THE BANK STATEMENT.

Saturday, March 23—p. m.

By the operations of the Sub-Treasury in this city during the week ending Friday night the associated banks gained $2,495,296. The weekly bank statement showed a decrease in loans of $4,351,600, a decrease in legal tenders of $3,361,400, and a decrease in specie of $2,453,200, the decrease of total reserve being $5,814,600. The statement again reflects the movements of the bond syndicate, and not conditions of commercial business. The decrease in deposits was $9,449,300. Of this, $4,351,600 apparently went to pay off loans; $2,453,200 (in specie) went into the Sub-Treasury from the repository banks, and the decrease in legal tenders, $3,361,400, represents a sum which the syndicate drew out of the banks (on checks for bonds by people who bought the new 4's at 112.25) and locked up. With the sum locked up last week the amount now in limbo is about $11,000,000.

It may be useful just here to review the syndicate's apparent action up to date. It caused, in the first place, $35,000,000 in gold to be put in the Treasury, where it is practically locked up, because no one seems willing to draw it out. At least a premium of 3-16 was paid for gold from private store this week in the Street by an institution which, under ordinary circumstances, would have drawn the gold out of the Sub-Treasury. So one is not putting it too strongly to say that $35,000,000 (least estimate) is locked up there out of a borrower's reach. The banks and trust companies which advanced that sum have not yet been reimbursed, and they will not be until the operations of the syndicate are finished; but they are content, for they are to receive the profit reaped by selling bonds which cost them 104.49, at 112.25.

The person who bought the new 4's at 112.25 paid into the hands of the syndicate managers checks which, if the bonds distributed here were half of the whole issue, must represent about $40,000,000. At this point consider the position of Messrs. Belmont and Morgan toward the supply of money at this centre. They had caused $35,000,000 in gold to be placed securely in the Treasury; they held checks for $40,000,000 more, which checks they could present when they pleased and do what they pleased with the money that they drew out. In view of the bank statements of last week and to-day it appears that they have been pleased so far to present checks and take out money, to the amount of about $11,000,000; and they need not stop until they have drawn out the remaining $29,000,000 more or less, represented by the checks still in their hands. If these checks are certified, as they doubtless are, so much the better. Now, whatever the syndicate wanted to accomplish (and it surely wanted to accomplish nothing not patriotic, and good for the commercial interests of the country), it can hardly be doubted that it could withdraw fully $70,000,000 from the loanable money in this centre, and that it has already withdrawn fully $46,000,000—$35,000,000 of which is in the Treasury, and $11,000,000 in safe keeping elsewhere.

The result of all the changes in the banks during the week was a decrease in the surplus reserve of $3,452,275, and the banks held in excess of legal requirements $13,146,500, against $17,598,775 last week, and against $79,077,650 in the same week of 1894, and $9,243,200 in 1893.

The following are the comparative statements of March 16 and March 23:

| | March 16. | March 23. | Differences. |
|---|---|---|---|
| Loans | $489,034,600 | $484,682,400 | Dec. $4,351,600 |
| Specie | 67,573,600 | 65,120,400 | Dec. 2,453,200 |
| Legal-tenders | 79,649,300 | 76,287,900 | Dec. 3,361,400 |
| Deposits | 518,496,500 | 509,047,200 | Dec. 9,449,300 |
| Circulation | 12,295,500 | 12,366,300 | Inc. 70,800 |

The following shows the relation between the total reserve and the total deposit of the respective dates:

| | | | |
|---|---|---|---|
| Specie | $67,573,600 | $65,120,400 | Dec. $2,453,200 |
| Legal-tenders | 79,649,300 | 76,287,900 | Dec. 3,361,400 |
| Total reserve | $147,222,900 | $141,408,300 | Dec. $5,814,600 |
| Reserve required against deposits | 129,624,125 | 127,261,800 | Dec. 2,362,325 |
| Surplus | $17,598,775 | $13,146,500 | Dec. $3,452,275 |

The Clearing House statement for the day was as follows: Exchanges, $82,037,060; balances, $4,197,625. For the week: Exchanges, $324,582,642; balances, $31,108,528.

The total bank clearings of all the clearing houses in the United States for the week ended to-day have been $947,367,354, against $934,698,475 last week and $767,818,733 the corresponding week last year.

ON THE STOCK EXCHANGE.

Stock movements to-day were not generally expected. Chances seemed to be that realizing sales to take the profits of the week's advance might lower quotations. But, after a rather dull opening, orders to buy came in thick and fast, a change of sentiment seized the traders, and the market went up materially. For a half day, on Saturday, the volume of business was large—148,226 shares. The most conspicuous movement and the largest gains appeared in the anthracite coal properties on rumors of unexpected arrangements between Reading and Pennsylvania, which might add to the chances of an early settlement of the coal troubles. The Pennsylvania Company, it was said, was practically to control Reading; and the situation would be cleared by next Thursday. Central of New-Jersey thereby has gained 2¼ points net, Delaware and Hudson 1⅝, Lackawanna 1⅜, while Reading was active and up ¾ to 11 at the close. On the Philadelphia market prices for Pennsylvania showed no signs that an additional burden was to be assumed by that company.

The active Grangers moved rapidly up, and at one time scored 1 point in advance. This was not quite held at the close, but they were finally better than last night by large fractions. They seemed to follow the lead of St. Paul, whose advance was attributed to orders to buy from J. P. Morgan & Co. The general railway list was also marked by smart gains—in Missouri Pacific 2⅜ points to 24, was the result of a tip to buy, said to have been given out by high officials in the company. Reading bonds were strong in this market and active.

One of the few stocks which showed a loss at the close was Susquehanna and Western preferred, ¼ net to 37. The Industrials were not so prominent in the trading as a group, but General Electric led the market in activity, and was up 2 points net at 37, on further rumors of a combination with other companies controlling patents of its kind. Distilling and Cattle Feeding closed unchanged. News of the change in the receivership did not arrive until after noon. The appointment of Mr. McNulta as sole receiver is distinctly in favor of the Reorganization Committee. At the close the market was strong, active, and generally with the best prices of the week.

BONDS AND MONEY.

Government bonds sold: $2,000 4s, coupon, of quotations unchanged from Friday, as follows:

No transactions were reported in State issues, but the following sales were made in city bank stocks: 26 shares of the Manhattan Bank at 186, the last previous sale being at 183; 50 shares of Merchant's Bank at 126, the last previous sale being at 130⅝.

Business in railroad bonds was reduced to a comparatively moderate volume, and for the two hours of trading aggregated $764,000 par value. The temper remained strong, though a few declines were noticeable, the loss of 1 in Wisconsin Central 1sts at 48, being the only one of special importance. General Electric debenture 5s, however, rose 1¼ to 90¼. Louisville New-Albany and Chicago consols, 2¼ to 98⅞. Morris and Essex 1sts 1 to 143½. Reading 1st incomes 1 to 23½, the 2ds 1½ to 14, and 3ds 1¼ to 9¼, the last-named issues being again conspicuous for activity.

The money market was nominal only, and no changes were made in the quotations of Friday, which are as follows:

| Loans. | Time Money. | | | | Choice Commercial Paper. | | |

The price of commercial bar silver in this market was 63¼c., nominal, per ounce. Mexican dollars were quoted at 50c. In London bar silver advanced 1-16d. per ounce to 28⅞d. The market was steady.

Foreign exchanges were firm, but dull, with quotations unchanged from Friday, as follows:

FOREIGN MARKETS.

Money in London on call was at 1¼@1½ per cent. The rate of discount in the open market for short and three months' bills was 1¼@1⅛ per cent. During the week the Bank of England gained £395,070 in bullion, and held at the close £37,362,852, against £36,967,782 last week. British consols declined 1-16 for money to 104 7-16 and 1-16 for the account to 104½. American railway securities were weak, and, although Canadian Pacific advanced ¼ to 38½, St. Paul declined ½ to 58⅝, Erie ¼ to 9, Erie 2ds ⅝ to 60⅝, New-York Central ½ to 97⅝, Reading ⅛ to 5⅛ and Louisville and Nashville ⅜ to 51⅝.

French rentes, 102 francs 80 centimes; Paris exchange on London higher, at 25 francs 28 centimes; Berlin sight sterling higher, at 20 marks 45½@46 pfennings.

The edition for 1895 of the "Manual of Statistics and Stock Exchange Handbook" has been published by Charles H. Nicoll, at No. 189 Broadway. The publication is a compendium of valuable statistics relating to the markets for securities and commodities, and is desirable for reference not only for quotations, but for production, crops, earnings and other information constantly needed by the investor, speculator, merchant and editorial writer.

We have received the following:

"Messrs. Redmond, Kerr & Co. offer in another column the first mortgage 5 per cent gold bonds of the Long Island Railroad Company on a 4% per cent basis. These bonds are a first mortgage on terminals in New-York and Long Island cities, including all the Long Island
