THE GENERAL MARKET REPORT.

New-York, November 18, 1895.

COTTON—Liverpool sent favorable news regarding the political situation abroad, and the business outlook at Manchester was considered quite satisfactory, with yarns firm, though cloths were dull. This favorable outlook in political circles toned up the market generally and the result of the day's doings in the Liverpool cotton market was a net advance of about 3 points on old crop contracts, while at one time prices were about 6 points above the closing figures of Saturday, with good buying. Spot cotton at Liverpool was also better, prices advancing 1-16d, while spinners continue a liberal buying policy. Our market was influenced by the good Liverpool news and considerable firmness was noticed on the first call and an advance of 12 to 14 points was established on the early trades. There was a fair amount of trading in most of the being for local account. The fluctuations during the forenoon were quite moderate, with the market steady at noon and early afternoon, at 1 o'clock prices were, say, 7 or 8 points under Saturday's closing figures. During the afternoon and especially toward the close there was considerable pressure to sell, and under the free offerings the early advance was practically all lost, the market closing steady in tone and unchanged to 2 points net advance. Total sales were 226,600 bales. The Southern spot markets were generally unchanged, but Norfolk was ⅛ higher. Private advices state that cotton is offered more freely at Southern points. The statistical position has not changed materially. The receipts at New-Orleans overran Saturday's estimate, but the total movement forward for the day was not considered very heavy. The movement toward the ports for the week is now estimated at from 215,000 to 220,000 bales. The receipts last week were 230,429 bales, against 347,034 bales a year ago. The estimated receipts Tuesday at New-Orleans are 17,000 to 20,000 bales, compared with 18,155 the corresponding day last week, and 33,333 bales last year. and 19,014 bales two years ago. To-day's receipts at New-Orleans were 15,293 bales, against 12,439 bales the corresponding day last week and 22,491 bales last year. Galveston, 11,832 bales, against 9,439 and 21,299 bales; Mobile, 2,727 bales, against 1,460 and 1,822 bales; Savannah, 2,519 bales, against 3,457 and 6,331 bales; Charleston, 1,756 bales, against 4,578 and 5,187 bales; Norfolk, 2,238 bales, against 2,263 and 3,688 bales; Houston, 4,988 bales, against 6,015 and 9,914 bales; Memphis, 5,786 bales, against 7,466 and 8,944 bales. The receipts at Houston and Memphis are estimated at 12,000 to 14,000 bales, against 17,227 bales the corresponding day last year.

The nominal prices for Rio No. 7 on spot are 15¼@15¾c and 14¾@14¾c for No. 8. The market is very quiet, as the demand from jobbers for invoice lines is not urgent, as the country demand upon them is very light. There is a fair amount of activity in mild coffee, with prices unchanged, though the tone of the market is quite steady. We note sales of 1,000 bags Bucaramanga; 1,000 bags Central American, and 500 bags Maracaibo and Santos terms.

FLOUR AND MEAL—The market was dull and weaker to sell to-day, buyers being impressed by the reports about sales of spring wheat patents at cut-rate prices, and refused to operate. Brands outside of the combine were reported selling at $3 45@$3 50. Winters were dull at the recent decline. Sales to-day were 20,000 pkgs, including 1,000 bbls winter patents, $3 60@$3 65; 900 bbls straights, $3 30@$3 40; 500 bbls bakers, clear, $3@$3 25; 400 pkgs extra Is, $2 90 in sacks and $3 10 in bbls; 600 bbls extra 2s, $2 85. 300 bbls superfine, $2 70@$2 75; 150 bbls fines, $2 50; 5,070 bbls city patents, $4 10@$4 35; 4,000 bbls city clears, $4; 1,000 bbls city fines, $2 80@$2 85; 2,500 bbls spring patents, $3 45@$3 60; 2,500 bbls spring clears, old, $2 90@$3 65; 500 sacks extra 2s, $2 85; 500 sacks superfine, $2. ..... GRAIN—WHEAT—The wheat market was dull, but very firm during the forenoon, advancing ¼@⅝c with light operations. The advance appeared to be due to the falling off in the receipts of wheat in the Northwest. The arrivals at Minneapolis and Duluth were less than last year, footing up 1,268 cars, against 1,366 a year ago. Outside of this the news was bearish. The world's shipments to Europe were reported by private dispatch the last week at 8,800,000 bush, of which 5,064,000 bush were from the Black Sea. The shipments of wheat from the Argentine showed a little increase, and were 72,000 bush, against 48,000 bush the previous week. The weather through the winter wheat belt was generally favorable, not only for the development of the crop, but for moving of wheat from the country. The amount of wheat on passage to Europe showed a large increase—800,000 bush, the total stock showing the effect of the large exports from other countries. The Indian exports of wheat last week were 104,000 bush, making an aggregate of 14,304,000 bush since April 1. Exports for the week from New-York were 609,849 bush. Interior receipts of wheat at spring wheat markets to-day were 1,272,558 bush, against 951,783 bush last year; winter, 257,761 bush, against 179,118 bush; seaboard receipts, 675,891 bush, against 280,299 bush; total, 2,206,154 bush, against 1,411,202 bush; exports, 77,937 bush, against 61,552 bush. The wheat market in the afternoon was depressed by the large gain afloat and the increase in the visible, and prices fell off. The English visible decreased 270,000 bush, but this was not important. A rumor was current that Liverpool had enough wheat bought to supply her wants to January 1. The close was quiet at unchanged to ⅛c decline. Cash wheat was moderately active and steady. Sales included 600 bush No 2 red in elevator at 68c; 1,000 bush No 1 Northern at 65c elevator; 8,000 bush No 1 hard for export, at 3c over December f o b afloat; December closed at 64⅝c; 16,000 bush No 1 Northern New-York, at 1½c over December f o b afloat and private terms; 96,000 bush do, private terms, last half December f o b afloat. ..... CORN—The corn market was steady but dull. There was a small trade in future deliveries during the morning both here and at the West, without much change in price. The receipts are excellent at the interior, and with the good weather there is considerable talk about a further gain in arrivals. The primary receipts to-day were 401,000 bush, against 316,000 bush last year. The decrease in the visible was not sufficient to cause much interest. The amount of corn on passage showed a considerable increase—560,000 bush—and the Argentine exports for the week were 808,000 bush, against 404,000 bush. Exports from New-York the last week were 665,848 bush. The seaboard exports for the day were 175,000 bush, against 5,000 bush last year. The market for the latter part of the session was quiet, closing unchanged to ⅛c decline. Cash corn was moderately active, but steady. Sales included 1,000 bush No 2 elevator at 39½c; 64,000 bush at 37½@37⅞c f o b afloat, last of November and 1st of December, export, and 5,000 bush No 2 white at 39⅝c elevator. ..... OATS—The dealings in oats were unimportant. There seemed to be absolutely no feature in the futures, and cash were heavy. The movement of oats keeps up fairly well, and the gain in the visible supply was about as anticipated. Later the market was featureless, closing unchanged to ⅛c net decline. Cash quiet. Sales were 61,000 bush, including 7,000 oats were offered. Sales were 61,000 bush, including 7,000 bush No 2 at 23⅝@23¾c elevator; 9,000 bush No 2 white, 24⅝c; 5,000 bush No 3 white, 23½@23¾c; 25,000 bush track white, 24@28c; 15,000 bush, track mixed, 22½c. ..... BARLEY—Market dull and heavy; No 2 Milwaukee quoted at 47c nominal and off grade to choice, 39@48c. ..... BUCKWHEAT—The market continues to drop, and to-day prime State was quoted at 41½c bid and 41½c asked. Japanese was quiet at 43@45c nominal. ..... RYE—Nominal at 52@60c for Western. ..... MALT—Market nominal at 53@60c for Western.

METALS—TIN—The metal market was more active and easier in tone to-day; sales were 200 tons, tin futures; quite unsettled; quoted, running from January, with 50 tons per month to April at 14.55. ..... COPPER—Prices again show the effect of the pressure of supplies and the market was weaker, closing easy but dull at $11 30@$11 35. ..... LEAD—The pressure on the market has let up materially and prices have recovered somewhat from the depression of last week, closing firm to-day at 3.22½@3.25. ..... SPELTER—Market quiet and dull, with prices quoted at $3 60@$3 65.

MOLASSES AND SYRUPS—There is a slow demand for domestic grades of desirable quality, but the market is by no means active. The arrivals, however, are moderate, which prevents an accumulation of supplies. Syrups are quiet in the way of export business, and jobbers are not asking for large lots, so the market is quiet. We quote: New-Orleans centrifugal, ordinary, 16@12c; common, 13@15c; fair to good, 18@22c; choice to prime, 23@28c; choice open kettle, fair, 23@25c; good, 26@28c; prime, 29@30c; choice nominal. Tar, regulars, $1 90@$2; oil barrels, $3 70@$3 75; pitch quoted at $1 60@$1 70.

OCEAN FREIGHTS—The market continues very firm with room well absorbed for immediate shipment, not only for grain, but general cargo. Rates are stiff to all ports and the question of filling export orders for the moment seems to be almost as much a question of available freight room as any other item. The engagements reported to-day in grain were 13 loads to Antwerp at 3½. We quote: Grain—Liverpool, 3¼d; London, 3¼d; Glasgow, 3½d; Bristol, 4d; Leith, 4d; Hull, 4d; Newcastle, 4½d; Antwerp, 3d; Marseilles, 2s 6d; Bremen, 4⅝ pfgs; Hamburg, 5c pfgs; Rotterdam, 3c; Amsterdam, 6c; Cork for orders, 3s 3d; cotton to Liverpool, 3-32d; petroleum to United Kingdom, 1s 10½d@2s 1½d. ..... CHARTERS—There was a moderate demand for sail tonnage to-day, chiefly for vessels suitable for the South American, West Indian and coastwise trades. Rates show no improvement in any department. The petroleum, deal and timber and long distance general cargo freights are exceedingly quiet. Steam tonnage for grain was moderately active, but at rates slightly easier than previously quoted. This leaves granulated on the old basis of 4½c.

COUNTRY PRODUCE MARKET.

New-York, November 18, 1895.

BEANS AND PEAS—The market was so lightly supplied with State marrow beans that sellers found no difficulty in obtaining $1 60; in fact, some receivers were not inclined to accept that. Medium were a little slow, but held steady at $1 45. Pea rather scarce at the moment and firm. The tendency of red kidney is toward a little higher range of values, but the strength of the position will be determined largely by the export trade; bids of $1 90 were refused to-day for round lots. Yellow eyes and white kidney are easier. Green peas steady. We quote: Beans, domestic, narrow choice, per bush, $1 60; do medium, $1 45; do pea, $1 40; do white kidney, $1 80; do red kidney, $1 90; do turtle soup, $1 65; do yellow eye, $1 50@$1 55; do lima, California, $1 95@$2; do foreign, per qtl, $1 15@$1 25. .....
