ON THE STOCK EXCHANGE.

Friday, February 8—p. m.

The market was exceedingly dull, but steady, after slight declines at the opening, until the announcement of the terms of the bond arrangement, shortly before 1 p. m. Considerable activity was then developed for a time, but it was activity in an unpopular direction; prices fell off from a small fraction to over a point. It had thus been made evident in a moment that the announcement was not well received. An issue of $100,000,000 had been expected, and while $65,000,000 (net) would bring the reserve to the required point, it did not provide such a margin of protection as seemed desirable. Moreover, the rate the Government would have to pay, 3¾ per cent, was regarded as very high, and likely to have a bad effect on the country, inasmuch as it might force municipalities and other corporations to pay more for money than heretofore. This is, indeed, a serious consideration. It may be that reflection will modify this judgment considerably when all details of the arrangement are known, and that the market for stocks will respond favorably, at least for a time. We understand that $50,000,000 or more will be disposed of abroad. Undoubtedly the President counts upon a speedy increase of revenue to prevent a recurrence of the present emergency—and that, certainly, is the conspicuously weak point of this daring venture. However, cautious observers in the banking community are inclined to admit that the loan will prove effectual as a stop-gap for a considerable time; at least until the Republicans can control the House of Representatives, and properly modify the effect of vicious Democratic legislation. It may be added that Wall Street does not believe that this Congress will allow the President to make better terms than 3¾ with the Syndicate, as he suggests, by authorizing a 3 per cent gold loan within ten days.

Under the circumstances, the most significant movement of stock prices to-day was the decline which followed the announcement of the bond bargain. If it was the result of a hasty judgment, it was natural that no real recovery should occur until the Stock Exchange and the public had more light. No real recovery did take place, although the close was not quite at the lowest prices. The Grangers had an especial cause of weakness in the greater operating expenses which the present storm will entail. Even the manipulated group of specialties felt the depressing influence. The net results are declines of nearly a point, and often more, along the entire active list.

Government 4s coupon sold to-day at 110@110½, and 4s registered at the same price, which is a decline of ¼ for the coupon series and ⅛ for the registered. The new 4s for the syndicate will cost them 104.49. There seems to be a fair margin of profit.

BONDS—THE FEDERAL TREASURY.

Government bonds sold: $25,000 4s coupon (@ 30) at 110¼, and $23,000 of the same at 110¼; $70,000 5s coupon at 114¾@115; $25,000 5s coupon (@ 30) at 114½, and $50,000 5s registered at 114⅞. The bulk of these sales was before the bond announcement. Quotations were lower for the 4s, but a shade better for the 5s, and were as follows:

In State issues: $2,000 Virginia 6s, deferred trust receipts, stamped, at 7, and $10,000 of the same (@ 30 F) at 7. No bank stocks were dealt in.

An unusually small volume of business in railroad bonds was marked by a corresponding lack of feature in the list, and few changes of note were recorded on a general downward tendency. The sales aggregated only $574,000, and while St. Louis Southwestern 1sts advanced ¾ to 65, Canada Southern 2ds receded ¾ to 105, and Erie 2ds receipts 1 per cent to 90.

The Sub-Treasury was debtor to the Clearing House $607,666. Its net loss on balance was $519,359, made up by a loss in currency of $505,102, and a loss in coin of $14,257. The day's operations included: Receipts, $2,409,801; payments, $2,929,160, resulting in a general balance of $147,410,267, consisting of $68,908,379 coin and $78,501,888 currency. The business for the week ending to-night includes receipts of $15,319,989 and payments of $17,873,345. Deducting from the payments $3,976,000 and from the receipts $2,739,000 for items which affect only its account with the general Treasury, its loss as affecting the banks was $1,307,367.

The United States Treasury at Washington received to-day $24,208 National bank notes for redemption. The customs receipts were $149,210, the internal revenue receipts $244,126, and the miscellaneous receipts $15,846. Total Government receipts for the day, $409,184; expenditures, $991,067; excess of expenditures, $581,883. Receipts for month to date, $6,097,665; expenditures for month to date, $9,093,552. Excess expenditures for month, $2,995,887.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:
