USEFUL KNOWLEDGE.

QUICKLIME may be used to absorb moisture and putrid fluids. Sprinkle it freely in powdered form in all places to be purified.

BLACK oxide manganese may be used for purifying cellars and rooms, without discommoding patients. It may be made of forty parts black oxide of manganese and sixty parts of common salt, and may be distributed on plates.

IN ANY apartment capable of being closed, which has been infected by discharges or emanations from the sick, after thorough cleansing and white-washing, a fumigation by burning a few ounces of sulphur, or by nitrous acid from two or three ounces of nitric acid poured upon an ounce of copper filings, will be effectual in disinfecting them. Or the rooms may be disinfected with bromine. Before the fumigation all chimneys and openings should be closed and remain so for twenty-four hours. After this, open all doors and windows, and keep them open for several days and nights. Personal cleanliness and ventilation should in all cases be attended to.

TO MAKE TOMATO FIGS.—Pour boiling water over the tomatoes in order to remove the skins; then weigh them and place them in a stone jar, with as much sugar as you have tomatoes, and let them stand two days; then pour off the syrup and boil and skim it until no scum rises; then pour it over the tomatoes and let them stand two days as before; then boil and skim again. After a third time they are fit to dry if the weather is good; if not let them stand in the syrup until drying weather. Then place on large earthen plates or dishes, and put them in the sun to dry, which will take about a week, after which pack them down in small wooden boxes, with fine white sugar between each layer. Tomatoes prepared in this way will keep for years.

MY chickens are never sick, consequently I have no doctoring to do. Think sickness among fowls is more the result of bad management than any thing else; and that doctoring does more harm than good. Remove the cause and the effect will remove itself. I have on several occasions, when chicken cholera was bad in my neighborhood, given, mixed in the food of my fowls, small proportions of powdered charcoal, oxide of iron and flour of sulphur. Never had a true case of cholera, but do not pretend to hold that the drugs administered should have credit for it. Rather think that keeping the houses clean and their floors well covered with fresh earth has been the medicine that saved my chickens.—*Mary C. West.*

FALL FIRES.—The necessity of keeping warm naturally suggests fires. And why can not we have them earlier in the fall? What is there about a fire that we should shrink from it until its warmth becomes a necessity? Cost of fuel has much to do with the late advent of warm hearth-stones, but there are other luxuries which do not frighten us that are much more costly and not nearly so well worth the money that is paid for them. Apart from its healthfulness, of which so much could be said that we will say nothing, a fire in the fall is a luxury. Not only because in the mornings and evenings it softens the in-door air, as the sun softens the air out of doors at noon, but suggests the joys of winter at a time when its hardships are not yet known; it gives us the rose without the thorn. And if we are so conditioned as to be able to command a wood fire—never so suitable as in the mildly cold days of October and November—how can we reconcile it to our conscience to deny it to ourselves?

SACHETS OR SCENT BAGS.—A correspondent of the Country Gentleman writes: Various powders, etc., placed in silk bags or ornamented envelopes are agreeable to smell of, and also economical for imparting a pleasing odor to linen and clothes as they are packed away in drawers, for they prevent moths. For heliotrope powder take half a pound of orris root, one quarter pound of ground rose leaves, two ounces powdered tonquin bean, one ounce vanilla bean, one-half drachm grain musk, two drops otto of almonds; mix it all by sifting through a coarse sieve. This is one of the best sachets ever made, and perfumes table-cloths, sheets, pillow cases and towels deliciously.

For lavender powder, take one pound of powdered lavender, one-quarter pound of gum benzoin, and one-quarter of an ounce of otto of lavender.

For patchouli, use one-half a pound of patchouli ground fine, and a very little of otto patchouli. This herb is often sold in its natural state as imported, and is tied up in half-pound bundles.

Sandal wood satchet powder is good, and consists of the wood ground fine. Cedar wood, when ground, forms a body for other satchet powders, and will keep moths at a distance. Dried fennel, when ground, is also used for scent-bags, and ground nutmeg is liked for this purpose.

DRIVING HORSES.—Feed at least one hour before hitching up a driving-horse; never harness in a hurry if you can avoid it. Start out on a walk for a quarter or half a mile; increase the speed gradually and quietly; never use a whip. A horse that requires the whip is only fit for hard work. He does not know enough or else has not pride enough for a pleasure horse. Never strike a mare for any thing except to urge her on. Whipping her never makes her better, but decidedly worse. If a horse balks, or is contrary, or too nervous, or has any uncomfortable habit, keep him in harness all day, (every day except Sunday), except when he is eating his dinner. When on the road give water as often as convenient. Never allow a horse to drink more than three gallons of water at a time unless you are going where you cannot get it for a long time. Most of the hard work of men and horses is done by unsound ones. Study how to keep them in health and strength, and so get good service from them, and not keep swapping one unsound horse for another that is or soon will be as bad or worse. Horses are often abused by men, and much oftener disgraced by their owners. Things are wonderfully out of order in this world and strangely cross-wise. We often see good men driving very poor horses, and then how painful to see, as we sometimes do, a noble horse almost flying through the air, putting forth his wonderful strength and straining every nerve in his beautiful body to please another brute who owns and drives him, and who is howling and yelping, perched upon a skeleton wagon attached to the fine animal, which animal has ten times the strength, intelligence and goodness that his master has.

The Battle of Business.

Henry Ward Beecher lectured on Thursday evening in Music Hall, Boston, on the "Battle of Business." He gave it as the result of his observation that no other occupation made such demands on the nervous energy of men, was so beset with inducements to dishonesty, as mercantile life. The fault is not that men do not want to be honest, but that the majority of them do not know how to be. They think it is all right to do as others do; or, more likely, they imitate without thinking at all of the moral quality of the act.

Mr. Beecher was especially severe on stock gambles, saying that they deserved the halter if any criminals did. The only consolation in reviewing the career of these men was the assurance that few of them kept their ill-gotten wealth long. He had lived to see six or eight kings of Wall street dethroned. To the strife of business men regard only the end, and do not scruple much about the means. If it seems necessary to buy a legislature to insure the prosperity of their schemes they buy one. All the great corporations know the price of the old members of a legislature, and quickly find out what the new ones can be had for. The men who are bought the easiest over, the cheapest, are the farmers, not because they are in fact more venal, but because in their simplicity they are compromised and involved before they know it. The lawyers and merchants, more accustomed to the arts of schemers, are more wary. They have to be fished for more patiently, and are only secured at a large expense.

Speaking of the power of the great corporations of the country, Mr. Beecher declared that if the New York Central, Erie and Pennsylvania Central companies should conspire to do it, they could elect the president of the United States.

A Word to Farmers' Boys.

We hope every farmer's son will set out, at least, one ornamental tree on the homestead. It will be one of the first things he will look at when he returns home at some future time. We always search out the apple trees that we raised from the seed—large venerable-looking trees, and derive a peculiar pleasure as they help the memory to run back to the scenes and pleasures of boyhood. To-day we saw a beautiful maple that we set out twenty-six years ago. Go and get a healthy-looking sugar maple, with as many roots as possible. Cut the top off, but leave the small underbranches. Set it out before the buds begin to swell, in a rich soil, and it will grow and be an ornament to your home. Almost every boy is anxious for the time to come when he shall go away from home and see the world for himself, but after he has been bruised about for a few years he turns his eyes toward the home of his boyhood, where every object has a peculiar interest, and if he can see a beautiful tree that his own hands planted, it will add much to his pleasure. Parents are often advised to make home attractive to their boys, but boys can do much themselves to make it pleasant by planting trees. We hope that when we ride by your home, we shall see some trees planted by your own hands.—*Maine Farmer.*

THE LATEST TRIUMPH OF TEMPERANCE. We congratulate the temperance world on the success everywhere attending the use of Vinegar Bitters. Certainly no preparation containing alcohol has accomplished such cures of malarious fever, biliousness, dyspepsia, rheumatism, lung complaints, constipation, and general debility, as we hear of from all quarters, as the results of this famous vegetable specific. No true philanthropist will regret to see spirituous liquors expelled from medical use, if they can be safely dispensed with: and that they are not necessary in any case of sickness, whatever its character, appears at last to have been demonstrated. If public opinion is capable of making any impression upon the minds of the faculty, they will ere long introduce the most popular of modern medicines into the hospitals, and prescribe it in their practice. The millions have given the article a fair trial; it has more than answered their expectations, and no theoretical opposition can shake their faith in it.

CORN BREAD RUSK.—Take six cup fuls of corn-meal, four cupfuls of wheat flour, two cupfuls of molasses, two teaspoonfuls of soda, and a little salt; mix this well together, knead it into dough, then make two cakes of it, and put into the tin or iron pans, to bake one hour.

CHAPPED HANDS, face, rough skin, pimples, ringworm, salt-rheum, and other cutaneous affections cured, and the skin made soft and smooth, by using the JUNIPER TAR SOAP, made by Comstock, Hazard & Co., New York. Be sure to get the *Juniper Tar Soap*, made by the above firm, as there are many imitations made with common tar which are worthless.—Com.

SOMETHING THAT TAKES.—The threefold combination agency for selling "Wealth and Wonders of the Boundless West." There is much sure money in it. See advertisement.

CURIOUS AND SCIENTIFIC.

CHLORIDE of lime is good to absorb putrid effluvia and to stop putrefaction. Use as lime is used.

WE notice that diamond-cutting has recently been introduced in Birmingham, England, where there is every prospect of the art reaching a flourishing state. Recent advices also inform us that a huge diamond has been discovered and brought from the cape. It weighs 288½ carats in the rough, and when cut will be half as large again as the world-renowned Koh-I-Noor.

ACTION OF WATER ON LEAD PIPES.—Sir Robert Christison, who has devoted much attention to the influence of water upon lead in passing through pipes, etc., has ascertained that the purest waters are those which act most powerfully upon lead, corroding it, and forming a carbonate of a peculiar and uniform composition, and that all salts impede this action, many prevent it altogether, some of them doing so when in extremely minute proportions.

A CHOLERA SPECIFIC.—A correspondent of the Cultivator and Country Gentleman writes that one heaping teaspoonful of flour of sulphur and one heaping teaspoonful of powdered charcoal, mixed with whisky to the consistency of cream, and taken after each discharge, is considered by him almost a specific for cholera. He states that the above is a very large dose, and that it will sometimes check the discharge so suddenly as to bring on a feverish state; in such cases oil or pills will remove the bad effects. He says that he has used this as a remedy in all obstinate kinds of bowel complaints with great success. The recipe was obtained from a gentleman who used it while on the Ohio and Mississippi river boats.

NEW AND REMARKABLE CANNON.—The German journals announce that the recent trials of new guns on iron plated targets, which took place at Tegel, near Berlin, fully satisfied all expections. The shot from the 11-inch ring cast-steel gun penetrated an iron plate 12 inches thick, that from the 10 inch gun of the same pattern an iron plate of 11 inches, and there was force to spare in both cases. At Krupp's works, at Essen, trials have been made with the newly-constructed 30½ centimeters (12-inch) ring cast-steel gun, and the result justifies the belief that this gun will pierce 14 and perhaps 15 inches of armor. Thus the strongest iron-clad now existing, Her British Majesty's ship Devastation, which is provided with an armor of 11 inches, will no longer be invulnerable if opposed to such guns.

POTATOES PROSCRIBED.—Several German writers upon races predict that nations, far from improving, will deteriorate both in physical and mental characteristics, if potatoes become a principal article of diet. The celebrated Carl Voight says that "The nourishing potato does not restore the wasted issues, but makes our proletariats physically and mentally weak." The Holland physiologist, Mulder, gives the same judgment when he declares that the excessive use of potatoes among the poorer classes, and coffee and tea by the higher ranks, is the cause of the indolence of nations. Leidenfrost maintains that the revolutions of the last three centuries have been caused by the changed nourishment; the lowest workmen, in former times, ate more flesh than now, when the cheap potato forms his principal substance, but gives him no muscular or nervous strength.

A CHRISTIAN nation, jealous of its laws, but careless of its people—conservative of its institutions, but contemptuous of the weak and poor whom those institutions oppress—are baptized infidels. Christ never died for laws nor for governments, but for men; and they who crush men to build up nations may expect God to meet them with the blast of his lightnings and the terror of his thunder. The masses against the classes, the world over—I am willing to go to judgment upon that.—*H. W. Beecher.*

A BUSINESS THAT PAYS.—See advertisement of "Wealth and Wonders of the Boundless West." One agent is clearing $200 per week.

Do not speak of your happiness to a man less fortunate than yourself.—*Plutarch.*

A REMEDY

THAT WILL CURE

CONSUMPTION.

Will those who have been LONG AFFLICTED with Consumption take courage.

Please read the following:

COLUMBIA, HENRY Co., Ala., March 8, 1873.

MESSRS. J. N. HARRIS & Co., Cincinnati, O.

Dear Sirs—I want you to send me six bottles of Allen's Lung Balsam. Since last May I have bought and taken about twenty bottles of the Lung Balsam for a disease of long standing of three years standing. Before that time I had bought and used nearly every lung remedy recommended, and your Lung Balsam is the only thing that has given me permanent relief. I believe that it saved my life last spring when I commenced its use. I do not expect anything will cure me entirely, but the balsam keeps me up so that I can attend to business. It gives me immediate relief and I am greatly improved in general health.

I remain gratefully yours,
D. D. POOL.

What better proof of a good remedy for Consumption do you want?

HAYES' STATION, Ala., April 7, 1873.

Messrs. J. N. HARRIS & Co.,

Gents—I take great pleasure in writing you to say that I received the Allen's Lung Balsam. I used it according to directions, and it has done me great good. It is the best medicine I ever used for colds and coughs, and I know if I follow the directions it will cure my consumption.

With these few remarks, I remain yours truly,
WATSON GRAVES.

The Long Balsam never fails to do good for those afflicted with a cough.
It is harmless to the most delicate child.
It contains no opium in any form.
It is sold by medicine dealers generally.

CAUTION.

Be not deceived. Call for ALLEN'S LUNG BALSAM, and take no other.
Directions accompany each bottle.

J. N. HARRIS & CO., Cincinnati,
Proprietors.

Sold by all medicine dealers.

"I WISH I was dead!" is an expression not unfrequently made use of by the dyspeptic and sufferer from liver disease, the depressed spirits inflicting the mind for anything, and almost driving him to despair. But be of good cheer, there is life and health for you yet, so those who have taken Simmons' Liver Regulator attest. It regulates the liver, dispels despondency, and restores health.

ALL articles we think that are packed and sold *Full Weight* should have the patronage of consumers, also of dealers. We are glad to notice in the article of SOAP that PROCTER & GAMBLE'S EXTRA OLIVE SOAP is always packed actual weight.

THERE is no disease flesh is heir to more troublesome to manage than rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is Johnson's Anodyne Liniment.

TWO OR THREE [illegible] Sheridan's Cavalry Condition Powders will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

FOR FARMERS.—"Wealth and Wonders of the Boundless West." It is new, and having a wonderful sale. Advertised in this paper.

Go to Hamilton (Ill.) "Water Cure." No drugs. Fifteen miles river view. Photo. 10c.

PEERLESS CLOTHES WRINGER

Natural Decay—Protect the System.

The human body is a machine, and therefore cannot endure forever; but, like a watch or a sewing machine, it will last much longer if properly [illegible] and duly repaired, than if no pains were taken to keep it in order. The great object of every one who desires a long and healthy life should be to put his body in a condition to resist those destroying influences by which we are all more or less surrounded; and no invigorant and [illegible] is known so effectively answers his purpose as the vitalizing elixir which under the [illegible] name of Hostetter's Stomach Bitters, has been for more than twenty years the pride and boast of America. It [illegible] the atmospheric [illegible] which [illegible] fevers, [illegible] in a [illegible] population, but [illegible] in the prairies and on the forests, where every fall the air is most [illegible] with exhalations from rotting weeds and trees or decaying [illegible] in short, in every locality where malaria exists, this powerful vegetable [illegible] is especially needed. Fever and ague, bilious fevers, dysentery, [illegible] of the liver, [illegible], rheumatism, and all diseases which are generated by [illegible] impure water, or sudden changes of temperature, may be avoided by a free use of this invigorant, as it fortifies the system in all cases with Hostetter's Bitters. An [illegible] is as much [illegible] as a man of [illegible] strength, so [illegible] organizations. Even the more vigorous are apt to feel in some measure the depressing influences of the [illegible] atmosphere, loaded with the [illegible] produced by vegetable decay. This is a period of the year when the remarkable invigoration of the living [illegible] is peculiarly important, and the bitters should therefore be taken during this critical season.

BEST AND MOST FAMILY MEDICINE.—Moffett's Lion Vegetable, a purely vegetable Cathartic and Tonic for dyspepsia, constipation, costiveness, sick headache, bilious attacks, and all derangements of liver, stomach and bowels. Ask your druggist for it. Beware of imitations.

TO LET a cold hang from way into a settled cough is to sound the death knell of consumption. To cure the most stubborn cough or cold, you have only to use Dr. Jayne's Expectorant.

IF YOU have chills, periodic headache, or any bad feeling caused by malaria, Shallenberger's Pills will remove the trouble at once. They are an antidote.

THE HOUSEHOLD PANACEA, AND FAMILY LINIMENT

is the best remedy in the world for the following complaints, viz.: Cramps in the limbs and stomach, pain in the stomach, bowels or side, rheumatism in all its forms, bilious colic, neuralgia, cholera, dysentery, colds, flesh wounds, burns, sore throat, spinal complaints, sprains and bruises, chills and fever. For internal and external use.

Its operation is not only to relieve the patient but entirely removes the cause of the complaint. It penetrates and pervades the whole system, restoring healthy action to all its parts, and quickening the blood.

The Household Panacea is purely Vegetable and all healing.

Prepared by CURTIS & BROWN,
No. 215 Fulton street, New York.
For sale by all druggists.

CHILDREN OFTEN LOOK PALE AND SICK

from no other cause than having worms in the stomach.

BROWN'S VERMIFUGE COMFITS

will destroy worms without injury to the most tender being perfectly WHITE and free from mercury or other injurious ingredients usually used in worm preparations.

CURTIS & BROWN, Proprietors,
No. 215 Fulton street, New York.

Sold by druggists and chemists, and dealers in medicine at TWENTY-FIVE CENTS A BOX.

THIRTY YEARS' EXPERIENCE OF AN OLD NURSE.

Mrs. Winslow's Soothing Syrup is the prescription of one of the best female physicians and nurses in the United States, and has been used for thirty years with never failing safety and success by millions of mothers and children from the feeble infant of one week old to the adult. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it to be the best and surest remedy in the world in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS is on the outside wrapper.

Sold by all medicine dealers.

VINEGAR BITTERS

VEGETABLE — FREE FROM ALCOHOL — PURELY — DR. WALKER'S CALIFORNIA — EUREKA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and many other parts so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored vitiated matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No pestilence can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

STORMING THE CITADEL.

A skillful general, at the head of an army, desiring to capture a strong fortlay siege to the same and starts his sappers and miners to work throwing up earthworks, and in this way by gradual approaches compels the stronghold to surrender. The approach of disease upon the system may be thus illustrated. It is seldom that a serious malady attack the victims without warning the system of approaching danger. Feelings of languor, loss of appetite, pain in the head, dizziness, and various other symptoms, are warnings that some one of more organs are out of order and need attention or dangerous sickness will be the result. It is in such instances that the genuine OLD SOUTH OLDSTYLE BITTERS as proven itself a heavy as the greatest disease destroying agent of the age. Its regulating qualities have made it before the liver active, its action removing all biliousness, increasing digestion and purifying the blood, while, as a vegetable tonic, it gives strength and vigor to the entire system, thus preventing the encroaching of diseases. As an invigorating tonic for debilitated ladies or old people, the OLD SOUTH OLDSTYLE BITTERS is no equal.

Dr. Smith's Golden Liniment never fails to cure diarrhea, cramp colic, and summer complaint. Address, UNION MEDICINE CO., 6 and 8 North second street, St. Louis, Mo.

CINCHO-QUININE

is as effectual a remedy

FOR FEVER & AGUE

as the Sulphate in the same doses, while it *affects the head less*, is more palatable and *much cheaper*.

TRADE MARK

CONSUMPTION

And Its Cure.

WILLSON'S

Carbolated Cod Liver Oil

Is a scientific combination of two well-known medicines. Its theory is first to arrest the decay, then build up the system. Physicians find the desired result in every case. The really startling cures performed by Willson's Oil are proof.

Carbolic Acid positively arrests Decay. It is the most powerful antiseptic in the known world. Entering into the circulation, it of course empowers with corruption, and decay ceases. It purifies the sources of disease.

Cod Liver Oil is Nature's best restorative in resisting Consumption.

Put up in large wedge-shaped bottles, bearing the inventor's signature, and is sold by the best Druggists. Prepared by

J. B. WILLSON, 43 John St., New York.
