TAILOR WANTED AN AUTO FUNERAL

President of Regal Tailoring Company Makes Statement from Sick-bed Saying He Wants No Horses at Burial.

Chicago, uly 8.—"I want on horses at my funeral. I want nothing but big motor cars, and they can go as fast as the law permits for all I care," said Magnus Goodman, president of the Regal Tailoring company, early last week, while confined to the bed of St. Luke's hospital. "The old style of taking the mourners on long trips to the cemetery in carriages pulled by fatigued horses never was to my liking. I want a beautiful funeral, and the only way to make it so is to have motor cars."

Last Friday Mr. Goodman died and Tuesday was buried with a motor car funeral. There were fifteen big machines that carried mourners and pallbearers, including a motorhearse. Every detail connected by Goodman was fulfilled, even to running the machines fast. Magnus Goodman had been in the tailoring business for thirty years in Chicago. He was 61 years old.

LEGAL NOTICES.

NOTICE TO STOCKMEN.

Albuquerque, New Mexico, June 21, 1911. To the cattlemen of Union, Roosevelt, Curry, Quay, Chaves, Eddy, Guadalupe, Torrance, Lincoln and Otero counties. Gentlemen:

During the range inspection work recently conducted by the Cattle Sanitary board in conjunction with the United States Bureau of Animal Industry it has been found necessary in consequence of the finding of scabby or mange to quarantine the area covered by Union, Roosevelt, Curry, Quay, Chaves, Eddy, Guadalupe and those parts of Torrance, Lincoln and Otero counties lying east of the El Paso & Southwestern railroad and to issue dipping orders to cattle men in these areas that have been found infected with or exposed thereto.

All cattle that have been found infected in these quarantined districts cannot be shipped or moved from their present range without first being dipped or sprayed under the supervision of the Department of Agriculture. Exposed cattle must be sprayed or dipped once while infected cattle must be traced twice. Upon application on the part of cattle men affected an United States veterinarian will be furnished.

It is earnestly urged that all cattle men immediately get together and make and hasten all arrangements towards complying with the regulations this day issued.

Active work will begin at once and any infected or exposed cattle remaining undipped at the expiration of forty days after this issuance of this order the law requires shall be taken in charge by this board and dipped or treated in accordance with Section 3, Chapter 31 of the laws of 1905, the animals so taken being held as security for the expense incurred in compliance with the order for dipping.

Order for Dipping.

Under authority conferred upon the Cattle Sanitary Board of New Mexico, by the provision of Chapter 31 of the laws of New Mexico, the following area is hereby declared to be an infected district: Union, Roosevelt, Curry, Quay, Chaves, Eddy, Guadalupe and those parts of Torrance, Lincoln and Otero counties lying east of the El Paso & Southwestern railroad and it is hereby ordered that all cattle within said district, which has been or may be classed by inspectors, as infected with or exposed to scabbies infection, must be dipped or sprayed by the owner or his agents at such times and places and in such manner as the inspectors of this board may prescribe.

Infected or exposed cattle which are not dipped in compliance with the provisions of this order, will be taken in charge by this board and dipped or treated in accordance with the provisions of Section 3, Chapter 31, Live Stock Laws of New Mexico.

Provided further, that any cattle in the territory of New Mexico which are infected with scabbies or have been exposed thereto, must be dipped in accordance with the above.

Dipping Regulations.

All dipping must be done under the supervision of an inspector of this board or a government inspector and in accordance with the rules and regulations of the United States Department of Agriculture.

Only those dips recognized by the United States Department of Agriculture may be used: Lime and Sulphur, tobacco and sulphur, and Beaumont crude petroleum. The dip must be maintained at a temperatre ranging from 100 degrees to 105 degrees F., with the exception of crude oil which may be used cold.

Each cattle owner affected by this order, should, at once, get in touch with the inspector in his section and arrange dates for dipping.

The following named employes will have charge of the bureau work:

Dr. R. M. Ollester, Clayton, N. M., Union county.

Dr. W. A. Savage, Dalhart, Texas, Quay and Guadalupe counties.

Dr. Geo. A. Lipp, Roswell, N. M., Roosevelt, Curry and Chaves counties.

Dr. C. C. Heacock, Carlsbad, N. M., Eddy county.

Dr. H. E. Pine, Carrizozo, N. M., Lincoln, Otero and Torrance counties.

DOUBLE TRACK IS COMPLETED

Double-tracking of the Santa Fe between Winslow and Ash Fork, Ariz., a piece of work recently authorized by the company, has been completed from Supai to Williams, Ariz., a distance of six miles, and opened to traffic. The entire Arizona section to be double-tracked on the present plan is 115 miles in length.

The plans of the Santa Fe are to have the entire line from Chicago to Los Angeles double-tracked by 1915, the year of the Panama-Pacific exposition. Large gangs of men are now at work in Arizona, where they will be kept until that section is completed, when they will be moved eastward and westward.
