

WAPPENINGS IN THE CITIES

Police Chief Escapes from Own Prison

ALBANY.—Tucked away among the hills in the northern part of Westchester county, the little town of Hillside, with its 100 voters, the smallest incorporated village in the state, is excided with a criminal and political sensation that would delight the soul of the late Sir William S. Gilbert of comic opera fame.

Political activity in Hillside goes by inverse ratio to the town's size. Leaders of the opposing factions are Hewson Stephenson, chief of police when he is not doing odd jobs of painting, and the police justice, William Stage.

Stephenson was making his usual tour of duty the other night when he spied a shaft of light through the closed shutters of the room above Henry Fry's saloon.

"Ha! A poker game," he muttered, as he stole silently up the rear stairs. He could hear voices in lively argument behind the door. He braced his shoulder to force it, but when he turned the handle it yielded and he found himself confronting 20 familiar but not friendly faces. Also he encountered a heavy silence.

There were no cards or chips, but, and this was the bitterest disappointment, there sat the village constable, the chief's right hand of office, sitting

"Social Queen" Found to Be Butcher

WHEELING, W. VA.—A bundle of blood-stained butchers' aprons, an electric washing machine, a "bridge" party and a bucket of water have started a domestic and industrial warfare here in which are involved Thomas Yingling, millionaire wholesale meat dealer, and his wife, would-be social dictator.

It is because of them that Mrs. Yingling has resigned her efforts to dictate to Wheeling society and has announced her intention of spending a million which she possesses in her own right to put her husband "out of business."

To do so, she intends to open a rival butcher shop and will abandon her duties as a social leader to vie with him for supremacy as a welder of the cleaver.

Meantime both wife and husband continue to reside in the mansion which was the scene of the affair which led up to their separation. Both say they will remain there and that the campaign they will wage against each other will be conducted from the same headquarters.

The story of the split between the Yinglings will be told here for years. Mrs. Yingling has long aspired to social leadership, and was partly successful. She had planned a series of receptions and dances for this winter and informed her husband he must don his evening clothes and help her entertain.

Goes to Prison to Join His Brother

KANSAS CITY.—It wouldn't be true, perhaps, to say that James Baughman capered with delight when the judge of Wyandotte county common pleas court gave him a little package that was coming to him the other afternoon. But he took the bundle, unwrapped it and examined the contents—ten to twenty years in the penitentiary for highway robbery. And then he smiled.

It was not a sneer. There was no bravado in it. A man who suspected that learned his mistake when he asked the prisoner about it afterward.

"I'll tell you why I don't mind it so much," the convicted man said. "Charlie's up there—my brother Charlie. And it's my fault he is. He took a chance for me and lost. I'm going to ask 'em if they won't let me work alongside of him. I don't care what kind of work it is, so as they let us serve our time together.

"Charlie's no angel, you understand. I'm not saying that. It's not

Meanest Man Is Found by a Minister

NEW YORK.—When it comes to depriving the minister of his wedding fee, the "meanest man" may be plural, but when it comes to not only "doing" the minister, but to soliciting a job from him afterward, the Rev. Lincoln Hollister Caswell is convinced the meanest man lives in Flatbush.

The Rev. Mr. Caswell also lives in Flatbush, where he is pastor of the Fenimore Street Methodist Episcopal church. A few weeks ago the Rev. Mr. Caswell was approached by a young man who confided he wished to be married and wished the minister to tie the knot.

About 200 guests were present at the church on the day appointed, and the bridegroom was a sight more gorgeous than Solomon in all his glory, for he appeared in brilliant tan shoes and yellow gloves, colorful suit and clothes to match. The bride was attired in a plain traveling costume of tan.

They stood at the altar while the minister read the marriage service

as a secretary of what he knew at a glance was a caucus of his political enemies.

"Have you a warrant to serve?" coldly inquired Mr. Stage, the justice of the peace, who sat at the head of the table. Stephenson shook his head. "Then I order your arrest for unlawful entry," continued the justice. "Constantly, do your duty."

The constable stood up and placed his hand on the police chief's shoulder. "Now, I'll commit you to jail under \$2,000 bail," the justice went on. The caucus adjourned to escort the victim to the town lock up. The constable saw that his chief was tucked safely in a cell. He locked the jail door and went back to the meeting.

"Five minutes later the chief took a key out of his pocket, unlocked his cell, calmly 'broke jail,' and went home to bed. He went to Westchester the next day, visiting friends, where he dropped into a police station and asked if there was an alarm out for a jail breaker from Hillside. The obliging police clerk read to him his own description, and failed to recognize him.

"I've got a line on that fellow," said Chief Stephenson. "Guess I'll go down and see the sheriff."

To that official he said: "Lock me up. I'm too dangerous to be at large. I'm a jail breaker." The sheriff heard his story and paroled him in his own custody. Later the chief telephoned to his wife, and she came and furnished \$1,000 bail when he was arraigned before County Judge Platt.

He did not approve, and Mrs. Yingling started to do the entertaining herself.

The first affair she planned was a party for the Euterpe club. An elaborate musical program was given, attended by most of Wheeling's elite.

This over, the guests sat down to bridge. Then Mr. Yingling appeared in his shirt sleeves. He carried a washing machine in one hand and in the other a basket of dirty clothes, among them a number of blood stained butchers' aprons. That was a shock. The guests thought that perhaps some novel feature had been provided for their entertainment.

But they were mistaken. Mr. Yingling calmly attached the washing machine to an electric chandelier, carried in a bucketful of water, and began to wash the dirty clothes. The guests screamed and departed, leaving Mrs. Yingling humiliated, angry and vengeful.

The result was her announcement that she intended to become a business rival of her husband.

Reminders of Old Roms

An important archaeological discovery has been made at Brindisi, where the remains of ancient Roman buildings have been found on the seashore in the locality known as St. Apollinare. The ruins have been identified as belonging to Roman wells which collected the neighboring hill waters and were used as a fountain. The adjacent remains of a Roman villa have been identified as the famous villa of Leno Flaccus, Cicero's friend. Cicero occasionally visited the villa.

Rapid Growth of White Pine. After 285 years of white pine cutting in Massachusetts alone, which by many is supposed to be denuded of timber, there were 238,000,000 feet of white pine alone cut in 1908 (government figures). The forest service further reports that "it is not improbable that a similar cut can be made every year in the future from the natural growth of white pine in that state."

While it is not possible to state the exact average production of eggs per hen in one year it is conservatively estimated in the United States to be about seventy. By improved methods of breeding, feeding and selection birds have been found with actual individual records of 269 to 287 eggs a year.

Only one hen has been found at Cornell that laid as high as 287 eggs in a year, but this one example of the degree of perfection to which the breeders' art has attained is valuable for the pace it sets for others to follow and surpass. The net profit obtained from the sale of these 287 eggs amounted to \$5.06.—Christian Herald.

HOME TOWN HELPS

BETTER HOUSING CALLED FOR

Community Can Not Be Made Attractive Without the Co-operation of the Builder.

"The housing problem is one of the most important aspects of home development and good homes are the keystone of the whole social arch," writes Edward T. Hartman, secretary of the Massachusetts Civic League, in the annual report of that organization. Mr. Hartman discusses the housing problem in towns, and says in part:

"I want particularly to mention three aspects of the housing problem; the aesthetic, the social and the economic. For many years we have had in Massachusetts a succession of short-lived organizations developed to improve the appearance of towns. They have in the main died because their aim was superficial. Beauty cannot easily be engrafted upon rottenness. People are beginning to see that in a town in which every house is in good design and in which maintenance work is carefully looked after, there are those elements of art which when combined make for a beautiful community.

"The social aspects of the housing problem are enough, it seems to me, to cause every one of us to re-estimate the values of the items covered in our efforts for social advance. Bad homes are responsible for a large percentage of the immorality which the churches are trying to cure; they are responsible for a large part of the sickness of the hospitals, dispensaries and nurses are trying to cure, and directly or through immorality or sickness they are responsible for much of the poverty the charities are trying to cure.

"The economic aspects of the housing problem are serious. Towns get, as a rule, that for which they bid. That is, if for some circumstances brings a large number of people to a town, the quality of these people will depend in large measure on the kind of homes which are offered them. If the people have to content themselves with the abandoned dwellings, out-buildings and similar inferior homes, they will be of an inferior type of people, because self-respecting people will not live in such homes.

"But when the people coming into a town are offered attractive homes on well planned streets self-respecting people will come, they will increase the taxable value of the town, they will pay their way through the schools, the streets and elsewhere, and they will decrease the per capita demand for all the remedial institutions.

"It is not enough to develop good homes. They must be maintained in a good condition. There is therefore a call for an active local health authority. To meet its conditions and needs every town must have a good law, the efficient enforcement of which will give the town what it needs in the way of houses, and it must have an active board of health that will see that houses are always kept clean and sanitary."

To Beautify Vacant Lots

Vacant lots will prove more valuable from a viewpoint of attractiveness if nothing else is the idea of a manager of a San Bernardino (Cal.) insurance, loan and land company, who is making arrangements to set out thousands of deciduous fruit trees on the lots owned by the company, in various parts of the city.

These lots are at present barren in many respects, and through the planting of the fruit trees the appearance of the lot will be very much improved. Not only that, but it is figured that it will be more attractive to the buyer, and the results to buyer and company alike will be much greater.

It is the plan of the company to set the trees out and to have a competent horticulturist to care for them while they are adapting themselves to the soil in which they are planted. From ten to twelve or more fruit trees will be planted on each lot.

Busiest Men in the Country

While it is not possible to state the exact average production of eggs per hen in one year it is conservatively estimated in the United States to be about seventy. By improved methods of breeding, feeding and selection birds have been found with actual individual records of 269 to 287 eggs a year.

Only one hen has been found at Cornell that laid as high as 287 eggs in a year, but this one example of the degree of perfection to which the breeders' art has attained is valuable for the pace it sets for others to follow and surpass. The net profit obtained from the sale of these 287 eggs amounted to \$5.06.—Christian Herald.

FOR EVERY FAMILY MEDICINE CHEST

To the head of every family the health of its different members is most important, and the value of an agreeable laxative that is certain in its effect is appreciated. One of the most popular remedies in the family medicine chest is a combination of simple laxative herbs with pepsin that is known as Dr. Caldwell's Syrup Pepsin. This preparation is mild and gentle in its action on the bowels, yet positive in its effect. A dose of Syrup Pepsin at night means relief next morning, while its tonic properties tone up and strengthen the muscles of stomach, liver and bowels so that these organs are able in a short time to again perform their natural functions without help.

Druggists everywhere sell Dr. Caldwell's Syrup Pepsin in 50c and \$1.00 bottles. If you have never tried this simple, inexpensive, yet effective remedy, write to Dr. W. B. Caldwell, 201 Washington St., Monticello, Ill., and ask for a sample bottle. Dr. Caldwell will be glad to send it without any expense to you whatever.

COMPARISON.

He—Ah! Genevieve, when I look at the immense expanse of boundless ocean, it actually makes me feel small!

LAWYER CURED OF ECZEMA

"While attending school at Lebanon, Ohio, in 1882, I became afflicted with boils, which lasted for about two years, when the affliction assumed the form of an eczema on my face, the lower part of my face being inflamed most of the time. There would be water-blisters rise up and open, and wherever the water would touch it would burn, and cause another one to rise. After the blister would open, the place would scab over, and would burn and itch so as to be almost unbearable at times. In this way the sores would spread from one place to another, back and forth over the whole of my upper lip and chin, and at times the whole lower part of my face would be a solid sore. This condition continued for four or five years, without getting any better, and in fact got worse all the time, so much so that my wife became alarmed lest it prove fatal.

"During all this time of boils and eczema, I doctored with the best physicians of this part of the country, but to no avail. Finally I decided to try Cuticura Remedies, which I did, taking the Cuticura Resolvent, applying the Cuticura Ointment to the sores, and using the Cuticura Soap for washing. In a very short time I began to notice improvement, and continued to use the Cuticura Remedies until I was well again, and have not had a recurrence of the trouble since, which is over twenty years. I have recommended Cuticura Remedies to others ever since, and have great faith in them as remedies for skin diseases." (Signed) A. C. Brandon, Attorney-at-Law, Greenville, O., Jan. 17, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to "Cuticura," Dept. L, Boston.

Always Leap Year.

"It's leap year every year in Papua," said an ethnologist. "The reason isn't that the women are the bosses there. No, quite the contrary. The reason is that love-making is supposed to be a thing beneath the notice of the Papuan male.

"All women look alike to him. So the matrimonial pourparlers all fall on the female sex.

"If a man accepts a girl's proposal, the fact that he is engaged is chiseled on his back. But on the girl's back the engagement is branded with a red-hot iron."

The Man and the Place.

Andrew Carnegie was giving advice on a recent Sunday to one of the younger members of the Rockefeller Bible class.

"I am an advocate of early marriages," he said. "The right man in the right place, at the right time, is a very good saying, and to my mind, the right man in the right place at the right time is unquestionably a husband reading to his wife on a winter's night beside the radiator.

A QUARTER CENTURY

Before the public. Over Five Million Free Samples given away each year. The constant increase in sales from samples proves the genuine merit of ALLEN'S FOOT-BALM, the antipruritic powder to be shod on the shoes for Tired, Aching, Swollen, Tired Feet. Beware of cheap imitations of this Sample Pack. Address, Allen's Foot-Balm, 231 N. 2nd St., St. Paul, Minn.

All Fregos.

"Why does that old maid use so much paint on her face?" "She's making up for lost time."—Brooklyn Life.

FILES CURED IN 6 TO 14 DAYS

Wentworth's Sore Throat Syrup for Children Cures all throat troubles, cures inflammation, always cures, cures a wind cold, cures a cough.

Love may not make the world go round, but it seems to make a lot of people giddy.

Mrs. Winslow's Sore Throat Syrup for Children Cures all throat troubles, cures inflammation, always cures, cures a wind cold, cures a cough.

FLAX GROWING IS PROFITABLE

WESTERN CANADA FARMERS BECOMING RICH IN ITS PRODUCTION.

So much has been written regarding the great amount of money made out of growing wheat in the prairie provinces of Manitoba, Saskatchewan and Alberta, Western Canada, that many other products of the farms are overlooked. These provinces will always grow large areas of wheat—both spring and winter—and the yields will continue to be large, and the general average greater than in any other portion of the continent. Twenty, thirty, forty, and as high as fifty bushels per acre of wheat to the acre—yields unusual in other parts of the wheat growing portions of the continent—have attracted world-wide attention, but what of oats, which yield forty, fifty and as high as one hundred and ten bushels per acre and carry off the world's prize, which, by the way, was also done by wheat raised in Saskatchewan during last November at the New York Land Show. And then, there is the barley, with its big yields, and its excellent samples. Another money-maker, and a big one is flax. The growing flax is extensively carried on in Western Canada. The writer has before him a circular issued by a prominent farmer at Saskatchewan. The circular deals with the treatment of seed flax, the seeding and harvesting, and attributes yields of less than 20 bushels per acre, to later seeding, imperfect and ill-prepared seed. He sowed twenty-five pounds of seed per acre and had a yield of twenty-nine bushels per acre. This will probably dispose of at \$2.50 per acre. Speaking of proper preparation of seed and cultivation of soil and opportune sowing, in the circular spoken of there is cited the case of a Mr. White, living fourteen miles south of Rose town, "who had fifteen acres of summer fallow a year ago last summer, upon which he produced thirty-three bushels to the acre, when many in the district harvested for want of crop. Now, there can be no proper reason advanced why such a crop should not have been produced on all the lands of the same quality on the adjacent district, provided they had been worked and cared for in the same manner. This year (1911) the same man had one hundred acres of summer fallow, had something over 3,800 bushels of wheat. He also had 1,500 bushels of oats and 300 bushels of flax."

There are the cattle, the horses, the roots and the vegetable products of Western Canada farms, all of which individually and collectively deserve special mention, and they are treated of in the literature sent out on application by the Government agents.

Subject for the Minister.

According to reports gathered by the National Association for the Study and Prevention of Tuberculosis, practically 10 per cent. of all deaths in church congregations are caused by tuberculosis. In a study of 312,000 which there were 7,000 deaths in 1910, communicants of 725 churches in the death rate among these church-members was found to be 2.34 for every thousand communicants. This is higher than the rate for the registration area of the United States, which was 1.60 in 1910.

"While these statistics," says the national association, "are not comparable from the point of view of accuracy with those of the bureau of census, sufficient credence may be given to them to indicate that one of the most serious problems in the ordinary church has to consider in that of the devastation of its membership by tuberculosis. Every minister in the United States should give this subject some attention during the week preceding or that following April 28, Tuberculosis day."

Mean People.

Henry Russell, the head of the Boston opera, was describing his foreign tour in search of talent.

"They were mean people," he said of the singers of a certain city. "I could do no business with them. They thought only of money."

Mr. Russell smiled.

"They were as bad as the man who discovered the Blank theater fire."

"The first intimation the box office had of this fire came, at the end of the third act, from a fat man who hounded down the gallery stairs, stuck his face at the ticket window and shouted breathlessly: "Theater's afire! Gimme me money back!"

But Mama Didn't.

Little Mabel was always tumbling down and getting hurt, but as soon as her mother kissed the bumped forehead Mabel would believe it cured and cease crying. One day she accompanied her mother to the Union depot, and while they were seated in the crowded waiting room an intoxicated man entered the door, tripped over a suitcase, and fell sprawling on the floor. "If attention of every one was attracted to the incident, and in the sudden silence following the fall Mabel called out: "Don't cry, my man. Mama'll kiss 'em, and 'em on 'll be all right."—Lippincott's Magazine.

Domestic Difficulties.

Husband—What's the matter, dear? Why do you look so worried? Wife—Oh, I've just got everything all ready for Mrs. Neatleg's visit. I've done up all the curtains and pillow shams and bureau covers and centerpieces, and they're all apleek and splot.

Husband—Well, if everything is in such aplee order why look so disconsolate about it? Wife (bursting into tears)—Oh, I just know, as soon as she sees them, she'll know I cleaned everything all up because she was coming!—Judge.

Absent-Minded.

"I want a dog-collar, please." Yes'm. What size shirt does he wear?—Life.

It is said that contentment is better than great riches—but most people are willing to take chances with the great riches.

Girls

Read About These Three Girls. How Sick They Were and How Their Health Was Restored by Lydia E. Pinkham's Vegetable Compound.

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sickly for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Lydia E. Pinkham's Vegetable Compound and it has restored my health. I think it is the best medicine in existence."—Miss CECILIA M. BAUER, 1181 Lawrence St., Appleton, Wis.

A SCHOOL TEACHER'S GRATITUDE: Geneva, Iowa.—"I have been teaching school for some years and I have neglected my health because I was too busy with my work to attend to myself properly. I suffered greatly every month and was on the verge of a nervous breakdown. I wrote you about my condition and took Lydia E. Pinkham's Vegetable Compound and the Blood Purifier as you recommended. These remedies have done wonders for me and I can highly and widely recommend them to every suffering woman."—Miss MINNIE SLAYER, R. F. D. No. 1, Geneva, Iowa, c/o Sam Erickson.

A COLORADO GIRL'S CASE: Montrose, Col.—"I was troubled very much with irregular periods. Sometimes two months would elapse. I suffered severe headaches, was weak and nervous, could eat scarcely anything. I took both Lydia E. Pinkham's Vegetable Compound and Blood Purifier and the result was wonderful. I feel like another person. I think your remedies are the best on earth and cannot express my thankfulness to you for what they have done to me. I help my neighbors when they are sick, and I shall always recommend your medicines."—Miss ELLA McCANDLESS, Montrose, Col.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there are lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself who will not try this famous medicine, made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LENO, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

WANTED TO MAKE IT SURE Your Liver Is Clogged Up That's Why You're Tired—Out of Sores—Have No Appetite.
