The Home Journal.

PUBLISHED EVERY THURSDAY EVENING AT TWO DOLLARS PER ANNUM.

"WHITHER ARE WE TENDING?"

Says a writer in Moor's Rural New Yorker: It is stated that $11,000,000 are anually paid out by the United States for guano—the whole a foreign commodity. Upon this theme he goes to on animadvert upon reckless and wasteful farming, and concludes that millions of dollars of manure, are in this country, lost by wasteful negligence every year, for which the farmer gets no benefit. This, when viewed in a candid light, is no trifling matter to each farmer, and truly a momentous figure in the aggregate. It is computed that the urine of a single cow for one year, will furnish a solid extract of 672 lbs., and this will contain as much nitrogen as 560 lbs. of the best guano, and so large a quantity of potash, that by combustion, at the market value of the article, it is worth from $20 to $25. But this is only one of the means which might be made tributary to the fertility of the soil; this careful protection and preservation of solid and liquid excrementious matter—forest leaves, muck beds, wash of streets, sheep fold, poultry house, sink drainings, waste of saw mills, &c., &c., are but waiting for the farmers' calling to yield their treasures.

Prof. Nash says:—"I will not say that manure is the farmer's *gold*, but *it is that which brings gold*. About in proportion as the barn-cellar, the yard and the pig pen, are filled with manures, will the purse be filled with shining metal; and what is more about in the same proportion will the farmer have the exquisite pleasure of *seeing everything else on his farm shine*."

BUTTER.—The Greeks had little or no notion of butter, and the early Romans used it only as a medicine—never as food; so that it is comparatively a modern article of diet.

COFFEE.—Coffee is derived from the Arabic *Kahwah*, Turkish *Kahve*. The English word evidently comes direct from the Turkish. The coffee plant is a native of Abyssinia, and not of Arabia; for it was not known at Mecca until 1454, only forty years before the discovery of America. From Arabia it spread to Egypt and Turkey, and from the last named country was brought to England in 1650.

SALT.—Salt may be freed from lime and magnesia by putting two quarts of boiling water to 30 pounds of salt and thoroughly stirring the whole occasionally for two hours. Then hang up in a bag to drain. The impurities pass off with the water.

GREAT MORTALITY AMONG HOGS.—We learn that the Hog Cholera has made fearful ravages among the hogs in the lower part of Davidson and in Cheatham and Dickson counties. The hogs have been stricken down by the disease in hundreds, and the loss to farmers in those sections will be very serious.—*Nashville Banner.*

ARMY WORM.—The Franklin Review of last Thursday morning says: We hear rumors of the army worms in this section and it is feared they will prove troublesome.

HOWARD ASSOCIATION.

PHILADELPHIA.

A benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with unusual and epidemic diseases.

The Howard Association, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practiced upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical advice GRATIS, to all who apply by letter, with a description of their condition, age, occupation, habits of life, &c., and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will benefit by the most approved modern treatment.

The Directors, on review of the past, feel assured that their labors in this spheres of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.

Just published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the Vice of Onanism, Masturbation or self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (on a sealed letter envelope,) FREE OF CHARGE, on receipt of TWO STAMPS for postage.—Other Reports and Tracts on the nature and treatment of Sexual diseases, diet, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or treatment, Dr. J. SKILLIN HOUGHTON, Acting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

By order of the Directors.

GROVER & BAKER'S FAMILY SEWING MACHINES

Promote the leisure, health and happiness of home.

OFFICE:

No. 4, Public Square, Nashville, Tenn.

Reasons why this Machine is Universally Preferred over All Others.

1 Because it is the only Sewing Machine in the world ever invented, so constructed as to fully meet the demands of families for general use.

2 It is very simple and is never liable to get out of order.

3 It makes a seam which will not rip, though every thread stitch is cut.

4 It is not a shuttle machine.

5 It sews with two needles, making any length stitch desired.

6 It sews from two ordinary spools, and thus all trouble or winding thread is avoided while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

7 The same Machine runs silk or linen thread, and common spool cotton, with equal facility.

8 This Machine will sew in the sleeves of a coat with the same ease and facility that it sews a straight seam.

9 This Machine can be run to make one thousand five hundred stitches per minute.

10 The seams are as elastic as the most elastic fabric so that it is free from all liability to break in washing, ironing or otherwise.

11 The stitches made by this machine are more beautiful than any other made either by hand or machine.

The price of the Machines at office in New York, range from $75 to $150, an additional charge of $10 is only made on each machine over New York prices at office in Nashville, to defray expenses of transportation &c. to Nashville

The only Safe Preparation

that does not dye, but will restore

GRAY HAIR

to its original color, by Nature's own process.

18

Prof. O. J. Wood's Celebrated

HAIR RESTORATIVE.

In proof of the above assertion, read the following testimony from distinguished persons from all parts of the country.

Hon. Solomon Mann, Ann Arbor, Mich. says his wife, whose hair had become very thin, and entirely white, was restored to its original brown color, and had thickened and became beautiful and glossy upon, and entirely over, the head. Others of my family and friends are using your Restorative with the happiest effects.

Hon. Julius Conover, Ex Senator of Illinois, says my hair was prematurely gray, but, by the use of Wood's Restorative, it has resumed its original color, and I have no doubt permanently so.

Hon. H. Stewart, says my hair was very gray, but after using two bottles, it restored to its original color.

Rev. J. K. Briggs, Brookfield, Mass., says it has removed from my head inflammation, dandruff, and a confused tingling sensation, and restored my hair, which was gray, to its original color.

J. W. Davidson Monmouth, Ills., says my hair was two thirds gray, or rather white, but by the application of the Restorative as directed, it has resumed its original color.

Dr. G. Wallis, Chicago, says, after using a great many other preparations, all to no effect, I used one bottle of your Hair Restorative, which has cured a humor in my head of two years standing.

Professor Lonbridge, 293 Seventh Avenue, New York, says, having lost my hair by the effects of the Erysipelas, when it began to grow, hoped of black as heretofore, it was well mixed with gray. Having tried many preparations to restore the color without effect I was induced to try yours, and in spite of all my doubts it had the desired effect.

B. J. Williams, M. D., Perkersville, Ala., says, I have used your Restorative and find it all it is recommended to be. I have tried it for Tetter and find it a certain cure.

W. M. Woodward, M. D. Frankfort, Ky., says, he recommends it in his practice as the best preparation for the hair in use.

Edward Walcott, says, three months ago my hair was very gray, it is now a dark brown, the original color smooth and glossy, all by the use of Wood's Restorative.

Wilson King says one month's proper application will restore any person's hair to its original color.

J. D. Hoe says a few applications restored my hair firmly it began to grow out and turn black, its original color.

DOCTOR HOOFLAND'S

CELEBRATED

GERMAN BITTERS,

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disorderly liver or stomach.

Such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity on the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, hurried and difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or webs before the sight, Fever and dull pain in the Head, Deficiency of perspiration, Yellowness of the Skin and Eyes, pain in the side, Back, Chest, Limbs, &c., sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale are unrivalled by any similar preparation extant. The testimony to its favor given by the most prominent and well-known physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

DR. HOOFLAND'S

BALSAMIC CORDIAL,

FOR THE SPEEDY CURE OF

Coughs, colds, influenza, croup hoarseness, bronchitis, diseases of the bowels arising from cold, incipient consumption, and for the relief and (if at all possible) cure of patients in advanced stages of the latter disease.

Catarrh, or Common Cold, as it is familiarly called, is worthy of study, and serious enough to be avoided, if possible. Dr. Rush says: "I will not say that Colds are to our inhabitants what the PLAGUE and YELLOW FEVER are to those of other countries, but, I can aver confidently that they usher in disease of greater complexity and mortality than these latter."

In the danger of BRONCHITIS and PNEUMONIA, which often follow in the train of a neglected cold, and in PHTHISIS PULMONALIS, the tubercular irritation of which is developed by the same cause, we surely have profound argument sufficient for attention, not only to the preventive means, but also to the curative ones of a disease, which, however mild in its inception is directly or indirectly productive of such diversified and alarming results.

This lesson should be particularly impressed on those who have any constitutional tendency to PULMONARY CONSUMPTION.

The use of the Balsamic Cordial, agreeably to the directions accompanying each bottle, will readily cure the most distressing case of cough.

Coughs sometimes proceed from a disordered or dyspeptic state of the stomach, in which case the German Bitters should be used. In cases of weakness, or general debility of the system, resulting from a protracted cough, the German Bitters will be found of great benefit.

In cases of ACUTE Inflamation of the Lungs, the prominent symptoms generally are—hurried and painful respiration, imperfect arterialization of the blood, cough and expectoration, attended with excitement of the heart, fever, various derangements of the digestive and urinary systems, prostration of strength, &c. The lungs may be diseased without any of these
