THE GENERAL MARKET REPORT

New-York, April 1, 1895.

COTTON—The market opened at an advance of 4 to 7 points, the distant positions taking most of the improvement. With the exception of a very slight reaction, the market held firm during the forenoon in spite of the fact that longs realized freely. At noon prices stood at about 7 points above the final figures of Saturday. During the afternoon the market was heavy, about all of the early improvement being lost as the result of the liberal liquidation and the supposition that some large interests had sold freely. The tone during the week was generally steady. April to June months were 1 to 3 points lower as compared with yesterday's closing; August unchanged; September and October 1 point up and later months 3 to 4 points net advance. The total sales were 140,600 bales. Total sales for March, 4,405,000 bales, against 1,821,000 in February. The pressure on May seems to have been removed, and it is thought that the long interest in that month has been practically all liquidated, and that position is now assuming its normal place, being about a point or so under August, while for several days past August has been selling something above May. Liverpool showed up very well to-day, futures making a net gain of about 3 points on favorable advices from Manchester, and spot cotton was a trifle dearer though not very active. Liverpool is calling for a good deal of cotton at the South, and the Southern markets are consequently firm. The crop movement for the balance of this season has apparently been discounted by cotton traders, and hence, although it is expected to be quite free for the balance of the season, it will probably have no material influence on the course of the market. The receipts at New-Orleans to-morrow will be quite heavy, probably 8,000 to 9,000 bales, against 9,727 bales last week, and 3,495 bales last year. The planting season is about three weeks late, and this helps to sustain the market. Although weather conditions last week were in the main favorable, conditions for the coming crop are taken as unfavorable. A great many letters are being received from different sections of the cotton belt, and nearly all of them speak of a backward season, and it is stated that the use of fertilizers is almost nil, chiefly owing to the fact that planters have not got the money with which to purchase them. There is some hesitancy on the part of large traders, evidently not willing to express their views for fall in silver. The money question and the unsettled state of affairs between China and Japan is also having a deterring influence in some quarters. Some cotton is being offered from the South for delivery at prices very close to a parity with May. The local sentiment seems to be bearish, owing in part to increasing receipts at Bombay. The receipts for theports for the week are now estimated at about 110,000 bales, against 116,460 bales last week, 144,952 bales last year. Receipts at Houston to-day were 2,976 bales, against 3,039 bales last week, 869 bales last year, and at Memphis, 481 bales, against 1,808 bales last week, 257 bales last year. The Commissioner of Agriculture of Louisiana is reported as saying that the cotton acreage of that State will show a decrease of 25 per cent.

The street market was quiet but sellers claim that the market is steady for Brazil sorts, and they are quoting 16¾c for No 7 flat bean on spot, and 15¾@15¾c for Rio No 7 spot. There was only a moderate degree of activity in the mild grades, the market, however, ruling steady. We note sale of 500 bags Favarilla, on private terms.

FLOUR AND MEAL—The demand was again light and the market weaker in tone, although there was no change in prices. Spring wheats are still neglected, with the tone in favor of buyers, while in other grades. Exporters are still indifferent. Sales were 18,500 pkg, including 1,200 bbls winter patents, $3 15@$3 25, 1,000 bbls straights, $2 85@$2 90, 500 bbls extra ts, $2 45, 200 sacks, $2 25, 150 bbls city patents, $4@$4 10, and 100 bbls private terms; 8,125 bbls city clears, $3 05@$3 40; 500 bbls city thos, $2 15@$2 25; 2,700 bbls spring patents, $3 50@$3 65, and $2 15@$2 25; 2,700 bbls spring clears, $2 60@$2 70.....RYE FLOUR—Market 150 bbls city, $2 60@$2 70.....CORNMEAL—Market firm; sales, 250 bbls at $3 10@$3 25.....CORNMEAL—Market steady; sales, 100 bbls. Sales, 1,200 tons city.

GRAIN—WHEAT—The wheat market was active and weak at the start, selling down about ¾c from the final weak at the start, selling down about ¾c from the final weak at the close of Saturday, rallied ¼c, and was dull during the balance of Saturday, rallied ¼c, and was dull during the balance of the morning session, within a range of ¼c. The weakness at the start was owing to the rains in the winter wheat belt, which it was stated had materially benefited the growing crop all through the Southwestern region and put to rest the fears of damage. The trade at the opening included a great deal of selling on transfers, who were home long Saturday on the drouth theory, and although the offerings were liberal, the weak tone was well taken, and prices showed a comparatively steady front after the decline. The local stocks exhibited a much larger decrease than anticipated, and the decrease in the visible was also in excess of expectation. There was also a fair decrease for Europe, and the Northwestern country elevators also decreased 850,000 bush, leading to predictions that "Brad-street's" visible would show a decrease of probably 3,000,000 bush in the world's supply. There was a little buying for foreign account, and sales were comparatively steady, influenced by the market Saturday. Some of the crop reports were unfavorable. "The Modern Miller" of Kansas claims that the damage to the wheat crop has been quite serious in the Southwest, but from Missouri and Illinois eastward the crop was in fairly good shape. Interior receipts of wheat at south winter wheat markets to-day were 278,126 bush (including Chicago, 11,700 bush, nearly all winter), against 268,475 bush last year; winter, 32,154 bush, against 83,901 bush; seaboard receipts, 16,247 bush, against 34,339 bush; total, 326,537 bush, against 416,696 bush; exports, 156,478 bush, against 67,942 bush. Trade during the afternoon was very dull outside of the switching business, which in May and July was fairly active all day. The local tone was only steady at the best, and the close was quiet at ¼@⅜c net decline for the day. The trade in cash wheat was small. At the close of Change 8,000 bushels of choice red were reported for export at 1½c over May delivered. May closed at 60¾c, but trade seemed to be quiet, and the English visible showed an increase of 2,000,000 bush for the last week. Late, 16,000 bush No 1 hard Manitoba sold on private terms, making 3 loads for export.....CORN—The market for corn was weak and lower at the start, prices opening off sharply on the rains in the West and the decline in wheat. There was a partial recovery from the early lows, but there seemed to be stuff for sale on the rally, and trade was quiet after the rally. The demand for cash corn West is still reported comparatively light, although No 3 is at quite a large discount at Chicago on No 2. The movement is in excess of the demand at all points, and during the last week there was an increase of 11,000 bush in the visible, which was somewhat of a disappointment to the bulls. Trade in the afternoon was quiet, but a much better feeling prevailed, prices recovering about all the early loss, closing fairly steady at unchanged to ½c net decline. Cash corn was dull. No 2 is nominal. Sales were reported of 2,000 bush No 3 at 50c elevator; 8,000 bush No 2 out inspection, at 52½c, end of April, 1 to 3 afloat; 11,000 bush steamer yellow, 50½c elevator, and 1,000 bush mixed corn at 52½c, track.....OATS—The trade in oats was quiet, with prices during the early part of the session showing some weakness, but toward the close there was a partial recovery. The trade was light all day, the market being influenced by the fluctuations in wheat and corn. Late in the day there was a little improvement in tone, the market closing steady at ⅛c advance to ⅛c decline. Cash oats were more active and firmer. Sales were 145,000 bush, including 90,000 bush No 2 ats at 32⅞@32⅞c, elevator; 35,000 bush No 2 white, 33⅞@33⅞c, mainly 33½c; 15,000 bush track white, 33@34c, and 5,000 bush track mixed, 32½@34½c. HAY—Market dull. Quoted: No 2, Milwaukee, 65c; inferior grades, 50@60c.....MALT—Market quiet. Quoted: Western, 70@74c.....SEEDS—Market quiet. Quoted: Clover, $8.50@$9.50; timothy, $3 10@$3 75.

METALS—TIN—There was an active trade in the tin market, with a firm undertone to prices. The close was firm at $14 20 for spot. London closed steady. Sales were 50 tons April at $14 20; 10 tons last 10 April, $14 10; 10 tons cash to-day, $14 12½; 25 tons May 1st, $14 15, and 35 tons May at $14 10@$14 15.....COPPER—Market quiet but firm at $9 55@$9 40. London was fair, exported firm. Lake, $9 50@$9 40.....LEAD—Market steady at $3 12½@$3 15.....SPELTER—Market quiet at $3 20.

MOLASSES AND SYRUPS—There have been no new developments to-day in the market, trade being rather slow, buyers taking only small lots. There is some strength, however, the best grades especially being firm. We quote: New Orleans (certificate), ordinary, 15@18c; fair to prime, 17@21c; choice, 22@25c; open kettle, fair to good, 28@32c; prime to choice, 33@35c; Barbadoes, 23@27c; Porto Rico, 26@33c. Syrups—Sugar, ordinary to common, 09@10c; fair to good, 11@17c; prime to choice, 18@22c.

NAVAL STORES—Stock: Rosin, 30,774 bbls; spirits turpentine, 1,002 bbls; tar, 3,935 bbls. The market for spirits turpentine is ruling downward, trade being very slack. The quotations are now 33½@34c. Rosin remains quiet, but steady, with prices unchanged; common to good strained at $1 57½@$1 60.

OILS—There is quite a firm undertone to the cottonseed oil market, although trading is rather moderate. About 250 bbls prime summer yellow sold at 29½c, the market closing with the range nearly matched at 29½@29¾c. Lard oil seems to be in better demand and the result has been a quickened sales movement, prices, however, remaining as last quoted, although the tone is firm. Linseed oil is reported to be assuming a firmer position, the demand improving, although prices are unchanged. We quote: Cottonseed oil, prime crude bbls, 23c; prime crude, large tcs, nills here, 17@19c; off crude, 16@17c; prime summer yellow, prime, 29@29½c; summer yellow, off grade, 25@25½c; butter grades, 27½@28c; lard oil, 54@55c; linseed oil, American raw, 56c; American boiled, 59c; Calcutta raw, 56c.

OCEAN FREIGHTS—For berth freights the market was unchanged, no important grain engagements being reported, and only a moderate business in general freights being recorded. Engagements follow: To Glasgow, 2 loads grain, 24; 100 bbls glucose, 10s; 700 sacks flour, 3s; to Genoa, 20,000 bush grain, 1s 9d per quarter, 100 bales cotton, 5,324; to Hamburg, 500 bales cotton, 5 16-16c; to Havre, 85 pkgs, to London, 1,000 sacks flour, 18 3d; 75 tcs beef, 28 3d; 40 tcs tallow, 27 6d; to Malmo, 2 loads wheat, 26 3d; to Rotterdam, 640 do to Hamburg, 100 bales cotton, 5c; to Liverpool, 500 boxes cheese, 20c; 250 boxes bacon, 10s; to Southampton, 200 bbls oysters, 35c; to Marseilles, 500 boxes bacon, 22c. PROVISIONS—The market was quiet but generally firm to-day for hog products and very firmly held for beef. PORK—Market firm, sales 250 bbls, quoted: Mess, $13 50 for family, $13 50; short clear, $13 50@$15 50.....BEEF—Market firm. Quoted: Extra mess, $7 50@$8 50; family, $11@$13; packet, $9@$9 50.....BEEF HAMS—Market strong at $19.....DRESSED HOGS—Market firmer, 100 lb quoted at 6¾c, and heavy to light, 6¾@7c.....CUT MEATS—Pickled bellies—Market firm, 6¾@7c for 14 to 16 lb. Pickled shoulders—Market steady at 5¾c. Pickled hams—Market steady at 8¼@9¼c.....STEARINE—Market firm at lle for lard, and also 100 pkgs.....TALLOW—Market firmer at 5@5¼c.....LARD—Market steady; sales, 300 tcs at 7.30c; city, 6¾c; refined quiet; quoted, South America, 8c; Continent, 7.70c; compound, 5¾c; options closed, April, 7.30c; nominal; May, 7.40c nominal.

RICE—A fairly good demand is reported for all grades of desirable rice, and the market is a firm undertone, which is holding prices up well. Advices from the South report a quite satisfactory condition of affairs there, the sales movement being quite free, although comparatively little rough rice is coming forward. We quote: Carolina and Louisiana, common to ordinary, 3¾@4¼c; low fair to fair, 4¼@4½c; good to prime, 4¾@4¾c; choice to fancy, 5¼@5¾c; Japan, 6¼@6¾c; Java, 3¾@3¾c; Japan, 4¾@5c. Patna, 3¾@4¾c; Rangoon in bond, 2¾@2.

SUGAR—Holders of raw sugar are loath to sell at the present prices, and about all that can be bought is a few struggling lots, or perhaps something that is on spot or nearby afloat. Prices are as last quoted, 3c being quoted as the quotation for 96 test centrifugal, 2 11-16c for 89 test muscovado, and 2 7-16c for 89 test molasses sugar. The London sugar market shows some signs of weakness, especially on beet. Cane was steady, but unchanged. Java quoted at 118 4½d; fair refining, 9s 3d. Beet was called weak, with business at lower prices. April quoted at 9s 3d, and May, 9s 4½d. We note sales of 3,600 bags centrifugal, basis 96 test, 2 9-16c, cost and freight; 7,000 bags centrifugal, basis 96 test, 3c; 950 tons muscovado, basis 89 test, 2 11-16c. There is still a moderate demand only for the refined product, prices being unchanged on the basis of 4¾c, long price, for granulated. A better demand for refined is looked for, owing to the approach of the fruit season. The market seems to have settled down for a steady run on the present basis of values.

COUNTRY PRODUCE MARKET.

New-York, April 1, 1895.

BEANS AND PEAS—Trade is unimproved. Buyers still seem to have ample supplies on hand, and exporters are getting no orders to speak of. For a few special brands of domestic marrow, $2 90 is asked, but business above $2 85 for average choice lots is too exceptional to establish a higher quotation. Medium, pea and red kidney held steady. Values for foreign beans are sustained, but there is a slow movement. Green peas dull and weak. We quote: Beans, domestic, marrow, per bush, $2 85@ do pea, $2 20; do medium, $2 15; do white kidney, $2 25@$2 40; do red kidney, $2 10@$2 20; do turtle soup, $1 90@$1 85; do yellow eye, $2 25; do California, $1 95@$1 10; do foreign, marrow, $2 50@$2 60; do foreign, pea, $1 95@$2 05; do foreign, medium, $1 90@$2; green peas, bbls, $1 65; do bags, 97½@$1; do Scotch, $1 02½@$1 05.

BUTTER—Fair interest was shown in fancy fresh creamery, and the market was firm on the basis of 21c; here and there a superlative lot was placed a fraction higher and the Elgin goods sold so high that sellers tried hard to get 21½c for part of them. Firsts are steady and having a moderate inquiry, but all lower grades are slow and irregular. Best grades of June creamery are in sellers' favor, and desirable lots of State dairy are moving out pretty well, fancy half tubs from best sections showing some strength. All the Western packings are in substantially the same condition as at the close of the week. We quote: New-York creamery, extras, 21c; do firsts, 19@20c; do thirds to seconds, 12@17c; State dairy, half tubs, fancy, 19@19½c; do seconds to firsts, 14@18c; do Welsh tubs, choice, 18@18½c; do seconds to firsts, 13@17c; dairy tubs, thirds, 10@12c; imitation creamery, firsts, 14@15c; do seconds, 09@13c. Western dairy, 10@13½c; factory, fancy, 12c; do seconds to firsts, 8@10c; do thirds, 06@7c; and tubs, creamery, Western, summer make, 09@15c. Elgin, fancy, 21c. Imitation creamery, firsts, 14c; do seconds, 12c; do thirds, 10c; Western packing stock, 12@14c; Elgin, fancy, 21c; do seconds, 19@20c; do thirds, 17@18c; Western packing stock, 12@14c; do common to good, 09@11c; factory, 6@8c.

CHEESE—The demand from home sources is hardly as good as holders expected, and the very gradual reduction of stock is leading to a slight shading of values on full cream cheese in the hope of attracting more trade. No change in the cutting market, and there no one is disposed to buy either cutting or reasonable concessions from the asking prices. Our outside quotations are now obtained only in a jobbing way for very fancy mild flavored stock. Part skims are in an unfortunate position, home demand is of small consequence, and the quantity still remaining unsold is so large that an export outlet is sought, and that business is reported to have been done to a small extent, values ruling nominally unchanged. We quote: Full cream, full made, large, colored, fancy, 11¼@11½c; do white, fancy, 10¾@11c; do good to choice, 9¾@10¼c; do common to fair, 8@9½c; do small, colored, fancy, 11¼@12c; do white, fancy, 11½c; do good to choice, 10¾@11¼c; do common to fair, 8@10c; part skims, small, 10@8½c; do large, 3 @7c; State, full skims, 3@6c.

EGGS—Stock, 1,000,000 bbls, against 1,063,000 bbls. This shows a decrease of nearly 100,000 cases, compared with last Monday, and tends to verify the recent reports from the West of decreased collections. Accumulations on hand are held with much confidence, and a further advance of ½c has been well established, sales on Change, 1,500 cases Western, various states, at 15½c; 900 cases do, buyer the month at 15½c, and 500 do seller 29 at 15½c, and 12½c. There is a good demand from store and jobbing trade, and the tone is strong, but as many goods are being held off the market, the position must be regarded as speculative. We quote: Jerseys, per doz, 17@18½c; State and Pennsylvania, 15½@17c
