If so, Peruna will help you to the relief so perfect health. If you want to be convinced, try the article. The further expense will be accidental.

Coughs Colds Catarrh

PERUNA TONIC

Sounded, but Not Carried.

The prosecuting attorney had low a merry acquaintance of his who lived at Dwight was detained to defend a colored man accused of disposing with the body of a colored cleaning woman. The outlook for the defendant was rather black. At the close the attorney for the defense arose as soon as the charge had been read, and said:

"Your honor, I move that the indictment be dismissed."

Before he could proceed further the client was on his feet, too, addressing the bench without a trace of embarrassment.

"Your honah," said the defendant briefly, "I seconds dat motion."—Saturday Evening Post.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother dutifully gave—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old type of physic simply don't realize what they do. The children's revolt is well-founded. They tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy. They know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Appropriate Action.

"I see where the man who was suspended dallies his superior."

"Yes, he is still hanging on."

Not Gray Hairs but Tired Eyes

make us look older than we are. Keep your Eyes young and you will look young. After the Movies Murine Your Eyes. Don't tell your age. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

The man who talks loudest on a street corner is apt to be dumb as an oyster when at home.

Usually when a woman disapproves of her daughter's husband the honors are even.

Why That Lame Back?

Morning lameness, sharp twinges when bending, or an all-day backache, each is cause enough to suspect kidney trouble. Get after the cause. Help the kidneys. We Americans go it too hard. We overdo, overeat and neglect our sleep and exercise and so we are fast becoming a nation of kidney sufferers. 72% more deaths than in 1890 is the 1910 census story. Use Doan's Kidney Pills. Thousands recommend them.

A Texas Case

A. H. Johnson, Hos. ... "I felt a dull ache in my back and I had to give up. The kidney secretions passed too frequently and scalding. Three boxes of Doan's Kidney Pills put my kidneys in good shape and for the past several years I have had no further need of a kidney medicine."

ORCHARD TOPICS

GOOD HINTS ON STRAWBERRY

How Profitable Varieties Are Those Not Influenced by Differences in Soil and Climate.

Professor Lawson, when the Delaware experiment station, pleaded to be kept in mind.

The great profitable varieties for the commercial grower are those not so influenced by differences of soil and climate. Those which succeed well in each area are usually better than those which have a more local reputation.

Varieties varieties which properly fertilized are more productive than the earth will permit flowers.

The value of a variety for fertilizer purposes flowers does not depend so much upon the amount as upon the percent of the pistil.

The flowers of pistillate varieties are less liable to be injured by frost than the flowers of perfect varieties.

Varieties that are better rooted are not very late in point of maturity are the most productive and have the longest fruiting season.

As a rule, varieties that have the most vigorous and healthy foliage are the most productive, while those with a weaker growth of foliage and a greater susceptibility to leaf blight are usually more prolific.

Winter protection may be dispensed with upon well-drained sandy soils, but appears to be a necessity upon heavier ones.

Hedgerow System Permits Plenty of Sunlight to Get at the Plants.

HOW TO MAKE GRAFTING WAX

Rosin, Beeswax and Tallow Are Necessary Three Ingredients—Should Be Melted Slowly.

There are three ingredients to the best grafting wax for use in out-door work: rosin, beeswax and tallow. The proportions (by weight) are rosin four parts, beeswax two parts, tallow one part; in all, seven ounces or pounds. They are to be melted slowly, in an iron vessel, putting in the rosin ten minutes or so before the beeswax and tallow. Then all will mixed together by stirring and careful stirring.

When thoroughly mixed (in twenty or thirty minutes) a convenient portion is poured into a bucket containing cold water. In a short time—rather less than a minute—it will be cool enough to be lifted out by the hands and pulled like taffy. The hands, of course, must have been greased with tallow to prevent sticking. When it becomes light yellow by pulling it is ready to be made into short rolls three or four inches long and an inch thick, and placed in another vessel of cold water to harden.

Additional portions of the melted wax can be put through the same operation until all is used up. The sticks, when sufficiently hardened, can be put away until required in grafting. This wax will not crack on the grafts, nor will it melt and run down in the hot sunshine. In using it, if the weather is cool, it will need to be in water that is moderately warm. In warm weather, cool water may be necessary. In lifting it out of the water it will be best to shake off as much of the moisture as possible.

BEST SOIL FOR BUSH FRUITS

Prepare Holes Large Enough in Planting That Roots May Spread Out Without Cramping.

Have the soil deeply plowed or spaded and prepare it as soon as the plants are ordered. Have the holes large enough so the roots may be well spread out without any cramping or twisting.

If there should be any delay between time of receiving plants and putting them out, bury the roots in moist soil—the heeling-in process.

Remember that if these bushes and plants are to make any returns the ground must be kept well cultivated and moist and fertilized, and the bushes themselves be yearly pruned; after the first year this pruning should be rather severe.

INDIGESTION, GAS OR SICK STOMACH

Turn it! Pape's Diapepsin ends all Stomach misery in five minutes.

Do some foods you eat disagree—leave gas, sour and acid, heartburn and indigestion, bloat and cause a dull, dizzy, sick headache? Now, for a few cents, Pape's Diapepsin ends all stomach misery in five minutes.

Do you belch up undigested food and sour stomach gases? Do you have heartburn, dizziness, nausea, bloating, fullness and indigestion?
