ON THE STOCK EXCHANGE.

Friday, November 29—p. m.

There was little doing in the stock market beyond transactions for the professional account. Trading to a great extent was confined to the Industrials, which moved in an irregular manner, while prices for the standard shares showed little change. The fact that only $1,750,000 gold was taken for export did not revive interest in stock speculation sufficiently to make any impression upon values. In fact, there was considerable disappointment because the advancing tendency of the first days of the week was not continued. The advances then were due to the demand from the shorts which was absent to-day. In the early part of the week the condition of the foreign exchange market indicated large exports of gold at the end of the week, but in the last few days a more liberal supply of commercial bills has come to hand and rates for sterling exchange have eased appreciably. Several houses which early in the week expected to ship gold to-morrow were able to get exchange to-day. At present the outlook for easier rates in the next few weeks is comparatively bright, but it is not safe to count upon present conditions in the exchange market. The sale of a portion of the Georgia Central bonds to a syndicate which has sold $1,000,000 of them in Europe, as indicated in this column yesterday, was confirmed to-day, and it was announced that exchange against them had been sold.

Trading in stocks has been restricted pending the meeting of Congress, and careful students of the market believe that as far as activity in stocks is concerned much depends upon the action of the lawmakers in Washington. If a measure for additional revenue is passed, stocks will be the first to reflect the wisdom of such a course. Transactions in American Tobacco, Sugar Refining, Chicago Gas, Western Union, St. Paul and Burlington made up the greater part of to-day's trading. Tobacco was lower on manipulation by the bears, Sugar was higher on professional buying and Chicago Gas declined on reports of opposition in this State to the proposed reorganization scheme. Burlington fell off 1 per cent, apparently because its October statement was disappointing, but St. Paul, despite foreign selling, advanced, its report for October being a splendid exhibit of earnings. In the month its net earnings increased $1,565,247. Manhattan and the rest of the Gould stocks were weak. Pacific Mail, Southern Railway preferred, Wabash preferred, Cleveland, Lorain and Wheeling, the Vanderbilt shares and United States Rubber preferred were the strong features of the market. The closing was irregular, with many shares showing fractional losses.

Closing prices of the principal active stocks, compared with those of Wednesday, were as follows:

The par value of the sales was $1,022,000.
