ON THE STOCK EXCHANGE.

Friday, August 30—p. m.

People who hoped for a lower foreign exchange market were grievously disappointed to-day when rates were advanced about ¼ cent, and large withdrawals of gold for export were made. The demand from remitters was rather heavy, there were few bills in the market, and, while some of the gold which was withdrawn to-day will be exported against the sale of sterling bills, the greater part of the amount was taken to settle trade obligations. Unless a good supply of bills comes into the market next week there is no reason to suppose that more gold will not go out. At the beginning of this week many observers of the foreign exchange situation predicted that this week would end the present outward movement of the precious metal, for conditions in the market then indicated a change, and the lowering of rates in the middle of the week helped to strengthen these opinions. Bills are not coming into the market as fast as had been expected, and the demand from remitters has materially strengthened. The lowering of rates in the foreign exchange market in the middle of the week increased the business in stocks and advanced prices, but to-day's higher rates caused hesitancy and kept foreigners out of our market, a condition which has existed throughout the period of the pressure in the foreign exchange market. Gold exports cause no fear here, but they prevent buoyancy in stocks. London takes more fright than New-York over gold exports, foreign houses being sellers in this market to-day. Gold to the amount of $2,250,000 was taken from the Sub-Treasury for export to-morrow, but the syndicate deposited $1,000,000 in gold coin to the credit of the Government, so the gold reserve still stands above the $100,000,000 mark. The syndicate has now deposited with the Treasury about $10,000,000 in gold and it has under its control enough of the metal to replenish the Treasury for a long time to come.

The volume of business in stocks fell away considerably from the total of the last few days, and the course of prices was irregular, changes being small either way. The Industrials furnished the chief business, their closing quotations being about evenly divided between losses and gains. Leather preferred was up ⅝ per cent and Chicago Gas closed at an advance of 1⅛ per cent. Transactions in Chicago Gas were comparatively heavy and appeared to be for interests which have recently been accumulating the stock. Tobacco and Sugar were both lower after an early advance on covering of shorts. Cordage issues were strong, the guaranteed stock gaining over 6 per cent. Distilling and Cattle Feeding was down on talk of opposition to the new company from the independent distillers, who have held several meetings in the last few days for the purpose of forming a close combination to prevent the new distilling company from getting a foothold in the trade. The officers of the new company do not fear any such opposition, and they have already received encouraging backing from many of the old clients of Distillers. An advance of $1 by the Tennessee Coal and Iron Company and the Sloss Iron and Steel Company on grades representing four-fifths of the output and 75 and 50 cents on other grades of pigiron caused strength in the shares of the first-named company, which have been advancing all the week. The Granger shares were weak at the opening, but rallied on good local buying in St. Paul, closing in most cases above their opening prices, but with the exception of Northwestern below last night's closing. Wabash preferred was strong, advancing 1 per cent. This stock on comparatively small purchases has advanced all the week, and has been one of the few of the international specialties to develop a higher price in the face of gold exports, high foreign exchange rates and foreign selling. Reading stock was active on reports of a possible coal meeting for next week, and it gained ⅛ per cent. All the anthracite group was strong.

BONDS—THE FEDERAL TREASURY.

In State issues there were sales of $2,500 Virginia funded debt 2-3s of 1991 at 63⅝. Railroad bonds were more quiet, but the strength was more uniform, though the active issues failed to score material gains. The important movements were all among the general list traded in from day to day. A noteworthy exception was International and Great Northern 1sts, which declined 1½ to 120½, but Hocking Valley 5s rose ⅞ to 95⅞. Indiana, Illinois and Iowa 4s 1 to 86, Kansas and Texas 2ds 1 to 69¼. Missouri Pacific trust 5s 1 to 75, Oregon improvement consol 5s 2½ to 47½, Tennessee Coal, Birmingham Division 1sts, 2 to 95, Union Pacific, Denver and Gulf 1sts 1⅞ to 43, Wabash 2ds 1 to 80½, and Wisconsin Central 1st receipts 2⅝ to 60⅝. The day's transactions dwindled to $2,726,000.

The United States Treasury received to-day $173,853 National bank notes for redemption. Customs receipts reported to-day from Washington were $530,116, the internal revenue receipts $419,938 and the miscellaneous receipts $8,412. Total Government receipts for the day, $958,467; expenditures, $355,000; excess of receipts, $603,467. Receipts for the month to date, $28,121,853; expenditures, $32,802,986; excess of expenditures, $4,681,133. Receipts for the fiscal year to date, $56,720,365; expenditures, $70,879,863; excess of expenditures over receipts, $14,159,498.

To-day's Washington Treasury statement of cash on hand and deposits in bank compares with the figures of the last previous statement as follows:

This statement reflects conditions prevailing two days ago.

The Sub-Treasury was a debtor at the Clearing House $373,274. Its net gain on balance was $42,694, made up by a gain in currency of $1,681,213 and a loss in coin of $1,638,519. To-day's operations included: Receipts, $2,411,373; payments, $2,368,679, resulting in a general balance of $182,630,824, consisting of $90,780,470 coin and $91,850,354 currency. The business for the week ended to-night includes receipts of $25,189,884 and payments of $14,593,304. Deducting from the receipts $12,220,000 and from the payments $3,058,000 for items which affect only its account with the general Treasury, its gain as affecting the banks, was $1,434,580.

MONEY AND FOREIGN MARKETS.

The local money markets show no change in general features, except a hardening tendency in commercial paper notes. We subjoin our usual table of rates made up from information furnished by the busiest houses:

Loans.	Time Money.				Choice Commercial Paper.		
On call	30 d.	3 mos.	4 mos.	6 mos.	3 mos.	4 mos	6 mos
1	1½	2	2½	3	3½@4	4@4½	4½@5

The market for sterling and Continental exchange was strong and advancing. The demand from remitters was moderate, but the supply of bills was very light. Cable transfers were sold against gold shipments. The withdrawals of gold from the Sub-Treasury for export amounted to $2,250,000. In addition to this, about $200,000 gold, obtained from another source, will go out to-morrow. W. H. Crossman & Brother will ship $1,500,000; Oelrichs & Co., $250,000; Hard & Rand, $200,000; Nesslage & Fuller, $150,000; Steinwender, Stoffregen & Co., $150,000, and Handy & Harman, $150,000; total, $2,400,000. The rates at which business was actually done were as follows:

	Cables.	Long bills.	Short bills.
Sterling	4.90¾	4.89	4.90
Francs	—	5.16¼	5.15
Reichsmarks	—	59⅝	95⅝
Guilders	—	40⅝	40½

The price of domestic exchange was as follows at the places named: Charleston, buying par, selling ⅛c. premium; New-Orleans, commercial 125 discount, bank 100 premium; Savannah, buying par, selling ⅛ premium up to $5,000, 1-10 for $5,000 and over; San Francisco, sight par, telegraph 5c. per $100 premium; Chicago, 40c. discount; Boston, 10@15c. discount.

Bank clearings were as follows at the places named: New-York—Exchanges, $93,164,624; balances, $6,057,290. Baltimore—Exchanges, $1,321,524; balances, $178,330. Philadelphia—Exchanges, $9,406,806; balances, $1,486,279. Boston—Exchanges, $14,896,946; balances, $3,015,514. Chicago—Exchanges, $13,324,658; balances, $2,004,491.

The price of commercial bar silver in this market was 67c., nominal, per ounce. Mexican dollars were quoted at 53¼. In London the price of bar silver was unchanged at 30 9-16d. The Campania, sailing to-morrow, will carry out 487,000 ounces of silver.

Money on call in London was ½ per cent. The rate of discount in the open market was ⅝ per cent for short and three months' bills. The amount of bullion which went into the Bank of England on balance to-day was £25,000. British consols were 107 5-16 for both money and account. American stocks were irregular, Canadian Pacific, Erie, Illinois Central, St. Paul, Reading, Louisville and Nashville and Atchison being down ⅛@¼ per cent, and Wabash preferred, Erie seconds and New-York Central scoring fractional advances.

French rentes were quoted at 102 francs 10 centimes; Paris exchange on London, 25 francs 28 centimes; Berlin exchange on London, 20 marks 45 pfennings.

"Dun's Review" for this week has this to say of the situation: "Improvement in market and prices continues, and whereas a few months ago everybody was nursing the faintest hopes of recovery, it has now come to be the only question in what branches, if any, the rise in prices and the increase in business may go too far. A strong conservative feeling is finding expression, not as yet controlling the markets or industries, but warning against too rapid expansion and rise. In some directions the advance in prices clearly checks future business. But encouraging features have great power. Exports of gold continue, but are met by syndicate deposits and expected to cease soon. Anxieties about the monetary future no longer hinder. Crop prospects, except for cotton, have somewhat improved during the week. Important steps toward reorganization of great railroads give hope to investors. Labor troubles are for the moment less threatening, and some of importance have been definitely settled. The industries are not only doing better than anybody had expected, but are counting upon a great business for the rest of the year. The advance in prices of iron and its products has added about $2 per ton more in a single week to the price of Bessemer iron at Pittsburg, and yet the great steel companies are buying wherever they can, while the air is full of reports that this or that finished product will further advance."

The Reorganization Committee of the Bondholders of the United States Book Company informs holders of said bonds that more than four-fifths of all the outstanding mortgage bonds have been deposited with the committee, which now declares the plan of reorganization operative. Bondholders who have not yet become parties to the same are informed that the committee has extended the time for the deposit of bonds until September 5, after which date no bonds will be received except upon the payment of such penalty as the committee may impose.

W. J. Hayes & Sons, of Cleveland, Ohio, offer for sale $200,000 Columbus, Ohio, 5 per cent municipal bonds.
