Oilcake, lb	450,000	Cheese, lb	217,860
Spirits turp., gals	1,140		

THE GENERAL MARKET REPORT.

New-York, June 10, 1896.

COTTON—The market was again decidedly lower. On the first call summer months sold off about 5 points, but as the call progressed there was a change of sentiment, and the latter months sold a little better than they closed yesterday, and there was an advancing tendency after the call, which carried prices up 3 or 4 points on the entire list. This firmness was attributed to lack of rain in Texas, to-day's weather report showing a fall of only .04 at Corsicana, with indications of fair weather throughout the State, with the possible exception of rain to-night in a part of the eastern section of the State. Rain was reported in Georgia, Alabama, Arkansas and Louisiana and in the Carolinas. Liverpool, however, declined quite sharply and closed with a net loss on futures of 1 to 2 points, while at Manchester yarns were dull but steady and cloths were dull. There was a good opportunity for scalping operations, and local operators made the most of this. Before 1 o'clock prices had fallen off, say, 10 points on the active months on the Government report of the condition and acreage on June 1. This report was considered by some as the most favorable June report within recent years. It made the general average acreage 116.2 per cent, which is an increase of 1.3 per cent over the May statement and compares with 85.2 per cent on June 1 last year. The average condition of the crop on June 1 was 97.2 per cent, against 81 per cent on June 1 of last year. There seemed to be some radical speculative selling, while there appeared to be some conservative buying toward the close, and on this there was a little reaction. August sold as low as 7.03c and as high as 7.32c on the day's sales. Final prices were showing a net loss of 15 to 16 points on summer months, and a net loss of 8 to 10 points on later positions, with the closing tone steady. The total sales for the day were 202,900 bales. The New-York spot market was 3-16c lower, New-Orleans folk and St. Louis were 1-16c lower, and New-Orleans and Mobile ⅛c lower, while Wilmington was ⅛c lower. The report shows a State percentage of acreage, as compared with last year, as follows: Virginia, 107; North Carolina, 117; South Carolina, 111; Georgia, 113; Alabama, 112; Mississippi, 114; Louisiana, 109; Texas, 116; Arkansas, 130; Tennessee, 128; Indian Territory, 161; Missouri, 163; Oklahoma, 194; Florida, 138. The average condition of the crop by States was as follows: Virginia, 91; North Carolina, 96; South Carolina, 97; Georgia, 95; Florida, 85; Alabama, 103; Mississippi, 104; Louisiana, 94; Texas, 92; Arkansas, 102; Tennessee, 118; Missouri, 92. In the Atlantic States, in spite of the dry weather in the early spring, the crop is a little earlier than usual. Poor stands on account of drouth are reported in two counties in North Carolina and South Carolina and from seven counties in Georgia; but the plants are in fine condition as respects cultivation and growth throughout this region. In Florida the crop is late and stands poor on account of the excessive drouth. From Alabama, Mississippi, Louisiana, Arkansas, Tennessee and Indian Territory the reports are unusually encouraging. The crop is not only early, but stands are good, the plant free from grass and outlook promising for a full crop. In a few localities, however, there are complaints of damage by cutworms and lice. In Texas the conditions have been less favorable than in other Gulf States. The cold and damp weather at seeding time not only makes the crop late, but has caused to infesting many fields in a large area in the southwestern part of the State with all manner of insects that damage the plant. A considerable improvement has been made, however, within the last month, first plantings seemingly doing much better than late ones. In many of the heavy producing counties the stands are good. The weekly weather crop bulletin of the Agricultural Department says that owing to excessive rains cotton is becoming grassy in Tennessee, Missouri, Alabama and South Carolina, but generally it has made rapid growth and is fruiting well. Some complaint of lice is reported from the Carolinas and Mississippi. In Texas early cotton has withstood the drouth well, but late cotton is in less promising condition. It is figured on the Bureau's estimates of acreage and condition that the growing crop will show 9,300,000 to 9,400,000 bales.

Opening, range and close to-day, and closing bids the previous night and last year follow:

	Open-ing.	High-est.	Low-est.	Closing to-day.	Last night.	Last year.

Market closed steady at 8 to 16 points decline compared with yesterday's closing prices. Transferrible notices, 7,15. Total sales, 202,600 bales. New-York grower receipts, 50 bales. Exports: Continent, 3,867 bales; Great Britain, 1,535 bales; sales, 719 bales; spinners, 119 bales; stock, 116,278 bales. Total net receipts to-day, 3,587 bales; thus far this week, 9,002 bales. Exports to-day: Great Britain, 1,535 bales; Continent, 7,617 bales. Thus far this week: Great Britain, 10,418 bales; France, 153 bales; Continent, 11,815 bales; stock, 290,430 bales. Spot cotton quiet, 3-16c lower; middling uplands, 7 7-16c; middling Gulf, 7 11-16c; sales, 719 bales, including 119 bales spinning and 600 bales on contract.

Liverpool cable—Spot cotton, easier; sales, 12,000 bales; additional sales to-day, 2,000 bales American; speculation and export, 1,000 bales; American, 10,000 bales; receipts, 11,000 bales; American 10,000 bales. Middling uplands, 3 27-32d. Futures opened quiet, buyers at 3-64d decline; closed steady, 1 to 2 points net decline: January-February, 340b; February-March, 341b; March-April, 342½c; June-July, 346b; July-August, 350b; August-September, 348½s; September-October, 344b; October-November, 341½s; November-December, 340b; December-January, 340s. Manchester—Yarns dull but steady; cloths dull.

COFFEE—An increase in the volume of business was shown, but the total was still light, with prices within a narrow range and prices a shade better. Chief sales were for September. Rio firm at 11,000 reis exchange, 10 1-16; receipts, 12,000 bags. Cleared for United States and stock, 109,000 bags. Santos receipts, 5,000 bags; stock, 105,000; market steady at 11,500 reis. Havre—June, 74.75 francs; July, 74.25; August, 73.50; September, 71.75. Hamburg quiet; June, 62.25 pfennings; July, 61; August, 59.75; September, 58.50; October, 57.25. Contracts closed steady; May was 5 lower; others unchanged to 5 higher; sales were 6,750 bags, as follows:

	Highest.	Lowest.	Closed to-day.	Last year bids.
January	—	—	9.95@10.05	14.45
February	—	—	9.90@10.00	14.45
March	—	—	9.85@ 9.95	14.40
April	—	—	9.80@ 9.90	—
May	—	—	9.75@ 9.85	14.20
June	12.00	12.00	11.95@12.00	14.20
July	—	—	11.55@11.65	14.45
August	11.05	11.05	11.05@11.10	14.50
September	10.65	10.65	10.60@10.70	14.60
October	10.30	10.30	10.25@10.35	14.65
November	—	—	10.15@10.25	14.60
December	10.10	10.10	10.10@10.15	14.55

The statistical position of Brazil coffee is as follows:

	To-day.	Yesterday.	Last week.
New-York stock	175,256	179,979	187,216
Baltimore stock	6,350	6,788	2,574
New-Orleans stock	16,047	16,558	18,568
Stock at all ports	197,625	203,325	208,358
New-York deliveries	474	17,843	7,100
Baltimore deliveries	438	567	161
New-Orleans deliveries	511	349	378
Total deliveries	5,670	18,759	7,639
Afloat	155,000	155,000	159,150
Visible supply	352,625	358,325	367,508

The market is without important change, values nominal, Rio No 7 spot quoted at 13¾c, and No 8, 12¾c. Mild coffee is rather easier, with good Cucuta quoted at 16½@16¾c. Sales were about 500 bags Maracaibo on private terms.

FLOUR AND MEAL—The market for flour was weakened by the break in wheat, and the little advance recently asked on both spring and winter, outside of association brands, has practically all been lost. Association brands of spring patents were unchanged at $4 10. Total sales were 16,535 pkgs, including 500 bbls winter patents, $3 65@$3 90; 2,400 bbls straights, $3 35@$3 50 (bulk, $3 45@$3 50); 150 bbls choice extra 1s, $2 80, 450 bbls extra 2s, $2 40@$2 50; 5,785 bbls city patents, $4 30@$4 55; 6,000 bbls city clears, $4@$4 10; 150 bbls spring extra 2s, $2 25; 500 sacks superfine, $1 77½.....RYE FLOUR—Steady; sales, 600 bbls at $2 55@$2 80.....CORNMEAL—Steady; sales, 200 bbls at $2 10. Quoted: Brandywine, $2 15; Sagamore, $2 15; Esmeralda, $2 10; Western and Southern, $1 90@$2 10.....BAG MEAL—Quiet. Quoted: Fine white, 80c; fine yellow, 76@78c; coarse, 66@68c.....FEED—Dull. Quoted: 40, 60 and 80 lb, 55@57½c; 100-lb, 62½@65c; rye feed, 55@60c; sharps, 65@70c; hominy chop, 75@87½c; cottonseed meal, $1@$1 02; oil meal, 90@92½c; city feed, 62½c.

GRAIN—WHEAT—The wheat market was again demoralized to-day and lost another cent a bushel. The opening was weak and lower with apparently considerable long wheat coming on the market. The pressure was helped by weakness abroad, some foreign selling and fairly favorable crop reports. The Government weather and crop report the last week was not unfavorable, and there seemed to be additional liquidation in the market. From the early decline there was a recovery in prices, quotations working up to about the final of last evening. Heavy covering was reported at the West. Just before the close, however, the advance was all lost, the market breaking very quickly on reports of demoralized conditions in Wall Street, rumors of a new Cuban message and unsettling reports from St. Louis. There was also a fresh tip from Washington that the Government report would show a condition of 78 for winter, 98 for spring, with an area of spring wheat of 101. The demoralized conditions in Wall Street and the liquidation in stocks appeared to be, however, the most important factors in the late weakness. The official close was at ⅞@1⅛ net loss. The crop and weather bulletin was quite satisfactory for the last week, and the weather report for the day was good. The world's stock of wheat, June 1, is reported at 147,563,000 bushels by "The Chicago Bulletin," against 161,110,000 bushels the previous month and 171,169,000 last year. Cash wheat was inactive. Sales were reported of 10,000 bush No 1 hard at 5¼c over July f o b afloat; July closed at 64c; No 2 red was quoted at 8½c over July f o b afloat, and No 1 Northern New-York 2¾c over July f o b afloat. The Government crop report was out late and showed a condition of 77.9 for winter wheat, against 82.7 last month and 71.1 last year; acreage, 22,794,000 acres, against 22,477,063 last year; indicated crop, 268,969,000 bush, against 257,709,000 bush last year; spring wheat condition 99.9, against 97.8; area 11,825,000 acres, against 11,570,269 acres; indicated crop, 184,470,000 bush, against 209,394,000 last year. On the curb, July wheat sold at 63⅝@63¾c after the report was out.....CORN—There was a very quiet trade in corn to-day, prices varying but slightly during the entire session. The weakness in wheat seemed to have a slightly depressing influence early, but a scarcity of cash corn locally had a steadying effect for spot property and the market closed steady at ⅛c advance on June but unchanged on all distant deliveries. The interior movement of corn has this week shown some falling off, which has been in part offset by decreased exports. The weather and crop bulletin to-day spoke quite favorably of the general progress of the corn crop, although the wet weather has been against cultivation. Cash corn was steadier. Sales included 15,000 bush No 2 at 33⅜c elevator; 72,000 bush for export at 35½c and private terms, f o b afloat, and 7,000 bush steamer yellow at 34c elevator.....OATS—The market for oats was very quiet but felt the influence of favorable crop advices and was somewhat easier, closing dull at ⅛c net loss. The primary arrivals have been less pressing this week and have so far shown a little decrease. There has also been some decrease in exports. The weather and crop bulletin generally speaks favorably of the growing crop. The Government report to-day made the condition of the growing crop 98.8, against 84.3 last June; area, 27,571,143 acres, against 27,878,406 acres; indicated crop, 843,703,000 bush, against 824,443,337 bush. Cash oats were quiet. Exporters took 40,000 bush. Sales were 87,000 bush, as follows: 10,000 bush No 2 Chicago at 23c delivered; 1,000 bush No 2 white oats at 24½c, delivered; 20,000 bush ungraded white, 24½@28c, and 40,000 bush No 2 white clipped, 26¼c and private terms, f o b afloat. No 2 oats quoted at 22⅜c elevator.....BARLEY—Market weaker. Feeding quoted 34½@35c, c i f; sales, 10,000 bush, private terms.....RYE—Market weaker; No 2 Western quoted 40½@41c, c i f.

The quotations to-day, the closing prices for the previous day and closing prices for the corresponding date last year follow:

Totals	20	251	220	274	27	8

METALS—TIN—The local market for tin to-day was quiet and sp-t was quoted at $13 20@$13 30. The foreign market closed steady.....COPPER—Closed quiet at $11 40@$11 60 for spot, $10 62½@$10 87½ for casting, and $11 12½@$11 25 for electrolytic. Exports for the month of April were 9,633 tons; imports, 997 tons.....LEAD—Market closed flat at $3, with the tone at St. Louis easy.....SPELTER—Dull at $4 07½@$4 10. St. Louis weaker.....IRON—There is a little improvement in the market for pig iron, business is light, and prices practically unchanged. Pennsylvania No 1 X, $12 25@$13; Southern No 1 foundry, $11 50@$12; No 2 soft, $10 75@$11; steel rails, $28.

MOLASSES AND SYRUPS—While the market has changed materially in general features, it rules fairly steady, with a moderate jobbing demand for fancy grades, while foreign is neglected. Syrups are quiet, but steady. Glucose is dull and nominal. We quote: New-Orleans, centrifugal, ordinary, 12@13c; common, 14@16c; fair, 17@20c; prime, 21@23c; choice, 24@25c; New-Orleans, open kettle, fair, 27@28c; good, 29@30c; prime, 32@34c; choice, 35@37c; Porto Rico, 20@35c; barbadoes, 25@27c. Syrups—Sugar, fair, 12@14c; good, 15@16c; choice, 17@19c; fancy, 22@24c.

NAVAL STORES—Stock: Rosin, 21,736 bbls; spirits turpentine, 1,285 bbls, tar, 2,023 bbls. The market for spirits of turpentine ruled steady and unchanged, with regular sales and machines quoted at 25½@26c, with rosin quiet at $1 70@$1 72½ for common to good strained. Tar and pitch selling in a jobbing way at these prices: Tar, regulars, $1 65; oil, bbls, $3@$3 25; pitch, $1 85@$1 90.

OCEAN FREIGHTS—The market for ocean freights is dragging, shippers showing but little interest, and the tone of the market is easy. We quote: Grain: Liverpool, 2½d; London, 2¾d; Glasgow, 2¾d; Bristol, 3d; Leith, 3¼d; Hull, 3d; Newcastle, 3¼d; Antwerp, 2½d; Marseilles, 2s 6d; Copenhagen, 2s 9d; Bremen, 40 pfgs; Hamburg, 45 pfgs asked; Rotterdam, 6½c asked; Amsterdam nominal; Cork for orders, 2s 9d; petroleum to United Kingdom, 1s 10½d@2s 1½d; cotton to Liverpool, 3-32d asked.....CHARTERS—Trading in sail tonnage continues active in the petroleum and lumber trades, and rates are firm. In the West India and coastwise trades there is but little doing. Steamer freights are quiet at the moment, but rates are firm, 2s 6d being the grain quotation to Cork for orders. Charters to follow: British steamer, 1,673 tons, deals, St John, N B, to west coast England, 35s 9d; German steamer, 10,000 qrs grain, hence to a Danish port, 2s 10½d, if two ports 3s; British steamer, 1,493 tons, ore, Pilley's Island to Philadelphia, private terms; two British steamers, 1,383 and 1,553 tons, sugar, Barbadoes to New-York or Philadelphia, 12c, chartered abroad; three British barks, 2,500, 2,404 and 1,400 tons, grain, San Francisco to Cork, for orders or to the United Kingdom, Havre, Antwerp or Dublin, 27s 6d—new crop. Kingdom, Havre, Antwerp or Dublin, 27s 6d—new crop. 244 6d and 25s, respectively, ship (to arrive), 90,000 cases refined petroleum, Philadelphia to Japan, 18½@19½c; Norwegian barque, 4,000 bbls refined petroleum, Philadelphia to Aalborg, 3s 3d; Italian bark, 4,000 bbls refined petroleum, hence to Cork, 2s 4½d; Italian bark, 579 tons, deals, Matanzas to Barcelona, 52s 6d; schooner, 104 tons, coal, Port Elizabeth, 17s 6d; bark, 634 tons, general cargo, hence to Port Elizabeth, 17s 6d; bark, 634 tons, locomotives, etc, Philadelphia to Buenos Ayres and Bahia Blanca, private terms; Norwegian bark, 712 tons, lumber, Blanca, private terms; Norwegian bark, 712 tons, lumber, Ship Island to Bahia Blanca, $14; Norwegian bark, 418 tons, lumber, Mobile to Rosario, $13 50; British bark, 550 tons, lumber, Bridgewater, N S, to Buenos Ayres, $8 50; Rosario 10 50; British bark, 996 tons, salt, Turk's Island to New-York, 5½c; brig, 380 tons, lumber, Jacksonville to Cuba, $6 and port charges; bark, 530 N C, to Windward Islands, $6 and port charges; bark, 530 tons, phosphate rock, Charleston to Island to north of Hatteras, private terms; British schooner, 331 tons, hence to Ponce, P R, and back with molasses, $2 75 for the round, option of outward trip only, $1,000 and port charges; schooner, 365 tons, lumber, Brunswick to Philadelphia, $4 25, free wharfage; schooner, 316 tons, lumber, Jacksonville to New-York, $4 50; schooner, 347 tons, phosphate rock, Charleston City to Baltimore, $1 85; two schooners, 214 and 208 tons, stone, Vinalhaven to New-York, $12; schooner, 365 tons, stone, Sullivan to New-York, $12 and towages; schooner, 815 tons, coal, Philadelphia to Port Royal, 50c; two schooners, 181 and 192 tons, coal, Port Liberty to Salem, 70c.

PETROLEUM—National Pipe Line certificates closed 3 points higher at $1 16 bid. Refined was 15 points higher, closing at these prices: Barrels, New-York, 6c; $6 80; Philadelphia, $6 75; cases, New-York, $7 70; Philadelphia, $7 65.

OILS—The market is nominally steady for cottonseed oil, there being a moderate demand from local buyers, but exporters are not taking hold readily. Lard and linseed oils hold about steady but quiet. We quote: Cottonseed oil, prime crude, bbls, nominally 29@21c; prime crude, loose f o b mills, 16@18c; off crude, bbls, here, 19@20c; summer yellow, prime, 24¼@25c; summer yellow, off grade, 24½@25c; butter oil, nominally 27c; winter yellow, prime, nominally 31@33c; white prime, nominally 26½@27c; lard oil, prime, nominally 37c; winter yellow, raw, 37c; American boiled, 38c; Calcutta raw, 52c.

PROVISIONS—The market for hog products was somewhat steadier in tone, although very little interest is exhibited in either local or foreign buying. Live hog receipts continue liberal at the interior. PORK—Easy; better demand; sales, 400 bbls. Quoted: Mess, $8 25@$9; family, $10@$10 50; short clear, $8 75@$10 50.....BEEF—Steady. Quoted: Extra mess, $7@$7 50; family, $8@$10; packet, $7 50@$9.....BEEF HAMS—Steady at $15@$15 50.....DRESSED HOGS—Easy. Quoted: 160 lb, 4½c; heavy to light, 4¾@6c.....CUT MEATS—Pickled bellies weak at 3¾@4½c for 14 to 16 lb. Pickled shoulders steady at 4¼c. Pickled hams firm at 9½c.....TALLOW—Dull and nominal at 3¼c asked.....STEARINE—Quiet; lard, 5¼@5½c; oleo, 4¾c asked.....LARD—Lower; sales late yesterday, 250 tcs prime steam, 4.40c; closing at 4.37½c. City sales, 175 tcs at 4.05c; refined easier. South America, 5.10c; Continent, 4.60c; compound, 4¼@4½c. Options closed at 4.40c asked for July.

RICE—A fairly good demand is reported for both domestic and foreign rice, especially for strictly fancy, which is wanted and in light supply. We quote: Fine and fancy Louisiana, common to ordinary, 2½@2¾c; low fair to fair, 3@3¼c; good to prime, 3½@4¼c; choice to fancy, 5@5¼c; extra head, 6@6½c; Java, 3¼@3½c; Java in bond, 1¾@2c; Japan, 4@4½c; Patna, 4@4¾c; Patna in bond, 2¾@3c.

SUGAR—The local market remains quiet but nominally steady, refiners willing to go on on the basis of 3 13-16c for 96 test centrifugal, 3 5-16c for 89 test Muscovado, and 3 1-16c for 89 test molasses sugar. The London market, while not showing positive decline in prices, was dull, with but little doing in cane; Java quoted at 12s 3d, with fair refining 11s. Beet was dull and rather easier; June quoted at 10s 9d, July 10s 10½d. Refined sugar was quiet, with list prices unchanged; granulated quoted at 5 1-16c.

TEAS—The regular weekly auction sale went off with some spirit to-day, and offerings were light, and taken at prices fully equal to those of a week ago. The sale included 5,573 pkgs, as follows: Moyune—144 Hyson, 5½@6c; 225 Young Hyson, 6½@19c; 245 Imperial, 7½@20c; 234 Gunpowder, 11½@17½c. Ping Suey—73 Imperial, 11c; 313 Gunpowder, 10¼@14½c; Japan, 146 basket-fired, 10¼@15c; 297 siftings, 3½@3¾c; 300 Congou, 7@15c; 178 India and Pekoe, 10@24c, and 41 capers. Oolong—457 Foochow, 7¼@8½c; 2,860 Formosa, 12@27c.

COUNTRY PRODUCE MARKETS.

New-York, June 10, 1896.

BEANS AND PEAS—Trade still drags quite heavily, and though stock is arriving moderately, there is just enough pressure to sell to keep values on the downward turn. Holders generally ask $1 20 for choice marks of narrow, but intimate that they would accept a little less to effect important sales. Medium are slow at $1, and choice pea are quiet at 95c@$1, with the latter now very extreme. The few export orders for red kidney received this week have been filled at $1 67½, and the market has quite an easy tone. Other varieties are unchanged. We quote: Beans, Domestic marrow, choice, per bush, $1 17½@$1 20; do medium, $1; do pea, 95c@$1; do white kidney, $1 30@$1 35; do red kidney, $1 65@$1 67½; do turtle soup, $1 20@$1 25; do yellow eye, $1 25; do lima, California, $1 80@$1 85; do foreign pea, old, 80@85c; do foreign medium, old, 75@80c; green peas, bbls, 75@77½c; do bags, 70c; do Scotch, bbls, 77½@80c; do bags, 72½c.

BUTTER—Receipts were not quite so heavy to-day, but a little stock had accumulated, and with rather a quiet trade the market was no more than steady. Sellers did not have much difficulty in maintaining 15½c on strictly extra creamery, but there was plenty of stock offering at that price to meet all requirements. Considerable lots were withdrawn from sale under instructions from Western shippers, and there was some storing by speculative buyers. The call from that class of trade was almost entirely for long lines of perfect quality. This made it difficult to move the smaller shipments, and it is possible that some receivers would have accepted a little less price to have closed out the small lots. Hence, while we retain the straight quotation of 15½c on extras, some very fine butter was sold at 15c, and firsts went begging for customers at 14@14½c, very defective lots going 1@2c lower. Only a few buyers are at all interested in State dairy butter. Western packings are coming forward in a fair quantity of factory going to exporters and speculative buyers on the basis of 10@11c for firsts to extras, the outside figure being paid for several good-sized lots. We quote: Creamery, Western, extra, per lb, 15½c; do State extras, 15@15½c; do firsts, 14@14½c; do thirds to seconds, 11½@13c. State dairy, half-firkin tubs, extras, 15c; do Welsh tubs, extras, 14½c; do common to prime, 10@14c; imitation creamery, firsts, 12c; do seconds, 10@11c; Western dairy, 9@11½c; factory extras, 11c; do firsts, 10c; do thirds to seconds, 8@9c; old butter, 7@10c.

CHEESE—There were very few fresh deliveries of cheese this morning, but considerable interest was shown by exporters and a large attendance of buyers on the platform, and the market has certainly worked into a very healthy position, more particularly for large white cheese, in voices of which are comparatively moderate, owing to the fact of Canadian buyers having taken so many of the Northern white cheese. A few sales of carried over lots were made at 6¼@6⅜c, but receivers generally talked 6½c for stock to arrive, and that figure might have been reached were there any strictly fancy cheese available, but is not well enough established yet to warrant the quotation. Large colored cheese is in a somewhat uncertain position. Some holders are inclined to talk a little firmer on stock to arrive, but no figure above 6⅜c has as yet been established. New small cheese in fair demand from home trade buyers, and steadily sustained, with few really fancy obtainable below 7c. New skims continue very dull, and while prices are held about the same the feeling is uncertain. Liverpool cable, 40s for finest white, 38s for colored and ordinary new. We quote: New State, full cream, large, colored, fancy, 6⅜c; do choice, 6⅛@6¼c; do fair to good, 5¾@6⅛c; do large, white, fancy, 6⅛c; do choice, 6⅛@6¼c; do fair to good, 5½@6c; do small, colored, fancy, 6¼c; do choice, 6⅛@6¼c; do common to fair, 6¼@6½c; do good to choice, 6⅛@6¼c; do common to fair, 4¼@4½c; light skims, choice, 5c; part skims, good to prime, 4¼@4½c; do common to fair, 2@3c; full skims, 1½@2c.

EGGS—Receipts are liberal. There is some accumulation from previous arrivals, and trade is dull and unsatisfactory. There is considerable pressure to sell, and the finest marks of Western are to-day generally offered at 12c. Average prime qualities are not moving at all well. Many lots of very good far Western can be had a shade under. Inferior grades show little change, but are moving very slowly. We quote: Jersey and nearby, fancy, per dozen, 13@13½c; State and Pennsylvania, 12@12½c; Western, best, 12c; do fair to good, 11@11½c; do poor to fair, per case, $2 40@$3; Western culls, $2@$2 65.

FRUITS—FRESH—Peaches are not plenty to-day, but the general quality continues below prime and most lots are decidedly inferior. First-class buyers find very few of satisfactory quality for good trade, and for a few choice bright lots of Japanese varieties from Florida they have paid as high as $3@$4 per carrier. Aside from these, however, sales are generally at any reasonable bid, with more going in range of $1@$2 per carrier than higher. Wild goose plums have a light demand at about steady prices. Cherries are more plenty and moving slowly at easier prices. Strawberries were in lighter supply to-day and the few lots of strictly choice, sound, bright colored fruit brought much better prices. Most of the supply was, however, either wet and soft or of small size, and for these defective goods there was no improvement. Blackberries are more plenty and close lower with a light demand. Huckleberries in quite liberal supply, dull and easier. Green gooseberries very dull. Southern muskmelons are mostly of inferior quality and very hard to sell; fancy stock would bring good prices. Receipts of watermelons were 13 cars; they are moving very slowly and prices tend in buyers' favor. We quote: Peaches, Florida, Japanese varieties, good to fancy, per carrier, $3@$4; Florida, poor to fair, $1@$2 50; Georgia, good to prime, $1 50@$2 50; do inferior, 50c@$1 25; South Carolina, per carrier, $1@$2; North Carolina, poor to fair, $1@$2; cherries, extra, large, dark, per lb, 10c; do medium size, 6@8c; do light colored, large, prime, 7@8c; do all small and inferior, 3@6c; plums, Southern wild goose, per 24-quart carrier, $2 25@$2 50; strawberries, Hilton and Livingston, extra fancy, per quart, 16@22c; do fair to choice, 8@14c; do inferior, fair to choice, 8@12c; Jersey, large varieties, choice, 8@10c; do common to fair, 4@7c; Baltimore, 6@9c; blackberries, North Carolina, per quart, 5@10c; do Maryland and Delaware, 5@9c; huckleberries, North Carolina, per quart, 7@12c; muskmelons, Charleston, per bush basket, $1@$2; do Florida, per half-bbl pkg, $1@$3; watermelons, choice, large, per 100, $25@$35; do small to medium, $15@$22.

FRUITS—DRIED—There was not much done to-day in evaporated apples beyond the small wants of jobbing trade, but with comparatively light stocks here and rather firm interior advices holders asked full late prices for all sound useful grades. Sun-dried apples lean in sellers' favor. Demand has been so large of late that stocks are in comparatively moderate compass and held very firmly. Raspberries are neglected and could hardly be sold at the moment above 16c, though holders generally ask a little more. Cherries are slightly firmer; jobbing sales at 10c. Other small fruits about as previously quoted. We quote: Apples, evaporated, choice, 6½@6¾c; do prime to choice, 5@5½c; fair to good, 3@3½c; do sun-dried, Southern, 2½@3c; do coarse-cut, 2@2½c; do Southwestern, 2½@3c; do Western and State, 2½@3½c; chips, 2½@2¾c; cores and skins, 2@2½c; peaches, Southern, peeled, 4@7c; do unpeeled, 1½@2c; raspberries, evaporated, 6½@6¾c; cherries, 9@10c; huckleberries, 5½c; blackberries, 3½@5½c; plums, State, 5c; do Southern, 4½c; apricots, 8@11c; peaches, California, peeled, 10@14c; do unpeeled, 3½@6½c; prunes, 3½@6½c.

HOPS—The movement is still very moderate in all directions, but holders see nothing in the situation to warrant any change in their ideas as to values and late quotations are fairly maintained. We quote: State, 1895, choice, 8c; do good to prime, 6@7c; do common to fair, 3@5½c; Pacific Coast, 1895, choice, 7c; do common to prime, 3½@6c; State and Pacific Coast, 1894, 2½@4c; do 1893, 1½@2c.

POULTRY—ALIVE—Receipts to-day, 17 carloads. Fowls are in good demand and steady at 9½c. Spring chickens are in
