THE GENERAL MARKET REPORT.

New-York, September 19, 1895.

COTTON—The market was somewhat irregular to-day, opening at an advance of 6@7 points, under the lead of an improvement in Liverpool contracts of about 2 points and a generally better feeling abroad in cotton circles. There was some buying at the start, but this was freely met, and prices eased off a little, but rallied later about 12 points from the lowest of the forenoon and then eased off 4 or 5 points, all of these changes taking place during the morning session. Shorts covered early, and there was some buying for outside account, in good part for the South and for Liverpool. Considerable strength was developed during the afternoon on renewed covering, buying for Liverpool and New-Orleans account, as well as for Wall Street. Prices closed within about 2 points of the top, the net advance being 15@17 points, with the tone firm. Total sales were 269,200 bales. The firmness at Liverpool was attributed to increased takings of spot cotton by English spinners and to a rumor that Mr. Neill had issued a circular stating that the cotton crop will be about 12,000,000 bales. This was considered a bullish factor, as coming from Mr. Neill, whose estimates heretofore have been considerably in excess of 7,250,000 bales. On top of this rumor, which, by the way, was not credited by some cotton people, came a circular from Mr. C. H. Williams, of Savannah, Ga., wherein it is stated that the crop will not exceed 7,000,000 bales. Some previous crop figures have been below this figure. But most of the guesses have been largely above it. The expected rain in Texas has not materialized, the rainfall there, according to the weather report, which covers the twenty-four hours ending at 8 a. m. to-day, being insignificant, although one or two points in Louisiana reported a little rain. The local spot market was 1-16c. higher. New-Orleans spot market was ⅛c higher, and prices at Savannah and Norfolk were advanced 1-16c. The receipts at the ports for the week are still estimated at about 90,000 bales, compared with 47,035 last week and 142,312 last year. To-day's receipts at Galveston were about 3,000 bales, against 2,380 last week, 6,130 last year; Savannah, 3,200 bales, against 1,642 last week and 5,999 last year; Norfolk, 790 bales, against 26 last week and 576 last year; New-Orleans, 1,273 bales, against 1,087 last week and 3,328 last year. Estimated receipts at New-Orleans to-morrow, 4,000 to 4,500 bales, against 1,285 last week and 673 last year. Receipts at Houston to-day, 7,123 bales, against 2,107 last week and 7,303 last year; Augusta, 753 bales, against 552 last week and 1,019 last year; Memphis, 110 bales, against 22 last week and 133 last year. The Bombay weekly movement shows receipts of 7,000 bales, last year, 3,000 bales; total since January 1, 1,431,000 bales; last year, 1,354,000 bales; about last year, 1,000 bales. Shipments—Continent, 5,000 bales; last year, 4,000 bales; total since January 1—To Great Britain, 29,000 bales; Continent, 509,000 bales, against 44,000 bales and 747,000 bales last year, respectively.

The market is irregular, with values still nominal and quoted on the basis of 15¾c for Rio No 7 spot, and 14½c for Rio No 8 spot. Mild grades are barely an irregular and slow sale, with the market barely steady.

FLOUR AND MEAL—The advance in wheat this morning stirred up holders of flour and prices were advanced, particularly on spring patents, but this advance was not followed by the buyers. A general feeling of indifference was expressed and in the afternoon sellers had to come down in order to effect trade. The fact remains that the buyers have supplied their wants at the low prices of early in the week and are disposed to be indifferent. Total sales to-day were 30,300 packages, including 750 bbls winter patents, $3 40@$3 60, 2,250 bbls straights, $3 15@$3 25, 300 bbls clears, $2 15; 300 bbls extra firsts, $2 75; 300 bbls extra seconds, $2 50; 1,500 sacks superfine, $2 10; 450 bbls at $2 25@$2 35; 6,250 bbls city patents, private terms; 12,150 bbls city clears, $3 85@$4; 2,000 bbls city extra seconds, $3 25@$3 45; 3,500 bbls spring patents, $3 50@$3 55; 500 bbls straights, $3 40; 2,000 bbls clears, $2 80@$3 10, and 1,000 sacks clears, private terms.....

GRAIN—WHEAT—The wheat market was active and stronger this morning. The opening was nervous, with foreign houses good buyers. The purchases for Europe during the morning were estimated at 400,000 to 500,000 bush. These orders were filled early, and part of the selling was by the trade. Later, when the market turned strong, room operators attempted to cover, and there was no wheat for sale. Prices advanced fully 1c a bushel from the lowest of last night, with the market nervous and trade of fair proportions. The demand was filled about midday, and later the market fell off, with some realizing by early buyers. Receipts in the Northwest were heavy, amounting to 1,178 cars, against 771 last week. There was pretty heavy covering of shorts during the forenoon, and at Chicago some of the largest operators were reported to be closing up their contracts on the short side. As soon as this buying was satisfied the advance suddenly stopped, and with a rush to sell prices gave way, breaking 1½c at New-York, with early buyers rather liberal sellers and with trade active. The close was at about the lowest of the day, at ⅝c net decline. The action of the market seemed to be a case where the early foreign buying scared the shorts. As soon as this covering was over the demand was very rapidly filled, and the market flattened out, with practically no resistance. A good deal of long wheat was marketed during the morning at the advance. Interior receipts of wheat at spring wheat markets to-day were 981,726 bush (including Chicago, 156,443 bush, partly spring), against 774,825 bush last year; winter, 92,506 bush, against 115,401 bush. Seaboard receipts, 129,732 bush, against 424,505 bush. Total, 1,173,964 bush, against 1,314,819 bush. Exports, 107,416 bush, against 213,714 bush. The cash market was quiet, following the movement of futures. A sale was reported of 40,000 bush No 2 red at ⅝c under December f o b afloat; 32,000 bush No 2 hard, private terms, and 20,000 bush No 1 Northern at December price f o b afloat, all for export. No 2 red and No 1 Northern at the close were quoted at 2c under December; December closed at 65c, and No 1 hard was quoted at 1c over December delivered.....CORN—The market was quiet at the opening, with prices about steady at the final quotations of last evening. A few minutes after the opening there was a little rush to buy, and prices advanced ½c, but settled back again. Toward midday with wheat there was a rise of 1c a bushel in near deliveries, and the market was active. There was some outside buying and a good deal of local covering. The statement of "The Price Current" regarding the crop is that the past week was very favorable for maturing the crop, and a small portion only will now be injured by frost. In the afternoon the rise was about all lost, prices sympathizing with the reaction in wheat. The close was at ⅛@⅜c net advance on near deliveries, and ¼c decline on May. Cash corn was firmer, but quiet. Sales included 5,000 bush No 2 in elevator at 1c over October; October closed at 39⅛c; 26,000 bush at 40¼@40⅝c elevator, and 16,000 bush at 2¼c over October f o b afloat and 41c.....OATS—There was considerably more interest developed in oats, and the trade exhibited increased confidence, resulting in some little improvement in price. The better feeling was very largely influenced by the market for corn and wheat; as there was very little in the news from the West or in the spot trade to increase confidence. Toward the close prices eased off a little, winding up at unchanged to ¼c advance. Cash oats were firmer, but quiet. Sales were reported at 52,000 bush, including 30,000 old No 2 at 26¼@26¾c to arrive afloat; 25,000 bush track white at 27@32c; 7,000 bush No 3 white at 27c; carlots of No 2 white at 29c. No 2 oats were quoted 25c asked.....BUCKWHEAT—Market very quiet, with Japanese on the spot 59@62½c, but to arrive is quoted at 55c asked.....BARLEY—Market continues quiet, with prices for fair to choice 46@50c.....RYE—The market is nominal, with No 2 elevator quoted at 43@45c, and State and Jersey 46@48c.

METALS—IRON—"The Iron Trade Review" this week says that the trade is questioning whether the limit of the advance has been reached. The heavy production of pig iron indicates that the reserves talked about three months ago have at last got into line, and the question is whether unsold stocks will begin to grow again, which will be decided by the ability of the country to consume 200,000 tons weekly. Evidences of weakness in iron have been developed at Pittsburg, and "The Iron Age" says below that some speculative sales of billets have been made there at $1 under the market, which was the sensation of the week. The railroad demand for iron is expected light, but the rail mills are crowded with orders for billets.....TIN—The market was quiet to-day, with sales of 35 tons October on "Changes at $14 35. The close was quiet, with spot $14 30@$14 40.....COPPER—There was very little feature to the market, and spot prices were somewhat difficult to ascertain. Officially the close was $12@$12 25. The foreign market was firm.....LEAD—The depression at the West acts as a steady drawback against any advance here, and to-day, on the St. Louis news, the market closed easy at $3 30@$3 35.....SPELTER—Market quiet at $4 20@$4 25.

MOLASSES AND SYRUPS—The market was steady for both molasses and syrups, with a moderate demand at full prices. Sales of syrups: New-Orleans centrifugal, common to ordinary, 12@16c; fair to prime, 17@21c; choice, 22@25c; New-Orleans, open kettle, fair to good, 23@28c; prime to choice, 29@32c; Porto Rico, 26@31c; Barbados, 24@26c. Syrups—Sugar, ordinary to common, 6@10c; fair to good, 11@17c; prime to choice, 18@22c.

NAVAL STORES—Stock: Rosin, 27,972 bbls; spirits turpentine, 1,244 bbls; tar, 576 bbls. The market for spirits turpentine was firmer, with a little better demand, regulars and machines selling on the basis of 28@28½c. Rosin was steady, with common to good strained quoted at $1 45@$1 52½, which is a little easier for the common. Tar is dull, with regulars quoted at $1 90@$2, and oil bbls at $3 40. Pitch remains quiet and quoted at $1 60@$1 70.

OCEAN FREIGHTS—The market for berth freights was very quiet, with the market easy in tone in the absence of any important demand for grain. Flour is very quiet also, and in provisions little is doing, with rates unchanged. The engagements reported to-day were 2 loads to Liverpool at 2½d. We quote: Grain—Liverpool, 2½d; London, 2½d; Glasgow, 3d; Bristol, 3½d asked; Hull, 3½d asked; Leith, 3½d asked; Newcastle, 3½d asked; Antwerp, 2½d asked; Marseilles nominal; Bremen, 35 pfg; Hamburg, 35 pfg; Rotterdam, 6½c asked; Amsterdam, 6½c nominal; Cork for orders, 2s 10½d; cotton to Liverpool, 3-32d; petroleum to United Kingdom, 1s 9d@2s.....CHARTERS—There is a good demand for case oil vessels and rates remain firm. West India tonnage is also inquired for, but the other branches are quiet. OILS—The market for cottonseed oil remains quiet, business being restricted by the difference between the views of buyers and sellers. There is a little demand from exporters. Lard oil is in good demand and steady to firm at unchanged prices, while linseed oil is having a slow sale, with the market barely steady. A Chicago telegram said that cotton oil manufacturers at Little Rock met to fix the price of seed at $5 per ton as the corn crop will render much of the cottonseed product worthless, as farmers would rather feed corn than cottonseed. Last year the price was $6 per ton and the price in 1893 was $15. We quote: Cottonseed oil, prime, crude, bbls, 23@24c; prime crude, loose, f o b mills, 17@20c; off crude, bbls, here, 21@22c; butter oil, 29@31c; summer yellow, prime, 26¾@27c; summer yellow, off grade, 26@26¼c; winter yellow, prime, 33@35c; white prime, 31@32c; lard oil, prime city, 50@51c; linseed oil, American raw, 42c; American boiled, 45c; Calcutta raw, 40c.

PETROLEUM—At New-York pipe line certificates ruled quiet, closing with $1 21 bid. Refined unchanged; New-York quoted at $7 10, and Philadelphia at $7 05.

PROVISIONS—Trade was light to-day, with prices steady.....PORK—Dull; sales, 200 bbls. Quoted: Mess, $10@$10 25; family, $12@$12 50; short clear, $11 50@$13 50.....BEEF—Steady. Quoted: Extra mess, $8@$8 50; family, $9@$12; packet, $8@$10.....BEEF HAMS—Quiet at $15@$15 50.....DRESSED HOGS—Dull and higher, 5¾@6c, and heavy to light at 6¼@6¾c.....CUT MEATS—Pickled bellies—Firm. Quoted at 6¼@7¼c for 14 to 10 lb. Pickled shoulders—Firmer at 5¾@5¾c; sales, 1,000 lb at 5½c. Pickled hams—Steady at 9@9¼c.....TALLOW—Firm at 4¼c bid. Sales, 200 hhds at 4¼c.....STEARINE—Quiet; lard quoted at 7½@7¾c, and oleo dull at 6c.....LARD—Steady. Sales, 250 tcs at 6.25c; closing at 6.30c asked. Sales city, 100 tcs at 6@6.05c; refined quiet. South America, 7c; Continent, 6.65c; compound, 4¾@5c; options closed at 6.27c nominal for October.

RICE—Good reports continue to be sent in of the rice market, locally as well as at primary points. The demand is spirited and current sales are at full prices, the market closing strong in tone. We quote: Carolina and Louisiana, common to ordinary, 3½@3¾c; low fair to fair, 3¾@4c; good to prime, 4¼@5c; choice to fancy, 5¼@6c; extra head, 6@6¼c; Java, 3½@3½c; Java in bond, 1½@2c; Japan, 3¾@4c; Patna, 4@4¼c; Patna in bond, 3½@3¾c.

SEEDS—The seed market is steady, with prices unchanged. We quote: Timothy, fair grades, $4 00@$4 75; high grades, $5@$5 75; clover seed, fair grades, $8 25@$8 75; high grades, $9@$9 25; crimson clover, $3 75@$5.

SUGAR—The European markets are holding up very well, the London cable reporting that market steady for cane, with prices fully maintained, although unchanged. Java quoted at 11s 10½d, and fair refining, 9s 9d. Beet was firm, with good demand at unchanged prices. September quoted at 10s, and October at 10s 3d. The local market is very strong and refiners are anxious to buy more sugar. They were willing to pay 3 5-16c for 96 test centrifugals, but as a rule holders want a good deal more money, and this difference between buyers and sellers has a tendency to check business. Muscovados, basis 89 test, are quoted at 3⅝@3¾c and molasses sugar, basis 89 test, at 2¾@2¾c. It is thought new sugar will not be made in Louisiana before November 1. It is said that many planters have large crops to grind, and they would like to begin operations by October 15, but they cannot do so without great sacrifice of immature cane. It is said that the few sonsmodic cases of syrup making this month cannot be taken as evidence of an early sugar-making season. We note sale of 650 bags Jamaica muscovado, basis 89 test, price to be set on the basis of next sale. It is rumored that the American Sugar Refining Company has bought centrifugals in Cuba at 2 11-32c, cost and freight, basis 96. The market for refined sugar is very firm, with brokers expecting another advance, but to-day's price list was unchanged, except on No 7, which was advanced 1-16c, and is quoted at 4 7-16@4½c. Refiners are accepting orders subject to indefinite delay.

COUNTRY PRODUCE MARKET.

New-York, September 19, 1895.

BEANS AND PEAS—New State pea beans settled to $1 55, at which several jobbing sales are reported. A small lot of new medium sold at $1 55, and about a half car of choice new red kidney at $1 50. Most holders of old marrow feel fairly steady at $1 60, but some others have shaded the price 2½@5c in order to secure trade; stocks are now in pretty good shape. The pressure to sell old foreign beans, of which there are a good many in store, has a depressing effect on old domestic and values are weak in consequence. Green peas steady. We quote: Beans, domestic, pea, 1895, choice, per bush, $1 55; do, 1894, $1 50; do, marrow, $1 55@$1 60; do, medium, $1 45@$1 50; do, white kidney, $2; do, red kidney, $1 40@$1 45; do, turtle soup, $1 70@$1 75; do, yellow eye, $2; do, lima, $3 20@$3 25; do, foreign, marrow, $1 40@$1 45; do, foreign, pea, $1 30@$1 40; do, foreign, medium, 1895, $1 50; do, 1894, $1 25@$1 35; green peas, bbls, 95c; do, bags, nⁿ¼@90c; do, Scotch, 85@90c.

BUTTER—Fancy fresh creamery ran a little scarce today and sellers were able to advance the price to 21@21½c, the outside figure becoming quite general before the close. Best grades of firsts were also a shade firmer with sales up to 19½@20c. Buyers took hold quite freely and the market has some rather strong features. Only moderate attention is given the sour-flavored fresh creameries, and June stock does not move with any freedom as yet. Best grades of State dairy are hardening a little. Western packings quiet but steady. We quote: Creamery, extras, per lb, 21@21½c; do, firsts, 18@20c; do, thirds to seconds, 13@16½c; State dairy, half tubs, fancy, 19@19½c; do, Welsh tubs, fancy, 18½@19c; dairy tubs, firsts, 16@17½c; do, thirds to seconds, 12@15c; imitation creamery, quiet. Sales were reported at 52,000 bush, including 30,000 old No 2 at 26¼@26½c to arrive afloat; 25,000 bush track white at 27@32c; 7,000 bush No 3 white at 27c; carlots of No 2 white at 29c. No 2 oats were quoted 25c asked.....BUCKWHEAT—Market very quiet, with Japanese on the spot 59@62½c, but to arrive is quoted at 55c asked.....BARLEY—Market continues quiet, with prices for fair to choice 46@50c.....RYE—The market is nominal, with No 2 elevator quoted at 43@45c, and State and Jersey 46@48c.

LIVE STOCK MARKET.

New-York, September 19, 1895.

BEEVES—Receipts, 47 cars, or 812 head—35 cars consigned direct to exporters and slaughterers, and 12 cars for the market. Hardly any demand, and very little doing in live cattle to-day. Feeling weak all around. J. Rucker sold 2 stags, 1165 lb, average, at $2 50 per 100 lb; 2 do, 1195 lb, at $2 25; 2 State steers, 960 lb, at $2; 2 bulls, 730 lb, at $2 10; 1 do, 640 lb, at $2; 1 cow, 870 lb, at $2; 1 do for $27; 1 do for $10; 2 do at $9 each. Jelliffe, Wright & Co., 2 cows at $8 each. City dressed beef sides slow and selling at 6½@7c per lb for native carcasses, and 5@7½c for range beef. Latest private cable advices quote refrigerator beef lower at 8½@
