THE AMERICAN HOME

WILLIAM A. RADFORD EDITOR

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper.

The one subject on the mind of everyone these days is the high cost of living, and that leads us to remark that there are singular ideas current on the subject of the cost of home building.

The clamor for small homes of moderate cost, yet equipped with every modern attraction and convenience, will not down. It is a delusion quite as widespread as the former notion that the earth was flat.

The trouble with the small, cheap, but very attractive house proposition is the fact that the conditions under which houses are built are not understood or appreciated.

do not enter into the architect's charges. There is the land, for the first thing, the bare price of which may be a considerable item, while the cost of beautifying it may be considerable.

One does not need costly embellishment, as it were, around the house to beautify it and adorn it. This is inherently so.

PRESIDENT WILSON'S ATTITUDE TOWARD HIS CLUB MEMBERSHIPS

Chief Executive Not a Clubman in the Popular Acceptance of the Word, Yet He Finds Time for Enjoying Golf—Is Member of Many Noted Organizations In and About the Nation's Capital.

Washington.—Addison once said that all celebrated clubs were founded upon eating and drinking, points upon which all men agree, and in which the learned and the illiterate, the dull and the airy, the philosopher and the buffoon, can bear a part.

President Woodrow Wilson.

At the Washington Suburban club, the president is particularly fond of the course. He especially likes the fifth hole, situated in a sandy knoll, because it is so difficult to negotiate.

He seems to regard clubs as institutions of mere convenience and as such he uses the various organizations in different parts of the country to which he belongs.

The president has never yet entered the club house, even for a shower bath. At first, when he started in to use this course, he would cut off and play only half way around, but now he negotiates 18 holes, and his game is gradually improving.

Chevy Chase club, just beyond the border of the capital, is the mecca for all of Washington's prominent folk. Its membership list is bulging with the names of notables from all over the world.

The Washington Country club is situated farther from town than either of these other two. Five miles from the heart of the city and across the river, it lies off the road leading to Great Falls.

has joined the Cosmos and University clubs. He is also a member of the National Press club, having joined some years back.

The University club, of the capital, is a comparatively young institution, having been founded only about ten years ago. William Howard Taft was its first president.

The building occupied by the Cosmos club has figured prominently in the annals of early American history. Mrs. "Dolly" Madison lived in it from 1837 to 1849.

Mr. Wilson joined the National Press club a year before he was nominated as president of the United States. He was proposed for membership by Thomas Nelson Page, and was listed as an author of Trenton, N. J.

HOME TOWN HELPS CHANGE WROUGHT BY GARDEN

Experiment by Mine Official Demonstrates How Much Good There is in Beautiful Surroundings.

Grace Tabor, one of the department editors of the House and Garden, says that there is an intimate connection between a man and his garden.

In one of the American trade publications there recently appeared a story told by the general manager of a coal mining corporation at Weyanoke, W. Va.—a settlement in the district sorely afflicted with industrial conflicts.

At first the miners viewed the proposal with suspicion. One or two won the prizes. The next year the change was remarkable. Out of 225 men employed at the camp all the heads of families had started gardens.

and studying. So he has never had the leisure which men of less significant pursuits find upon their hands in which to cultivate a taste for the social intercourse provided by modern club life.

However, he does not shun clubs; he accepts membership in them, if he chooses, and avails himself of the privileges they extend when he so desires.

A member of four of these clubs, the Chevy Chase, the Washington Country, the Washington Suburban and the Columbia, he has been active in his membership in only the latter three.

One of his favorites, the Columbia Country club, is only a few years old. Near Chevy Chase lake, and covering 128 acres of beautiful rolling country, skirted with thick woodlands, it is one of the best equipped country clubs in America.

MUST LOOK TO THE FUTURE

New Law in Massachusetts Makes the Proper Planning of All Towns Compulsory.

The last legislature of Massachusetts, by two brief acts, made city planning compulsory for every town of more than 10,000 population and for every city.

Under the law the first task given the local boards is to make a comprehensive study of the resources, possibilities and needs of the community.
