THE GENERAL MARKET REPORT

New-York, October 26, 1894.

COTTON—The market opened at an advance of 4 points on near months, and 2 points on later months. The first sale of January was at 5.65c, and soon sold off to 5.62c, and during the forenoon worked off to 5.57c, but by noon rallied to 5.60c. The early strength was on the execution of some buying orders, and a scarcity of sellers. The subsequent weakness was on realizing sales, and a natural sagging off of the market, owing to failure of Liverpool to materially improve. During the afternoon trade was quiet, with some buying on the low price theory. The market closed steady at unchanged to 3 points net advance, compared with yesterday's closing prices. Total sales were 118,100 bales. The movement at interior towns is less than generally expected for the week. The receipts at Houston to-day were 14,619 bales, against 18,418 bales last week, 10,604 bales last year, and for the week, 101,983 bales, against 104,452 bales last week, 78,217 bales last year. Receipts at Memphis to-day were 5,379 bales, against 5,103 bales last week, 4,336 bales last year. Receipts at New-Orleans to-morrow were 14,000 to 15,000 bales, against 22,942 bales last week, 15,877 bales last year. There seemed to be less pressure from the South to sell, and Continental and European buyers are taking cotton quite freely. Mr. Hubbard's estimate of the cotton crop as mentioned yesterday is causing considerable comment, some of which is not complimentary to Mr. Landauer as a statistician. In detail he estimates the Arkansas crop at 700,000 bales, against 900,000 bales in the 9,000,000-bale crop year; Louisiana, 525,000 bales, against 735,000 bales; Mississippi, 1,150,000 bales, against 1,340,000 bales, and Tennessee, 325,000 bales, against 400,000 bales. He makes these four States 675,000 bales less than in the 9,000,000-bale crop year. They will produce a minimum of 10 per cent more than they did then. This would make his estimate as figured by some, 9,500,000 bales on the total crop, his estimate yesterday being for 8,900,000 bales. A Memphis house says that the cotton crop in the Memphis district will be 30 per cent more than it was last year, and this authority predicts a total crop of 9,750,000 bales. This same concern estimated the previous year's crop within 50,000 bales of the actual figures. Atwood, Violett & Co. say: "Exports are quite in keeping with the movement, and there has not been in consequence an accumulation of stock either at the interior or at ports that the large receipts would have justified, showing as in former seasons of depression that consumption is very largely stimulated when the market has been unduly depressed. The facts are that prices to-day for middling cotton at New-Orleans are only ⅛c higher than they have ever been in any American market, namely, at New-Orleans, in 1843, but more it is ⅛d lower at Liverpool than prices there have ever touched. June contracts in this market to-day (Thursday) are 208 points below the same date last year, while middling cotton at New-Orleans is exactly 1c below the lowest prices touched since the Civil War, namely, March, 1892."

Opening, range and close to-day, and closing bids the previous night and last year follow:

Market closed steady at unchanged to 3 points net advance compared with yesterday's closing prices. Transferable notices, October, 5.55; November, 5.60. Total sales, 118,000 bales. New-York net receipts, 874 bales; gross, 7,363 bales; forwarded, 1,350 bales; sales, 143 bales, spinners, 143 bales; stock, 91,396 bales. New-York spot sales to-day and last night as officially reported: For consumption, 143 bales; total, 143 bales; spot market dull; middling uplands, 5 13-16; middling gulf, 6 1-16, which is unchanged compared with yesterday's closing.

Liverpool, cables—Spot cotton, a fair business doing; sales, 12,000 bales; speculation and export, 1,000 bales; American, 11,000 bales; receipts, 3,000 bales; middling uplands, 3 7-32. Futures opened quiet, sellers at 1-64d advance; closed barely steady at practically last night's figures. October, 30-64; October-November, 30-64; November-December, 30-64; December-January, 30-65; January-February, 30-65; February-March, 30-65; March-April, 30-66; April-May, 31-1c; May-June, 31-3c; June-July, 31-4c; July-August, 31-5c. Manchester—Yarns in moderate demand; cloths in moderate demand. The weekly statement of Liverpool stocks is as follows:

	This week.	Last week.	Last year.
In store	679,000	708,000	769,000
Afloat	245,000	185,000	215,000
Total	924,000	893,000	984,000
Of which American	778,000	743,000	804,000

COFFEE—Prices advanced on a fair business, especially for January. The improvement was due to the firm tone abroad and covering by the so-called "cotton crowd." Rio official cables firm. No 7 quoted at 11,900 reis; exchange, 11 15-16; receipts, 5,000 bags; stock, 380,000 bags; clearances for the United States, 7,000 bags. Santos market firm at 11,900 reis for good average; receipts, 10,000 bags; stock at Santos, 492,000 bags. Hamburg opened and closed steady at the following quotations: October, 71.50 pfgs; November, 68.25 pfgs; December, 67.75 pfgs; January, 65.75 pfgs; February, 64.75 pfgs; March, 63.25 pfgs; April, 62.75 pfgs. The stock at Havre is now 258,000 bags, including 140,000 bags Brazilian. Closing Havre quotations were for October, 86 frs; November, 85 frs; December, 84 frs; January, 80.50 frs; February, 79.25 frs; March, 78.25 frs.

Contracts closed barely steady at 10 to 20 points advance. Sales were 37,000 bags, as follows:

The statistical position of Brazil coffee is as follows:

	To-day.	Yesterday.	Last year.
New-York stock	198,672	205,327	147,896
Baltimore stock	28,277	28,962	2,506
New-Orleans stock	37,240	38,197	19,838

Visible supply	464,195	472,386	433,690

There is practically no business in invoice lots of Brazil coffee, hence rates are entirely nominal, the basis of quotations being about 15c for Rio No 7 on spot. Sales were 250 bags Santos private terms; 1,200 bags spot No. 5 at 15c. Mild coffee shows some activity in the way of placing small orders and the market shows some steadiness though at unchanged prices. Sales were 1,000 Maracaibo private terms, 1,000 Nicaragua, private terms.

DRUGS—Opium is selling at $2.80@$2.20 with about 10c more asked at the close for single cases. The firmness was on better prices from the primary markets. Quinine is strong at $2.27½@$2.35 and sellers at $2.30. Powdered and granulated camphor is quoted at 24½@24½c, regular and about steady. Essential oils quiet. Roots steady; Mexican sarsaparilla offered in jobbing lots at 65c. Ginseng selling at $2.75 and upward. Texas snake selling at 20c for prime, and lower grades as low as 20c.

FLOUR AND MEAL—The trade in flour was on a somewhat limited scale to-day. There was no incentive in the action of wheat prices to buy flour, and local jobbers were shopping around for bargains, not exhibiting very much interest one way or the other. There was very little change in prices, and the close was dull and about steady at the best. Sales were about 13,000 packages as follows: 450 bbls winter patents, $2.80@$3, and 3,500 bbls city mills at private terms; 1,500 bbls straights, $2.35@$2.70, latter for fancy; 100 bbls city mill clears, $3.25; 100 bbls extra 2s, $2.25, and 250 bbls city mills, $2.40@$2.60; 500 bbls city mill finest, $2.10; 5,000 bbls spring patents, $3.30@$3.50; 1,000 bbls clears, $2.35@$2.50. Southern flour was inactive.....BUCKWHEAT FLOUR—Market quiet.....RYE FLOUR—Market dull; sales, 450 bbls at $2.65@$2.85.....CORNMEAL—Market steady; sales, 200 bbls at $3.10 and 2,400 sacks at private terms. Quoted: Brandywine, $3.10; Sagamore, $2.90; Western and South-ern, $2.80@$3.05.....BAGMEAL—Market steady; fine white, $1.20@$1.25; fine yellow, $1.18@$1.20; coarse, $1.05@$1.08.....FEED—Market quiet. Quoted: 40-lb, 72½@75c; 60-lb, 72½@75c; 80-lb, 75@77½c; 100-lb, 87½@92½c; rye feed, 85c; sharps, 100@95c; hominy chop, 95@$1; cottonseed meal, $1.15@$1.17½; oil meal, $1.22½@$1.25; city feed, quiet at 80c.

FOREIGN DRIED FRUITS—Valencia raisins are very slow of sale, and importers seem desirous to realize upon their holdings, as about 200,000 boxes are said to be in transit. California raisins are quiet. Currants are steady at old prices. French prunes are also held a little more confidently, and California are steady. Nuts are in moderate request at steady prices. We quote: Valencia raisins, 4⅝@5½c; California, 3½@5½c; Ford dates, 6@7c; currants, 2¼@3¼c; Turkish prunes, 2⅝@3c; California, 5¾@9c; almonds, 10½@13½c, Brazil nuts, 3¾@4½c; walnuts, 7½@10c.

FOREIGN GREEN FRUIT—Lemons are very quiet, with prices showing but slight change. Jamaica oranges are dull but about steady. Bananas are slow. Cocoanuts are somewhat weaker, with demand moderate. We quote: Lemons, $1.75@$5.50; Jamaica oranges, $2@$2.25; bananas, 30@90c; cocoanuts, $40@$42.50.

GRAIN—WHEAT—The trade in wheat was small today, with fluctuations narrow. There was a better tone and the market worked up ⅛c from the final of last night, with a very uninteresting trade. The little improvement seemed to be based on the foreign news, which was somewhat better, but with no particular advices, and on this account there was some disposition to cover. Aside from this there appeared to be no feature of any importance, and operators had to hunt for influences to affect prices. The foreign trade seemed to be limited to a little buying and a little selling. The conditions West show no change. The interior movement compared with last week exhibits a big increase for the five days, but compared with last year shows a material decrease. Estimates on the visible point to about the same increase as was seen Monday. The reports regarding stock feeding range all the way from 50,000,000 bush, the estimate of "The Price Current" to 175,000,000 bush, the estimate of "The St. Louis Chronicle." The bears do not believe "The Price Current," while the bulls hope "The Chronicle" may be at least half right. Interior wheat receipts at spring wheat markets to-day were 711,245 bush (including Chicago, 64,836 bush, nearly all winter), against 760,754 bush last year; winter, 69,816 bush, against 115,763 bush. Seaboard receipts, 98,504 bush, against 181,926 bush; total, 809,965 bush, against 1,068,885 bush; exports, 415,478 bush, against 123,631 bush. In the afternoon there was a little selling movement, based partly on reports that the Argentine crop promised finely, the market closing slow at only ⅛c gain for the day. In cash wheat there was a small inquiry for export, shippers buying 16,000 bush No 1 hard Manitoba at 9c over December, f o b, afloat, and 120,000 bush, by the way of outports. Sales of hard Manitoba wheat, c i f, were 420,000 bush at 7⅞c over December, c i f, New-York, and 3½c over December, c i f, Buffalo; December closed at 55⅞c; 3,000 bush of No 2 red sold at 56½c, delivered. One explanation of the small export trade at present, notwithstanding the firm markets abroad, is the scarcity of freights at current rates.....CORN—The operations in the corn market was on a very unimportant scale. Prices were slightly better, but there was no interest exhibited on the rise, the trade generally being disposed to wait developments. The export trade of the last week offers some encouragement, but fears that the new crop when it begins to move will swamp the bulls seem to very largely offset the influence of the cash demand. The actual arrivals at the interior show no improvement, and very little is anticipated in the way of increasing receipts for some time to come. The tone of the market in the afternoon was fairly steady, and final quotations were at unchanged to ⅛c net gain for the day. Cash corn was very strong; 13,000 bush No 2 sold at 58⅞@58¾c, delivered; 5,000 bush yellow at 57½c in the elevator, and 5,000 bush unmeaded corn at 57½c, elevator.....OATS—There was again considerable interest exhibited in the market for oats, with prices showing some improvement. The liquidation which has been going on at the West for the account of speculative pools seemed to be over, and with the return of a little more confidence prices showed a hardening tendency. The close was at ⅛c net gain. The movement at the West continues good, but at the recent decline there has been a somewhat better inquiry for spot property, and estimates on the visible do not indicate much increase Monday. Sales of cash oats to-day were 22,000 bush No 2 oats, 31½c, elevator; 25,000 bush cash; do at 32½c, afloat, early sale. No 2 white, 35½c; 1,000 bush No 2 white, 34½c; flat, 52,000 bush track white, 35@39½c; 25,000 bush track mixed, 31½@33c, and 150,000 bush No 2 white oats, c i f, New-York, private terms.....BARLEY—Market steady; quoted at 61c for No 2 Milwaukee and 60@62c for ungraded Western.....MALT—Market steady; two-rowed State, 70@72½c; six-rowed, 72½@75c.....SEEDS—Market steady; cloverseed quoted at $5.75@$6.25.....BUCKWHEAT—Market dull at 50@55c for silver and 60@65c for Japanese.....RYE—State quoted at 50c bid for carloads.

HEMP AND JUTE—The market is still dull and nominal at the following prices: Manila hemp, spot, 5⅝@5¾c, shipment, 5⅛@5½c; sisal, spot and shipment, 3¾c; jute, spot, 2⅝@2¾c; shipment, 2⅝@3⅛c; jute butts, spot, bagging, 2⅝c; shipment, paper quality, 1½c; mixing, 1⅝c; bagging, 1 13-16c.

HIDES—Trading is very slow, owing in part to the light sales movement in leather, but the market shows no material change as to prices, owing to the fact that holders insist on full prices and as a rule they get them when desirable goods are offered.

LEATHER—Buyers have adopted their old tactics of buying only enough to meet present requirements, hence the market is very quiet, especially for hemlock leather. Some of the lower grades, however, are finding a quite ready sale. Union leather is holding steady to firm. Prices along the entire line are unchanged.

METALS—IRON—Advices from Pittsburg to-day were that the volume of business there continues fairly large but at prices which sellers until recently have been indisposed to accept. Advices from Germany indicate an enlarged iron production there this year, the total from January 1 to August 31 being 3,615,176 tons, against 3,236,680 tons last year.....COPPER—An improved demand was noted to-day, partly due to the London advices, and the close was steady with spot 9.60.....TIN—Trade was small and the undertone of the market weaker again on somewhat more pressure here and weakness in London. Sales were 25 tons December at 14.70, shipments from London to-day were 125 tons. Spot closed 14.55@14.65, and January and April 14.70 sellers.....TIN PLATES—Market quiet for futures, but for spot demand fairly active trade. I. C. Melyn is there now, and there is a fairly active trade. Spelter is quoted at $5.35@$5.40 for Allaway, $4.35@$4.50.....LEAD—Reports of easier market in St. Louis and a lack of trade here developed an easy feeling, prices closing barely steady, with spot 3.12½. St. Louis reported sales of 100 tons November at 2.90.....SPELTER—Market dull at 3.37½@3.40 for spot, and St. Louis, 3.17½ sellers.

MOLASSES AND SYRUPS—There is only a fair sales movement, but the market presents a fairly firm front, and some transactions are at quite full prices. Buyers are taking only enough to meet immediate wants. We quote: New-Orleans, centrifugal, ordinary to common, 16@15c; fair to prime, 16@18c; choice, 20@23c; open kettle, fair to good, 25@28c; prime to choice, 29@35c; syrups, 6@16c.....Porto Rico, 20@32c; syrups, 12c; sugar, ordinary to common, 10@13c; fair to good, 14@18c; prime to choice, 19@22c.

RICE—A fair sales movement is reported, buyers taking moderate-sized lots and only enough to meet present needs. We quote: Carolina and Louisiana, common to ordinary, 4¼@4⅝c; low fair to fair, 4½@4¾c; good to prime, 4⅝@5c; choice to fancy, 5¼@5⅝c; extra head, 6@6¼c; Java, 3¾@4c; Japan, 4¼@4½c; Patna, 4½@5c; do, in bond, 3@3½c; Rangoon, 3½@3¾c; do, in bond, 1¾@2¼.

SUGAR—The raw sugar market is without new developments, and there is practically no market. Nominal prices are 3½c for 96 centrifugals, 3c for 89 muscovados, and 2⅝c for 89 molasses sugar. The London market is quiet for cane, with prices fully maintained. Java quoted 12s 6d; fair refining, 10s 3d, and test steady but little doing; October and November quoted at 10s 1½d. Refined sugar inactive; trade almost at a standstill, orders confined to for very small lots. Prices unchanged on the basis of 4⅞c for granulated.

COUNTRY PRODUCE MARKETS.

New-York, October 26, 1894.

BEANS AND PEAS—Not much change in the general situation. Receipts continue light and there is sufficient demand for choice hand-picked white beans to keep prices quite firm. Red kidney still a little unsettled, but buyers are able to get all the fine goods they want at $2; off-grades have no demand to speak of. Other domestic varieties are in light stock but quiet. Old foreign beans are selling slowly at easy prices. Green peas favor the buyer. We quote: Beans, domestic, marrow, choice, per bush, $2.25; do medium, $1.80; do pea, $1.80; do white kidney, $2.25@$2.30; do red kidney, choice, hand-picked, $1.95@$2; do common to good, $1.60@$1.85; do turtle soup, $2.10; do yellow eye, $2.10@$2.15; do lima, California, $2.80@$2.85; do foreign, medium, 1894, $1.50@$1.60; do foreign, medium, 1893, $1.20@$1.35; do foreign pea, 1893, $1.50@$1.60; green peas, bbls, $1.02½; do bags, 97½@$1; do Scotch, $1.10.

BUTTER—General demand was not much better and the market as a whole was slow. For fancy fresh creamery there was some inquiry and the light offerings brought $23½c without difficulty. Leaving that grade prices fell away rapidly; indeed, selling rates were largely a matter of negotiation. The higher the quality and the fresher the goods the easier they sell. This is practically true of all the different classifications. Old flavored common stock is decidedly out of favor. We quote: Creamery, State and Pennsylvania, extras, per lb, 23@23½c; do Western, extras, 23½c; do firsts, 20@22c; do thirds to seconds, 14@19c; do June make, extras, 21@22c; do seconds to firsts, 16@20c; State dairy, half-firkin tubs, extras, 22@23c; do firsts, 19@21c; do thirds to seconds, 13@18c; State dairies, entire, extras, 21c; do seconds to firsts, 16@20c; State dairy, firkins, extras, 20c; do seconds to firsts, 16@19c; imitation creamery, 14@18c; Western dairy, 12@16c; factory, June firkins, 12@14½c; do June tubs, 11½@14c; do fresh, 11@13c.

CHEESE—There were light offerings of fancy large size September colored cheese, and with some call for such the market was firm at 10½c, two or three special lots going to home trade at 10¾c. White continued to look quiet, fancies lots going at 10c. All lower grades were neglected and lower. Small size full cream in light demand and easy; must be strictly gilt-edge to reach top figures. We quote: State, factory, full cream, September make, large size, colored, fancy, per lb, 10½c; do white, fancy, 10c; large size, fancy, 9¾@9⅞c; do good to prime, 9¼@9½c; do common to choice, 9⅛@9⅜c; do small size, fancy, 10¼@10½c; do good to choice, 9¾@10¼c; do common to fair, 8½@9½c; part skims, Chenango, etc., choice, 6½@7c; do good to prime, 5@6c; do, common to fair, 3½@4½c; full skims, prime, 3@3½c; do, common to fair, 3½@4½c.

EGGS—Market steady for the moderate offerings of choice fresh gathered Western; fee-house goods of choice quality about steady, but quiet. Limed eggs extremely dull and nominal. Second qualities of fresh are the hardest to move of all, and have a very uncertain value. Inferior grades of fee-house in some demand, but at low prices. We quote: Jersey, per dozen, 23c; State and Pennsylvania, 20@21½c; Western, fresh gathered, prime, 19@19½c; do poor to fair, per case, $3.50@$4; ice-house, prime, per dozen, 16@16½c; poor to fair, per case, $3@$3.50; limed eggs, per dozen, 15½@16c.

FRUITS—FRESH—Apples very dull and unchanged. Pears steady for choice. Quinces scarce and firm. Choice grapes a shade firmer. Cranberries held firmly but quiet. Florida oranges selling well when of choice quality. We quote: Apples, King, per bbl, $2@$3; Snow, $2@$2.50; fall quotations, New-York Pippin, $2@$2.50; Greening, $1.50@$2.25; Spy and Baldwin, $1.50@$2; common to fair, 75c@$1.25. Pears, Boston, as to kind and quality, per box, $1@$3; up-river and State, bbls—Beurre Bosc, $3@$4; other kinds, $1.75@$3. Quinces, $3@$4.50. Grapes, Delaware, small baskets, 10@18c; Niagara, average quality, 10@12c; Catawba and Concord, 10@11c; Concord, large baskets, 17@20c; gift crates, 80@$1, wine grapes, in trays, per lb, Catawba, 2@2½c; Niagara and Concord, 2@2½c; Delaware, 2@3c. Cranberries, Cape Cod, usual varieties, per bbl, $8.50@$9.50; do Jersey, $7.50@$8.50; do per crate, $2.40@$2.75. Florida oranges, per box, $1.50@$2.50; lemons, $1.25@$3.50; grape fruit, $2.50@$3.50.

FRUITS—DRIED—Home jobbers are taking a fair quantity of choice and fancy evaporated apples, and prices for these are well maintained. Exporters are buying most of the prime goods direct from makers, which makes a narrow outlet for them here and a consequent easy tone to values. Very little sun-dried fruit offering. Chops and cores and skins dull. Raspberries and blackberries quiet. Cherries have some inquiry. California prunes moving freely. Apricots quieter. We quote: Apples, evaporated, fancy to extra fancy, 80@9c; do choice, 7@7½c; do prime, 6¼@6¾c; do common to fair, 5@6c; do sun-dried, 3@3½c; chops, 1½@1¾c; cores and skins, 1¼@1½c; raspberries, evaporated, 18c; cherries, 12@13½c; blackberries, 6@7c; apricots, 8@10½c; prunes, as to size, 6@10c; peaches, unpeeled, California, 7@9½c.

HOPS—Brewers are buying fairly, and there is a firm tone to the market for choice goods. Lower grades quiet and unimproved. We quote: State and Pacific Coast, 1894, choice, per lb, 10@11c; do good to prime, 8@9c; do common to fair, 6@7½c; yearlings, 3@6c; old olds, 2@3c.

POULTRY—ALIVE—Two cars of fresh stock and 4 or 5 cars of stale poultry on sale to-day. Market still very dull with general sales of fowls and chickens at 6@6½c, only a few prime fresh fowls reaching
