Missing Accomplishment.

"It is a strange thing," said the professor. "I was shaved this morning by a man who really is, I suppose, a little above being a barber. I know of my own knowledge that he studied at Heidelberg and spent several years in other foreign educational centers. I know, also that he has contributed scientific articles to our best magazines and has numbered among his intimate friends men of the highest social standing. And yet," soliloquized the professor, "he can't shave a man decently. "By Jove," exclaimed young Rounder in astonishment. "What is he a barber for, with all those accomplishments?" "Oh, he isn't a barber," said the professor, yawning. "You see, I shaved myself this morning."—San Francisco Argonaut.

STOCK JUDGING CONTEST FOR N. M. BOYS AND GIRLS.

A state-wide Stock Judging Contest will be held at State College on October 30. From this contest, winners will be determined who will represent the state of New Mexico in the Non-Collegiate Stock Judging Contest to be held in connection with the International Stock Show in Chicago, November 25 to December 4. The New Mexico Cattle and Horse Growers' Association has very generously contributed $300 toward the expenses of the winning team and substitutes will be provided all contestants while in Chicago. The Boys' and Girls' Clubs, Vocational High Schools, Rural Consolidated Schools and Agricultural High Schools will be eligible. At the time of the State Contest to determine a team to go to the International, a contest will also be held to which only Boys' and Girls' Clubs will be eligible and a team will be selected, composed of the three highest scoring individuals to represent the state club work at the Western Stock Show, to be held in Denver next January. A girls' demonstration team will also be chosen on the above mentioned date at State College, to represent the State Girls' Demonstration work at the Denver Stock Show. Transportation and expenses for the winning team will be provided by the Western Stock Show Association.

Rules governing the above contest have been sent to all High Schools and club workers of the state, as well as to all who might be interested in the contest. Great interest has already been manifested and the event promises to be well attended.

THE NAVY HOSPITAL.

Twenty-two Permanent Hospitals in the United States Operated by the Navy Department.

Caring for the sick has always been considered of paramount importance in the Navy. Aside from twenty-two hospitals in the United States, the Navy has four others in foreign countries. During the World War the Navy established eighteen temporary hospitals in France, England, Scotland, Greece and Italy.

On board every ship in the Navy provisions are made for the sick. No matter how small the vessel or how large, men will be stationed on board to care for and comfort the sailors. No private hospital or sanitarium is better fitted for this work than are the hospitals of our our own proud Navy.

It would take pages of space to tell of the great deeds accomplished by our surgeons and their coworkers in the Medical Corps; it would likewise take pages of space to tell of the almost unbelievable operations and the great kindness shown at these institutions. Perhaps the best known hospital is the Navy Hospital, Brooklyn N. Y. From a little nine-story building it has kept pace with the times and demands of our fast growing Navy, and at present has within its grounds some thirty buildings.

The Brooklyn Hospital, like all other Navy Hospitals, has its own postoffice, laundry, power plant and every modern facility for the care and comfort of our officers and enlisted men. Spacious rooms devoted entirely to operations, great white wards, rest rooms and recreation halls, sun-porches and countless easy chairs and features of this enterprise which is dedicated to humanity.

There are forty officer attached to the Brooklyn Hospital ranking from Captain (M. C.) U. S. N., to Lieutenant (j. g.); also six pharmacist's mates, one hundred and fifty apprentices and sixty-six female nurses.

During the War, from 6 April, 1917, to 11 November, 1918, there were admitted to this hospital alone 20,567 patients, all of them in the service of their country. During the year 1916, which is considered a typical peace year, there were admitted to the Brooklyn Hospital 1,899 patients, or nearly one hundred and forty per month.

It is not in keeping with Naval tradition to boast of exploits or services, but it is on record that the percentage of deaths in Naval Hospitals is far below that in civil institutions. This fact may be attributed to the following: Men must pass a strict physical examination before entering the Navy, they are admitted to the hospitals before they become seriously ill, they have special nurses, the very latest facilities are supplied by the government, no matter what, if their cases so warrant and the cost.
