy, 5⅛@5½c; extra head, 6@6½c. Java Rangoon, 4¼@4¾c; Japan, 4⅜@4⅝c; Patna, 4⅝@5¼c; Rangoon, 4¼@4½c; do in bond, 2@2½c.

SUGAR—The market was halting to-day and there does not appear to be an earnest desire on the part of buyers or sellers to trade in raw sugar. This is owing to the uncertainty regarding the tariff. Some holders seem to be anxious to sell, and they would probably part with at least a part of their holdings at concessions from quotations if they could find a buyer. We quote: Centrifugals, 96, 3¾c; muscovados, 89, 2 11-16c; molasses sugar, 89, 2 7-16c. But these prices should be considered entirely nominal. The London market is unchanged with cane very quiet and nothing doing. Java quoted at 13s 3d, fair refining 11s 9d and beet quiet; no sales; July and August quoted at 11s 3d. Refined is having a slow sale, buyers taking only enough to meet immediate requirements. Prices are unchanged with granulated quoted at 4.5-16@4⅜c.

TEAS—The offerings to-day by the Montgomery Auction and Commission Company at the regular weekly sale, were light, being only 1,300 pkgs, embracing the following lots: Mayune—136 pkgs Hyson, 7½@8c; 136 pkgs Young Hyson, 7½@13c; 106 pkgs Imperial, 7½@19½c; 13 pkgs Gunpowder, 19@25½c. Fine Japan—57 pkgs Young Hyson, 14@24c; 84 pkgs Imperial, 9½@11c; 22 pkgs Gunpowder, 10c. Japan—49 pkgs Pan Fired, 13@14c; 88 pkgs Siftings, 2¾c; 196 pkgs Congou, 12@16½c. Oolong—434 pkgs Formosa, 11@23c.

COUNTRY PRODUCE MARKETS.

New-York, July 25, 1894.

BEANS AND PEAS—A very small inquiry for domestic marrow, but few arriving, and held firmly. The small inquiry for domestic medium cannot be supplied. Domestic pea in no supply and seldom inquired for. White kidney dull. Red kidney offered to exporters at $2 70, but they take very few; supply ample. California lima firm, but selling slowly in small lots. Foreign medium very quiet, but not urgently offered; foreign pea plenty and very dull; foreign marrow held firmly, but seldom wanted. Green peas in pretty steady, light demand at about steady prices. We quote: Beans, domestic marrow, per bush, $3; do medium, $2; do pea, $1 95; do white kidney, $2 35@$2 45; do red kidney, $2 60 @$2 70; do turtle soup, $1 95@$2; do yellow eye, $2 @$2 25; do Japan, $2 25@$2 35; do California lima, 6½@6¾c per lb; do foreign marrow, $2 50@$2 60; do foreign medium, $1 45@$1 60; do foreign pea, $1@$1 70; green peas, bbls, $1 07½; do bags, $1 02½; do Scotch, $1 17½.

BUTTER—The demand for extra creamery is light today, but the supply is not large nor urgently offered, and prices rule steady. Involves very often show irregularity in quality, some grading from thirds to extras; those showing very slight irregularity reach 18@18½c; but there are some marks which will not reach 18c. There is a fair, but not active business in creamery firsts at steady prices, and seconds have a light inquiry. Western advices from some important butter sections say that the drouth continues, and that the make is shrinking. State dairy half-firkin tubs are in extremely small receipt, and have a steady inquiry; tin tubs sell to the extent of the arrivals at steady prices. Imitation creamery sells very fairly when choice, but most lots arriving are not of quality to attract buyers. Western dairy receipts small in quantity and poor in quality. Factory butter fairly firm, with sufficient business to sustain the confidence of holders; firsts in tubs not obtainable below 13c; extras held at 14@14½c, with occasional sales of firkins at that range; thirds scarce and wanted; bids for them are 11@11½c, but hardly any stock here obtainable below 12c. We quote: Creamery, extras, per lb, 18½@18c; do firsts, 17@17½c; do seconds, 15½@16c; do thirds, 13@14c; State dairy, half firkin tubs, extras, 18c; do seconds to firsts, 15@17½c; do tin tubs, firsts, 16@16½c; do seconds, 14½@15½c; imitation creamery, firsts, 14½@15c; do seconds, 12½@ 13½c; Western dairy, firsts, 14@14½c; do thirds to seconds, 11@12½c; factory firkins, 13@14½c; 12c tubs, firsts to extras, 12½@14c; do thirds to seconds, 11@12c.

CHEESE—Full cream large cheese are in light receipt to-day, but exporters are indifferent buyers; they have few orders from their home markets and generally report their advices unfavorable. The fancy lots, strictly on their merits, are quoted at 8⅝@9c, the outside seldom reached. Lower qualities selling only when offered at very moderate prices. Full cream small cheese relatively firm, with a moderate business with the home trade. Part skims were offered this morning in about the same quantity as on last Wednesday; demand fair and prices rather firmer; quotations for choice represent the average higher quality, but there are exceptional sales at fance in rank of 6½c. We quote: State, full cream, large size, fancy, per lb, 8⅝@9c; do choice, 8⅛@8½c; do good to prime, 8⅛@8⅝c; do common to fair, 7½@8½c; do small sizes, fancy, 9@9½c; do common to choice, 7½@8½c; part skims, choice, white, 5½@6c; do colored, 5½@5¾c; do common to prime, 2½@ 3½c; full skims, 1½@2c.

EGGS—The market shows further advance on top quality under scarcity of really desirable grades, sales under the call on Change today ranged from 14c to 14½c, but the business from store cases has been generally at 14@14½c; very few box sales realized the latter price, except from positive wants. Receipts of inferior qualities continue dull and unimproved. Receipts of better quality steady, but common grades drag at low figures. Egg plants in fair demand and steady. Other vegetables show little changes. We quote: Potatoes, per bbl, $2@$2 37; do sweet yellow, $3@$3 50; do red, $2 25@$2 75; onions, per bbl, $1 50@$1 75; tomatoes, upper Jersey, per box, $1@$1 50; do lower Jersey, 75@$1; do Maryland and Virginia, per carrier, 75@ $1 25; green corn, per box, 20@$1 50; cucumbers, marrows, per 100, 75c; do Southern, per bbl, 75@$1 25; eggplants, per box, $1@$1 50; do Southern, $2@$3; green peas, per box, $2@$2 50; string beans, 75@$1; lima beans, South Jersey, $2@$2 50; squash, per bbl, 75@$1; cabbages, per bbl, $4@$5.
