Spirits turp, gals	310	Butter, lb	3,400
Rosin, bbls	140	Cheese, lb	52,260
Pitch, bbls	6		

THE GENERAL MARKET REPORT.

New-York, September 26, 1894.

COTTON—The market started with a break of 8 to 10 points in prices as compared with yesterday's closing figures, and sold off still further until the decline was about 15 points. Then came a little rally, the closing finally easy in tone, with a net loss for the day of 13 to 14 points. The total sales were 180,900 bales, thus indicating active trading. The weakness was on the demoralized condition of affairs in Liverpool, the future market there starting with a decline of 1 to 2 points, which was increased to a loss of 4-04@5 64 for the day. Private cables from Liverpool said that the break there was on the rumor that Mr. Neill had published a circular in which he estimated the crop at 10,300,000 bales, but with early frost it might be 700,000 bales less, thus putting his minimum estimate for the crop at 9,600,000 bales. Liverpool has all along held to high crop estimates, their figures running from 9,000,000 to 10,000,000 bales. Prices here dropped down to the lowest point ever known, and in Liverpool prices are as low as they were in 1848, the period of the French Revolution, when trade was practically paralyzed. Local traders sold right and left this morning, although there seemed to be some buying on the big breaks. The local temper is decidedly bearish in spite of some reports from the South of storm damage, and the near approach to the cotton belt of the cyclone from the West Indies. This cyclone or storm has entered the United States at Key West, and has moved as far north as Charleston and the centre of Georgia, where hurricane winds, accompanied by a heavy rainfall, are reported. On the other hand private advices from San Antonio, Tex., say that the condition of cotton could hardly be better, and that the cotton in that section as well as in Paris, Dallas and Austin, Tex., may be from 25 to 30 per cent more than last year, and it is stated that labor for picking is inadequate. The Government weather bureau report for the week ending September 24 says that the week has been very favorable for cotton picking, which has been pushed rapidly. South Carolina reports that nearly half the crop in that State has been gathered. In North Carolina cotton is still open. In South Carolina the rains of the week stained cotton somewhat, and checked its rapid opening. Georgia reports that complaints of boll worms in cotton are general. In Florida cotton will not make a full crop. Cotton in Alabama is opening rapidly and much of it is picked. In Mississippi cotton is opening rapidly and harvesting is being pushed. In Louisiana cotton is opening rapidly, picking being rushed and ginning general. In Texas precipitation is below nominal, except in scattered localities, where it has been above, and the weather has been generally favorable for the cotton crop, and picking has progressed rapidly in some sections where labor is scarce. Arkansas reports weather more favorable and slight improvement noted in condition of cotton and not much rust, rot or shedding reported, and bell worms not general. Bolls are opening more rapidly and picking becoming general. In Oklahoma a large cotton crop is being gathered and marketed. In regard to the reported estimate of 10,300,000 bales cotton crop by Mr. Neill, of Liverpool, a telegram from New-Orleans says that Mr. Neill of that city states that possibly his brothers have published extracts from his letter, and if such a figure as 10,300,000 bales was mentioned by him it was not intended for publication. Receipts at New-Orleans to-morrow are estimated at 3,000 to 4,000 bales, against 3,328 bales last week, 5,550 bales last year. Receipts at Houston were 8,301 bales, against 23,53 bales last week and 5,619 bales last year. Receipts at Memphis, 676 bales, against 224 bales last week, 932 bales last year. The receipts at the ports for the week are variously estimated at from 200,000 to 220,000 bales, but 215,000 bales would about strike the mark. Receipts at the ports last week were 143,212 bales, against 161,086 bales last year. The Southern markets are reported by private dispatches as being very weak, and buyers claim that they can get all the cotton they want at practically their own figures.

Opening, range and close to-day and last year follow:

	Opening.	High-est.	Low-est.	Closing to-day.	Last night.	Last year.
September	6.10	6.10	6.10	6.04@6.06	6.18	...

Market closed easy at 13 to 14 points net decline compared with yesterday's closing prices. Transferable notices, September, 6.09, and October, 6.05. Total sales, 18,000 bales. New-York spot sales to-day and last night, as officially reported: For consumption, 349 bales; spot market quiet; middling uplands, 6¾; middling gulf, 6¾, which is 1-16 lower, compared with yesterday's closing. New-York stock, 2,220 bales; Continent, 622 bales; forwarded, 135 bales; sales, 349 bales; spinners, 349 bales; stock, 84,293 bales. Total net port receipts to-day, 30,559 bales; thus far this week, 137,017 bales. Exports to-day: Great Britain, 405 bales; Continent, 622 bales. Thus far this week: Great Britain, 26,334 bales; France, 12,495 bales; Continent, 14,382 bales; stock, 345,725 bales. Liverpool cable—Spot cotton in buyers' favor; sales, 12,000 bales; speculation and exports, 1,000 bales; American, 11,000 bales; receipts, 3,000 bales; Middling uplands, 3 13-32d. Futures opened quiet, 1-64d to 2-64d decline; closed irregular at first decline of 4-64d to 1-64d. September, 330c; September-October, 325@326; October-November, 324@325; November-December, 325c; December-January, 326@327; January-February, 328s; February-March, 329@330; March-April, 331b; April-May, 333s; May-June, 334@335. Manchester—Yarns small inquiry; cloths quiet.

COFFEE—Local speculation was marked by an unusual degree of dulness. Prices kept within narrow limits, and aside from dealings in December, very little business took place, with final prices a shade easier. Rio cables firm at 12 2-50 reis, exchange quoted at 12 a decline of 1 reis. Receipts, 5,000 bags; clearances for the United States, 5,000 bags; Rio stock, 276,000 bags; Santos quiet at 350 reis against 300 reis, exchange quoted at 12,000 reis; stock at Santos, 450,000 bags; cleared from Rio, steamship Flaxman, with 14,000 bags, and from Santos, Herschel, with 21,000 bags. Hamburg market steady at a partial decline of ¼ pfg; September, 77.25 pfgs, October, 73.75; November, 71.00; December, 69.00; January, 67.75. Total Havre sales, 28,000 bags; final prices for September, 99.50 francs; October, 92.75; November, 88.50; December, 86.25; January, 84.50, all indicating ½ franc decline. Exchanges were made of 250 bags September for January at 250 points difference, and 250 for October for September at 65 points.

Contracts closed quiet at unchanged prices to 10 points lower. Sales were 16,250 bales, as follows:

	Bags.	High-est.	Low-est.	Closed to-day.	Last year's bids.
September	750	14.00	13.90	13.90@14.00	16.90
October	250	13.35	13.35	13.30@13.35	16.65

February	250	11.90	11.90	11.80@11.90	15.55
March	250	11.80	11.80	11.70@11.80	15.40
April	...	...	...	11.65@11.75	15.25
May	...	...	...	11.60@11.70	15.15

The statistical position of Brazil coffee is as follows:

	To-day.	Yesterday.	Last year.
New-York stock	174,532	158,019	96,138
Baltimore stock	38,236	27,561	21,191
New-Orleans stock	7,584	7,617	13,337
Stocks all ports	220,152	193,197	110,766
New-York deliveries	6,476	4,107	3,378
Baltimore deliveries	974	1,228	840
New-Orleans deliveries	233	238	636
Total stocks	7,683	5,583	5,454
Afloat	245,000	239,000	169,000
Visible supply	465,152	432,197	279,766

Jobbers report the dullest day in coffee for a month past and business in invoice lines is correspondingly dull. The absence of business makes the range entirely nominal, the basis of quotations still being 15¾c for Rio No 7 on spot. Mild coffee has a rather slow sale to-day, but there is a fairly steady tone to the market, owing to the indisposition of holders to make material concessions. We note sales of 2,000 bags Maracaibo, 1,000 bags Central American and 1,500 bags Bucaramauga, all on private terms.

FLOUR AND MEAL—It is an irregular, weak market in flour. Mills are attempting to hold firm, but are unable to sell flour in a great many cases within 10@15c of the asking prices. As a result of this only a small scattered trade is passing in Western flour. The demand for spring patents is very slack, and low grades are neglected. Sales to-day were 14,700 pkgs, as follows: 4,550 bbls city mill patents, $4 25@$4 35, and 300 bbls Western, $2 75@$2 90; 1,800 bbls straights, $2 90@$2 65; 150 bbls clears, $2 50, and 600 bbls for export at private terms; 300 bbls extra at $3 35; 250 sacks extra 2s, $2 05; 300 bbls, $2 25, and 250 bbls city mills at private terms; 500 bbls city mill fines, $2@$2 10; 4,500 bbls spring patents, $3 33@$3 50, part new; to arrive, at private terms; 300 bbls clears, low, $2 30; 300 bbls Southern flour at $2 65.....BUCKWHEAT FLOUR—Market quiet, with sales of 900 sacks at $2 60@$2 70 for old to new.....RYE FLOUR—Market quiet; sales, 340 bbls at $2 65@$3.....CORNMEAL—Market quiet; sales 250 bbls and 2,400 sacks. Quoted: Brandywine, $3 20; Sagamore, $3 20; Western and Southern, $3@$3 10.....BAG MEAL—Market weaker; fine white, $1 28; fine yellow, $1 24; coarser, $1 06@$1 10.....FEED—Market quiet; quoted: 40-lb, 77½@80c; 60-lb, 80@82½c; 80-lb, 80@82½c; 100-lb, 85@90c; sharps, 95c@$1; city feed, 85@90c; rye feed, 80@85c; hominy chop, $1 05@$1 07½; cottonseed meal, $1 17½@$1 20; oil meal, $1 22½@$1 25.

GRAIN—WHEAT—The wheat market opened dull and weak, and sold off ¼@¾c decline from the final of last night, and at the lowest price yet reached for December; rallied 3-16c, turned dull, dragging within a fluctuation of ⅛c until after midday, then breaking ⅛c from the final of last night. The weak cables gave a weak tone at the opening, after which a yarn about damage to the Argentine crop and the lighter primary receipts helped for a fractional rally. The buying was very slack all the morning, and with the final cables showing a further sharp decline in all the Continental markets prices easily gave way. The interior receipts showed a large falling off compared with last week, and a very heavy falling off compared with a year ago for the first three days this week. The decrease in three days this week has been 406,000 bush from last week, and 531,000 bush from last year. Interior receipts of winter wheat to-day were the smallest for several years, but there was no courage to the trade, and the steady and discouraged liquidation seems to be both here and in Europe the important influence in the market. Interior wheat receipts at spring wheat markets to-day were 625,882 bush (including Chicago, 104,971 bush, nearly all winter), against 692,527 bush last year, winter, 78,529 bush, against 196,006 bush. Seaboard receipts, 140,673 bush, against 260,785 bush; total, 884,578 bush, against 1,181,318 bush; exports, 79,410 bush, against 123,571 bush. The afternoon liquidation carried prices off ¾c from the final of last night. Offerings were liberal all the afternoon, and the close was at the lowest of the day at ¾@¾c net decline. There was not the slightest rallying power in the market, and the trade is beginning to look for a stampede of long wheat. The cash market was moderately active and weaker. Sales included 40,000 bush; No 2 red quoted at 1⅜c under December delivered and private terms; 80,000 bush of No 2 at 1¾c under September, free on board, afloat; 16,000 bush No 2 Toledo at 1⅝c under December delivered; 8,000 bush No 1 hard Manitoba, private terms, and 16,000 bush ungraded red at 2⅛c under December delivered; No 1 Northern and No 1 hard were quoted at 4⅜c and 6⅜c over December delivered, respectively. December closed at 58⅝c. Exporters took 20 loads.....CORN—Prices started off a little below the final of last night on the report that the Indiana and Wisconsin crops were turning out better than expected and on the reports about improved pasturage. With all this there was quite active selling, followed by a reaction of about ⅜c on the small primary receipts, but about midday long corn made its appearance, and prices broke rapidly, with free selling, touching the lowest figures yet made on the decline. The primary receipts three days this week showed a decrease of 280,000 bush compared with last week, and of 1,504,000 bush compared with last year. As in wheat, the afternoon liquidation in corn carried prices to the lowest figures yet reached on the decline. There was liberal selling of long stuff all the afternoon, and the close was at the lowest of the day and a ⅛@⅜c net decline. Cash corn was weaker, but it is still several cents relatively over the price for wheat. To-day it closed at 56¾c in store for 56 lb, with No 2 red 55¾c for 60 lb. Two loads of No 2 corn sold at 56¾c, delivered, and 1 load for export at 58c, f o b, afloat, for export.....OATS—The market for oats was a little lower at the opening, rallied a trifle with the improvement in other grain, but there was a wave of liquidation started shortly after midday, which resulted in a decline in prices of ¼@⅜c, the market closing weak at the lowest point of the day. Liquidation in oats was not much characteristic as the liquidation in wheat and corn. Trade seems to be much at a standstill as in any other cereal, and the holders apparently are demoralized. The interior movement has decreased but a little this week, 84,000 bush, compared with a week ago, but compared with three days last year the corresponding week show a decrease of 883,000 bush. Cash oats were dull and lower. A few carlots of No 2 sold at 32½@33c; 11,000 bush No 2 white at 35¼@36c; 37,000 bush track at 34¾@40c.....BARLEY—Trade in barley continues moderate, with prices nominally unchanged at 60@62c for No 2 Milwaukee and 60@65c for ungraded Western.....MALT—Market quiet, but about steady; two-rowed State at 70@72c, and six-rowed at 75@80c.....SEEDS—A fair jobbing trade is passing in both clover and timothy, with prices unchanged at $8 75@$9 50 per 100 lb for clover, and $6@$6 70 per 100 lb for timothy.

We give for comparison the closing prices of the previous day and for the corresponding date last year:

	Wheat.	Open-ing.	High-est.	Low-est.	Clos-ing.	Last night.	Last year.

Totals	23	80	8	16	...	...

METALS—IRON—Iron shows no change for the better; it is dull and dragging with old prices hard to obtain. No 1 X Pennsylvania is quoted at $12 50@$13; No 2 X, $11 25@$12; Southern No 1 Coldblast, $11 50@$12 25, and No 2 soft, $10 25@$10 75. Scotch iron is quoted at $21@$22 50. Foreign steel billets are quoted at $27@$27 50, and steel rails $24.....COPPER—There was more interest shown in copper to-day with prices fairly steady and steady at the opening. London was a little firmer on both ingot and casting. Lake Superior copper is firmer, shown in copper to-day with prices fairly steady and fairly active. Sales were 50,000 tons October, on "Change at 9.65; spot closed at 9.65@9.70.....TIN—There was much less interest shown in the market than for some days past, although the undertone was firm. The spot closing at 16.10@16.25. London was quite 6d higher and moderately active. Exports of tin from the straits from January 1 to July 1 have been 20,380 tons, against 23,722 tons last year.....LEAD—There was less demand and an easier feeling, spot closing at 3.15@3.20, with St Louis 2½c lower.....SPELTER—Operations continue unimportant, with prices nominally steady at unchanged figures.

MOLASSES AND SYRUPS—There is a much better demand for molasses and syrups, orders coming in from all parts of the country adjacent to New-York. The sales for the most part in small lots, but holders are encouraged to believe that the frequency of takings will make a very good aggregate business. The current sales are at full prices. The better demand is attributed to the cooler weather. Many of the orders placed to-day were sent in by wire. We quote: New-orleans centrifugal, ordinary to common, 16@15c; fair to prime, 16@18c; choice, 20@23c; open kettle, fair to good, 25@32c; prime, 25@32c; choice, 33@36c; Barbadoes, 25@32c; Cuba, 16@25c; Porto Rico, 26@32c. Syrups—Sugar, ordinary to common, 10@13c; fair to good, 14@18c; prime to choice, 19@22c.

NAVAL STORES—Stock—Rosin, 21,993 bbls; turpentine, 1,619 bbls; tar, 1,186 bbls. For spirits turpentine there was a fairly active and steady market at 28@28½c. Rosin was a little dearer, closing firm at $1 20@$1 25 for common to good strained on a good demand and light receipts.

OILS—There is some weakness manifested in cottonseed oil, although holders are still asking old prices. Lard oil is having a slow sale at rather easy prices, but linseed oil is fairly steady with a moderate demand. We quote: Cottonseed oil, prime crude, bbls, nominally 30@31; prime crude loose, f o b mills, 25@26c; off crude, bbls, nominally 28@29c; prime summer yellow, 33c asked; choice summer yellow, 36@36½c; off summer yellow, 33@34c; prime summer white, 39@40c; choice summer white, 40@41c; butter oil, 37@38c; lard oil, nominally 68c asked; linseed oil, American raw, 54c; American boiled, 57c; Calcutta raw, 54c.

OCEAN FREIGHTS—The market for berth freights is a little more active, especially in grain, but rates are practically unchanged. Engagements follow: To Antwerp, 3 loads grain, 3d; 300 bales cotton, 3-32d; 300 barrels flour, 7s 6d; to Amsterdam, 1 load grain, 1¾c; 1,000 sacks flour, 11c; to Copenhagen, 1 load grain, 2s 3d per quarter; to Hamburg, 1 load grain, 25 pfgs; to Rotterdam, 2 loads grain, 2¾c; 1,500 sacks flour, 11c; to Liverpool, 700 bales cotton, 3-32@7-64d; 300 tierces lard, 7s 6d; 5,000 bbls apples, 3s; to Hull, 2,000 boxes cheese, 20s; 1,200 boxes bacon, 12s 6d, and 200 pails lard, same price; 500 boxes cheese, 20s; to London, 2,000 boxes cheese, 20s. We quote: Grain to Liverpool, ¾d; London, 1¼d; Glasgow, 1½d nominal; Bristol, 2d nominal; Hull, 1¼d; Leith, 2¼d asked. October; Newcastle, 2¼d; Antwerp, 1d; Rotterdam, 2c asked; Hamburg, 25 pfgs; grain, to Cork, for orders, nominal; cotton, to Liverpool, 3-32d; petroleum, to United Kingdom, 2s@2s 3d.....CHARTERS—There is not much animation in the general market, and no change in charter rates for either steamers or sail vessels, the latter being the most sought after, and therefore having a relatively firm support. Charters follow: Norwegian steamer, 775 tons gross, West India time charter, one year, £425 per month; Norwegian steamer, 694 tons, West Indies and back, one trip, £475 per month; British steamer, 697 tons (re-charter), West Indies and back, one trip, private terms; bark, 961 tons, general cargo, Hong Kong to Baltimore, $9,000; British bark, 497 tons, general cargo, hence to Port Natal, 22s 6d; bark, 503 tons, general cargo, hence to Paysandu and back north of Hatteras, owners' account; British bark, 54 tons, general cargo, hence to Rio Grande do Sul, 95c per bbl; British bark, 391 tons, rosin, Savannah to Buenos Ayres, at or about 70c per 280 lb; schooner, 292 tons, phosphate, Nevassa to Wilmington, N. C., $1 90; schooner, 1,084 tons, coal, Philadelphia to Havana, private terms; schooner, 372 tons, general cargo, hence to St. Kitts, private terms; schooner, 935 tons, phosphate rock, Port Tampa to Baltimore, $2 and loaded; schooner, 440 tons, phosphate rock, Port Tampa to Philadelphia, $2 25; schooner, 138 tons, cement, Rondout to Dover, 19c; schooner, 523 tons, ice, Bangor to New-York, 50c; schooner, 489 tons, coal, Newport News to Bangor, 90c, and back to New-York, 1c, 50c; schooner, coal, Weehawken to Belfast, 10c; foreign bark, about 500 tons, Savannah to Buenos Ayres, with rosin, at 70c per 280 lb.

PROVISIONS—Prices were lower again on the depression at the interior.....PORK—Market weaker; sales, 100 bbls. Mess quoted at $14 75@$15 25; family, $16; short clear, $15 50@$17 50; extra prime, $13 50@$14.....BEEF—Market quiet; family, $10@$12; mess, $8@$8 50; packet, $9@$10; extra India mess, $16@$18.....BEEF HAMS—Market dull at $19@$19 50 on the spot and at Chicago $18 50.....DRESSED HOGS—Market firm; 160-lb pieces at 7¾c, and the whole range at 7⅜@8¼c.....CUT MEATS—Pickled bellies—Market easy at 8¼@8¾c for 10 to 14 lb. Pickled shoulders—Market weak at 6⅝@6¾c. Pickled hams—Market weak at 10¼@10½c.....TALLOW—Market steady, closing at 4⅞c, and specials, 5@5⅛c.....STEARINE—Market nominal with lard quoted at 11¼c and oleo at 10½c.....LARD—Market weaker; sales, 250 tcs, 8.05c, closing at 8.70c; city, 8c, with sales of 150 tcs; refined, 9.10c for Continent, and 9.00c for South America; compound, 6½c; options closed at 8.80c asked for September and at 7.55c nominal for January.

RICE—While the receipts of domestic rice are more liberal the demand continues at equal ratio, and arrivals of desirable parcels find ready sale from dock. Advices from all primary markets continue to note light receipts, partly on account of frequent rains, which have interfered with harvesting, but the prime cause is attributed to the deliberation of planters in forwarding their crops to market. Foreign rice is in favor, and most of the sales are of these foreign sorts. We quote: Carolina and Louisiana, common to ordinary, 3¼@4⅜c; low, fair to fair, 4½@4⅝c; good to prime, 4⅝@5c; choice to fancy, 5¼@5⅝c; extra head, 6@6½c; Java, 3⅜@4c; Japan, 4½@4⅝c; Patna, 4⅜@5c; do in bond, 3@3½c; Rangoon, 3⅛@3⅜c; do in bond, 1⅞@2⅛c.

SUGAR—For raw sugar there is still a dull and nominal market, refiners being out of the market. The exceedingly light demand for the refined product has seemingly upset all calculations as to the future course of the raw market and the demand seems to be cut off. The trade is waiting for the big domestic crop to be marketed during the next half year. Prices are nominally 3⅜c for 96 test centrifugal; 3⅛c for 89 muscovado; 2⅞c for 89 molasses sugar. The American Sugar Refining Company has shut down its refineries for a week or two, owing to the light demand and heavy stocks on hand. Willett & Gray received a cable yesterday which states that thus far only Havana and Matanzas have been heard from in regard to the crop damage from the late hurricane, but the entire interior of the island is yet to be heard from, and the damage may prove serious, as this is the critical time of the year for the growing crop. The London market is dull for cane; prices unchanged, Java quoted 18s 3d, fair refining 11s 3d. Beet just a shade firmer; present month, 1½d higher, at 11s 3d; next month, 10s 6d. The market for refined sugar is extremely dull, prices more or less nominal, on the basis of 4 11-16c for granulated.

COUNTRY PRODUCE MARKET.

New-York, September 26, 1894.

BEANS AND PEAS—New domestic marrow beans are not plenty, and, while the demand from all sources is light, prices are held fairly steady. Medium not arriving as yet. Three carloads of pea have come in within a few days, and the slowness of trade is causing some pressure to sell and slight weakness to values; $1 95 is generally asked, but that figure was shaded $1 95 in generally accepted way to-day in instances. Red kidney still in short supply. Old beans of all kinds are closing out slowly, and the trade look for a stampede of long wheat. The cash market is quiet. Quotations: Beans, domestic marrow, 1894, per bush, $2 75@$2 90; do medium, 1893, $2 60@$2 65; do medium, 1894, $1 95@$2; do pea, 1893, $1 80@$1 85; do pea, 1894, $1 90@$1 95; do white kidney, 1893, $2 40; do red kidney, 1894, $2 50; do red kidney, 1893, $2 25@$2 35; do turtle soup, $1 95@$2; do lima, California, 69-lb, $3 75@$3 80; do foreign, medium, 1893, $1 35@$1 50; do foreign peas, $1 55@$1 65; green peas, bbls, $1 12½; do bags, $1 07½; do Scotch, $1 12½@$1 17½.

BUTTER—A fair trade is passing in strictly fancy fresh creamery, and the market on such is firm, but no higher. Receivers are meeting the demand promptly, and are not inclined to force an advance unless it can be maintained for some time. Other grades of fresh butter of all the different classifications are ruling quiet and barely steady. The best of the June creamery from freezers is selling pretty well, but lots that begin to show old flavor are neglected. Quotations: Creamery, State and Pennsylvania, extra, 21½@22½c; do thirds to seconds, extras, 20@21c; do June make, 19@22c; State dairy, tubs, fresh, extras, 22@23c; do firsts, 19@21c; do thirds to seconds, 14@18c; dairy firkins, 19@21½c; imitation creamery, 14@18c; Western dairy, 13½@17c; factory, June, firkins, 14@15c; do June, tubs, 14@15½c; do fresh, 12½@16c.

CHEESE—Two or three shippers showed a little interest to-day in full cream cheese, and while the amount of trading was light, the small offerings and high country cost encouraged a little stronger holding. Bids of 10½c were made on some of the gilt edge factories of colored to arrive, and a few parcels of white were placed at 10¼@10½c. Small size full cream are held steady with demand only moderate. Part skims are generally dull, particularly the small sizes, which have accumulated for some time past, and have to be forced to find a market. We quote: State, full cream, large, colored, fancy, 10¼c; do, white, fancy, 10¼@10⅜c; do, choice, 9¾@10c; do, good to prime, 9¼@9¾c; do common to fair, 8@9c; do, small size, fancy, 10¼@10⅜c; do, common to choice, 8½@10¼c; part skims, small, choice, 7¼@8¼c; do, fair to prime, 4@7½c; do, large, choice, 7¼@8¼c; do, common to prime, 4@7c; full skims, 3@3½c.

EGGS—Receipts are increased by shipments from cold storage houses in this vicinity, and the offerings of held eggs are now so free as to lessen the demand for fresh gathered, which, though in light supply, are showing no further upward movement. There is a fair movement in ice-house stock. We quote: Jersey, per doz, 22@23c; State and Pennsylvania, 20@21c; Western prime, 19½c; do, fair to good, 18@19c, seconds, per case, $2@$3 50; Western ice-house, per doz, 16@17c.

FRUITS—FRESH—Apples show little change except that hard winter fruit is a little more plenty and a shade easier. Good pears rule steady, but many of the arrivals are of ordinary quality and in small barrels, and such move slowly. Peaches scarce, and prime to fancy stock rules firm. Plums quiet. Delaware grapes a shade easier. Niagara scarce, but rarely of good quality; Concord steady. We quote: Apples, red varieties, per bbl, $1@$1 25; green varieties, $1@$2; do Jonathan, $1@$1 25; pears, Bartlett, per bushel, $1@$1 25; do Seckel, $2@$3 50; do beurre Bosc and beurre clairgeau, $2 50@$3; do other late kinds, $2@$2 50; do common, $1 50@$1 75; peaches, per basket, 50@$1 50; quinces, per bbl, $2@$2 50; prunes, choice, large, 10-lb basket, 40@50c; do small, 25@35c; plums, 25@35c; grapes, Delaware, 20@25c per 10-lb basket; do Niagara, 18@14c; do Concord, 10@11c; do Concord, large basket, 16@18c; do per gift crate, 70@90c. Wine grapes, in bulk, per lb: Delaware, 3c; Niagara, 2½@2½c; Concord, 1½@2c. Cranberries, Cape Cod, per bbl, $6 50@$7 50; do per crate, $2 25@$2 50.

FRUITS—DRIED—Evaporated apples are again lower and weaker, stock being offered forward faster than the trade is taking it and receivers are not inclined to permit an accumulation, especially of off colored or wet fruit. No prices for sun-dried apples as yet. Raspberries slow. Cherries steady, but quiet. Blackberries in buyers' favor. Apricots much unsettled. We quote: Apples, evaporated, 1894, per lb, 9@c; do Choice, 8½@9c; do common to prime, 7@8c; peaches, Southern, sun-dried, peeled, 1893, 8@10c; chops, 1¼@1½c; cores and skins, 1½@1¾c; raspberries, evaporated, 18@18½c; cherries, 13@14c; blackberries, 6@6½c; apricots, boxes, 9@10½c; do bags, 8@9½c less.

HOPS—There is no appreciable improvement in the demand and the market is still drifting downward. We quote: State or Pacific Coast, 1894, choice, 20@20½c; do common to prime, 7@9c; do 1893, choice, 7c; do common to prime, 4½@6c; old olds, 2@4c.

POULTRY—ALIVE—About 22 carloads on sale to-day. There was a large trade, but the demand ran so largely on chickens that stocks accumulated on unusually wide range in prices. It looks as if considerable light inferior poultry will have to go even lower than we quote, as there are five cars or more to come in to-morrow. We quote: Spring chickens, local, per lb, 9@10c; Western, 9@10c; fowls, 9½@11c; old roosters, 6@6½c; turkeys, 8@11c; ducks, per pair, 45@50c; geese, per pair, $1 12@$1 37; pigeons, per pair, 20@25c.....DRESSED—The demand is fair, but not active, and while prices are held steady on chickens and fowls, with rather a confident feeling, it will be impossible to clean up the liberal offerings to-day, and on ordinary quality prices are barely steady. Spring turkeys extremely dull and lower. Choice ducks favor the seller. Squabs firm. We quote
