THE GENERAL MARKET REPORT.

New-York, December 10, 1894.

COTTON—The market opened at a decline of 3 to 4 points on disappointing Liverpool advices, futures there closing with a net loss of about 1 point on reaffirmation by Mr. Neill of his previous crop estimate of 10,250,000 bales. Later the market was steady here on quite prompt absorption of the offerings, although trading during the forenoon was slack, with the market ruling steady. During the afternoon the market was easy and quiet, with total sales of 131,000 bales, the net loss being about 4 to 6 points. The Agricultural Department states that there will be no bureau report to-day. Consider-not much market-making news at hand to-day. Considerable bearish talk was going the rounds. The heavy supplies of raw cotton reported to be held by New-England spinners, together with the large supply on route for New-England points, was commented on freely. Some private advices state that there is more cotton in Alabama and Mississippi than at any like time heretofore. Offerings of spot cotton from the South were quite free, but there did not seem to be any special weakness there, offerings being at old prices. One local operator was so enthusiastic over what he termed the bearish situation that he offered to wager $500 even that March cotton would sell here at 5 cents in the near future. There is a wide difference in the estimates of the receipts at the ports this week, some figuring them at 320,000 bales or less, while others figure up as high as 350,000 bales. The New-Orleans estimate is for 310,000 bales at that port this week, and for all ports 345,000 to 355,000 bales. The receipts at the ports last week were 352,151 bales and last year 296,850 bales. New-Orleans receipts for to-morrow are estimated at from 20,000 to 24,000 bales, against 20,398 last week, and 19,017 bales last year. Receipts at Houston were 14,621 bales, against 13,405 last week, and 7,727 last year, and at Memphis 6,285, against 8,862 last week and 7,295 bales last year.

COFFEE—The volume of business was small and trading was marked by no noteworthy features. Prices were well maintained, and the trend was rather higher in sympathy with the markets at Havre and Hamburg. Owing to a holiday in Rio no reports were received from Brazil beyond a statement of receipts, which were 1,000 bags at Rio and none at Santos. Hamburg closed steady at the following quotations: December, 71.75 pfgs; January, 70.75 pfgs; February, 70.25 pfgs; March, 69.50 pfgs; April, 69 pfgs; May, 68.25 pfgs; June, 67.75 pfgs; July, 67.50 pfgs; August, 67.25 pfgs. Havre closed steady. Total sales for the day were 27,000 bags; December closed at 91 francs, January, 87.75 francs, February, 87.25 francs, March, 86.75 francs; April, 86 francs; May, 86 francs; June, 85.25 francs; July, 85 francs; August, 85.25 francs. Receipts at Rio from July 1 to date are 1,310,000 bags, against 1,076,000 bags in 1893; Santos receipts during the same period are 2,402,000 bags, against 1,296,000 bags in 1893.

Contracts closed dull at unchanged to 10 points higher. Sales were 10,000 bags, as follows:

The market for Brazil sorts does not present any new or interesting features. The call is still mostly for the better grades, which are firmly held, owing to a scarcity of lots available at the moment. Such grades are readily salable on the basis of 16c for Rio No 7 spot. The lower grades are quotably lower on the basis of 14½c for No 8. We note sale of 500 bags Bahia No 6 spot at 16¾c. Mild grades are having a fair sales movement at steady prices. We note sales of 1,200 bags Maracaibo and 500 pkgs Jamaica on private terms.

FLOUR AND MEAL—Trade was very dull, with the tendency of prices lower. High interior freights are against any concessions from mills, but buyers hold off on weakness in wheat. The demand is small and easily satisfied. The close was quiet. Sales were about 12,440 packages, as follows: 6,325 bbls, city mill patents, private terms; 900 bbls straights, $2.70@$2.75, 3,250 bbls city mill clears, $3.35; 150 bbls extra fine, $2.25, and 125 bbls city mills, $2.45@$2.50; 500 bbls fine, $2.10@$2.15; 1,200 bbls spring patents, $3.60@$3.65.....BUCKWHEAT FLOUR—Market dull, quoted $1.90.....RYE FLOUR—Market quiet, quoted $2.65@$2.95.....CORNMEAL—Market quiet; sales, 300 bbls. Quoted: Brandywine, $3; Sagamore, $3; Western and Southern, $2.80@$2.85.....BAG MEAL—Market quiet; fine white, $1.25@$1.30; fine yellow, $1.20@$1.22; coarse, $1.05@$1.12 for old and new.....FEED—Market firm, quoted: 40 lb, 77½@80c; 60 lb, 77½@80c; 80 lb, 77½@80c; 100 lb, 80@85c; rye feed, 80@85c; sharps, 90@95c; hominy chip, 95c; cottonseed meal, 95@$1; oil meal, $1.12½@$1.15; city feed, 80@85c.

GRAIN—WHEAT—The market was active and lower this morning. First sales were at about ½c decline, after which prices rallied a little, became dull until noon, then weakened a little on the visible supply, steadying subsequently on the decrease in the English visible. The early news all seemed to be in favor of the bears. Cables were weak and lower. There was an increase of 1,200,000 bush on passage, and foreign houses were heavy sellers of wheat at the opening. The buying was scattered, but absorbed the early offerings, after which prices rallied. The advices from the Argentine pointed to a 10 per cent increase in the crop there. The decided weakness in Liverpool was, however, the principal bear feature. Local stocks of contract wheat decreased in No 2 red 492,000 bush, quite a satisfactory decrease. The visible supply increased more than anticipated, and the Northwestern receipts of wheat were again heavy, exceeding last Monday's arrivals. The English visible, as figured out from the estimated consumption, shows a decrease of 1,387,000 bush, which, deducted from the increase afloat and the American visible, left a net increase in stocks of about 600,000 bush. The expectation that the Government report would be issued this afternoon tended to reduce business somewhat. The private dispatches stated that the Government had announced that for comparison of the figures of the area harvested the last year would be given. This area, which, according to the department's percentages, was interpreted first in June at 22,660,000 acres, is now raised to 23,519,000 acres, which apparently would seem to indicate that the department is getting ready to hedge on its final statement of the yield this year. Interior receipts of wheat at spring wheat markets to-day were 641,482 bush (including Chicago 27,366 bush, nearly all winter), against 636,102 bush last year; winter, 75,622 bush, against 105,611 bush. Seaboard receipts, 86,064 bush, against 102,048 bush; total, 802,568 bush, against 843,761 bush; exports, 175,698 bush, against 36,143 bush. Trade during the latter part of the day was small, with the market winding up weak on tips that the Government report would show 2½ per cent increase in area over the 23,519,000 acres reported for last year. The final quotations were at the lowest of the day at ⅝@⅝c net decline. Cash wheat was dull; 32,000 bush No 2 red sold at 2⅛c under May, f o b, store; May closed at 63⅛c. The Government report made the condition of winter wheat 89 per cent, against 91.5 per cent last December, and area 105 per cent of the area harvested in 1894. The curb broke ⅛c on the report to 62⅞c for May.....CORN—The market for corn opened at a little decline, in sympathy with wheat, but speedily became strong and advanced ⅝@¾c, with a moderately active volume of trade. The advance seemed to be due to the small receipts and continued disappointment as the inspection, which showed a very poor grading of corn. The rally was also helped by the fact that exporters have recently been good buyers of new corn, partly, it is stated, to fill freight room engaged early last week for wheat. The visible supply of corn increased more than anticipated, and prices reacted slightly. During the latter part of the day the undertone of the market was quite heavy, prices breaking to nearly the lowest figures of the day, with near deliveries depressed. The large increase in the visible, as stated, brought in considerable realizing. The close was at unchanged to ⅛c decline. Cash corn was quiet and heavy for new. Sales included 12,000 bush No 2 at 57⅝@58c, delivered; 8,000 bush No 3 at 49@49½c, elevator; 11,000 bush steamer yellow at 53c, elevator; 4,000 bush old yellow at 58c, delivered, and 12,000 bush steamer corn at 51@51½c, elevator. Exporters took 1 load.....OATS—The market for oats was again featureless. The opening was a little easier in tone, followed by slight improvement with the rise in corn, prices later easing off with other grain, closing quiet unchanged to ⅛c decline. Cash oats were quiet and about steady. Sales were 59,000 bush, with details as follows: 6,000 bush No 2 at 34½c, elevator, and 35½c, delivered; 30,000 bush No 2 white, 39c, with 39½c bid, on New-York Central; 14,000 bush track white at 37@42½c.....BARLEY—Market firm; quoted at 63@64c for No 2 Milwaukee and 62@66c for ungraded Western.....MALT—Market dull; new Western quoted at 70@72½c.....SEEDS—Market steady; cloverseed quoted at $9@$9.75 and timothy at $5.90@$6.40.....BUCKWHEAT—Market dull; 55@57c for silver and 50@51c for Japanese.

METALS—IRON—There has been well developed weakness in the Pittsburg market during the last week, and Bessemer pig has sold there as low as $9.50 f o b valley furnace for prompt shipment. Bessemer pig is weaker in tone, but not quotably lower. Locally, the market has been without very marked change.....COPPER—Closed very firm, with spot at 9.75.....LEAD—Ruled quiet, closing at 3.12½ for spot, as compared with 3.05 bid, also 3.17½ asked earlier in the day. The tone became easier, with spot at 12.70@12.80. The tone became easier, with spot at 12.70@12.80. The May inclusive, same price and June, 12.70@12.80. The received transe tons includes 25 tons of January at 12.75.....SPELTER—Market quiet at 3.27½.

MOLASSES AND SYRUPS—The market throughout is holding quite steady, owing in the main to a firm condition of affairs at primary markets. NAVAL STORES—Stock: Rosin, 19,972 bbls; turpentine, 1,795 bbls; tar, 1,400 bbls. There was a steady market throughout; spirits turpentine quoted at 27½@28c and rosin at $1.30@$1.37½ for common to good strained.

OILS—There is a rather indifferent demand for cottonseed oil, but on the other hand there is no very marked pressure to sell. Values would be considered as being more or less nominal. Lard oil is selling fairly well in a jobbing way, and the same may be said of linseed oil. We quote: Cottonseed oil, prime crude, bbls, 24c; prime crude, loose, f o b mills, 19@21c; off crude, 23@24c; summer yellow, prime, 28@28½c; summer yellow, choice, 27@27½c; summer white, prime, nominally 30@31c; winter grades, 36c. Lard oil, 55@56c. Linseed oil, American raw, 36c; American boiled, 38c; Calcutta raw, 56c.

OCEAN FREIGHTS—For berth freights the market was inactive and easier for grain, especially for Liverpool, for which port room is in liberal supply. Engagements for low: To Liverpool, 500 boxes bacon, 25c; 1,000 boxes cheese, 30s; 1,200 bbls oysters 3c; 500 bbls apples, 3c; to Antwerp, 3 cars wallboard bags, 17c per 100 lb; grain to Liverpool, 3d; nominal London, 2½d; Glasgow, 3½d; Bristol, 3d; Hull, 4d store; Leith, 4½d store; Newcastle, 4½d store; Antwerp, 3½d; Rotterdam, 4½c; Hamburg, 40 pfgs; grain to Cork for orders, 3s 3d January; cotton to Liverpool, 9-64d; petroleum to United Kingdom, 1s 10½@2s 6d.....CHARTERS—Chartering is slow and the market is easy for steam and sail tonnage in the prominent foreign trades. Extra mess, $13 25@$14; family, $12 50@$13; short clear, $14@$16 50.....BEEF—Market dull; family, $10@$12; mess, $7 50@$8 50; packet, $9@$10; extra India mess, $15@$16.....BEEF HAMS—Market quiet; spot quoted $17@$17 50.....TierCES—Market quiet; sales, 300 tcs; prime City, $10 50.....DRESSED HOGS—Market quiet; 160 lb quoted at 5¾c, and light to heavy, 5⅝@6⅛c.....CUT MEATS—Pickled bellies—Market weak; quoted 6@6¼c. Pickled hams—Market easy, 8⅝@9c.....TALLOW—Market firm, dull; quoted 4⅝c.....STEARINE—Market easy for lard at 8⅛@9c; firm for oleo at 7½@7¾c.....LARD—Market weaker; sales, 175 tcs, 7.12½@7.20c; closed 7.12½c; city, 6¾c; refined Continent, 7.55c; South America, 8c; compound, 5¼@5½c; options closed: December, 7.20c nominal; January, 7.20c nominal; May, 7.45c asked.

RICE—The market for rice is without important change in any direction. The sales movement is at best only fair, but the market shows a fairly steady front, and current sales are in the main made at the quoted rates. We quote: Carolina and Louisiana, common to ordinary, 3½@3¾c; low, fair to fair, 4⅛@4⅝c; good to prime, 4⅝@5c; choice to fancy, 5¼@5⅝c; extra head, 6¼@6⅝c; Java, 3⅛@3⅞c; Japan, 4⅝@4⅝c; Patna, 4c; Rangoon, 3½@3⅝c; do in bond, 1⅝@2¼c.

SUGAR—While the market for raw sugar is still quoted nominally unchanged at 3½c for 96 centrifugals, 3c for 89 muscovado and 2 15-16c for 89 molasses sugar, it is not at all probable that sales could be made on that basis. In fact, European beet firsts are offered at 9s 3d per cwt, cost and freight, which is equivalent to 3¼c for 96 centrifugals, duty paid here. There is no change in quoted prices, owing to the indifference of buyers and indisposition of holders to force their sugar onto a non-receptive market. The London market is dull for cane but unchanged, being quoted at 15s 9d, fair refining 9s 3d, while beet is declining slowly; December quoted at 8s 9d, a drop of 1½d, and January, 8s 10½d. It was an exciting day in refined sugar, and an enormous business was done. At the opening of the market the A S R Co reduced prices on dominos, cut loaf and crushed ⅛c, and at noon they made an all-around reduction of from ⅛c to ¼c, granulated being marked down to 4c, long price. For several days orders have been received to be executed if the market went to the 4c basis, and these orders were immediately thrown in. The A S R people took all the business offered, and the supply of granulated was soon exhausted, and the price advanced to 4.06c. At the rate that business was done to-day, the supply will soon be so depleted that orders can only be received subject to delay. The market is feverish and uncertain.

COUNTRY PRODUCE MARKETS.

New-York, December 10, 1894.

BEANS AND PEAS—The inability to move the domestic beans is leading to further concessions in price, in the hope of opening new outlets. Choice marrow have settled to $2 20, and it is doubtful if $1 70 could be exceeded for the finest marks of medium and pea. Red kidney still very dull, and $2 10 is merely an asking price for choicest quality. Foreign beans moving slowly, and outside quotations extreme. We quote: Beans, marrow, choice, per bush, $2 20; do medium and pea, $1 70; do white kidney, $2 30@$2 35; do red kidney, $2@$2 10; do turtle soup, $2 15@$2 10; do yellow eye, $2 10@$2 15; do lima, California, $2 80@$2 90; do foreign, medium, $1 20@$1 55; do foreign, pea, $1 45@$1 60. Green peas, bbls, $1 07½; do bags, $1@$1 02½; do Scotch, $1 10.

BUTTER—With receipts of nearly 12,000 pkgs to-day, and much of Saturday's stock carried over, the market developed unexpected weakness all along the line. Western advices came in lower, and sellers felt the necessity of dropping prices to a point that would insure a larger consumption of butter. In the unsettled condition of the market at the moment buyers were afraid to operate largely, and the volume of business was not nearly large enough to take the urgent offerings; lighter receipts for the balance of the week will alone prevent further shrinkage in values. We quote: Creamery, State and Pennsylvania, best, 23c; do Western, fresh extras, 24c; do firsts, 21@22c; do thirds to seconds, 15@20c; do held, 16@21c; State dairy tubs, extras, 21@22c; do firsts, 18@20c; do thirds to seconds, 12@17c; State dairies, entire, 15@20½c; State dairy firkins, 15@20c; imitation creamery, 14@19c; Western dairy, 10@16c; factory, fresh, extras, 16@17c; do thirds to firsts, 10@13c; do June, firkins, 12@14c; do June, tubs, 11@13c.

CHEESE—Nothing doing beyond small jobbing sales for current use. None of the home trade buyers show any disposition to operate largely, and, with exporters quite indifferent, it is impossible to effect important sales. Prices are held about as of late, but there is a slight undertone of weakness on most grades, and it is possible that some concessions could be made to increase the trade. Liverpool cable, 51s. We quote: State factory, full cream, fall made, large, colored, fancy, 11½c; do white, cream, fall made, large, colored, fancy, 11½c; do common to fancy, 9@11c; do good to choice, 10@10½c; do common to fair, 9@9½c; do small, colored, fancy, 11¼@12c; do white, fancy, 11½c; do common to choice, 9½@11¼c; part skims, Chenangoes, etc, small, choice, 8½@9c; do large, choice, 7½c; do common to prime, 3½@7c; full skims, 2@3c.

EGGS—Market continues dull and with liberal receipts and advices of some increase in shipments the tone is weaker. Average prime Western are very freely offered at 25c, and sales of superlative quality at any higher figure are now so rare that we make no higher quotation. Under grades fresh gathered very dull and weak. Held fresh and lined of really choice quality are held un-hanged, but move slowly and under pressure to-day. We quote: Jersey and Penn, 26@28c; State and Pennsylvania, 24@25c; Western, average best, 25c; Southern best, 24@24½c. Fresh collections, fair to good, 22@23½c. Refrigerator, fall packed, 18@22c; do early packed, 16@19c; do defective, per case, $2@$4, limed, per doz, 15@16½c.

FRUITS—FRESH—Apples quiet for the grades generally offering, but fancy fruit scarce and held with confidence. Grapes dull. Cranberries in demand and strong. Oranges plenty, dull and irregular. We quote: Apples, Greening, fair to fancy, per bbl, $2@$3; do Spy and Baldwin, $1 75 @$2 50; do inferior, $1@$1 50; grapes, Catawba, per small basket, 10@15c; do Concord, 12@14c; cranberries, Cape Cod, per bbl, $9@$12; do Jersey, $9@$9 75; do per crate, $2 75@$3 25; oranges, Florida, per box, $1@$1 87; grape fruit, $2@$3 50; tangerines, $2 50@$3 50; mandarins, $2@$2 50.

FRUITS—DRIED—Market for evaporated apples remains quiet,
