ON THE STOCK MARKET.

Thursday, March 21—p. m.

There was less aggressiveness in the market for stocks to-day, outside of the Industrial group, which contributed about 125,000 shares to a day's business of 270,738 shares—the heaviest total in a long time; but the tone was steady, the trading was well distributed, and quotations were made for stocks which were well-nigh forgotten. A good deal of buying was rightly credited to the short interest, but considerable outside purchasing is reported. Sugar moved in a mysterious way to fulfil the purposes of the insiders, and had advanced at the close two points to 99¾. Distilling and Cattle Feeding led Sugar, and indeed the whole market, in activity, and largely on a hustling of bears to cover contracts advanced 1¾ to 15¼. Mr. Greenhut's outstanding short interest will, of necessity, have to be covered before the floating stock in the market is deposited under the plan of reorganization, the date of which is March 25. General Electric was also sent up through purchases by shorts to 35—a net gain of 2¾ points.

The anthracite coal situation attracted most interest, however, and after the meeting of the presidents began the properties most interested were strong. Jersey Central sold up at 94½, but when the presidents adjourned, after appointing a committee to give mere consideration to the situation, the stock broke to 92¼. But the loss was recovered later, and the closing quotation was up 1 point net to 93¾, as against yesterday's last price. Reading lost ½ and Lackawanna ⅝, while Delaware and Hudson was unchanged. Jersey Central was the only member of the group in which there was much trading. The Grangers were strong, and made gains of considerable fractions at the close. In its international character St. Paul was not affected by sales of it on London account. New-York Central declined ¼ net, however, to 94¾, although Louisville and Nashville and the other foreign specialties were a little better when the session ended. At the close the market was firm and active.

To make a complete record it must be written that opinion in the Street gives the bond syndicate credit for the buoyancy which the market for stocks has shown this week. The managers, it is affirmed, are determined to see higher prices; if they were not, yesterday or to-day might have witnessed a more decided reaction. A conspicuous bank, moreover, has the credit of working with the syndicate and of attending to hoisting the coalers as its special task. If these suppositions are correct (we advance no opinion on that point) it must be admitted that the syndicate managers chose their opportunity well, and admirably reflect the general opinion of the country that the hardest times are over. It will not be denied that the power of the syndicate is great enough to help the market if the managers wish to do so. Note also how gold stays in the Treasury. A well-known firm of bankers to-day wanted from $50,000 to $100,000 in gold. Did they send across the Street, put legal tenders in the Sub-Treasury and take out gold? On the contrary, they went on to the pavement, offered an eighth premium and paid not less than that for the coin. The bank that drew $100,000 in gold coin out of the Sub-Treasury probably did not "get in" on the bond business at 104.49, or even at 112.25.

Silver was weaker to-day, but bankers who watch its course look for higher prices for it.

Both the strength and the activity of the bond market decreased, and even a few losses here and there were noted in the list. Knoxville and Ohio 1sts, with a loss of 1 at 111½, being the most conspicuous example. The sales decreased from $2,276,000 yesterday to $2,030,000. Chesapeake and Ohio, Richmond and Alleghany Division 1st consol 4s, however, rose ¾ to 92¾. Equitable Gas and Fuel of Chicago 1sts 1 to 97. Kansas Pacific consols 1 to 68. Mobile and Ohio 4s 1 to 64. Erie 2ds receipts, stamped, 1½ to 60¾. Northern Pacific 2ds, coupon, ¾ to 88. Rochester and Pittsburg consols 1½ to 117 and Wisconsin Central 1sts 1¼ to 47.

The Sub-Treasury had a debit balance at the Clearing House of $177,768. Its net gain on balance was $2,865,992, made up by a loss in currency of $407,521 and a gain in coin of $3,271,513. To-day's operations included: Receipts, $8,260,444; payments, $5,336,452, resulting in a general balance of $159,854,541, consisting of $89,831,206 coin and $70,023,335 currency.

The United States Treasury at Washington received to-day $369,901 National bank notes for redemption. The customs receipts were $932,999, the internal revenue receipts $362,217 and the miscellaneous receipts $10,262. Total Government receipts for the day, $1,305,570; expenditures, $893,007; excess of receipts, $412,563. Receipts for month to date, $18,082,071; expenditures, $20,948,016; excess of expenditures over receipts, $2,865,145.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:
