FROM LUCCA, ITALY

When purchasing Olive Oil why not buy the purest and best. The LUCCA ITALY trade mark, Gradi and Domenici is positively the brand you will always want if once tried. Ask your dealer for Gradi and Domenici brand.

CONTEST ORATION IS DELIVERED BY VARSITY ENTRANT

For the benefit of the faculty and the student body Allan E. Bruce, who is to represent the University of New Mexico in the oratorical contest at the teachers' convention, delivered his oration at the assembly period at the University this morning.

The oration is "Efficiency, a New Slogan." It deals with the application of modern methods to the schools as well as business.

Bruce is a sophomore. He is a graduate of the Roswell high school where he was prominent in oratory and literary work.

John A. Logan Circle No. 1, Ladies of the G. A. R. will meet tomorrow afternoon in regular session in A. O. U. W. hall. After a short business session a rummage luncheon will be served.

FIRE DEPARTMENT IS CUT DOWN BY CITY COUNCIL

One of the Twelve Men to Be Bounced; Force of Eleven, Including Chief, Considered Big Enough.

PUNCH CARD GAME GOES UNDER FIRE

Councilmanic economy has been felt by the fire department. The fire fighting force of the city was reduced from twelve men to eleven, including the chief, by a resolution passed at a meeting last night.

Councilman Hammond introduced the resolution. The fire department was recently increased by the addition of two men, and Mr. Hammond was of the opinion that they weren't needed.

Before the resolution was passed Chief Klein was asked what he thought of it. He said it was "tampering with the department."

"Seconds count at a fire," he said. "If you can't hold your own at the start, you are lost."

The council decided that eleven men were enough to get the right start against a fire.

Probing Punch Game.

Punch card games of chance, which are in operation in a number of drug stores and other stores throughout the city are to be acted on at the next meeting of council. They were brought up for discussion last night. City Attorney Wilkerson said the cards were undoubtedly gambling devices and that there were 200 of them in operation in the city.

Councilman Grunsfeld thought the district attorney's office should act. It was finally decided to take up the matter for action at the next meeting.

Water Report Coming.

It was voted to request a report at the next meeting from the special water committee appointed recently to study municipal ownership. The water committee and the mayor were asked to make some arrangement with the water company for service at the Santa Fe shops in case of fire.

New Law Needed.

Need of a new law was suggested by City Attorney Wilkerson. He said it would be well for the council to send a committee to Santa Fe to work for the passage of a statute requiring persons with damage claims against municipalities for injuries sustained to notify authorities within a short time after the accident so that their condition might be observed by representatives of the municipality.

More Charity Money.

Mayor Boatright's emergency charity allowance for November was made $75, instead of $50. The increase was voted because of Thanksgiving day.

Minnie Carroll Complains.

Minnie Carroll wants Captain Pat O'Grady put on the carpet. Captain O'Grady recently arrested Mme. Carroll, and she says he was rough about it. The complaint was referred to the police committee.

Monthly Reports.

The city clerk's office collected in October through licenses, the sum of $5,795.25.

The net fire loss for October was $1,300. The total loss was $4,018 and $2,718 insurance was paid. There were fifteen alarms.

The police department made 140 arrests in October and collected $245 in fines. Five hundred and ninety-five meals were served at the city jail, sixty-four to "lodgers."

Friendship lodge will give their annual prize masquerade ball at Colombo hall, Wednesday, November 18th. Admission 50c. Boosters orchestra.

N. M. E. A. NOTICE.

During the N. M. E. A. last year the citizens of Albuquerque responded generously to a call from the local committee to throw their homes open to the teachers, and since a much larger number of visitors is expected this year, an even more generous response is necessary for the comfort and pleasure of our guests.

All who can possibly assist in the entertainment are requested to telephone the secretary of the Commercial club, No. 42, or the high school building, No. 1056, giving the prices of rooms and the numbers that can be accommodated.

GALENA KING MINE IN SANDIAS IS IN OPERATION

Property Now Well Past Prospect Stage to Be Opened Up on Big Scale With Mill in Immediate Prospect.

SUCCESS FOR OWNERS MEANS MINING DISTRICT

After a suspension of two months, work was resumed on the Galena King Mining Co.'s prospect south of Coyote Springs today. The mine has practically passed the prospect stage and the indications are that the work which was started this morning will in a short time bring the mine to such a stage of development that a mill can be put in and the company can turn out lead ore in large and paying quantities.

The Galena King is one of a number of prospect mines being worked in the Sandia mountains east of Albuquerque. This mine has gone through the vicissitudes which generally befall every prospecting company. The mine was located and worked first by the Octoroon company. It was succeeded about three years ago by the Galena King Mining Co., which has been carrying on the work since. It is not a stock jobbing proposition. Such stock as is out is held by Albuquerque people, who paid par for it. The company has proceeded along the safe line of "pay as you go." This has several times necessitated the shutting down of work, but has kept the property free of liens. Several tons of high grade ore and one hundred tons of low grade ore are on the dump now, and the company expects soon to go to shipping.

Two tunnels have been dug into the mountain, one about 175 feet above the other. A fissure of ore averaging three feet in thickness has been uncovered. The work which was started today was on a contract to extend the lower tunnel 100 feet further into the mountain. When this is completed the company can compute the exact amount of ore they have in the fissure between the two tunnels. They will then know what size mill to put in and will proceed accordingly. The old company shipped two carloads of high-grade ore which netted them over $1300.00.

The work which is going on in the several prospect mines in the mountains east of here means much to Albuquerque. Success at any one of these mines would mean an immediate development on a large scale of the mining industry in the Sandia mountains adjacent to Albuquerque.

Present indications are that the Galena King will in the very near future make good all that its promoters have hoped for it. R. N. McCloskey, president of the company, made a trip to the mine yesterday to see that everything was in shape for the starting of work today.

PROMINENT MOOSE LEADER HERE TOMORROW

James J. Davis, Head of Mooseheart Governors Wants Chance to Talk to Local Moose and Albuquerque People.

Hon. James J. Davis of Pittsburgh, Pa., director general of the Loyal Order of Moose, and chairman of the board of governors of the Mooseheart institution for children in Illinois, will be in Albuquerque tomorrow morning for half an hour, during the stay of the California limited here. Mr. Davis is on his way to California. He has asked that local members of the Moose meet him at the train as he wishes to address them, and also has asked that Albuquerque people interested be present.

Mr. Davis probably will have something of interest to say concerning the Moose tuberculosis sanitarium and President Cushman of the Commercial club suggested this morning that members of the Commercial club and others specially interested in bringing the institution to this city should be present to welcome Mr. Davis. All members of the Moose lodge are expected to be at the station.

Mr. Cushman has arranged for a short conference with Mr. Davis on the sanitarium matter.

Deferred to 1915.

The Herald this morning received a telegram from City Clerk Tom Hughes from Denver, stating that while he arrived in Denver too late to attend the Moose executive council meeting, he had been assured that nothing definite had been done concerning the location of the sanitarium and that members had gone to their homes with the understanding that action would be deferred probably until the July, 1915, convention to be held in San Diego.

CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

"California Syrup of Figs" Can't Harm Tender Stomach or Bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste. Liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

WOMAN ACCUSED OF BEING ACCESSORY TO A SCRAP

Millen Says Mrs. Hutzel Urged Johnson on as the Latter Thumped Him; Defendant Says Plaintiff Ran.

F. B. Millen appeared in police court today against Emil Johnson and Mrs. Jessie E. Hutzel, a nurse. He charged Johnson with disturbing the peace and Mrs. Hutzel with being an accessory to the disturbance. Millen and Mrs. Hutzel, according to the police, were once friends, but ill feeling developed between them, and Mrs. Hutzel says Millen annoyed her on several occasions.

Mrs. Hutzel and Johnson were passing down South Second street the other evening, and the subject of Millen's alleged annoyance arose.

"There," Mrs. Hutzel says she said, "he is now."

Johnson turned to confront Millen. Millen and Johnson differ as to what happened. Millen says Johnson punched him, while Mrs. Hutzel stood by and urged on the attack. That is why he names her as an accessory to the disturbance.

Johnson says he merely told Millen to "beat it," whereupon Millen, he says, ran as fast as his legs could carry him.

The hearing was continued by Judge Craig to Friday morning.
